Vision

“We are gearing up for the next phase of growth through a combination of our own initiatives and forging new partnerships with leading companies. These investments will accelerate Rajoo's growth, worldwide.”

C. N. Doshi
Chairman

Dear Shareholders

I am pleased to report that your company has achieved a turnover Rs. 77.86 crores for the year 2010-11 with a marginal growth over previous fiscal.

The ban on plastic pouches for Gutka packaging in addition to that on plastic bags all over the country had a negative effect on the operations of the Company and also of the industry. This was compounded by the volatility in prices of polymers and polyester film which reduced the availability of working capital of the processors thus compelling them to delay capital investments. There are whole-hearted efforts by the industry to counter such negative publicity against the use of plastics in general and positive results are expected.

These environmental issues resulted in pressure, both on the top line and the bottom line of the Company. Sensing the changing environment, the Management of the Company devised and implemented effective strategies by way of enhancing the product portfolio, penetrating into unrepresented territories and forging alliances. The effect of these actions will be visible next year onwards and will help the company emerge with flying colors inspite of adversities.

Exports continued to provide effective support to the Company's operations and in the period under review, constituted 40% of total sales.

Being a technology driven Company, product innovations, world-class quality, state-of-the-art workmanship, increased energy efficiency and high levels of sophistication and automation have become the characteristic of Rajoo products during all these years, positioning Company's products on a global platform, competing with the established world leaders.

Your Company has entered into 3 strategic alliances during the year. These alliances have added new products, new market and new technologies. Growth through organic and in-organic alliances will be a key part of company's strategy in the years ahead.

RAJOO - WONDERPACK

For Rajoo Engineers Ltd. (Excellence in Extrusion) and Wonderpack Industries Pvt. Ltd (The Thermoforming People), this endeavor highlights the common mindset and approach of both companies, which is to be recognized as a quality global supplier for the thermoforming industry. Rajoo after acquiring thermoforming business of Wonderpack came with a new approach to serve the sheet extrusion and thermoforming industry, worldwide. Post business acquisition, the merged entity now truly provides 'end-to-end solutions in thermoforming'. Extrusion has always been the forte of Rajoo while thermoforming has been the core strength of Wonderpack.

With a vision for steep growth and well-understanding the dynamics of the markets, this collaborative move promises to provide significant value propositions for all concerned. There would be significant benefit when the merged entity will take advantage of each other's technology, developments, service network and marketing strengths.

Solutions from Rajoo and Wonderpack will continue to be available to the industry as before, albeit with more options. The selling, marketing and servicing networks of Rajoo and Wonderpack will now reinforce one another and come under one umbrella for unparalleled service levels ever witnessed by the industry.

RAJOO - HOSOKAWA ALPINE, Germany

The markets in India and parts of Africa (Nigeria, Ghana, Kenya and Tanzania), would benefit immensely with this collaboration. It would bring the very best in blown film technology of HOSOKAWA ALPINE through one of the most trusted and respected names in the business - Rajoo Engineers at affordable price levels.

'Rajoo's strong understanding of the developing economies coupled with world class technology of Alpine will ensure a unique synergy that customers would benefit from. The brand and the network of Rajoo will only raise the bar of customer satisfaction.

RAJOO - BAUSANO, Italy

Your company is known for bringing world class technology at the door step of the Indian processors, with this JV (based in Rajkot), Rajoo Engineers will now revolutionise pipe manufacturing technology in India.

The existing Rajoo portfolio of the widest range of mono and multilayer blown film lines up to seven layers, sheet lines up to five layers, water quenched downward extrusion lines up to three layers, lines for foamed film and sheets for various special applications and thermoformers will now be supplemented by pipe and profile extrusion lines.

PEOPLE

When it comes to people, Rajoo has the highest retention rate in the industry. The Company's human capital development initiatives start from programs to raise the level of each employee with a well defined career path. The immense talents, professionalism, dedication and loyalty of over 350 RAJOOers are the Company's greatest assets.

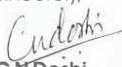

ROAD AHEAD

We are gearing up for the next phase of growth through a combination of our own initiatives and forging new partnership with leading companies. These investments will accelerate Rajoo's growth , worldwide.

