Vesuvius Portable SMART Tundish Spray Robot

The first Tundish Spray Robot in India has been operating successfully with a customer in India for more than 18 months now. The use of the tundish robot has resulted in multiple benefits in the shopfloor as compared to the conventional practice of manual spray: (a) Safety - No need for extended presence of person inside hot tundish, (b) Application & Slurry Consistency - Thickness of lining & water percentage are pre-set, (c) Reduction in tundish preparation time - robot can spray in single cycle against 2-3 manual coats, (d) Laser guided tundish furniture placement and (d) Smoother surface finish may aid better flow pattern in tundish as indicated in flow modelling studies.

Vesuvius solutions for Mechanization & High Sequence Casting in Thin Slab Casters & Billet Casters

Vesuvius has pioneered & established several engineering and product innovations aimed to help thin slab & billet casters to cast long sequences in their tundishes.

- a) **Mechanized remote-controlled dry-vibe feeding systems:** This system helps operational excellence through: (a) Improved Safety & Ergonomics in material loading, feeding & application of tundish dry working lining. (b) Reduction in spillage & wastage (material & multiple small bags), (c) Significant reduction in tundish filling time, and (d) Option of zonal lining (slag / metal line) for high sequence.
- b) **TurboPlus+ flow modifier designed for high sequence (> 30 h) casting:** Proven solution for billet casters & slab casters aiming for very high sequence casting > 30 hours.

Vesuvius Laser Contouring System (LCS) for refractory condition monitoring & analysis for ladle, BOF & EAF

▲ Ladle Scan

▲ Ladle Laser Scanner

Process Metrix (PM), a Vesuvius company, is pioneer & technology leader in LCS globally. There are more than 170 PM laser systems globally. Vesuvius has several PM LCS units in operation in India. Our experienced team takes care of installation, commissioning & operation/maintenance of the units in steel plant BOF & ladles. We have several laser scanners currently operational in India. The technical & operational benefits that our customers get from ladle LCS unit are: (a) Safety - Elimination of ladle puncture/ red spot, (b) Ladle lining avg. life increase over long term, (c) High accuracy of measurement : Data-based reliable decision making on ladle campaign by operators, (d) Robust system with minimal maintenance, (e) Fast scan: Full scan at high resolution with total process time < 2 minutes- No adverse impact of ladle availability & turnaround time, (f) Report generation in 2D & 3D cross section format, (f) Wear pattern analysis to optimise brick selection & design, (g) Option to interface with level 2 for accurate feeding of liquid metal in BOF for optimum usage of ladle volume.

DURAGUN success in cement industry in India

The Cement industry is a focused growth segment for the Industrial Products (IP) business of the Advanced Refractories division of Vesuvius in India.

The DURAGUN range of low moisture gunning repair products for Cement plant application has been introduced and commercialized successfully in the Indian market in 2020 with close to 800 MT of DURAGUN products successfully supplied & installed at various application areas in cement plants with good performance. The cost-effective DURAGUN product range was developed by the Vesuvius R&D in Vizag. Target customers are cement plants looking for a fast and safe gunning solution including installation. The DURAGUN product range is made up of robust, fit-for-purpose products for different application areas within a cement plant. The key features of these products are: Low rebound loss of < 10%, Fast installation @ 2-3 MT/ h, good abrasion resistance & good thermal shock resistance. There are also special DURAGUN variants with resistance to alkali, sulphur and chlorine

attack in the cement process from increasing use of AFR. DURAGUN products are now established in plants of almost all the major cement producing groups in India. Vesuvius supply chain & application teams worked hard to supply & install these products even during Covid-19 pandemic situation maintaining high level of safety as per shutdown schedules of our valued cement customers.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 AND FORMING A PART OF THIS NOTICE

ITEM 4 : Appointment of Mr Nitin Jain (DIN No. 07934566) as Managing Director

On the recommendation of the Nomination & Remuneration Committee, the Board of Directors at their meeting held on January 19, 2021 appointed Mr Nitin Jain (DIN No. 07934566) as Managing Director of the Company for a period of five years effective from March 16, 2021. This appointment was made subject to the approval of the Members at the ensuing Annual General Meeting. Mr Nitin Jain's appointment will be liable to retire by rotation.

Mr Nitin Jain, aged 40 years, is a materials engineer from NIT Jaipur and has an MBA degree from the Ohio State University, USA, as well as a Master of Science degree from the Case Western Reserve University, USA. He is from Imerys, the French multinational in mineral and mining industry. As on February 25, 2021, Mr Jain was the Managing Director of Imerys Ceramics (India) Private Limited and a Director of Imerys Performance and Filtration Minerals Private Limited, Imerys Carbonates India Limited and Imerys Minerals (India) Private Ltd. Effective from March 16, 2021, he will become a member of the Corporate Social Responsibility Committee, Risk Management Committee, Board Management Committee and Share Transfer & Stakeholders Grievance & Relationship Committee of Vesuvius India Limited.

Over the last 19 years, Mr Jain has worked in leadership roles in mergers & acquisitions, operations, product management, sales and technology in both North America and Asia and was Sales and Technical Director for the APAC Region. He brings with him rich experience and knowledge in sales and marketing, technology, commercial activities and business strategy through his extensive interactions in America and Asia.

Mr Jain does not hold any shares of the Company and is not related to any Promoter, Director or Key Managerial Personnel of the Company or their relatives.

An Agreement dated January 19, 2021 has been executed between the Company and Mr Nitin Jain setting out the terms and remuneration payable to him, subject to the limit prescribed in section 197 read with Schedule V of the Companies Act, 2013, and his remuneration is summarised as follows -

Management Bonus and Incentive	As per Rules of the Company applicable to Whole-time Directors and as may be determined by the Board - Presently Annual Incentive Plan (AIP) is Rs 35,00,000 which can go up to Rs 70,00,000 and Mid Term Incentive Plan (MTP) depending on AIP out turn is Rs 35,00,000 which can go up to Rs 70,00,000.
Benefits & Perquisites	Rs 14,96,877 per annum or such sum as may be determined by the Board, but not exceeding Rs 30,00,000 per annum
Commission on Profits	Mr Nitin Jain will not be entitled to commission on net profits.
Retiral Funds	Provident Fund, Gratuity and Superannuation as per Rules of the Company.
Insurance	As per Rules of the Company applicable to Whole-time Directors and as may be determined by the Board.

