GLOBAL ECONOMY

The Covid-19 has its considerable impact on the world economy, however the effect has been mitigating with a rollout plan of vaccination across the nations, various Govt. has also come forward with various financial and monetary supports to their economy and the public at large. These efforts have certainly their impact on reinstating and stabilising the economy.

The power sector is due for the major transformation with the introduction of advance technology, the awareness about the climate and demand of green energy and concerns relating to the overall global warming in the world.

The shift of the choices and demand in the world has been significantly rising on the green energy. The increase in the usage of the electric vehicles, digitalisation, battery storage, cyber security, big data analytics, hydrogen fuel are some of the key emerging trends that could profoundly define the way the global power and the related market shall operate in the future.

Global GDP growth is expected to reach 6% in the year 2021, supported primarily by improving prospects in the US, China, and India.

INDIAN ECONOMY

The Indian economy is also impacted heavily with the Covid-19 pandemic and experienced a challenge in FY 2020-21. The lockdown measures, imposed to contain the spread of Covid-19 pandemic in India, overall affected the employment, business, trade, manufacturing, and services activities it had stand still almost all the major economic activities in the Country. The Government came out with various policy reforms and the financial support to curb the overall impact. INDIAN POWER SECTOR OUTLOOK

Continuous power supply and access to cost effective power supply are important for inclusive growth. They are important for growth of industry and citizens of the country. The government is making all the efforts for improving incomes and bringing up the standard of citizens of our country by rapid industrialisation and emphasising on Make-In-India.

The Central Electrical Authority (CEA) forecasts that peak demand of electricity consumption is likely to increase by 150 GW to around 340 GW by 2029-30 from current levels of 190 GW.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The year 2020 was marked by one of the biggest health problems faced by the world in centuries. It had a deep impact on each and every sector of economy and the power sector was also deeply impacted.

However, India's power sector has achieved a lot in past few years including energy access to millions of households even in remote areas of the country, LED lighting by most households in the country and increase of renewable power sources.

The demand of power fell to a large extent in the first two quarters of the financial years but significantly picked up pace in last two quarters, the country recorded highest ever peak power utilisation of 190 GW in FY21.

There is a scope for growth in power demand due to increasing urbanisation, estimated revival of Indian economy upon subsiding effect of Covid-19.

Generation

The Overall generation (Including generation from grid connected renewable sources) in the country has been increased from 1110.458 BU during 2014-15 to 1173.603 BU during the year 2015-16, 1241.689 BU during 2016-17, 1308.146 BU during 2017-18, 1376.095 BU during 2018-19, 1389.121 BU during 2019-20 and 1381.855 BU during 2020-21. However, the electricity generation target of conventional sources for the year 2021-22 was fixed at 1356 BU comprising of 1155.200 BU Thermal; 149.544 BU Hydro, 43.020 Nuclear and 8.236 BU Import from Bhutan.

Fuel

Coal being a major factor in the generation of thermal, power, it is observed that there has been dip in production of coal by CIL, during the financial year 2020-21. CIL and its subsidiaries were able to produce 596.22 MT of coal as compared to 602.14 MT in the previous financial year representing a downfall of 1%. The major reason for such downfall is lower demand from power plants during the fiscal amid reduced electricity requirements.

Transmission

The backbone transmission system in India is mainly through 765 kV, 400 kV and 220 kV AC networks, with the highest transmission voltage level being 800 kV (HVDC). The National Electricity Plan (Volume II-Transmission) i.e. NEP-Trans, has been notified to review the development of transmission system during the 12th Plan Period, the current planning period 2017-22 and the subsequent period 2022-27.

The transmission network in India has grown significantly over the past few years driven by the need to support the growing load and provide connectivity to generation projects. India's power transmission segment is growing mainly due to the thrust provided by the recent policy and regulatory development, as well as government initiatives

Distribution

With a view to improve the financial health of the distribution sector in India, the government is actively looking at adopting the PPP route for state-run distribution utilities. The last fiscal year saw a significant progress towards this intent, with bids for many utilities of states and UTs under the PPP model.

The Distribution sector in India is going through a transformation. The government has announced schemes and decisions towards

addressing the issues in the sector with a liquidity injection of Rs. 90,000 Crores (scaled upto 1.35 Lacs Crore) being announced under the Covid-19 relief package in May, 2020. Expressing a serious concern over the viability of Distribution Companies, the Finance Minister proposed to launch a revamped reforms-based result-linked power distribution sector scheme with an outlay of Rs. 3,05,984 crore over 5 years. The scheme will provide assistance to DISCOMS for Infrastructure creation including pre-paid smart metering and feeder separation, upgradation of systems, etc., tied to financial improvements.

Information Other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's responsibility for the financial statements

The Company's Board of Directors are responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in

aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

TO THE INDEPENDENT AUDITORS' REPORT

ANNEXURE "A"

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our Report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SRM ENERGY LIMITED** ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance or adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation or reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Historical cost is generally based on the fair value of the consideration given in exchange of goods or services.

The principal accounting policies are set out below.

All assets and liabilities have been classified as current or non-current according to the Company's operating cycle and other criteria set out in the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months.

An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets net selling price & value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognized impairment loss is increased or reversed depending upon changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

2.7 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/development of the qualifying asset upto the date of capitalisation of such asset is added to the cost of the assets. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

The Company's obligations recognized in the Balance sheet represents the present value of obligations as reduced by the fair value of plan assets, where applicable.

During Current financial year, Provision for leave encashment is accounted on year to year basis and considered as short term employee benefits and are recognised as an expense at undiscounted amount in the profit and loss account for the year in which the related services are rendered.