Rajoo has led the industry for over 2 decades and continues to grow exponentially in coming years. I look back in gratitude and internalize the wisdom gained from the experience. It is our mission to set even higher standards for our performance and set new milestones. It is our vision "**to become one of the most trusted and passionate solution providers for the plastic extrusion machinery world-wide in the best interests of all the stake holders pursuing ethical business practices**".

I am grateful to the Board of Directors for their unwavering support and guidance. I take this opportunity to express my gratitude to all our stake holders, who have reposed trust in us and extended their constant support.

With Best Wishes,
Sincerely,

C N Doshi
Chairman

The year 2010 -11 was a landmark year for Rajoo - the merger with Wonderpack, the technical collaboration with Hosokawa Alpine and the joint venture with Bausano and Figli, Italy...the industry could not have asked for more!

The year 2010-II at a glance

• Landmark Sale

In a pioneering initiative, Rajoo Engineers becomes the first Indian company to supply a 3-layer co-extruded blown film line to Pakistan.

Traversing this distance from Rajkot to Lahore, Rajoo has created a significantly tailored solution that addressed all needs of Polypack Pvt. Ltd. Rajoo, a globally known extrusion machine manufacturer for delivering highly customised solutions, surpassed expectations of Polypack by providing a solution on similar lines, well understanding their basic needs

Rajoo created the history by being the first Asian supplier of a 7 layer fully loaded blown film line to Turkey. This sale clearly announces the road ahead for Rajoo Engineers, with the world as its market place!

Explanatory Statement Pursuant To Section 173 (2) Of The Companies Act, 1956

ITEM NO. 7 & 8:

Members are aware that the present authorised share capital of the Company is Rs. 5 crores and the paid up share capital of the Company is Rs. 3.67 crores. The Company is planning for expansion as well as takeover /acquisition of few businesses/companies. In this connection, the Company will require funds in various forms, including share capital and as such the Board of Directors of the Company thinks that the present authorised share capital of the Company is not sufficient to meet the future requirements of fresh induction of share capital in the Company. Further, Members are aware that the Company has filed petition with the Hon'ble High Court of Gujarat for merger of Hitesh Engineers Pvt. Ltd., Shruti Engineers Pvt. Ltd. and Vishwakarma Fabricators Pvt. Ltd, with the Company, and consequent to the merger, the Company has to issue 2,13,10,000 equity shares of Re. 1/- each to shareholders of transferor companies. Hence, it is proposed to increase the authorised share capital of the Company from Rs. 5,00,00,000 to Rs. 7,00,00,000. Consequently, Clause V of the Memorandum of Association of the Company also required to be altered to give effect of increased share capital.

Further, Clause V of the Memorandum of Association contains the information about the Authorised Share Capital of the Company. However, consequent upon increase in the Authorised Share Capital, the Company is also required to amend the Clause V of the Memorandum of Association.

Hence, the Resolution in Item no. 7 is proposed as an Ordinary Resolution whereas in Item No. 8 is proposed to be passed as a Special Resolution.

Members are requested to pass the Resolutions.

None of the Directors is interested in this Resolution except in the capacity of members.

Performance Review

During the year under Report, your Company has achieved domestic sales of Rs. 4419.05 lacs against Rs.5572.52 lacs during previous fiscal. However, export sales have increased to Rs. 3090.16 lacs from Rs.1765.69 lacs in the previous year. The aggregate sales have marginally increased to Rs. 7786.81 lacs from Rs. 7424.09 lacs of previous year 2009-10. The net profit of the Company is decreased to Rs. 352.49 lacs down by 18% against previous year. The main reasons behind the decrease in profitability are increase in interest cost, business development expenses, and depreciation cost. However, the management has already started to implement various measures to reduce costs to increase profitability.

Dividend

The Board of Directors are pleased to recommend a dividend of Re.0.28 per share (i.e. 28%) on the paid up share capital of the Company, subject to approval of members in the ensuing Annual General Meeting.

