MANAGEMENT DISCUSSION & ANALYSIS REPORT

Your Directors presents before you the Company's Management Discussion and Analysis Report for the year ended on 31.03.2014.

The management of the company is presenting herein the overview, opportunities and threats, initiatives by the company and overall strategy of the company and its outlook for the future. This outlook is based on management's own assessment and it may differ materially from those expressed or impaired depending upon global and Indian demand- supply conditions, changes in government regulations, tax regimes and economic developments within India and overseas.

INDUSTRY STRUCTURE AND DEVELOPMENT

The Dairy Industry plays an important role in the socio-economic development of India. India's production of milk has strongly increased over time with significant technical, policy and institutional support. This led to significant changes in the Indian dairy sector. In fact, the Indian dairy sector has undergone significant structural changes over time and some interesting patterns are unfolding along the milk value chain.

Dairy industry in India is instrumental in providing cheap nutritional food to the vast population of India and also generates huge employment opportunities for people in the rural places. India's dairy industry is largely traditional, local and informal. Milk production is dominated by smallholders. Approximately 78 percent of milk producers are marginal and small farmers and they together contribute around 68 percent to total milk production. This trend holds true more or less across all the states. A series of efforts have been made to promote organized milk marketing in the country and several policy initiatives have been taken to develop formal milk marketing and processing institutions in the country.

QUALITY & FOOD SAFETY POLICY

The Company's Quality Policy is: -

"Company is committed to manufacture and supply nutritional and safe products to satisfy customer requirements by a motivated team using eco-friendly measures with continual improvement in quality and food safety"

The Company has consistently shown quality improvement with regard to various processes, keeping strict control on deviations. Customer complaints are resolved using laid down systems of quality assurance. Several initiatives are being taken to further improve customer satisfaction in consonance with the Company's quality policy.

OPPORTUNITIES & THREATS

Strengths and Opportunities:

- Great potential for export of milk products.
- Established and expanding domestic market for dairy products.
- Increasing demand for fluid milk as well as value added Products.
- By product Utilization for import substitution.
- Huge Employment generation & opportunities for Self employment.
- Liberalized Government policies in dairy sector.
- Availability of large resources of unconventional feeds and fodders for Dairy owners.
- Availability of diverse germ plasm of dairy cattle and buffaloes that have unique features like heat tolerance, disease resistance, draft ability and ability to survive, breed and produce under stress conditions.

Weaknesses and Threats:

- Entry of Multi National Companies manufacturing dairy products in Domestic market.
- Increasing chemical contaminants as well as residual antibiotics in milk.
- Poor microbiological quality of milk.
- Incentive on export of quality feed ingredients particularly cakes.
- Deficiency of molasses, a rich source of energy and binding agent in feed industry and constituent of urea molasses mineral lick.

KMG Milk Food Ltd.

- Excessive grazing pressure on marginal and small community lands resulting in complete degradation of land.
- Extinction of the indigenous breeds of cattle due to indiscriminate use of crossbreeding programmed to enhance milk production.

The liberalization of the Dairy Industry is likely to be exploited by multi-nationals. They will be interested in manufacturing milk products which yield high profits. It will create milk shortage in the country adversely affecting the consumer.

The analysis also shows that the 'strengths' and 'opportunities' far outweigh 'weaknesses' and 'threats'. Strengths & opportunities are fundamental and weaknesses & threats are transitory.

SEGMENT WISE/ PRODUCT WISE REPORTING

The Company is primarily engaged in the business of manufacture, purchase and sales of a wide range of Dairy products like ghee, skimmed milk powder, whole milk powder, dairy whitener, lactose and milk. The income from these activities and export of dairy products is not materially significant in financial terms. Accordingly segment information has not been disclosed.

RISK AND CONCERNS

The major risk and concerns attributed to the performance of the company are:

- a. Although the export sales are less in comparison to domestic sales, fluctuation in foreign exchange rates and international prices of dairy products may influence the performance of the company.
- b. Increase in input costs, change in tax structure, change in interest rates, changes in Government policies/ laws of land, development and stability of Indian economy against the negative external and internal forces may also impact the overall performance of the company.
- c. Profitability may be affected on account of competition from existing and prospective manufacturers of the company's products.
- d. Dairy business is primarily influenced by monsoon. Unfavorable monsoon may affect the milk availability and Company may not get milk upto installed capacity and demand.