Contribution to Provident Fund, Gratuity Fund and Superannuation Fund and encashment of leave at the end of the tenure will not be considered or included for the computation of ceiling on remuneration, perquisites and benefits. Mr Jain will not be entitled to any compensation for loss of office under section 202 of the Companies Act, 2013. Mr Jain will be entitled to the Vesuvius Group Share Option plans.

The total remuneration payable to Mr Jain will be within the overall limits prescribed in section 197 read with section 198 and Schedule V of the Companies Act, 2013, as amended from time to time and subject to the condition that overall remuneration will not exceed Rs 4,00,00,000 per annum. However, if during the currency of his tenure, the Company has no profits or its profits are inadequate in any financial year, Mr Jain, subject to the provisions of the Companies Act, 2013, shall be entitled to the same remuneration by way of basic salary, house rent and other allowances, bonus, incentive, perquisites and benefits as may be approved by the Board from time to time and within the overall limits specified above. The appointment may be terminated by either party giving to the other three months' notice in writing or such shorter period as may be decided by the Board.

The Agreement dated January 19, 2021 sets out the mutual rights and obligations of the Company and Mr Nitin Jain. A copy of the Agreement will be available for inspection of Members at the Registered Office of the Company between 11.00 a.m. and 4.00 pm on all working days upto and including the date of the Annual General Meeting.

A notice in writing pursuant to the requirements of Section 160 of the Companies Act, 2013 has been received by the Company from a Member recommending the appointment of Mr Nitin Jain as a Director of the Company.

The Nomination and Remuneration Committee as well as the Board of Directors recommend the appointment of Mr Nitin Jain (DIN No. 07934566) as Director and Managing Director of the Company. The Board is of the opinion that Mr Nitin Jain has rich experience and knowledge in sales & marketing, technology and commercial activities, and a person of high integrity and he fulfils the criteria specified in the Companies Act, 2013 read with the rules made thereunder and also with the requirements of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for his appointment as a Director and Managing Director of the Company.

None of the Promoters, Directors, Key Managerial Personnel or their relatives is concerned or interested in the resolutions.

Additional information in respect of his appointment pursuant to SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Secretarial Standards which has been given below forms a part of this Notice.

ITEM No 5 : Approval of remuneration of Cost Auditors

The Board of Directors on the recommendation of the Audit Committee, at their meeting held on February 25, 2021 have appointed M/s Gondesi & Co, Cost Accountants, of Visakhapatnam (Firm registration no. 002027) as Cost Auditors of the Company for the financial year ended on December 31, 2021. The remuneration of the Cost Auditors had been fixed at Rs 110,000 plus GST, if applicable, and out of pocket expenses at actuals.

Section 148 of the Companies Act, 2013 read with rule 14 of the Companies (Audit and Auditors) Rules, 2014 require that the remuneration of the Cost Auditor should be ratified subsequently by the Members of the Company and hence this resolution is proposed to be passed by the Members.

The consent letter of M/s Gondesi & Co, Cost Accountants, will be available for inspection of Members at the Registered Office of the Company between 11.00 a.m. and 4.00 p.m. on all working days up to and including the date of the Annual General Meeting.

The Board of Directors recommends the resolution be passed.

None of the Promoters, Directors, Key Managerial Personnel or their relatives is concerned or interested in the resolution.

Financial Year of the Company

The Company Law Board by an Order dated January 7, 2016 has permitted the Company to have the Financial Year to end on 31st December of each year.

Operating & Financial Performance, Internal Control

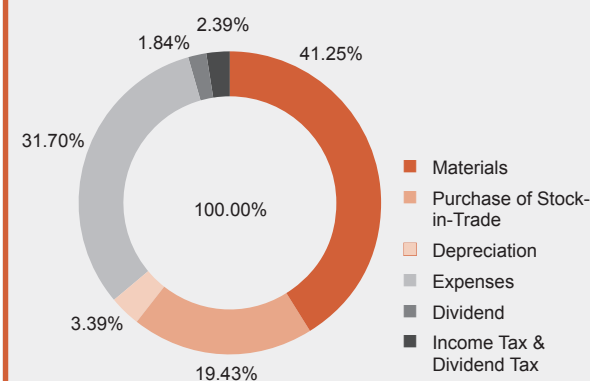

The COVID-19 pandemic, which led to lock-down orders issued by the Central and State Governments from March 24, 2020, had its ultimate impact on the projected

revenues and margins of the Company. Operations had been disrupted at our plants (Kolkata, Visakhapatnam and Mehsana) and various customer sites. Our plants were closed temporarily. However, consequent to the relaxations in lockdown and due to the permissions received from the authorities for Visakhapatnam, Kolkata and Mehsana plants on March 28, 2020, March 31, 2020 and April 25,

Contribution to Government Exchequer 2020

How the Rupee was Spent

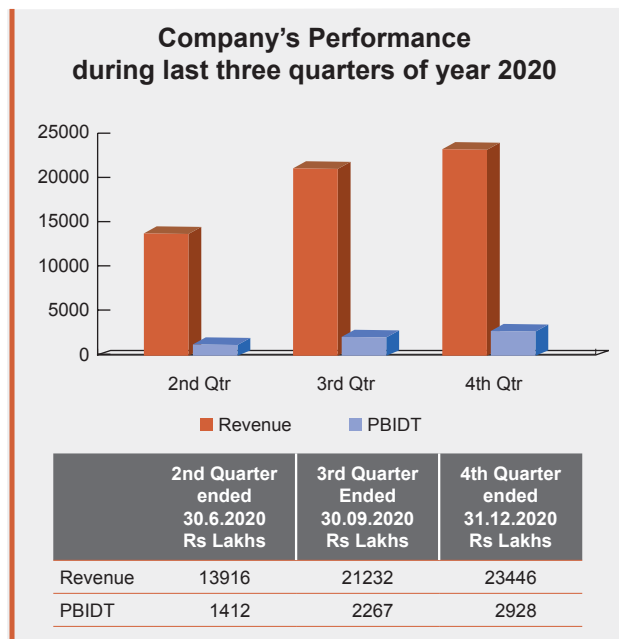

2020 respectively, our plants restarted operations and have progressively improved their production. Road closure in conjunction with the aforesaid orders had resulted in the restriction of movements and availability of personnel and incoming and outgoing goods. Steel plants had also reduced production which gradually picked up towards the end of the year following government relaxations. Revenue from Indian operations in 2020 had therefore reduced by over 11% and net profits by 42% as compared to 2019. However, with the several measures taken during this period, cash and deposits with bank increased by 19%.