Increase In Authorised Share Capital

Members are aware that the present authorised share capital of the Company is Rs. 5 crores and the paid up share capital of the Company is Rs. 3.67 crores. The Company is planning for expansion as well as takeover /acquisition of few businesses/companies. In this connection, the Company will require funds in various forms, including share capital and as such the Board of Directors of the Company thinks that the present authorised share capital of the Company is not sufficient to meet the future requirements of fresh induction of share capital in the Company. Further, Members are aware that the Company has filed petition with the Hon 'ble High Court of Gujarat for merger of Hitesh Engineers Pvt. Ltd., Shruti Engineers Pvt. Ltd. and

Vishwakarma Fabricators Pvt. Ltd, with the Company, and consequent to the merger, the Company has to issue 2,13,10,000 equity shares of Re. 1/- each to shareholders of transferor companies. Hence, it is proposed to increase the authorised share capital of the Company from Rs. 5,00,00,000 to Rs. 7,00,00,000. Consequently, Clause V of the Memorandum of Association of the Company also required to be altered to give effect of increased share capital.

Members are requested to pass the Resolution as an ordinary resolution. None of the Directors, is interested in this Resolution

Merger

During the year under review, the Company had initiated the process of merger of three private limited Companies, viz., Hitesh Engineers Pvt. Ltd., Shruti Engineers Pvt. Ltd. and Vishwakarma Fabricators Pvt. Ltd.(transferor Companies) with the Company. The Board of Directors of the Company has passed Resolution for approval of scheme of Merger. Subsequently, the Company has applied to the Bombay Stock Exchange Ltd (BSE), where shares of the Company are listed for approval of scheme of Merger in terms of Clause 24(f) of the Listing Agreement. The BSE has granted the approval to the Scheme vide letter No. DSC dtd. DSC/AMAL/SR/24(f)/269/2010-11 dtd. 9th June, 2010, and subsequently, the Company has filed Company Application with the Hon'ble High Court of Gujarat. Upon instructions of the Court, the meetings of the Shareholders, Secured Creditors & Unsecured creditors of the Company were held on 7th September, 2010 and they have approved the scheme of merger. Subsequent to the Meetings, the Company has filed petition with the High Court of Gujarat and as on date of this Report, the matter is pending with the Court.

Members are aware that Rajoo has successful history of more than 24 years in the field of production of plastic processing machineries. Rajoo has strong marketing network spread across the country as well as marketing tie-ups in foreign countries.

All three private limited Companies are manufacturing dies, extruders, fabricated parts, die assembly, screen changers, take-off assembly, roll stack assembly, air rings, calibration baskets, and winder assembly to be used for plastic processing machineries.

Hence, post-merger, Rajoo will be able to cater all such parts & components indigenously through manufacturing facilities present in three private limited companies. Further, the post-merger synergy will help REL to bargain at various cost centers such as cost of raw material, cost of labour, cost of other manufacturing & administrative expenses. The merger will also result in combination of resources of all four Companies such as production facilities, marketing outlets, efficient workforce, management skills, liquidity etc.

In turn, the profitability of Rajoo is expected to be increased, and stakeholders of Rajoo will get benefit from growing profitability & higher efficiency.

Board's Responsibility Statement

In pursuance of Section 217(2AA) of the Companies Act, 1956, the Directors confirm:

- a) That in the preparation of annual accounts, the applicable accounting standards have been followed and that no material departures have been made from the same;

Annexure 'A' To The Directors' Report

Disclosures pursuant to the Companies (Disclosure of particulars in the Report of Board of Directors) Rules, 1988

1. Consumption & Conservation of energy

a) Energy conservation measures taken

Continuous efforts are being made by the production team for conservation of energy. Regular energy audits are being carried out by independent agencies and utmost care is taken in implementing their recommendations although the actual benefit in terms of energy saved cannot be measured.

b) No investment has taken place during the year under report specifically to reduce or monitor energy consumption.

c) Impact of measures (a) above for reduction of energy consumption is likely to result in reduction of cost of production.

2. Technology absorption

a) Efforts made in the technology absorption

In terms of the technical collaboration with Commodore of USA, we have been able to absorb and indigenize the technology for producing machines for manufacture of foamed polystyrene products through the process of tandem extrusion and vacuum forming. All the drawings and process know-how has been fully absorbed by various departments of the Company. This has resulted in significant increase in sales of extrusion machines and thermoformers.

b) Future plan of action

We are making continuous efforts in developing more energy efficient machines with updated technology; energy forms the second largest cost component in producing plastic films and sheets. We are also in the process of exploring joint ventures and technical collaborations with reputed overseas manufacturers for upgrading and adopting higher level of technology at affordable prices.

