The cotton textile industry in India had to contend with major challenges during the year. The impact of the severe economic downturn in the economies of the developed countries was acutely felt in India too. Issues relating to power shortage and shortage of skilled labour continue to affect the textile sector. Excess capacities and significant erosion in margins due to severe competition have also had a negative impact on the profitability of the industry.

Opportunities and threats:

The promoters of your company are planning for entering into retail industries, currently the retail market is lucrative when compared with manufacturing industries and thereby have the hope of recovering from the present financial crisis.

Segment wise performance and Company outlook:

Due to

- ❖ Increase in cost of raw material
- ❖ No substantial increase in the selling price of finished product (Cotton Yarn)
- ❖ Regular absenteeism of the workmen
- ❖ Frequent interruption in the power supply
- ❖ Increase in the cost of electricity
- ❖ Non favorable market conditions to the textile industry.

Company was unable to run the factory, and the production was stopped from the end of July 2011, and the promoters, requested the Hon'ble Labour Department to grant the permission for closure of the factory. The Hon'ble

labour department has granted the permission to close the factory located at Nanjangud vide its order No Ka.Ee 114 LMW 2007 dated 29th November 2011.

PASARI SPINNING MILLS LIMITED was undertaking manufacture of Cotton Yarn at its Unit located at KIADB Industrial Area, Nanjangud, Mysore District with spindle capacity of 17,472.

Risk and Concerns:

Risks :

General Economic conditions:

Any slowdown in the global and/or Indian economy could adversely affect our business. Textile business in general is sensitive to fluctuations in the economy. The textile sector may be unfavorably affected by changes in global and domestic economies, changes in local market conditions, government policies and Regulations. Since demand for textiles is affected by world economic growth, a global recession could lead to a downturn in the Textile Industry.

Socio-political risks:

In addition to economic risks, the Company faces risks from the socio-political environment, internationally as well as within the country and is affected by events like political instability extreme weather conditions and natural calamities etc.,

Concerns:

The Promoters of your Company, taken the permission for closure of the Factory from the Hon'ble