The pandemic not only disrupted our operations, it also severely impacted our customers and competitors as well. All of this caused imbalances in the market dynamics, with supplies chasing demands. Furthermore, the effect being felt across the globe, export opportunities dried up.

This pushed a number of competitors to look inwards for business, further pushing the prices down.

Things have started reversing with Steel plants ramping up their production to near 2019 levels. Your Company's performance also improved, as evidenced by the Q3 and Q4 numbers.

During this period, your Company took the opportunity to initiate a number of improvements like operating efficiencies, employee engagement, researching alternate raw materials, reduction of Working Capital, etc.

▶ Starz Awards 2020

There has been no change in the nature of the business of the Company, but the manner in which operations and functioning had to be done had to be altered to adhere to the COVID-19 restrictions and directions like social distancing, no gathering of personnel, electronic communications replacing physical interface with customers, implementing work from home, restricted travel, etc. The Company has no subsidiaries therefore disclosures in this regard are

not provided in this Report of the Directors. There were no significant and material orders passed by regulators or courts or tribunals impacting the going concern status and Company's operations in the future. In preparation of the financial statements, there has been no treatment different from the Accounting Standards.

All four factories worked efficiently during the year despite the controlled COVID-19 environment. Energy efficient installations have been made at these factories. Safety measures and processes have been installed and improved upon at all plants and work sites. All COVID-19 protocols and compliances have been followed.

The Company has in place an established internal control system designed to ensure proper recording of financial and operational information and compliance of various internal controls and other regulatory and statutory compliances. These internal controls have been strengthened with the introduction of more electronic controls, compliances and vigilance methods. Code on Internal Control which requires that the Directors review the effectiveness of internal controls and compliance controls, financial and operational risks, risk assessment and management systems and related party transactions, have been complied with. Self-certification exercises are also conducted under which senior management certify the effectiveness of the internal control system, their adherence to Code of Conduct and Company's policies for which they are responsible, financial or commercial transactions, if any, where they have a personal interest or potential conflict of interest.

Internal Audit is conducted on a pan-India basis. Company's Policies and the Code of Conduct and CORE Values and Behaviours applicable to Directors and Employees of the Company have been complied with during the year. A list of these Policies which are available on the Company's

website www.vesuviusindia.com, is mentioned later in this Report of the Directors.

company. Geographical (secondary) segment has been identified as domestic sales and exports. Details of segment reporting are available in the Annual Accounts.

Industry Structure & Developments, Opportunities & Threats, Outlook, Risks & Concerns

During the year 2020, production and consumption of steel was adversely affected by the COVID-19 pandemic and the lockdown necessitated to contain its spread. Thus, the cumulative production of crude steel at 99.57 MT declined by 10.6% from 111.35 MT in the year 2019.

Subsequent to the Lockdown, in the current fiscal (April-December), the cumulative production of crude steel at 71.94 MT and finished steel at 64.45 MT declined by 12.6% and 15.8% respectively over the corresponding period in last year. The consumption during the same period at 63.46 MT was lower by 16.8% over the corresponding period last year. However, the sector has seen improvement in production of crude and finished steel as well as consumption of finished steel, post COVID-19 pandemic and unlocking of the economy during the current fiscal. The continuous increase in consumption during this fiscal has also led to absorption of inventories with the steel producing companies resulting in a lower closing stock of 10.57 MT of finished steel at the end of December 2020 which is 3.80% lower than that in the previous month and 18.02% lower than the same month of the previous year.

During the current fiscal (April-December), the export of finished steel from India at 8.31 MT increased by 27.5% while import at 3.21 MT have declined by 41.8% over the corresponding period last year. India was net exporter of finished steel during this period with net trade surplus of 5.1 MT. However, the progressive unlocking of the economy and improving economic activities leading to better domestic demand have resulted in a decline/moderation in export in recent months.

Demand for commercial vehicles, white goods, real estate had been adversely affected by the restrictions and protocols implemented due to the COVID-19 pandemic having its corresponding impact on the Indian steel industry. Indices like PMI and IIP also indicate the subdued business scenario prevailing in 2020.

The steel and foundry industry comprise the biggest group of our customers. These are also cyclic in nature. Hence anything that affects the steel and foundry industry will have its one-off effect on our business also. Since refractory industry goes along with the steel industry, initiatives by the Government targeted at improving the fortunes of the steel industry may have a positive impact on the refractory industry as well.

There is a continuous process of risk identification, review and mitigation thereof. The risk impact of COVID-19 has been reviewed both locally and by the Vesuvius Group worldwide. Overall, apart from the consequences of COVID-19 pandemic, there has been no significant change in the risks identified and uncertainties during the year. These inter alia include risk of business interruption due to many reasons attributable to external factors, end market risk due to economic downturn, demand softening and consolidation in the steel industry, raw material sourcing, attraction and retention of staff, issues around health, safety and environment, product failure/ quality and failure to secure innovation and continuously changing regulatory landscape. The list above is not exhaustive (some risks are not yet known and some currently not deemed to be material, could become so).

The Company continues to focus on technology, R&D support, reducing carbon footprint, reducing waste in customer manufacturing processes thereby increasing their overall operational efficiency. We also continued our efforts to reduce waste and energy consumption in our own manufacturing processes.

Board of Directors

At the Board meeting held on February 21, 2020, Mr Thiago da Costa Avelar (DIN No. 08697241) has been appointed a Director in the casual vacancy caused by the resignation of Mr Jan Roel van der Sluis. ANNEXURE - VII

Prescribed particulars of Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

[under section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of Companies (Accounts) Rules, 2014]

(A) Conservation of energy

(i) *the steps taken or impact on conservation of energy:*

Energy usage optimization programs continue at all the manufacturing units. These have resulted in saving cost as well as specific energy consumption. Projects such as optimizing operation and reducing cooling area at temperature controlled production hall at Kolkata plant, replacement of old air conditioning units with high efficiency inverter type at Vishakhapatnam plant.

(ii) *The steps taken by the company for utilizing alternate sources of energy:*

Feasibility study and proposals to install solar panels at all the three manufacturing units have been done and execution is expected in end 2021 or early 2022.