3. Foreign Exchange earnings and outgo

Particulars	2010-11	2009-2010
Foreign Exchange earned	2851.52	1574.80
Foreign Exchange used	923.57	611.16

Annexure 'B' Management Discussion And Analysis

Industry structure and its developments

Your Company is in the capital goods sector, manufacturing plastic processing machines specifically extrusion and post extrusion machines for producing films, sheets and various thermoformed and vacuum formed products. Your Company strives to provide technologically advanced and affordable solutions to the plastics industry, in the country and worldwide, "Excellence in extrusion", thus pervades each and every facet of your Company's operations and is a distinct expression of the corporate vision and culture.

Plastics have entered each and every walk of life in the modern world and transformed the quality of life. There is no human activity where plastics do not play a key role from clothing to shelter, from transportation to communication and from entertainment to health care. Plastics, because of their many attractive properties, such as lightweight, high strength and ease of processing, meets a large share of the material needs of man, and that too at a comparatively lower cost and causing lower environmental implications. The unique characteristics of plastics like durability, formability, light weight and versatility have enabled their usage in almost everything which helps make life easier and better.

Opportunities and Threats

The plastic processing industry, in fact, offers a huge potential for technology up gradation some of the areas with enormous investment potential for the plastics industry are:

- (a) World-class higher capacity machines
- (b) Enhanced design capabilities, moulds, tools and dies and technological know-how
- (c) Use of intelligent manufacturing to improve productivity and asset utilization.
- (d) Global manufacturing and management practices with an eye for quality and design.
- (e) Development of new products and applications.
- (f) Technology Consultancy and Technology Transfer.
- (g) Foreign Direct Investment in the downstream sector specially in SEZ with tax benefits

The most critical, challenges that Indian plastic industry is facing today is the "image of plastics". Some of the myths perpetuated about plastics are:

- Feared as being toxic
- Could be health hazards
- Maybe harmful to the soil
- Could cause acid rain
- Is not environment friendly
- Has high carbon foot print

These accusations leveled against plastics in general and against plastic industry in particular have been farfetched and without a sound rational basis. This is a key concern. The industry has to take responsible, technically defensible and rational actions in the overall public interest and environmental welfare.

Establishing manufacturing facilities in India by European companies and low quality machines from China are potential threats but your Company is fully geared to handle this challenge owing to superior technology and offering value for money solutions.

Volatility in polymer prices which are influenced by the crude oil prices also brings in elements of uncertainties.

Segment-wise performance

Your Company is operating in one segment only i.e. Plastic extrusion machines specifically film and sheet extrusion. As compared to other players in this segment, your Company has emerged the top performer in terms of growth in sales and profits and market share.

Outlook

Global production and consumption of plastics increased from less than 5 million tonnes in 1950 to 260 million tonnes in 2007. Over a third is used for packaging, while construction products represent almost a quarter.

Strong economic growth in developing Asia has resulted in the demand for key petrochemical products reaching an all-time high. Polymers are used in a wide variety of applications like agriculture, food packaging, healthcare, automotive components and household appliances. Plastics growth will continue to be driven by applications where plastics can deliver a cost advantage and performance enhancement. Global commodity plastics consumption in 2010 was estimated at 196 MMT. Of this, Polyethylene (PE) accounts for 36% of all plastic consumption, followed by polypropylene (PP) which accounts for 25% and polyvinyl chloride (PVC) which accounts for 18% of plastic demand.

The Indian polymer industry is expected to grow at 1.5 to 2 times the GDP growth rate.

The Working Group on Chemicals and Petrochemicals of the Indian Government for 11th Five Year Plan (2007-2012) has identified the demand potential in commodity polymers to go up from 5.3 million tons in 2006-07 to 12.5 million tons with a Compounded Annual Rate of Growth (CARG) of 18 % during the 11th five year Plan. The above mentioned projection will result in an investment and about US \$ 6 billion (Rs. 30,000 crore) in downstream plastic processing sector.

The Working Group made following significant policy recommendations:

Increasing the domestic demand and per capita consumption of plastics from the present 5 Kg. to about 12 Kg by 2013 increasing the competitiveness and polymer absorption capacity of the domestic downstream plastic processing industry by modernizing and technologically upgrading it and freeing it from structural constraints

Your Company is now recognized as a global player and thus affected by the global events. To meet this challenge, your Company has embarked upon an ambitious and focused programme of innovating, absorbing and adopting world class technologies in sheet and blown film extrusion lines. This programme will further catapult the Company and make it distinct and a preferred supplier as compared to the competition.

