A structured questionnaire has been prepared, covering various aspects of the functioning of the Board and its Committee, such as, adequacy of the constitution and composition of the Board and its Committees, matters addressed in the Board and Committee meetings, processes followed at the meeting, Board's focus, regulatory compliances and Corporate Governance, etc. Similarly, for evaluation of Individual Director's performance, the questionnaire covers various aspects like his/her profile, contribution in Board and Committee meetings, execution and performance of specific duties, obligations, regulatory compliances and governance, etc.

Board members had submitted their response on a scale of 5 (excellent) – 1 (poor) for evaluating the entire Board, respective Committees of which they are members and of their peer Board members, including Chairman of the Board.

The Independent Directors had met separately without the presence of Non-Independent Directors and the members of management and discussed, inter-alia, the performance of non-Independent Directors and Board as a whole and the performance of the Chairman of the Company after taking into consideration the views of executive and Non-Executive Directors.

As part of the evaluation process, the performance of Non-Independent Directors, the Chairman and the Board was conducted by the Independent Directors. The performance evaluation of the respective Committees and that of Independent and Non-Independent Directors was done by the Board excluding the Director being evaluated.

The performance evaluation of all the Independent Directors have been done by the entire Board, excluding the Director being evaluated. On the basis of performance evaluation done by the Board, it shall be determined whether to extend or continue their term of appointment, whenever the respective term expires. The Directors expressed their satisfaction with the evaluation process.

INDUSTRY STRUCTURE, DEVELOPMENTS AND INDUSTRIAL OUTLOOK

The COVID-19 pandemic is likely to have a major negative impact across the world. It has led to quarantines, regional lockdowns and social distancing—which are essential to contain the virus—with particularly acute effects on sectors that rely on social interactions such as travel, hospitality, entertainment, and tourism. Workplace closures are disrupting supply chains and reducing productivity. Layoffs, lower incomes, fear of contagion, and heightened uncertainty make people spend less, leading to consumption squeeze and triggering further business closures and job losses. Health care expenditure, support to vulnerable sections of society and reduced tax revenue is likely to put severe pressure on fiscal balances of the government.

The global economy reported degrowth of 3.5% in 2020 compared to a growth of 2.9% in 2019, the sharpest contraction since World War II. This steep decline in global economic growth was largely due to the outbreak of the novel coronavirus and the consequent suspension of economic activities across the world. This led to global supply chain disruptions, resulting in a de-growth in some of the largest global economies. Consequently, global FDI reported a significant decline from USD 1.5 Tn in 2019 to USD 859 Bn in 2020, the lowest since the 1990s and more than 30% below the investment trough that followed the 2008-09 global financial meltdown.

The Indian economy passed through one of the volatile periods in living memory in 2020- 21. At the start of 2020, India was among five largest global economies; its economic growth rate was the fastest among major economies (save China); its market size at 1.38 bn was the second largest in the world; its rural population of the under consumed was the largest in the world. The Indian government announced a complete lockdown in public movement and economic activity from the fourth week of March 2020. As economic activity came to a grinding halt, the lockdown had a devastating impact on an already-slumping economy as 1.38 Bn Indians were required to stay indoors - one of the most stringent lockdowns enforced in the world. The outbreak of the novel coronavirus and the consequent suspension of economic activities due to the pandemic-induced lockdown, coupled with muted consumer sentiment and investments, had a severe impact on the Indian economy during the first quarter of the year under review. The Indian economy degrew 23.9% in the first quarter of 2020-21, the sharpest de-growth experienced by the country since the index was prepared. The Indian and state governments selectively lifted controls on movement, public gatherings and events from June 2020 onwards, each stage of lockdown relaxation linked to corresponding economic recovery. Interestingly, as controls relaxed what the country observed was a new normal: individuals were encouraged to work from home; inter-city business travel was replaced by virtual engagement; a greater premium was placed on the ownership of personal mobility modes (cars and two-wheelers); there was a sharp increase in home purchase following the need to accommodate an additional room for home working. The result is that India's relief consumption, following the lifting of social distancing controls, translated into a full-blown economic recovery. A number of sectors in India – real estate, steel, cement, home building products and consumer durables, among others - reported unprecedented growth. India de-grew at a relatively improved 7.5% in the July-September quarter and reported 0.4% growth in the October-December quarter and a 1.6 % growth in the last quarter of the year under review. The result is that India's GDP contracted 7.3 % during 2020- 21, largely on account of the sharp depreciation of the first two quarters. This sharp Indian recovery – one of the most decisive among major economies – validated India's robust long term consumption potential.