(iii) *The capital investment on energy conservation equipment:*

Approximately Rs 30 lakhs has been incurred on energy saving equipment during the year.

(B) Technology absorption

(i) *Efforts made towards technology absorption*

Introduction of fast curing & hybrid bond blast furnace taphole clay for use in short-dwell mud gun applications. The introduction of this technology for our steel plant customer locations in India has created opportunities for differentiation through local manufacturing of high technology products, operational excellence & refractory performance improvement.

New wireless technology for continuous temperature measurement of tundish steel is being introduced and successfully tried in many plants in India.

New technology on real time surface monitoring system (Reveal CAST system) is being introduced and offered to many customers as a step towards industry 4.0 in steel making. That would help customer in scanning surface defects almost on a real time basis along with some add-on benefits in hot condition during casting itself. This also allows customer savings in terms of increase of hot charging that would in-turn reduce the energy consumption of reheating furnace-thus reduce carbon footprint. Also this allows non-processing of defective slabs/billets/blooms, so saves energy also ensures quality of steel produced.

Duraflex5 ladle shroud is a new generation high performance ladle shroud consisting of better erosion & thermal shock resistant mix combination aiming towards higher life and lesser specific consumption which would also improve safety in customer's operation as less number of shroud change will be required for a given sequence length. This design has been tried at various customers in India & SEA and now under conversion.

Advanced Tundish Outlet Modifier - ATOM is installed inside tundishes to address issues related to colder steel with high residence time that increases the probability of clogging by deposition of non-metallic inclusions at the entrance of the casting channel. ATOM trials have already effectively addressed customers' needs by improving surface quality with at least 10% reduction of mould level fluctuations and by lengthening sequence due to 10% decrease in clogging and flow restriction.

(ii) *The benefits derived like product improvement, cost reduction, product development or import substitution :*

Product improvement/ product development:

R&D centre in Visakhapatnam developed a new cost effective shotcrete product for blast furnace stack repair for optimum performance, which has now been successfully commercialized in the market and getting used by multiple customers.

Duragun range of fit-for-purpose gunning products for cement plant application, which was developed by the R&D centre in Visakhapatnam, have been completely commercialized and gained popularity in cement segment helping fuel our growth in Industrial Products business segment.

“DuraPlate”, a new alumina zirconia carbon (AZC) slide gate formulation with careful selection of raw materials - including base materials, carbon, specialty additives, and anti-oxidants, has been successfully tried & in the process of conversion at many Steel Plants in India.

Import Substitution:

At the Advanced Refractories business, Transfer of Technology (TOT) has been successfully completed for basic hot repair materials for BOF & EAF steelmaking applications in Indian market. The products have strong reference in other regions globally within Vesuvius. These were imported earlier from other manufacturing plants globally & are now being offered with local manufacturing base in India.

(iii) in case of import technology (imported during last three years reckoned from beginning of the financial year) following information is furnished.

Tundish Robotic Spray & Ladle Laser Scanner application/monitoring technologies for steel tundish & ladle respectively, were imported in year 2019 and fully absorbed.

(iv) the expenditure incurred on Research and Development:

The Company is benefitting from the Group’s Research and Development unit at Visakhapatnam which is primarily for monolithic products. The Company has not incurred capital expenditure on R&D, however Rs 320 lakhs has been incurred as R&D expenses at the R&D unit at Visakhapatnam. All other R&D support are received from the Vesuvius Group.

(C) Foreign Exchange Earnings and Outgo during the year-

Foreign Exchange Earnings in terms of actual inflows : Rs. 5,208 lakhs

Foreign Exchange outgo in terms of actual outflow : Rs. 23,532 lakhs (including dividend remittance)

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF VESUVIUS INDIA LIMITED

Report on the audit of the financial statements

Opinion

1. We have audited the accompanying financial statements of Vesuvius India Limited ("the Company"), which comprise the Balance Sheet as at December 31, 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at December 31, 2020, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

4. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Appropriateness of Recognition of Revenue under Ind AS 115

[Refer note 2.9 to the financial statements]

The Company recognises revenue from sale of goods and rendering of services when control is transferred to the customer.

Recognition of revenue depends on the performance obligations related to sale of products and rendering of services, payment terms and total consideration (including variable consideration) determined, which vary across contracts with customers. Accordingly, the amount and timing of recognition of revenue is assessed by the Company based on the timing of the satisfaction of the performance obligations under each contract. There is a risk of inappropriate revenue recognition if revenue is not accounted for in accordance with contractual terms of the respective arrangements with the customers.

The appropriateness of recognition of revenue is a key audit matter considering the significance of the amounts involved.

How our audit addressed the key audit matter

Our audit procedures in relation to revenue recognition included the following:

- Obtained an understanding of controls on revenue recognition and tested the operating effectiveness of the key controls;
- Read the agreements (including purchase orders) on a sample basis;
- Performed testing of sample contracts to ensure the revenue transactions have been appropriately recorded on fulfilment of the related performance obligations as per the selected contracts;
- Tested receipts against the contracts and appropriateness of adjustments made for variable consideration;
- Assessed adequacy of presentation and disclosure.

Based on the above stated procedures, no exceptions were noted by us in revenue recognition including those relating to presentation and disclosures as required by the applicable accounting standard.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF VESUVIUS INDIA LIMITED (Contd.)

Other Information

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Report of the Directors and Management Discussion and Analysis Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

6. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
7. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
9. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances; under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 12. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

13. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
14. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on December 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on December 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note 35 to the financial statements;

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF VESUVIUS INDIA LIMITED (Contd.)