As a result of the technical collaboration with Commodore Solutions Inc. USA for FPS foam technology, your company has already supplied and commissioned 26 projects in domestic market and one in international market. FPS foamed products for the catering industry, food packaging and construction industry are an emerging trend with huge potential market.

While plastics in packaging is the preferred and accepted material world-wide today the environmental impact is an increasingly important factor when deciding which material to use for packaging. PET is the most recycled resin in the world and the primary advantage of using rPET is a significant reduction of the carbon footprint in addition to reduction in waste going to landfill, land for which is continuously becoming scarce.

Machines for producing rPET sheet earlier were not only expensive but were available only for higher capacities from European/American sources. Rajoo Engineers have already supplied such machines, earlier to Germany and Latin America but recently in India as well.

To cater the large growing automobile white goods industry and other Thick Gage thermoforming applications, your company has expanded the product portfolio of post extrusion machines (thermoforming machines and vacuum formers) by taking over business of Wonderpack Industries Pvt. Ltd, Nasik which will now operate as a division of your Company. Another advantage is that of acquiring the "Wonderpack" brand name and also yet other manufacturing facilities at Nasik.

Your Company thus continues its leadership position in the world market by offering world class technology at affordable price levels.

With its strong engineering skills and language advantage, similar to the IT and automobile industry, India is poised to become an outsourcing hub for supply of parts and assemblies to the developed economies. Your Company has already embarked upon a programme to take advantage of this opportunity for supplying to manufacturers in Russia, Europe and USA.

Your Company has positive outlook for F.Y. 2011-12. The Company will leave no efforts to grab each and every opportunity for growth – both organic and inorganic. The Company also expects to derive a greater operating leverage out of its investments, maximizing shareholders' wealth.

Risks and concerns

After four years of average annual global real GDP growth of better than 4.5 %, the pace of advance has picked up since previous year in the major industrial countries. Most emerging- economies, including India maintain quite strong, albeit somewhat slower growth.

Even in the past, in periods witnessing the severest of downturns and GDP recession, the packaging industry has posted positive growth. After all, people still have to eat and purchase essential products; in fact, one earlier US study showed that, in difficult times, people tend to stay home more and eat out less, actually leading to an increase in the demand of packaged products.

Some segments – like luxury products, white goods and non-essential lifestyle products has been hit and there are also drift towards cheaper and lower value brands or brand variants. This could reflect in sales values coming down but absolute numbers of packages sold will actually grow in line with population growth and demographic dynamics like number of households, nuclear families, working women, disposable incomes/income distribution and middle class aspirations

To improve the workmanship, performance & quality, last year, your company invested in 'SHREE YANTRALAYA' - . the state-of-the-art tooling zone, for ensuring consistently higher accuracy levels in all critical components.

Your Company, being the first one in the Asian industry to introduce machines with “CE “ rating continues to focus on safety of human beings and environment friendly technologies and by reducing the energy consumption while processing.

Effective measures to control and reduce operating costs continue in your Company to meet the future challenges.

Internal Control Systems and their adequacy

The Company has implemented proper and adequate systems of internal control to ensure that all assets are safeguarded and protected against loss from any unauthorized use or disposition and all transactions are authorized, recorded and reported correctly. The Company has also implemented effective systems for achieving highest level of efficiency in operations, to achieve optimum and effective utilization of resources, monitoring thereof and the compliance with provisions all laws including the Companies Act, 1956, Listing Agreement, directions issued by the Securities and Exchange Board of India, labour laws, tax laws etc. It also aimed at improvement in financial management, and investment policy. The System ensures appropriate information flow to facilitate effective monitoring. The internal audit system also ensures formation and implementation of corporate policies for financial reporting, accounting, information security, project appraisal, and corporate governance. A qualified and independent Audit Committee of the Board of Directors also reviews the internal control system and its impacts on improvement of overall performance of the Company.