The edible oil industry worldwide is in good health as the rising population, disposable income and increasing demand has made sure that edible and cooking oil industry continue to perform efficiently and operate for a long time in the future. The global edible oil industry produces, imports and exports throughout the year and the major consumer countries rely heavily on their domestic production and imports. India is one of the largest producers and exporters of the edible oil across the continent and the world. The climatic conditions in India favor growing a variety of seeds from which oil can be extracted, they are called oil seeds. The growing population and the varied dietary habits of different and diverse demographics have ensured a thriving market for edible oil industry in the country and in Asia.

Edible oil constitutes an important component of food expenditure in Indian households. The edible oil industry is one of the most important within the agriculture sector in India, the world's largest importer from Indonesia and Malaysia and the third largest consumer. India is also the fourth largest oil seed-producing country in the world after USA, China and Brazil.

The growth of edible oil consumption and increasing population coupled with limited availability of oil seeds and shifting of acreage to other crops have resulted in continuous demand-supply gaps for edible oil, which is being met by imports.

Because of current stagnant domestic vegetable oil supplies, vegetable oil import volumes will continue to fill the majority of the supply-and demand gap over the next decade. However, vegetable oil consumption growth has been putting a lot of pressure on India's trade balance and budget due to the high dependence on imports. The Indian government might need to step up its efforts to increase domestic oilseed production or pursue other options in order to cater to the country's rising vegetable oil demand. The favourable consumer dynamics of Indian market like rising disposable incomes, escalating population, urbanization and fast growing health consciousness among Indian population has kept the industry at high pedestrian. All these factors will be the growth benefactors of edible oils in the near future. Also, although Indian per capita consumption of edible oils is on the rise, yet we still lag behind the developed nations of the world which construes as a massive opportunity for edible oil players

The outlook for the country appears to be positive across the medium-term after Indian has successfully countered the pandemic, resulting in a revival of consumer demand. The Indian economy is expected to grow in the high single digits during the year under review as per advance estimates.

Your Company's performance for the year 2020-21 may be viewed in the context of the above mentioned economic/market environment.

Opportunities and Threats

The continued growth of the Indian Foods marketer presents an enormous opportunity for a steady growth in Revenues and Profits for companies like us. Also, with the rural India being revisited by marketers through the modern retail (haat) philosophy, the opportunity is huge.

Increasing income, urbanisation, changing food habits and deeper penetration of processed foods will be key drivers of future consumption growth of edible oil in the country.

India is also seeing a great increase in life style led diseases like heart ailments and cardio vascular illness which is said to rise much higher than other nations; this creates a potential for healthy edible oil. Competition from Indian and global players remain a matter of concern and probable threat; while the company is well prepared to tackle such issues on an ongoing basis.

Demand for edible oils in the domestic market is great and one of the trends emerging in the market that will have a positive impact on the growth of the market up to pre-Covid -19 pandemic. But the Covid-19 Pandemic have influenced negatively on the consumption of Edible oils. Fluctuating price of raw material, restrictions on exports and imports imposed due to Covid-19 restrictions and guidelines imposed by WTO are the major challenges in the market. The fluctuation in the price is also due to various reasons such as environmental factors, crop diseases, and others. A fluctuation in the price of raw materials may have an adverse impact on the growth of the market during the forecast period.

The continuing digitization of today's world presents both an opportunity and a threat. An opportunity because it enables the Company to communicate with and deliver to consumers in a far more focused manner than was possible in the pre-digital age. However, it is also a threat because it enables smaller competitors to reach out to consumers in a manner not possible in the pre-digital age because of the high costs of legacy distribution systems.

The consistent rise in import of edible oil to bridge the demand–supply gap impacts the trade imbalance and results in significant outflow of foreign exchange. There is strong need to improve the production and productivity of domestic oil seed sector and promote domestic supply of edible oil to address the growing the demand –supply gap imbalance.

The Direct risks are from the monsoon outlook, domestic and international production figures of mustered seeds, soyabean crop, palm oil and the government policies affecting rate of interest and duties applicable on the traded commodities.