- ii. The Company has long-term contracts as at December 31, 2020 for which there were no material foreseeable losses. The Company did not have any derivative contracts as at December 31, 2020.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended December 31, 2020.
15. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 14 (f) of the Independent Auditors' Report of even date to the members of Vesuvius India Limited on the financial statements for the year ended December 31, 2020

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of Vesuvius India Limited ("the Company") as of December 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at December 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 13 of the Independent Auditors' Report of even date to the members of Vesuvius India Limited on the financial statements as of and for the year ended December 31, 2020

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
 - (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
 - (c) The title deeds of immovable properties, as disclosed in Note 3 on Property, Plant and equipment to the financial statements, are held in the name of the Company, except for leasehold land at Kolkata as stated in aforesaid Note 3, for which renewal of lease is under progress.
- ii. The physical verification of inventory except for goods in transit have been conducted at reasonable intervals by the Management during the year. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. The Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185 and 186. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the Company.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products.
We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of income tax though there has been a slight delay in a few cases, and is regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, duty of customs, goods and service tax and other material statutory dues, as applicable, with the appropriate authorities. Also refer note 35 to the financial statements regarding management's assessment on certain matters relating to provident fund.
Further, for the period March 1, 2020 to May 31, 2020, the company has paid Goods and Service Tax and filed GSTR-3B after the due date but within the timelines allowed by Central Board of Indirect Taxes & Customs under the Notification numbers 31/2020 & 36/2020 dated April 3, 2020 on fulfilment of conditions specified therein.
- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of duty of customs and goods and service tax which have not been deposited on account of any dispute. The particulars of dues of income tax, sales tax, service tax, duty of excise and value added tax as at December 31, 2020 which have not been deposited on account of a dispute, are as follows:

Notes forming part of financial statements

Note 1 Company overview

Vesuvius India Limited (“the Company”) is a public company domiciled and headquartered in India. It is incorporated under the Companies Act, 1956 and its shares are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE). The Company is primarily engaged in the manufacturing and trading of refractory goods. The Company also provides services in relation to refractory goods. The Company has operations in India and caters to both domestic and international markets. The Company does not have a subsidiary, associates and joint ventures.

Note 1.1 Approval for issue

These financial statements were approved for issue with a resolution of the Board of Directors on February 25, 2021.

Note 2 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the periods presented, unless otherwise stated.

Note 2.1 Basis of preparation:

(i) Compliance with Ind AS

These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015, as amended] and other relevant provisions of the Act.

(ii) Historical cost convention

The financial statements have been prepared on an accrual basis and under the historical cost convention except for the following assets and liabilities which have been measured at fair value or revalued amount:

- defined benefit plans — plan assets measured at fair value; and
- certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

(iii) Classification of assets and liabilities

The classification of assets and liabilities into current and non-current, wherever applicable, are based on normal operating cycle of business activities of the Company, which is twelve months.

Note 2.2 Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amount of assets, liabilities, income and expenses and disclosures of contingent liabilities on the date of financial statements. Actual results could differ from those estimates. Underlying estimates are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

Note 2.3 Property, plant and equipment:

Freehold land is carried at historical cost. All other items of Property, plant and equipment are shown at cost, less accumulated depreciation and impairment, if any. The cost of an item of property, plant and equipment comprises its cost of acquisition inclusive of inward freight, import duties, and other non-refundable taxes or levies and any directly attributable to the acquisition / construction of those items; any trade discounts and rebates are deducted in arriving at the cost of acquisition.

Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred.

Property, plant and equipment is eliminated from the financial statements on disposal or on its classification as non-current assets held for disposal.

Gain or losses arising on disposal of property, plant and equipment are recognised in profit or loss.

Note 2.4 Capital Work in Progress

Property, plant and equipment under construction are disclosed as capital work in progress.

Notes forming part of financial statements (Contd.)

Note 2.5 Intangible assets

Intangible assets are recorded at the cost incurred for its acquisition and are carried at cost less amortization and impairment, if any. Cost of intangible asset is capitalized where it is expected to provide future enduring economic benefits and the cost can be measured reliably. Capitalization costs include license fees and costs of implementation/ system integration services. The costs are capitalised in the year in which the relevant intangible asset is put to use.

Subsequent expenditure is capitalised only when it increases the future economic benefits from the specific assets to which it relates.

An intangible asset is eliminated from the financial statements on disposal / discarding or on its classification as non-current assets held for disposal.

Gain or losses arising on disposal / discarding of intangible assets are recognised in profit or loss.

Note 2.6 Depreciation and amortisation:

Property, plant and equipment

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives.

The useful lives have been determined based on technical evaluation done by the management's expert which are mostly in line with the useful life specified by Schedule II to the Companies Act, 2013, except for certain assets in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The useful life of the assets are provided hereunder:

- (i) Buildings- 30 years
- (ii) Plant and machinery other than customer installations- 15 years
- (iii) Customer Installation- upto 5 years
- (iv) Toolings- 3 years
- (v) Electrical Installation - 10 years
- (vi) Furniture and Fixtures - 5 years
- (vii) Office equipment - 5 years
- (viii) Computer Hardware - 6 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Pro-rata depreciation is charged on property, plant and equipment from/ up to the date on which such assets are ready to put to use/ are deleted or discarded.

Intangible assets

Intangible assets are amortised over their respective individual estimated useful life on a straight line basis.

Computer software is classified as an intangible asset and amortised on a straight line basis over a period of three years.

Pro-rata amortization is charged on intangible assets from / up to the date on which such assets are acquired for use / are deleted or discarded.

Individual items of property, plant and equipment and intangible asset valuing Rs. 5,000/- or less is fully depreciated or amortized in the year of acquisition or put to use.

In respect of assets whose useful life is revised, the unamortised depreciable amount is charged over the revised remaining useful life of the assets.

Leasehold properties (right of use land) are amortised evenly over the period of the lease except for land acquired on perpetual lease.

Note 2.7 Impairment of assets

At the date of balance sheet, if there are indications of impairment and the carrying amount of the cash generating unit exceeds its recoverable amount (i.e. the higher of the fair value less costs of disposal and value in use), an impairment loss is recognised. The carrying amount is reduced to the recoverable amount and the reduction is recognised as an impairment loss in the profit or loss.

The impairment loss recognised in the prior accounting period is reversed if there has been a change in the estimate of recoverable amount. Post impairment, depreciation is provided on the revised carrying value of the impaired asset over its remaining useful life.

Note 2.8 Inventories

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases other directly attributable expenditure, non-refundable taxes and duties; net of any rebates or discounts. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the later being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of weighted average cost basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Note 2.9 Revenue recognition**(i) Revenue from Goods and Services**

Revenue is recognized upon transfer of control of promised products or services to customers either over time or at a point of time at an amount that reflects the consideration the Company expects to be entitled to in exchange for those products or services. Control is defined as the ability to direct the use of and obtain substantially all of the economic benefits from an asset.

(ii) Revenue from services

Revenue from services is recognised when the services are rendered in accordance with the specific terms of contract and when collectability of the resulting receivable is reasonably assured.