Material development and human resources / Industrial relation front

Talent and knowledge base have remained keys to your company's competitive advantage. Your company believes that acquiring, nurturing, engaging and retaining talent are base to achieve objectives of the Company. Your Company believes that continuous training & development of inherent skills within employees will help the Company to optimize the productivity and profitability. At the same time, Your company leaves no avenue unexplored to build the cordial and fruitful relations with all employees by understanding their needs, problems and implementing steps to overcome all problems /difficulties faced by 'human assets' of the Company.

Your Board sincerely thanks all the employees who have put in their hard work and helped the company to grow year on year.

Cautionary Statement

All statements made in Management and Discussion Analysis has been made in good faith. Many unforeseen factors may come into play and affect the actual results, which could be different from what the Management envisages in terms of performance and outlook. Market data, industry information etc. contained in this Report have been based on information gathered from various published and unpublished reports and their accuracy, reliability, and completeness cannot be assured.

Factors such as economic conditions affecting demand/supply and priced conditions in domestic & international markets in which the Company operates, and changes in Government regulations, tax laws, other statues and other incidental factors, may affect the final results and performance of the Company and therefore actual performance may differ from projections made by the Company.

Auditors' Report

To,
The Members of Rajoo Engineers Limited

- (1) We have audited the attached Balance Sheet of RAJOO ENGINEERS LIMITED, as at 31st March 2011, the profit and loss account and also the cash flow statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
- (2) We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- (3) As required by the Companies (Auditors' Report) Order, 2003 issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Companies Act, 1956, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said Order.
- (4) Further to our comments in the Annexure referred to above, we report that:
 - (i) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (ii) In our opinion, proper books of account as required by law have been kept by the Company, so far as appears from our examination of those books;
 - (iii) The Balance sheet, Profit and Loss account and Cash Flow Statement dealt with by this report are in agreement with the books of account;
 - (iv) In our opinion, the Balance sheet, Profit and loss account and Cash Flow Statement dealt with by this report comply with the accounting standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 and material deviation, if any, are disclosed in the notes on accounts forming part of Audited Financial Statements.
 - (v) On the basis of written representations received from the directors, as on 31st March 2011, and taken on record by the Board of Directors, we report that none of the directors is disqualified as on 31st March, 2011 from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956;
 - (vi) In our opinion and to the best of our information and according to the explanations given to us, the said accounts give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;
 - a) In the case of the Balance sheet, of the state of affairs of the Company as at 31st March, 2011.
 - b) In the case of the Profit & Loss account, of the Profit of the Company for the year ended on that date; and
 - c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Schedule : N : Significant Accounting Policies

1. **Basis of Preparations of financial statement:**
The Financial statements are prepared in accordance with generally accepted accounting principles under historical cost convention on the accrual basis.
2. **Use of Estimates:**
The presentation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual result and the estimates are recognized in the period in which the results are known /materialized.
3. **Revenue Recognition:**
In appropriate circumstances, revenue income is recognized when no significant uncertainty as to determination or realization exists.
4. **Fixed Assets:**
Fixed assets are stated at cost net of CENVAT, less accumulated depreciation. Direct costs are capitalized until fixed assets are ready for use. Capital work in progress comprised outstanding advances paid to acquire fixed assets and the cost of fixed assets that are not yet ready for their intended use before the balance sheet date are recorded at the consideration paid for acquisition.
5. **Depreciation:**
Depreciation on fixed assets is provided on straight line method (SLM) at the rate specified in schedule XIV of the Companies Act, 1956.
6. **Foreign Currency transactions:**
Foreign currency transaction forward contracts are stated at the forward contract rates while those not covered by forward contracts are restated at the rates ruling at the end of the year. Exchange differences relating to fixed assets are adjusted in the cost of the assets. Any other exchange differences are dealt with in the Profit & Loss A/c.
7. **Investments:**
Long term investments are stated at cost and provisions for diminution in the value of long term investments are made only if such a decline is other than temporary in the opinion of the management.
8. **Retirement Benefits to Employees:**
 - i) **Provident fund:**
The Company's contribution to provident fund and family pension fund is charged to profit & loss account. The company has no further obligation under Employees Provident fund Act.
 - ii) **Gratuity:**
The company has taken a group policy for gratuity with Life Insurance Corporation of India. The contribution on the basis of actuarial valuation is charged to profit and loss account. The company has no further obligation under Gratuity Act.
 - iii) **Leave Encashment:**
The liability for leave encashment payable to employees is debited to profit and loss account as calculated by the management.
 - iv) **ESIC:**
ESIC is applicable for Wonderpack Division Nashik only and the Company's contribution to ESIC is charged to Profit & Loss account. The Company has no further obligation under ESI Act.
9. **Sales:**
Sales is accounted excluding excise duty, service tax and Central sales tax (CST). Value Added Tax (VAT) collected on sales is accounted separately in the VAT - Input Credit Account.