Fluctuating price of raw material is one of the major challenges in the market. The fluctuation in the price is due to various reasons such as environmental factors, crop diseases, and others. A fluctuation in the price of raw materials may have an adverse impact on the growth of the market during the forecast period. However, the deficit between production and consumption of edible oils is increasing rapidly, even after importing millions of tons of oil creating more demand for the edible oil.

Risks and Concerns

COVID-19 continues to affect our people and our business. It emerged as an unexpected and unprecedented risk in 2020-21.

Your Company is exposed to commodity price fluctuations in its business the edible oil prices in India are directly correlated to international oil price movements and currency movements that make profitability vulnerable to unexpected fluctuations.

Risks are an integral part of any business environment and it is essential that we create structures and processes that are capable of identifying and effectively mitigating them. For us, the risks are multi-dimensional and therefore we look at it in a holistic manner, straddling both, the external environment and the internal processes. These risks can be broadly classified into following categories: Strategic Risk, Compliance and Governance Risk, Financial Risk, Environmental Risk, Operational Risk and Social Risk.

Further, Key risks for the edible oils sector include risks from change in import-export regulations; change in the minimum support price (MSP) on oilseeds offered by the government; high dependence on monsoons and finally, the risk arising out of exchange rate fluctuations. Procurement of oilseeds at the right price and quantity, optimum utilization of processing units, their strategic location, a strong brand name and diversification of product offerings are likely to be the key success determinants for players.

Increase in the number of competing brands in the marketplace, counter campaigning and aggressive pricing by competitors have the potential to create a disruption.

Changing consumer preference and Demand can be adversely affected due to shift in consumer preferences, especially those induced by the pandemic. Given the potential of social media, the speed of such a shift could be unparalleled.

The key determinants of business risk profile of the company are their ability to overcome the regulatory risk and agro-climatic conditions. Other operational factors include operating efficiency, product diversity, market position, and ability to secure raw material as well as the commodity price.

The profitability of edible oil companies is significantly influenced by regulatory changes and remains highly susceptible to the changes in the duty differential between import duties on crude and refined oil by the Government of India (GOI). Also, the profitability of these companies depends on the changes in the export tax levied by exporting countries, mainly Indonesia and Malaysia (that account for most of palm oil imports).

Your Company continues to place a strong emphasis on the risk management and has successfully introduced and adopted various measures for hedging the price fluctuations in order to minimize its impact on profitability. Also, your Company has initiated setting-up of a framework to upgrade itself to a robust risk management system. Further Your Company is well geared with multi-processing capabilities to cater to the variances and changing consumer preferences.

Thus, your Directors are optimistic in utilizing the production capacities and to overcome the post COVID-19 pandemic, to ensure better working results in the ensuing years.

INDEPENDENT AUDITORS' REPORT

**TO THE MEMBERS OF AJANTA SOYA LIMITED
REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST MARCH 2021**

1. We have audited the accompanying Ind AS financial statements of Ajanta Soya Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2021, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl. No.	Key Audit Matter	Auditor's Response
1.	<p>Revenue Recognition</p> <p>Revenue is recognised when the significant risk and rewards of the ownership have been transferred to the buyer and recovery of consideration is probable, the associated cost and possible return of goods can be measured reliably, there is no continuing effective control/managerial involvement in respect of the goods, and the amount of revenue can be measured reliably. The timing of the transfer of control varies depending on the individual terms of the sale.</p> <p>Revenue from sale of goods in the course of ordinary activities is measured at the Fair Value of the consideration received or receivables net of returns, trade discount, and taxes and duties on behalf of government. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur.</p> <p>There is a risk of revenue being overstated due to fraud, including through manipulation of rebates and discounts, resulting from pressure the management may feel to achieve performance targets at the reporting period end.</p>	<p>Principal Audit Procedure</p> <ul style="list-style-type: none"> • We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards. • We tested the design, implementation and operating effectiveness of the managements system of IT Controls and key application controls and interfaces between the system control and key manual internal controls over the revenue recognition to assess the completeness of the revenue entries being recorded in the general accounting system. • We performed substantive testing by selecting the samples, Key parties were taken care of while selecting the sample, by verifying the underlying documents, which included purchaseorder/bargain, management's control over dispatch of goods,delivery challan and the recovery of consideration within the credit limit as per the terms of the contract. • We performed substantive testing by selecting samples of rebate and discount transactions recorded during the year and comparing with the terms and conditions defined in the customer contract. • We performed cut-off testing for samples of revenue transactions recorded before and after the financial year end date by comparing with relevant underlying documentation, which included goods dispatch notes to assess whether the revenue is recognized as per policy. • Reviewed the disclosures included in the notes to the accompanying financial statements.

