## MANAGEMENT DISCUSSION & ANALYSIS

### 1. INDUSTRY STRUCTURE & DEVELOPMENTS

The textile industry plays a vital role in the Indian economy in terms of industrial production, employment and exports. Its contribution to Forex earnings is around 12 per cent in 2009 – 10.

The Industry's outlook has completely changed for the last two years due to global recession and economic conditions. During 2007 -08 due to steep appreciation of the rupee against the US Dollar has affected the industry adversely and escalating cotton prices on account of large export of raw cotton. The industry continues to suffer during 2008 – 09 also due to the continuance of the global economic slowdown. The unprecedented hike in minimum support price of seed cotton resulted in substantial higher cotton prices.

It may be noted that from the last quarter of 2009 -10 there has been strong recovery in domestic as well as export demand for cotton yarn. But on the contrary, the concern over increasing cotton prices, continuing power cut and restrictions on power supply during peak hour affected the performance of textile industry in Tamil Nadu. Besides, withdrawal of interest subvention and Duty drawback and foreign exchange volatility has added negative impact on the performance of the industry.

The decline in productivity and production has come down mainly on account of unfavourable weather conditions in the beginning of the cotton season.

### MARKETING

India is a large supplier of cotton yarn in the world market. Due to recession in global markets, volume and value of exports have come down significantly. Your Company being predominantly into overseas market, maintained excellent relations with all its overseas customers which have been dealing with the Company over the years by adhering to quality standards, delivery schedules and competitive prices.

### 2. OPPORTUNITIES AND THREATS

The textile industry as such is more dependent on its raw material that is raw cotton availability. There is much scope for India to have more crops year by year due to its technology improvement and introduction of new varieties of cotton but of course subject to monsoon changes.

The Indian textile export market will have better days as China is under heavy pressure because of inflation and appreciation of Chinese Currency against US Dollar.

### 3. RISKS AND CONCERNS

Every Country has to become cost competitive and efficient considering the global competition due to withdrawal of quota. Due to high cost of labour and power and raw material, India is suffering and not able to compete with other Countries.

Cotton being an agricultural commodity depends on monsoon. Any failure on monsoon and availability of cotton will affect the cotton yarn manufacturing industry and frequent escalating cotton prices also contribute uncertainty in the profit margin.

### 4. SEGMENT-WISE OR PRODUCT WISE PERFORMANCE

The Company is engaged in the business of manufacture and export of cotton yarn and grey fabrics and also trade in the same commodity and accordingly trading is considered as a segment.

### 5. OUTLOOK

The Company continues to be an exporter of its cotton yarn and grey fabrics. The Company will cash the prospects of improving exports of cotton yarn to Asian Countries including China. Exploring new markets is a continuous process of the Company.

### 6. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has a proper and adequate Internal Control System to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and that all transactions are authorized, recorded and reported correctly.

The internal control is supplemented by an extensive programme of internal audit, review by management and documented policies, guidelines and procedures. The internal control is designed to ensure that financial and other records are reliable for preparing financial statements and other data for maintaining accountability of assets.

### 7. FINANCIAL PERFORMANCE

Please refer Directors' Report on performance review.

#### **8. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS (INCLUDING NUMBER OF PEOPLE EMPLOYED)**