Revenue from the delivery of products is recognised at the point in time when control over the products is passed to the customers, which is determined based on the individual Incoterms agreed in the customer contract.

Revenue from contracts for management contract services, revenue is recognized over time on the basis using the output-oriented method (e.g. quantity of steel produced). Revenue from providing services is recognized in the accounting period in which the services are rendered. Revenue is measured based on the transaction price, which is the expected consideration to be received, to the extent that it is highly probable that there will not be a significant reversal of revenue in future periods. If the consideration in a contract includes a variable amount, at the inception of the contract, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods or services to the customer.

At the inception of the contract, the Company identifies the goods or services promised in the contract and assesses which of the promised goods or services shall be identified as separate performance obligations. Promised goods or services give rise to separate performance obligations if they are capable of being distinct.

The Company recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities. Similarly, if the Company satisfies a performance obligation before it receives the consideration, the Company recognises either a contract asset or a receivable, depending on whether something other than the passage of time is required before the consideration is due.

(iii) Interest income

Interest income is accounted for on accrual basis in time proportion inclusive of related tax deducted at source.

(iv) Export incentives

Export incentives in the form of Duty Drawback scheme and Status Holder Incentive Scrip (SHIC) are recognised on accrual basis against goods exported.

Note 2.10 Government grant/ subsidy

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the statement of profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to statement of profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Note 2.11 Taxes on income

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Notes forming part of financial statements (Contd.)

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Note 2.12 Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Cost of non-accumulating compensated absences is recognised when absences occur. Costs of other short term employee benefits includes compensated leave balance which are encashable within one year period are recognised on accrual basis in accordance with the terms of employment contract and other relevant compensation policies followed by the Company.

(ii) Post-employment obligations

The Company operates the following post-employment schemes:

- defined contribution plans such as provident fund and pension
- defined benefit plans such as gratuity; and

(a) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Company makes specified monthly contributions towards employee provident fund to Government administered provident fund scheme which is a defined contribution plan. The Company's contribution is recognised as an expense in the profit or loss during the period in which the employee renders the related service. The Company has a defined contribution employee retirement scheme in the form of pension. The Trustees of the scheme have entrusted the administration of the related fund to the Life Insurance Corporation of India (LICI). The Company's contribution to LICI is recognised as an expense in the profit or loss during the period in which the employee renders the related service.

(b) Defined benefit plans

The liability or asset recognised in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future

cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the profit or loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(c) Other long-term employee benefit obligations

The employees can carry-forward a portion of the unutilised accrued compensated absences and utilise it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilised wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Note 2.13 Foreign currency transactions and balances

Items included in the financial statements of Company are measured using the currency of the primary economic environment in which the entity operates (“the functional currency”). The Company’s financial statements are presented in Indian Rupees, which is also the Company’s functional and presentation currency.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

Note 2.14 Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are measured at the present value of management’s best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

A restructuring provision is recognised when there is a detailed formal plan for the restructuring which has raised a valid expectation in those affected. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are disclosed in the financial statements.

Note 2.15 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date, wherever required.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Notes forming part of financial statements (Contd.)

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Note 2.16 Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. All the financial assets and liabilities are measured initially at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial asset and financial liabilities (other than financial assets and liabilities carried at fair value through profit or loss) are added or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Note 2.17 Financial assets

Classification and Measurement

All the financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial asset (other than financial assets carried at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset.

Subsequent measurement of a financial assets depends on its classification i.e., financial assets carried at amortised cost or fair value (either through other comprehensive income or through profit or loss). Such classification is determined on the basis of Company's business model for managing the financial assets and the contractual terms of the cash flows.

The Company's financial assets primarily consists of cash and cash equivalents, trade receivables, loans to employees and security deposits etc. which are classified as financial assets carried at amortised cost.

Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a financial assets that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is recognised using the effective interest rate method.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. For trade receivables, the Company provides for lifetime expected credit losses recognised from initial recognition of the receivables.

For other financial assets, the impairment methodology applied depends on whether there has been a significant increase in credit risk from initial recognition or not and in case of significant increase in credit risk, life time expected credit losses being provided, otherwise twelve months expected credit loss is being considered.

Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Income recognition

Interest income

Interest income is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

Note 2.18 Off-setting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or

realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

Note 2.19 Financial Liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company.

The Company's financial liabilities primarily includes trade and other payables.

Classification, initial recognition and measurement

Financial liabilities are recognised initially at fair value. Transaction costs that are directly attributable to the issue of financial liabilities (other than financial liabilities carried at fair value through profit or loss) are added or deducted from the fair value measured on initial recognition of financial liability. Financial liabilities are classified as subsequently measured at amortised cost.

Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortised cost using the effective interest rate ('EIR') method. Gains and losses are recognised in profit or loss when the liabilities are derecognised.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance cost.

Note 2.20 Lease

Till December 31, 2019

As a lessee

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

With effective from January 1, 2020

As a lessee

The Company determines whether an arrangement contains a lease by assessing whether the fulfilment of a transaction is dependent on the use of a specific asset and whether the transaction conveys the right to use that asset to the Company in return for payment. Where this occurs, the arrangement is deemed to include a lease.

From January 01, 2020, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the company. Contracts may contain both lease and non-lease component. The company allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable

Notes forming part of financial statements (Contd.)

- Variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- Amounts expected to be paid by the company under residual value guarantees
- The exercise price of a purchase option if the company is reasonably certain to exercise that option, and
- Payments of penalties for terminating the lease, if the lease term reflects the company exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in an economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the company:

- Where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- Use a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third-party financing, and
- Makes adjustments specific to the lease, e.g. term, country, currency and security.

The company is exposed to potential future increases in variable lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit & loss over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depends on sale are recognized in profit or loss in the period in which the condition that triggers those payment occurs.

An entity shall determine the lease term as the non-cancellable period of a lease, together with both:

- periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and
- periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option.

Right-of-use assets are measured at cost comprising the following

- The amount of initial measurement of lease liability
- Any lease payments made at or before the commencement date less any lease incentives received
- Any initial direct costs, and
- Restoration cost.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with lease term of 12 months or less.