Sr. No.	Key Audit Matter	Auditor's Response
2.	<p>Provision for taxation, litigation and other significant provisions & contingencies</p> <p>Accrual for tax and other contingencies requires the management to make judgements and estimates in relation to the issues and exposures arising from a range of matters relating to direct / indirect tax, claims, general legal proceedings and other eventualities arising in the regular course of business.</p> <p>The key judgement lies in the estimation of provisions where they may differ from the future obligations. By nature, provision is difficult to estimate and includes many variables. Additionally, depending on timing, there is a risk that costs could be provided inappropriately that are not yet committed.</p> <p>Refer Note No. 31(I) to the financial statement.</p>	<p>Principal Audit Procedure</p> <ul style="list-style-type: none"> We tested the effectiveness of controls around recording and re-assessment/ review of the contingent liabilities. We used our professional judgement and experience to assess the value of material contingent liabilities in light of the nature of exposures, applicable regulations and related correspondence with the authorities. We discussed the status and potential exposures in respect of significant litigation and claims with the company's management including their views on the likely outcome of each litigation and claim and the magnitude of potential exposure. and sighted any relevant opinions given by the advisors. We assessed the adequacy of disclosures made. We performed retrospective review of management judgements relating to accounting estimate included in the financial statement of prior year and compared with the outcome.

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and statement of changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility

7. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
8. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - e. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
9. Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
12. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

13. As required by Section 143 (3) of the Act, based on our audit, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the Statement of Changes in equity dealt with by this Report are in agreement with the relevant books of account.

- d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - e) On the basis of the written representations received from the directors of the Company as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in **Annexure "A"**. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) In our opinion, the managerial remuneration for the year ended March 31, 2021 has been paid/provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements—Refer Note No. 31;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses during the year ended 31st March 2021;
 - iii. There were no amounts required to be transferred to the Investor Education and Protection Fund by the Company during the year ended on 31st March 2021.
14. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act ("the Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the **Annexure "B"**, a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A"

TO THE INDEPENDENT AUDITOR'S REPORT

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

[Referred to in paragraph 13(f) of the Independent Auditors' Report of even date to the members of Ajanta Soya Limited on the Ind AS financial statements for the year ended 31st March, 2021]

1. We have audited the internal financial controls over financial reporting of Ajanta Soya Limited ("the Company") as of 31st March, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:
 - (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
 - (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE “B”

TO THE INDEPENDENT AUDITOR'S REPORT

REPORT UNDER THE COMPANIES (AUDITORS REPORT) ORDER 2016 (CARO)

*[Referred to in paragraph 14 of the Independent Auditors' Report of even date to the members of **Ajanta Soya Limited** on the Ind AS financial statements for the year ended 31st March, 2021]*

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation of fixed assets(property, plant and equipment).
- (b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified in a phased manner over a period of three years. In accordance with that plan, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the company and nature of its fixed assets.
- (c) The title deeds of immovable properties, as disclosed in Note 2 property plant & equipment to the financial statements, are held in the name of the Company.
- ii. The physical verification of inventory (excluding stocks in transit) has been conducted at year end by the Management. In respect of stock in transit, these have substantially been confirmed and reconciled by the company. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under Section 189 of the Act.
- iv. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees and security provided by it.
- v. The Company has not accepted any deposits from public.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the records of the Company and information and explanations given to us and the records of the Company examined by us, the Company has been regular in depositing the undisputed statutory dues including provident fund, employees state insurance, income tax, Investor education and protection fund, goods and service tax, sales tax, service tax, customs duty, excise duty, cess and other material statutory dues applicable to it with the appropriate authorities except aggregate demand of Rs. 2.45 lacs raised under Sales Tax for AY 2012-13, 2013-14, 2015-16 and 2016-17 which was outstanding for more than six months as at end of the year.
- (b) According to the information and explanations given to us and the records of the Company examined by us, the particulars of dues of Income Tax, goods and service tax, service tax, value added tax/ sales tax, entry tax, customs duty and excise duty as at 31st March, 2021 which have not been deposited on account of a dispute are as follows:

Name of the Statute	Nature of the Dues	Amount (₹ In lacs)	Amount deposited under protest (₹ In lacs)	Period to which the amount relates	Forum where dispute is pending
Central/State Sales Tax	Entry Tax	28.95	20.90	AY 2014-15	Rajasthan Tax Board, Ajmer
FSSAI	Penalty	4.00	2.00	FY 2018-19	Food Safety appellate tribunal
Custom Duty Act	Custom Duty	215.62	7.89	AY 2017-18	CESTAT-Delhi

- viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of loans or borrowings to any financial institution or bank or Government or dues to debenture holders as at the balance sheet date.
- ix. The Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments). Term loans have been applied for the purposes for which they were obtained.

- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.
- xi. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- xiv. During the period under review the company has not made any preferential allotment or private placement of shares or fully or partly paid convertible debentures and hence reporting under clause 3 (xiv) is not applicable to the company.
- xv. The Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.
- xvi. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

NOTES FORMING PART OF FINANCIAL STATEMENTS FOR THE YEAR ENDED ON 31.03.2021**1. SIGNIFICANT ACCOUNTING POLICIES****i) BASIS OF PREPARATION OF FINANCIAL STATEMENTS**

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 (the "Act"), read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other accounting principles generally accepted in India.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

The financial statements are prepared on the historical cost convention, except for certain financial instruments which are measured at fair value.

Functional and presentation currency

The management has determined the currency of the primary economic environment in which the company operates i.e., functional currency, to be Indian Rupee (INR). The financial statements are presented in Indian Rupee, which is company's functional and presentation currency.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted market prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

ii) CURRENT VERSUS NON CURRENT CLASSIFICATION

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or intended for sale or consumption in, the company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within twelve months after the reporting period; or
- it is cash or cash equivalent unless it restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non current assets

Liabilities

A Liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within twelve months after the reporting period; or
- the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non current assets.

Deferred tax liabilities and assets are classified as non current liabilities and assets.

iii) **USE OF ESTIMATES**

The preparation of financial statements in conformity with Ind AS requires management to make estimates and assumptions that affect the reported amounts of Revenue, Expenses, Assets and Liabilities and disclosure of contingent liabilities at the end of the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

iv) **REVENUE**

Effective April 1, 2018, the Company has applied Ind AS 115: Revenue from Contracts with Customers which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue. The impact of the adoption of the standard on the financial statements of the Company is insignificant.

Sale of goods

Revenue is recognised when the significant risk and rewards of the ownership have been transferred to the buyer, recovery of consideration is probable, the associated cost and possible return of goods can be measured reliably, there is no continuing effective control/managerial involvement in respect of the goods, and the amount of revenue can be measured reliably. The timing of the transfer of control varies depending on the individual terms of the sale.

Revenue from sale of goods in the course of ordinary activities is measured at the Fair Value of the consideration received or receivable net of returns, trade discount, and taxes and duties on behalf of government. Accumulated experience is used to estimate the provision for discounts and rebates, if any. Revenue is only recognized to the extent that it is highly probable a significant reversal will not occur.

Other Income

a) Dividend income is recognised when right to receive dividend is established.

b) Interest and other income are recognised on accrual basis on time proportion basis and measured at effective interest rate.

v) **EXCISE DUTY:**

Excise Duty has been accounted on the basis of both payments made in respect of goods cleared and also provision made for goods lying in factory premises. Cenvat credit is accounted on accrual basis on purchase of materials.

vi) **EMPLOYEES BENEFITS:**

i) Retirement benefits in the form of Provident fund and Family Pension fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss account of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective funds.

ii) Gratuity is a defined benefit obligation. Gratuity liability is accrued and provided for on the basis of an actuarial valuation on the projected unit credit method made at the end of the financial year.

iii) Long term compensated balances in the form of leave encashment are provided for based on actuarial valuation at the end of the financial year. The actuarial valuation is done as per projected unit credit method.

iv) Actuarial gains/losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

vii) **PROPERTY, PLANT AND EQUIPMENT**

Recognition and measurement

The cost of an item of property, plant and equipment is recognized as an asset if, and only if:

1. it is probable that future economic benefits associated with the item will flow to the entity; and
2. the cost of the item can be measured reliably.