10. Purchase:

Purchase of raw material and components, testing material, consumable stores are accounted excluding excise duty and Central Sales tax. Value Added tax (VAT) paid on purchase is accounted separately in VAT - Input Credit Account.

11. Excise duty (Including Education Cess & Secondary & Higher Secondary Education Cess):

The Excise duty is applicable to Raw Material and finished goods of the company. The company is eligible for CENVAT credit for excise duty paid on purchase of Raw material, Components and Stores. The Balance of CENVAT credit remained unavailed at the end of the year is eligible for carry forward for the purpose of set-off against excise duty payable on sales in subsequent year. The balance of CENVAT credit unavailed at the end of the year is shown under "Excise Duty Receivable" under "Loans and Advances" in the schedule of "Current Assets, Loans and Advances" forming part of Balance Sheet.

12. Sales tax:

- a) The company is eligible for Set off of Value Added tax paid on purchases made from parties situated in the state of Gujarat as per the Provision of Gujarat Value Added Tax Act, 2003 and Maharashtra Value Added Tax Act, 2002. The amount eligible for sales-tax set-off is accounted separately in VAT- Input Credit Account and not included in the purchases of the company.
- b) Value Added Tax collected on sales and eligible for VAT set-off as per the provision of Gujarat Value Added Tax Act 2003 and Maharashtra Value Added Tax Act, 2002 is accounted separately in VAT- Input Credit Account and not included in the sales of the company. The Debit balance of VAT- Input Credit Account represents the excess of VAT paid on purchase over the VAT collected on sales and is shown under "VAT Receivable" under "Loans and Advances" in the schedule of "Current Assets, Loans and Advances" forming part of Balance Sheet.

13. Service Tax:

Service Tax on services availed and services provided are accounted separately in Service Tax Account and set-off is claimed against Excise Duty payable on Sales. The balance of the Service tax Credit unavailed at the end of the year is shown under "Service Tax Receivable" under "Loans & Advances" in the schedule of "Current Assets, Loans and Advances" forming part of Balance sheet.

14. Inventories:

- i) Raw Material & Components
It is valued at Purchase cost excluding Central Excise Duty but including Central Sales Tax and other cost incurred to bring the inventory to present condition and location. The Central Excise duty and Gujarat Value Added Tax paid on purchase are not considered in the valuation of inventories for the following reasons.
 - 1) A purchase is accounted excluding Central Excise Duty and therefore, it is not considered for valuation of Inventories.
 - 2) The Value Added Tax paid on purchases eligible for VAT set-off is accounted separately under VAT – Input Credit Account. It is not included in purchases and therefore, it is not considered for valuation of inventories.
- ii) Testing Material
It is valued at Purchase cost including Central Sales Tax and other cost incurred to bring the inventory to present condition and location.
- iii) Consumable stores
At cost or net realizable value whichever is lower.
- iv) Scrap / Plastic Packing Material for Captive Consumption
At cost or net realizable value whichever is lower.
- v) Stock in Process
It is valued at Raw Material cost plus production cost incurred to bring the inventory to present condition and location.
- vi) Finished Goods

Every business has a responsibility beyond its basic responsibility towards all its stakeholders and society at large. At Rajoo, we believe not only in being a business entity but in being a corporate citizen as well. Our goal for Corporate Social Responsibility is to embrace responsibility for the company's actions and provide impetus for the development of consumers, employees, communities, shareholders, environment and all other members of the public sphere. Right from the time of its inception, Rajoo has always shown its care and concern towards the society. We have well integrated the corporate self-regulation into our business model as well.

Celebration of festivals by helping the underprivileged

During the last year, we put our best efforts to find out effective and efficient ways to contribute to the development of the society. Apart from the regular business practices, we focused on celebrating cultural and national festivals as well. During some auspicious occasions, we distributed sweets and clothes to underprivileged children. Dignitaries were invited to interact with such children on national festivals to make them aware about our country's heritage.