2.12 Provisions and Contingent Liabilities

Provisions

The company recognised a provision when there is a present obligation (legal or constructive) as a result of past events and it is more likely than not that an outflow of resources would be required to settle the obligation and a reliable estimate can be made. When the company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may,

but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.13 Taxation

(i) Provision for Current Tax is made after taking into consideration benefits admissible under the provisions of The Income Tax Act, 1961.

(ii) Deferred tax resulting from "timing differences" between book and taxable profit is measured using the tax rates and laws that have been enacted or substantively enacted as on the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

(iii) At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognizes, unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised. The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company write-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

2.14 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.15 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) after tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee

that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any

significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SRM ENERGY LIMITED** ("the Holding Company") and its subsidiary **SRM ENERGY TAMILNADU PRIVATE LIMITED** (the Holding Company and its Subsidiary together referred to as "the Group") as of March 31, 2021 in conjunction with our audit of the financial statements of the Group for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance or adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Group's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment or the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Group's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Group's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Group; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Group are being made only in accordance with authorizations of management and directors of the Group; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Group's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Group has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Significant Accounting Policies

2.1 Statement of Compliance

These consolidated financial Statements are prepared in accordance with Indian Accounting Standard (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments that are measured at fair values, the provisions of the Companies Act, 2013('the Act'). The Ind AS are prepared under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

2.2 Basis of preparation and consolidation

The consolidated financial statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies mentioned below.

Historical cost is generally based on the fair value of the consideration given in exchange of goods or services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The principal accounting policies are set out below.

All assets and liabilities have been classified as current or non-current according to the Group's operating cycle and other criteria set out in the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months.

The consolidated financial statements incorporate the financial statements of the holding company and its subsidiaries. Control is achieved when the group:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

All intra group assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Companies included in Consolidation

Name of the consolidated entity	Country of Incorporation	Nature of Interest	% of Interest

All items of property plant and equipment have been measured at fair value at the date of transition to Ind AS. The Group have opted such fair valuation as deemed cost at the transition date i.e. April 1, 2016.

Cost of acquisition or construction is inclusive of freight, duties, relevant taxes, incidental expenses and interest on loans attributable to the acquisition of qualifying assets, up to the date of commissioning of the assets. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for qualifying assets, upto the date of commissioning of the assets

2.4 Capital Work in Progress:

Project under which assets are not yet ready for their intended use are carried at cost comprising direct cost, related incidental expenses and attributable interest.

2.5 Depreciation

Depreciation has been provided following Written Down Value Method based on life assigned to each asset in accordance with Schedule II of the Companies Act, 2013, unless stated otherwise.

Depreciation is calculated on a pro rata basis except that, assets costing upto ₹ 5,000 each are fully depreciated in the year of purchase.

An item of property, plant and equipment or any significant part initially recognised of such item of property plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

2.6 Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any. For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or Groups of cash-generating units) that is expected to benefit from the synergies of the combination.

2.7 Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/ external factors. An impairment loss is

recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets net selling price & value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognized impairment loss is increased or reversed depending upon changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

2.8 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/development of the qualifying asset upto the date of capitalisation of such asset is added to the cost of the assets. Interest income earned on temporary investment of specific borrowing pending expenditure on qualifying asset is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are expensed in the period in which they occur.

2.9 Leasing

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the group is classified as a finance lease. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

2.10 Foreign Currencies

Foreign Currency transactions are recorded at the exchange rate prevailing on the date of transaction. Foreign currency denominated asset and liabilities (monetary items) are translated into reporting currency at the exchange rates prevailing on the Balance Sheet date. Exchange difference arising on settlement of foreign currency transactions or restatement of foreign currency denominated assets and liabilities (monetary items) recognized in the Statement of Profit and Loss / Pre-operative expenses.

2.11 Employee benefits

Employee benefits such as salaries, allowances, non-monetary benefits which fall due for payment within a period of twelve months after rendering service, are capitalised if related to project else recognised in the

Statement of Profit & Loss in the period in which the service is rendered.

Employee benefits under defined benefit plans, such as gratuity which fall due for payment after completion of employment, are measured by the projected unit credit method, on the basis of actuarial valuation carried out by the third party actuaries at each balance sheet date. The Company's obligations recognized in the Balance sheet represents the present value of obligations as reduced by the fair value of plan assets, where applicable.

During Current financial year, Provision for leave encashment is accounted on year to year basis and considered as short term employee benefits and are recognised as an expense at undiscounted amount in the profit and loss account for the year in which the related services are rendered.

Actuarial gains and losses are recognized immediately in the Statement of Profit & Loss.

2.12 Investments

Investments that are readily realizable & intended to be held for not more than a year are classified as current investment. All other investments are classified as long term investments. Current investments are carried at lower of cost & fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in value is made to recognize the decline other than temporary in the value of investments.

2.13 Provisions and Contingent Liabilities

Provisions

The group recognised a provision when there is a present obligation (legal or constructive) as a result of past events and it is more likely than not that an outflow of resources would be required to settle the obligation and a reliable estimate can be made. When the group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.14 Taxation

- (i) Provision for Current Tax is made after taking into consideration benefits admissible under the provisions of The Income Tax Act, 1961.

- (ii) Deferred tax resulting from "timing differences" between book and taxable profit is measured using the tax rates and laws that have been enacted or substantively enacted as on the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.
- (iii) At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognizes, unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised. The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company write-down the carrying amount of a deferred tax asset to the

extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

2.15 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.16 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) after tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

SHAREHOLDER'S INSTRUCTIONS FOR E-VOTING

During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of September 2, 2021, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter. Members holding shares in physical or in demat form as on cut-off date, i.e., September 2, 2021 shall only be eligible for e-voting
- (ii) Shareholders who have already voted through e-voting prior to the meeting date would not be entitled to vote through physical mode at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, (CDSL) thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