Property, Plant and Equipments ('PPE') are measured at cost of acquisition or construction (which includes capitalised borrowing cost) including any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management less accumulated depreciation/amortisation (other than Leasehold Land where no amortization is made) and cumulative impairment losses & net of recoverable taxes.

The properties/assets, in respect of which beneficial transfer has been affected, even though pending execution/registration, are capitalised.

In case of PPE acquired out of capital grants/subsidy, the cost is reduced to the extent of capital grant/subsidy.

Subsequent Costs

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

An item of PPE is derecognized upon disposal or when no future economic benefits are expected to arise from continued use of the asset. Any gain or loss arising on the disposal or retirement of Property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognized in profit or loss.

Depreciation / amortization

- i) Depreciation on items of PPE is provided on straight line method in accordance with the useful life as specified in Schedule II to the Companies Act, 2013.
- ii) Depreciation on additions to assets or on sale/discard of assets is calculated pro-rata from the date of such addition or up to the date of such sale/ discardment.
- iii) No amounts are written off against Leasehold Land by way of amortization.
- iv) Assets residual values and useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period.

Intangible Assets

Recognition and measurement

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably. Intangible assets are recorded at the consideration paid for acquisition and are amortized over a period of five years from the date of aquisition.

Subsequent Costs

Subsequent cost is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure when incurred is recognised in statement of profit and loss. Intangible assets acquired separately are measured on initial recognition at cost. Subsequently intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is de-recognized.

Capital Work in Progress

The cost incurred on assets, which are not yet ready to use and capital inventory are disclosed under capital work-in-progress.

Expenditure incurred during the period of construction including all direct expenses (including finance cost) attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management is carried forward. On completion, the costs are allocable to the respective fixed assets. All costs attributable to respective assets are capitalized to the assets. Other expenses are capitalized to Plant and Machinery in proportion of the value of the assets.

viii) FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a Financial Asset

Initial Recognition and measurement

A financial asset is recognised in the balance sheet when the Company becomes party to the contractual provisions of the instrument. At initial recognition, the Company measures a financial asset (which are not measured at fair value through profit or loss) at its fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset.

Subsequent measurement

For purpose of subsequent measurement, financial assets are classified into:

1. Financial assets measured at amortised cost;
2. Financial assets measured at fair value through profit or loss (FVTPL); and
3. Financial assets measured at fair value through other comprehensive income (FVTOCI).

The Company classifies its financial assets in the above mentioned categories based on:

- A. The Company's business model for managing the financial assets, and
- B. The contractual cash flows characteristics of the financial asset.

A financial asset is measured at amortised cost if both of the following conditions are met:

- A. The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- B. The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- A. The financial asset is held within a business model whose objective is achieved by both collecting the contractual cash flows and selling financial assets and
- B. The asset's contractual cash flows represents SPPI.

A financial asset is measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income. In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

b Financial Liabilities

Initial Recognition and measurement

All financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. All financial liabilities are initially measured at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss, transaction costs that are attributable to the liability.

Classification and subsequent measurement

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the Statement of Profit and Loss.

Financial liabilities other than classified as FVTPL, are subsequently measured at amortised cost using the effective interest method. Interest expense are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in the Statement of Profit and Loss.

ix) INVESTMENTS

- (i) Investments in securities with intention to hold for long term, strategic investments and not held for sale are measured at FVTOCI and is charged/added to "Other Comprehensive Income". Fair Valuation of unlisted securities is determined based on recent available audited financial results and in case of listed securities the same is determined based on the prevailing market prices.
- (ii) Securities other than (i) above are measured at FVTPL and is charged/added to "Statement of Profit & Loss account".

x) VALUATION OF INVENTORIES

Particulars / Item Type	Method of Valuation
1. Raw Material, Packing Material & Consumables (including in transit)	At Cost
2. Finished Goods (including in transit)	At Cost or net realisable value, whichever is lower
3. Stock in process	At Cost
4. By Products	At net realisable value
5. Loose Tools	At cost and charged off when discarded
6. Shares / Securities (Quoted)	At fair value

The cost of inventories is determined using the FIFO and includes expenditure incurred in acquiring inventories, production or conversion and other costs incurred in bringing them to their respective present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of manufacturing & related establishment overheads, depreciation etc based on normal operating capacity. The comparison of cost and realisable value is made on an item by item basis.

