Management Discussion and Analysis Report

Cautionary Statement

The management Discussion and Analysis Report may contain certain statements that might be considered forward looking. These statements are subject to certain risks and uncertainties. Actual results may differ materially from those expressed in the statement as important factors could influence Company's operations such as Government policies, economic development, political factors and such other factors beyond the control of the Company. The Company assumes no responsibility to publicly amend any forward-looking statements, on the basis of any subsequent developments, information or events.

Overview

The most modernized plant for the manufacturing of Vanaspati & Refined oil was established in the year 1993 with the STATE OF- THE ART technology of Alfa Level and market trends, the company has never let go of an opportunity to expand and modernize, to Thermos, esteemed and renowned suppliers of process plants. With changing technologies and keep up with competition and add new products, such as bakery/ biscuit/ puff products. Quality control norms are religiously followed at the unit to cater to a wide variety of the customers. With a full-fledged quality control laboratory for testing facility, analysis of all incoming materials, intermediate process quality parameters & finished products are smoothly done by a team of qualified and experienced technologists/chemists.

Superior procurement and trading skills, continuous innovation, an endeavor to meet consumer needs and stringent quality control standards have enabled AJANTA to emerge as a highly-respected and admired Edible Oil company.

Company is also investing continuously towards energy saving by adopting appropriate technologies as a measure to contribute to reduction in industrial pollution.

Industry Structure, Developments and Industrial Outlook

Indian Edible oil Industry has witnessed financial stress due to droughts, rising production costs and cheaper imports thus forcing several small firms to shut shop. India imports nearly 67% of its edible oil requirements; the rest is being met from domestic production. Area expansion under palm oil fell by over 50% over the last couple of years due to low prices of crude palm oil and poor rainfall. Though the duty differential between crude and refined palm oil is 7.5%, edible oil sellers are finding it more convenient to import refined palm oil directly from Malaysia and Indonesia and sell it in the domestic market thus placing the edible oil processing units to operate at hair line margins or in worst case scenario wherein the units are small the operations have become unavailable. The performance of the companies in edible oil sector for medium term period will depend upon the demand of CPO in India post recent increase in import duties on refined edible oils, movement of domestic edible oil prices, performance of Indian Rupee against US Dollar, anticipated sales volumes and profitability margins from the specialty fats business with comprehensive product range including bakery shortening's, chocolate & confectionary fats, ice cream fats and a range of cooking oils.

During the year under review, the international economic situations coupled with fall in commodity prices have impacted domestic business sentiments considerably. The landed import prices of vegetable oils in India also moved downward in line with the fall in international prices. Low energy prices and international market scenario also had a cascading impact on all the other products : Crude palm oil by 23%, Crude Soyabean oil by 10%, while Indian Rupee (with reference to USD) by 7%. The steep fall in commodity prices has, however, caused increase in consumption of imported products and also led to intense competition on the domestic exportable products and thereby entailed severe pressure on margins.

The long-term outlook of edible oil demand in India is favorable on expectation of increasing population, increase in per capita consumption which in turn would be driven by changing lifestyles, growing urbanization, increasing proportion of middle-class population and steadily rising affluence levels. The near-term outlook for the edible oil companies is expected to be stable on steady edible oil domestic demand and improvement in operating margin due to increasing refining operation.

Your Company's performance for the year 2015-16 may be viewed in the context of the above mentioned economic/ market environment.

Opportunities and Threats

The new age Indian consumer, the organized retail potential which is creating the huge consumption opportunity is by far the biggest Opportunity for companies like us. With the aspirational and rich class in India having a better penetration, our brand led growth will help the company in both the immediate and long run. Also, with the rural India being revisited by marketers through the modern retail (haat) philosophy, the opportunity is huge.

India is also seeing a great increase in life style led diseases like heart ailments and cardio vascular illness which is said to rise much higher than other nations; this creates a potential for healthy edible oil. Competition from Indian and global players remain a matter of concern and probable threat; while the company is well prepared to tackle such issues on an ongoing basis.

The continuing digitization of today's world presents both an opportunity and a threat. An opportunity because it enables the Company to communicate with and deliver to consumers in a far more focused manner than was possible in the pre-digital age. However, it is also a threat because it enables smaller competitors to reach out to consumers in a manner not possible in the pre-digital age because of the high costs of legacy distribution systems.

Risks and Concerns

Key risks for the edible oils sector include risks from change in import-export regulations; change in the minimum support price (MSP) on oilseeds offered by the government; high dependence on monsoons and finally, the risk arising out of exchange rate fluctuations. Procurement of oilseeds at the right price and quantity, optimum utilization of processing units, their strategic location, a strong brand name and diversification of product offerings are likely to be the key success determinants for players.

The policies announced by the Government have been progressive and are expected to remain likewise in future, and have generally taken an equitable view towards various stake holders, including domestic farmers, industry, consumers etc.

Your Company continues to place a strong emphasis on the risk management and has successfully introduced and adopted various measures for hedging the price fluctuations in order to minimize its impact on profitability. Also, your Company has initiated setting-up of a framework to upgrade itself to a robust risk management system. Further Your Company is well geared with multi-processing capabilities to cater to the variances and changing consumer preferences.

Annexure - B to the Independent Auditors' Report

To the Members of Ajanta Soya Limited

for the year ended March 31, 2016

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Ajanta Soya Limited ("the Company") as of March 31, 2016, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies,

the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