Student Development Programme

Students are the future of the nation and we believe in developing them by giving them practical exposure to industry through summer Internships, projects, visits etc. Schools and colleges from all over

the country are invited to visit our organization and to interact with our mentors. Besides that, our qualified professionals also are visiting various campuses to give their guidance to the students about the industry dynamics and future challenges. Many of such students have been absorbed by Rajoo and are shaping their professional careers with us.

Apart from the practices mentioned above, Blood donation camps and regular distribution of seasonal fruits still remain our ongoing activities.

At Rajoo, we understand the role of society in the sustainability and growth of business. We owe something to the society and try our best to contribute in its development. We still remain responsible and committed to maintain our socially responsible image.

Rajoo, ever since its inception has tried to provide a safe and healthy working environment to all its employees.

Employee safety is top priority at Rajoo and we ensure that all employees use safety equipments while working to avoid any accident. We have also tied up with well known hospitals of the city to provide quick and affordable medical services to our employees and their family members.

Apart from the "Green Field Project" carried out by the organization, it has initiated and executed various activities to ensure the employees find a safe and healthy environment to work.

Rajoo has recently inaugurated a canteen facility for all the employees to have their meals.. The new canteen is capable of accommodating more than 200 employees at a time.

Rajoo has effectively employed renewable energy resources such as solar light and rain water harvesting throughout Rajoo's premises.

Rajoo has also started the mission of "Going Paperless" and that will not only help in ecological responsibility but will also increase work efficiency.

Rajoo has continuously shown concern for the health and safety of its employees. In an initiative, Rajoo organized a free blood check-up camp for all the employees.

The Management has put its best efforts to provide a pleasant environment for all its human assets. Rajoo remains dedicated and committed in its responsibility of ensuring the safety of its all employees.

RAJOO ENGINEERS LIMITED

Registered Office: Junagadh Road, Manavadar - 362 630, Gujarat - India.

Date: 25/06/2011

Dear Shareholder,

The Ministry of Corporate Affairs (MCA) has taken a "Green Initiative in Corporate Governance" (Circular No.17/2011 dated 21.04.2011, Circular No.18/2011 dated 29.04.2011 and Circular No.21/2011 dated 02.05.2011) allowing paperless compliances by Companies through electronic mode. Companies are now permitted to send various notices / documents to its shareholders through electronic mode to the **register e-mail addresses** of shareholders.

Keeping in view the underlying theme and the circulars issued by MCA, we propose to send documents like Notice convening General Meeting (s), Audited Financial Statements, Directors' Report, Auditors' Report or any other communication in electronic form, to the email address provided by you and made available to us by the Depository Participants.

In the records provided to us by the Depository Participants, in case your e-mail address is not registered, kindly inform the same to your Depository Participants. Or you can also register your e-mail address with the Company's Registrar & Share Transfer Agent "Link Intime India Private Limited (formerly Intime Spectrum Registry Limited)", 211, Sudarshan Complex, Nr. Mithakhali Underbridge, Navrangpura, Ahmedabad-380009 Email : **ahmedabad@linkintime.co.in** or inform the Company on the following e-mail address:

compliance@rajoo.com or **relmvr@rajoo.com**

You can also change or register your e-mail address, from time to time, by completing the online registration form "Form for Registering / Changing e-mail Address" on the website of the Company **www.rajoo.com**, under the Investors section.

Please register your e-mail address at the earliest possible, in order to enable us to send the above mentioned documents to you through electronic mode to the e-mail address registered by you.

Please note that these documents will also be accessible on the Company's website **www.rajoo.com** and will be available for downloading by the shareholders. The physical copies of the Annual Report will be available at our Registered Office in Manavadar for inspection during office hours.

Please note that you will be entitled to be furnished, free of cost, with a copy of the documents mentioned above upon receipt of a requisition from you, any time, as a member of the Company. In case you desire to receive the documents mentioned above in physical form, please inform us accordingly.

We are sure you would appreciate the "**Green Initiative**" taken by MCA and your Company's desire to participate in such initiatives. We are looking forward to your whole-hearted support in this initiative and request your co-operation in helping us to implement the same.

Thanking you,

Yours faithfully,
FOR RAJOO ENGINEERS LIMITED