Net realisable value is estimated selling price in the ordinary course of business, less estimated cost of completion and the estimated costs necessary to make the sale.

All the spares, which are primarily meant to be used for capitalization (except consumables and maintenance stores), are considered as part of the plant & machinery and shown accordingly.

xi) FOREIGN CURRENCY TRANSACTIONS
Transactions and balances

Foreign Currency transactions during the year are recorded at rates of exchange prevailing on the date of transaction in the functional currency. Foreign currency monetary assets and Liabilities are translated at using the year-end exchange rate. Exchange gains and losses are duly recognised in the Statement of profit and loss.

All monetary assets and liabilities in foreign currency are restated at the end of the accounting period.

The Company uses derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts to hedge its foreign currency risks, interest rate risks and commodity price risks respectively. Such derivative financial instruments are initially recognised at Fair Value on the date on which a derivative contract is entered into and are subsequently re-measured at Fair Value. Derivatives are carried as financial assets when the Fair Value is positive and as financial liabilities when the Fair Value is negative.

xii) TAXATION

Income tax expense comprises of current and deferred tax. Tax is recognised in statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or in the equity. In such cases, the tax is also recognised in the other comprehensive income or in equity.

(i) Current Tax

Provision for current Income Tax is made on the basis of estimated taxable income after taking into consideration, estimates of benefits admissible under the provisions of Income Tax, 1961.

Current tax assets and liabilities are offset only if, the company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously

ii) Deferred Tax

The company provides for deferred tax liability (after netting off deferred tax assets), based on the tax effect of temporary difference resulting from the recognition of items in the financial statements.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets (after, netting of deferred tax liabilities), are generally not recognized unless there exist strong circumstances for its adjustment/realization in near future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

iii) Minimum Alternate Tax (MAT)

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that company will pay normal Income Tax during the specified period.

xiii) FINANCE LEASE

Where the Company is the Lessee:

Leases of Property, Plant and Equipment where the Company, as lessee, has substantially transferred all the risks and rewards of the ownership are classified as finance leases. Finance lease payments are capitalised at the lower of lease's inception at the Fair Value of the lease property and the present value of minimum lease payments. The corresponding rental obligations, if any, net of finance charges are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and the finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of Interest on the remaining balance of liability for each period.

Depreciation on assets taken on lease is charged at the rate applicable to similar type of Property, Plant and Equipment as per accounting policy of the company for depreciation as above. If the leased assets are returnable to lessor on the expiry of the period, depreciation is charged over its useful life or lease period whichever is shorter.

Lease payments are apportioned between the finance charge and the reduction of the outstanding liability in respect of assets taken on lease. Sub-lease payments received/ recoverable are recognized as other income.

xiv) OPERATING LEASES

Where the Company is the Lessee:

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the period of lease except where another systematic basis is more representative of time pattern in which economic benefits from the leased assets are consumed.

Where the Company is the Lessor:

Assets subject to operating leases are included in Property, Plant and Equipments. Lease income is

recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs including depreciation are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

xv) EARNINGS PER SHARE :

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events of bonus issue and share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

xvi) PROVISIONS

A Provision is recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

xvii) CONTINGENT LIABILITIES

A disclosure is made for a contingent liability when there is a:

- a) possible obligation, the existence of which will be confirmed by the occurrence/non-occurrence of one or more uncertain future events, not fully within the control of the Company;
- b) present obligation, where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation;
- c) present obligation, where a reliable estimate cannot be made."

xviii) SEGMENT REPORTING

Basis of Segment Reporting

The company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

Inter-segment Transfers

The Company generally accounts for inter-segment sales and transfers as if the sales or transfers were to third parties at current market prices.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items

Other segment includes income and expense items which are not allocated to any business segment.

xix) CASH AND CASH EQUIVALENTS

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less. Non-cash transactions are excluded from the Cash Flow statement.