The Company as lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature. The Company did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

Note 2.21 Share Based Payments

Certain employees of the Company receive annual incentive in the form of equity instruments given by the Ultimate Holding Company (Vesuvius Plc.) for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The expense is recognized in the statement of profit and loss with a corresponding increase to the share based payment reserve, as a component of equity. The fair value determined at the grant date is expensed over the vesting period. Company considers these share based payments as equity settled and the Company does not

bear any risk arising from the movement in the share price. Vesuvius Plc. recharges to the Company cost for the share based payments made/ to be made by them to the Company employees.

Note 2.22 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/ loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Note 2.23 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

Note 2.24 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period, are adjusted for the effects of all dilutive potential equity shares.

Note 2.25 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

Note 2.26 Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Note 2.27 Recent Accounting Pronouncements

The Company has applied the following standards and amendments for the first time for their annual reporting period commencing January 01, 2020

- Ind AS 116, Leases
- Uncertainty over income Tax Treatments - Appendix C to Ind AS 12, Income Taxes
- Amendment to Ind AS 12, Income Taxes

The amendments listed above did not have any impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

Note 2.28 Use of estimates and judgements

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, valuation of deferred tax assets, provisions and contingent liabilities, estimation for employee defined benefits obligations etc.

Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Valuation of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy has been explained under Note 2.11.

Provisions and contingent liabilities

Provisions and contingent liabilities are reviewed at each balance sheet date and changes required, if any, are made to reflect the current best estimates.

Employee defined benefit obligation

For estimates relating to employee defined benefit obligations. Refer Note 45

Note

(a) Capital reserve

Represents grants received in prior years against re-imbusement of stamp duty and cost of freehold land at Visakhapatnam.

(b) Securities premium

Securities premium is used to record the premium on issue of shares. The same is to be utilised in accordance with the provisions of Section 52 of the Companies Act, 2013.

(c) General reserve

Under the erstwhile Indian Companies Act, 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act, 2013, the requirement to mandatory transfer a specified percentage of the net profit to general reserve has been withdrawn though the Company may transfer such percentage of its profits for the financial year as it may consider appropriate. Declaration of dividend out of such reserve shall not be made except in accordance with rules prescribed in this behalf under the Act.

(d) Retained earnings

Retained earnings represents the profits that the Company has earned till date, less any transfer to general reserve, dividends or other distributions to shareholders etc.

(e) Dividends and taxes thereon

During the year 2020 the Company's shareholders have declared dividend of Rs. 7.00 per share (2019 : Rs. 7.00 per share) which resulted in an outflow of Rs. 1,421 (2019 : Rs. 1,713) including dividend distribution tax of Rs. Nil (2019: Rs. 292) and accordingly has been accounted in the year of declaration by the shareholders.

The Board of directors of the Company has proposed a dividend of Rs. 7.00 per share which would result in an outflow of Rs. 1,421. Pending approval of the shareholders the same is not recognised in the financial statements.

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial assets and liabilities measured at amortised cost for which fair values are disclosed	Level 3	Total
As at December 31, 2020		
Financial assets		
Loans		
Loans to employees	93	93
Security deposits	223	223
Total financial assets	316	316
As at December 31, 2019		
Financial assets		
Loans		
Loans to employees	96	96
Security deposits	243	243
Total financial assets	339	339

Note

Short-term financial assets and liabilities are stated at carrying value which is approximately equal to their fair value.

Categorisation of fair value into level 1, 2 and 3.

Level 1 [Quoted prices in an active market]:

This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 [Fair values determined using valuation techniques with observable inputs]:

The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 [Fair values determined using valuation techniques with significant unobservable inputs]:

This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

There are no transfers between levels 1 and 2 during the year.

(ii) Fair value of financial assets and liabilities measured at amortised cost

	As at December 31, 2020		As at December 31, 2019	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Loans to employees	93	93	96	96
Security deposits	223	223	243	243
Total financial assets	316	316	339	339

Short-term financial assets and liabilities are stated at carrying value which is approximately equal to their fair value. The loans and security deposits are fair valued and are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

(Amount in Rupees Lakhs, unless stated otherwise)

Significant estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

41. Financial Risk Management

The Company's financial assets primarily consists of trade receivables and other receivables, loans, security deposits and cash and bank balances etc., whereas financial liabilities includes trade payables, liabilities for capital expenditure and other financial liabilities. The Company's business activities exposes it to variety of risks such as fluctuations in foreign currency exchange rates, interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.

The Company seeks to minimise potential adverse effects of these risks by managing through a structured process laid down by its Board of Directors. The Board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of non-derivative financial instruments, and investment of excess liquidity.

(A) Credit risk

Credit risk refers to risk of financial loss to the Company if customers or counterparties fail to meet their contractual obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, loans receivables and cash and cash equivalents.

Credit risk management

Customer credit risk is managed by the Company through its established policies and procedures which involve evaluation of credit profile of individual customers and regular monitoring of important developments viz. payment history, regulatory changes, industry outlook etc. Outstanding receivables are regularly monitored and an impairment analysis is performed at each reporting date on an individual basis for each major customer, whereas for small customers impairment is assessed collectively for homogeneous groups.

The Company manages credit risk for cash and cash equivalents by placing the deposits with approved counterparties with high credit ratings.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk other than for cash and cash equivalents and other bank balances was Rs. 17,458 as at December 31, 2020 (December 31, 2019 : Rs. 19,878), being the total of the carrying amount of financial assets.

Impairment losses on financial assets

None of the Company's cash equivalents, including time deposits with banks, are past due or impaired. The Company has used expected credit loss model for trade receivables to assess impairment loss or reversal thereof. A summary of movement in allowances for expected credit losses from the beginning to end of the year is provided as under:

Particulars	As at December 31, 2020	As at December 31, 2019
Balance at the beginning of the year	914	415
Additions during the year	-	524
Reversals during the year	(43)	(25)
Balance at the end of the year	871	914

(B) Liquidity risk

Liquidity risk implies that the Company may not be able to meet its obligations associated with its financial liabilities. The Company manages its liquidity risk on the basis of business plans that ensures funds required for financing business operations and meeting financial liabilities are available in a timely manner at optimal costs. The Management regularly monitors rolling forecasts of the Company's liquidity position to ensure it has sufficient cash on an ongoing basis to meet operational fund requirements. Surplus cash generated, over and above operational fund requirement is invested in bank deposits to optimise cash returns while ensuring adequate liquidity for the Company.

