ANNEXURE- I TO THE DIRECTORS' REPORT**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

The Management of the Company is pleased to present Management Discussion and Analysis Report (to the extent applicable to the company) covering overall performance and outlook of its activities.

MACRO ECONOMIC OVERVIEW**Indian Economy:**

Financial year 2015–16 (FY2016) began on a positive note. Despite a gloomy global scenario — both across developed economies and key emerging ones such as China — India had closed FY2015 with growth in real GDP of 7.2% and a growth in gross value added (GVA) of 7.1%. Low crude oil prices, comfortable inflation levels, some reduction of policy rates by the Reserve Bank of India (RBI), a reasonable current account deficit and the promise of reforms by the Central Government under Prime Minister Narendra Modi suggested even faster economic growth in FY2016. As per the advance estimates report dated 8th February 2016 of the Central Statistics Organisation (CSO), the growth in GDP during 2015-16 is estimated at 7.6% as compared with the growth rate of 7.2% in Financial Year 2014-15. This has been achieved notwithstanding disastrous monsoons for the second successive year, low agricultural growth, poor income generation across much of rural India and relatively lukewarm growth in infrastructure activities. As Table 1 shows, growth is picking up.

Table 1: Growth in Real GDP and GVA, India

	FY2013	FY2014	FY2015	FY2016 (E)
Real GDP growth	5.60%	6.60%	7.20%	7.60%
Real GVA growth	5.40%	6.30%	7.10%	7.30%

Source: Government of India, Central Statistical Organisation (CSO). (E) denotes estimate.

Inflation levels remained comfortable during the year. The consumer price index inflation ranged from 3.7% to 5.7% while that of the wholesale price was (–) 0.85% during the year. With lower inflation, the RBI cut policy rates by a 100 basis points (bps) in three tranches: a 25 bps reduction in June 2015, followed by another 50 bps in October 2015 and another 25 bps in April 2016. To ease liquidity, the RBI also announced in September 2015 an intent to reduce the Statutory Liquidity Ratio (SLR) in four equal phases by 100 bps by January 2017. The first such reduction of 25 bps was made in its monetary policy announced in April 2016. Banks have passed on a part of the benefits of eased

liquidity and rate cuts, but not enough given the difficult state of their books thanks to the burden of significant non-performing assets (NPAs). This encumbrance has also put a damper on the growth in bank credit, which grew at 11.3% in FY2016 versus 9.5% in the previous year — not the kind of uptick that one associates with a GDP growth of 7.6%. Growth in bank deposits too has been muted: rising at 9.9% in FY2016, which was 150 bps less than what had occurred in the previous year. This relatively lower deposit growth has not given sufficient avenues to the banks to improve their net interest margins, which was essential for the industry to cover the huge surge in NPAs.

The Union Budget for 2016–17 has proposed to introduce deduction of the provision for NPAs by NBFCs under the Income Tax Act — hitherto available only to banks. This, coupled with the recommendation in the Union Budget of 2015–16 that NBFCs registered with the RBI with asset size of Rs. 500 crore or more be considered as 'financial institutions' in terms of the Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest (SARFAESI) Act, 2002, now creates a level playing field with the banks.

Non-Banking Finance Companies (NBFCs) continue to grow their share in financial services industry. India Ratings expects NBFCs to account for over 17% of the total credit in the country by FY2019, compared to 13.1% at the end of the FY2015 and 9.4% in the FY2006. Until some years ago, NBFCs were a small part of the financial services business with a small resource base. Today, the equity of leading NBFCs is comparable with or larger than many mid-sized banks. The combined market capitalisation of the top 10 NBFCs is now twice that of mid and small-sized public sector banks.

The Company

SIL is a registered NBFC with RBI since 22nd May, 2009. Company's standalone performance is discussed in the Directors' Report. The mainstay of Company's operations continued to be Investments in various Companies, under which steady dividend income flows into the Company coupled with sustained appreciation in capital. During the year under review Company has earned income in the form of dividends, rent income, interest on ICD lending activity and profit on sale of investments.

SIL focuses on two broad categories: (i) Commercial Finance & (ii) Investments. The Company's product

suites are given below.

Verticals	Product

The Company's Asset-Liability Committee (ALCO), set up in line with the guidelines issued by the RBI, monitors asset-liability mismatches to ensure that there are no imbalances or excessive concentrations on either side of the Balance Sheet. The Company continues to very closely monitor liquidity in the market and as a part of its ALCO strategy, maintains a liquidity management desk to reduce its liquidity risk. Asset liability management comprises of two Directors and Chief Financial Officer. The ALCO operating committee meets once a quarter. Monitoring the gaps for taking necessary remedial action is the basic responsibility of the ALCO Committee. As per the guidelines, periodical review of the following three statements is conducted:

INVESTMENTS

The investment portfolio of the Company in quoted investments as on March 31, 2016 was Rs. 8083.65 lakhs, at cost.

RISKS AND CONCERNS

SIL is exposed to specific risks that are particular to its businesses and the environment within which it operates, which include market risk, interest rate volatility, execution risk, and economic cycle.

- The company has significant quoted investments which are exposed to fluctuations in stock prices. These investments represent a substantial portion of the Company's core capital, and are vulnerable to fluctuations in the stock markets. Any decline in these quoted investments may severely impact its financial position and results of operations.
- Credit risk is a risk arising from default or failure on the part of borrowers in meeting their financial obligations towards repayment of loans and interest. This risk is comprehensively addressed by the company both at the strategic level and at the client level.
- Liquidity Risk: Asset/Liability Management: The company is exposed to liquidity risk principally as a result of lending to its customers for periods which may differ from those of its funding sources. Financial firms are now increasingly focused on asset-liability risk. Asset-liability risk is a leveraged form of risk. The capital of most financial institutions is small relative to the firm's assets or liabilities, so small percentage changes in assets or liabilities can translate into large percentage changes in capital.

The problem was not that the value of assets might fall or that the value of liabilities might rise. It was that capital might be depleted by narrowing of the difference between assets and liabilities—that the values of assets and liabilities might fail to move in tandem. The Company is alive to the dynamics of this problem and has in place a control structure for closely monitoring incipient signs of risk in this area and to unleash necessary corrective measures, if needed. SIL's treasury actively manages asset liability positions in accordance with the overall guidelines laid down by the Management in the Asset Liability Management (ALM) framework.

- The company can be adversely affected by volatility in interest rates in India, which could cause its margins to decline and profitability to

shrink. Earnings from interest income is steadily becoming one of the important businesses of the Company. It is therefore exposed to interest rate risk, principally as a result of lending to its customers at interest rates, in amounts, and for periods which may differ from those of its funding sources. The company is hedged to some extent against this risk through the reset clause in its advances portfolio.

- While the Indian economy has shown sustained growth over the last several years, a slowdown could cause the business of the company to suffer. SIL manages such risks by maintaining a conservative financial profile and following prudent business and risk management practices.
- The risk appetite is enunciated by the Board from time to time. Company has in place specially mandated Committees such as ALCO, Risk Management Committee, besides Nomination and Remuneration Committee and Audit Committee.

INTERNAL CONTROL SYSTEMS

SIL Investments Limited has an independent internal control system which is commensurate with the size and scale of the Company. It evaluates the adequacy of all internal controls and processes, and ensures strict adherence to clearly laid down processes and procedures as well as to the prescribed regulatory and legal framework. Conforming to the requirements of the regulatory authorities such as the RBI and the SEBI and consistent with the requirements of the Listing Regulations, the company has institutionalized an elaborate system of control processes designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the adequacy of safeguards for assets, reliability of financial controls and compliance with applicable laws and regulations. The Internal Auditors are mandated to carry out periodical audit and report on areas of non-compliances/ weaknesses. Corrective actions in case of reported deficiencies, if any, are taken actively to further strengthen the internal control systems. These reports are reviewed by the Audit Committee of the Board of Directors for follow-up action, and instructions are issued for taking necessary measures.

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance

about whether the standalone financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone financial statements.