Notes forming part of financial statements (Contd.)

(Amount in Rupees Lakhs, unless stated otherwise)

All the Company's financial liabilities are due within one year from the balance sheet date and could be met by realisation of surplus funds deposited with banks.

(C) Market risk

Market risk is the risk that the fair value of future cash flow of financial instruments may fluctuate because of changes in market conditions. Market risk broadly comprises three types of risks namely currency risk, interest rate risk and price risk (for commodities). The above risks may affect the Company's income and expenses. The Company's exposure to and management of these risks are explained below:

(i) Foreign currency risk

The Company undertakes transactions (e.g. sale of goods and purchases on raw materials or capital goods) denominated in foreign currencies and thus is exposed to exchange rate fluctuations. The Company evaluates its exchange rate exposure arising from foreign currency transactions and manages the same based upon approved risk management policies which includes managing bank accounts in foreign currency and converting these foreign currency into functional currency when exchange rates are favourable.

Exposure to foreign currency risk

The carrying amounts of foreign currency denominated financial assets and liabilities at the end of the reporting periods are as under:

Particulars	Foreign currency in Lakhs	Rupee equivalent in Lakhs
As at December 31, 2020		
Trade receivables		
USD	14	980
EURO	5	432
Trade payables		
USD	40	2,902
EURO	3	277
GBP	1	52
As at December 31, 2019		
Trade receivables		
USD	12	826
EURO	6	432
Trade payables		
USD	41	2,943
EURO	7	589
GBP	-	36
AUD	-	-

A 10% appreciation/depreciation of the foreign currencies with respect to functional currency of the Company would result in an increase/decrease in the Company's net profit before tax by approximately **Rs. 182** (December 31, 2019 : Rs. 231).

(ii) Interest rate risk

The Company does not have any interest bearing financial liabilities. The Company's interest earning financial assets are primarily term deposits with banks which are fixed rate interest bearing instruments and accordingly the Company is not significantly exposed to interest rate risk.

(Amount in Rupees Lakhs, unless stated otherwise)

42. Capital management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan also taking into consideration any long term strategic investment and expansion plans. The funding needs are met through equity and cash generated from operations.

43. Income tax expense

This note provides an analysis of the Company's income tax expense, show amounts that are recognised directly in equity and how the tax expense is affected by non-assessable and non-deductible items.

It also explains significant estimates made in relation to the Company's tax positions.

44. Share Based Payments

Vesuvius Plc. (Ultimate Holding Company) grants stock awards to certain employees of the Company under its stock incentive plan, which entitle the holder to receive equity instruments of the Ultimate Holding Company. These stocks will vest on the second anniversary of the date of grant, unless business conditions justify deferring it, and provided that the employee is still actively employed by a Vesuvius company. The vested shares are exercisable for a period of 10 years beginning with the Grant Date. The plan is regarded as equity settled as per Ind AS 102- Share Based Payment.

The movement of the stock award is as follows: Opening balance - 9543, Granted during the year - 11961, Exercised during the year - 9760, forfeited during the year - 101, Closing balance as at December 31, 2020 - 11643. The employees are not required to make any payment hence Average exercise price per share award is NIL.

Weighted average remaining contractual life of award outstanding at end of the period is 138 days.

The fair value at grant date of award granted during the year was GBP 3.918 per award, determined using the closing midmarket price on the day preceding the date of grant. Total expenses arising from share based payment transactions recognised in profit or loss as part of employee benefit expense is Rs. 62.09 Lakhs.

45. Employee benefit obligations

(i) Defined contribution plans

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident and Pension Fund, and Employee State Insurance ('ESI') which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are recognised in the Statement of Profit and Loss as they accrue. The amount recognised as an expense towards contribution to Provident and Pension Fund and ESI for the year aggregates to Rs. 555 (December 31, 2019 : Rs. 524).

(ii) Defined benefit plans

Gratuity

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump-sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service. Vesting occurs upon completion of five years of service. The Company makes annual contributions to gratuity funds established as trusts or insurance companies. The Company accounts for the liability for gratuity benefits payable in the future based on an actuarial valuation.

The amounts recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as follows:

Significant estimates: actuarial assumptions

The significant actuarial assumptions were as follows:

Particulars	December 31, 2020	December 31, 2019
Discount rate	6.25%	7.00%
Salary growth rate	8.00%	8.00%
Attrition rate	Ages Upto 40 : 6.20% Ages from 40-54: 1.80% Ages from 55-60: 2.20%	Ages up to 40 : 6.20% Ages from 40-54 : 1.80% Ages from 55-60 : 2.2%
Mortality rate	Indian Assured Lives Mortality (2006-08) (Modified) Ult	Indian Assured Lives Mortality (2006-08) (Modified) Ult

Assumptions regarding future mortality for gratuity and medical are set, based on actuarial advice in accordance with published statistics and experience. These assumptions translate into an average life expectancy in years for a person retiring at age 60.

Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Particulars	Impact on defined benefit obligation (Gratuity)			
	December 31, 2020		December 31, 2019	
	Increase	Decrease	Increase	Decrease
Discount rate (-/+ 0.5%) % change compared to base due to sensitivity	(133)	145	(111)	120
Salary growth rate (-/+ 0.5%) % change compared to base due to sensitivity	142	(134)	119	(111)

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied while calculating the defined benefit liability recognised in the balance sheet.

Notes forming part of financial statements (Contd.)

(Amount in Rupees Lakhs, unless stated otherwise)

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The major categories of plan assets

The defined benefit plans are funded with insurance companies of India. The Company does not have any liberty to manage the funds provided to insurance companies. Thus the composition of each major category of plan assets has not been disclosed.

Risk exposure

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Investment risk:

The defined benefit plans are funded with insurance companies of India. The Company does not have any liberty to manage the funds provided to insurance companies.

Interest risk:

A decrease in the interest rate on plan assets will increase the plan liability.

Life expectancy:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and at the end of the employment. An increase in the life expectancy of the plan participants will increase the plan liability.

Salary growth risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan liability.

Defined benefit liability and employer contributions

Expected contributions to post-employment benefit plans for the year ending December 31, 2020 :

The weighted average duration of the defined benefit obligation (gratuity) is 11 years for December 31, 2020. The expected maturity analysis of undiscounted gratuity is as follows:

	December 31, 2020	December 31, 2019
