OPERATIONAL REVIEW

The year under review witnessed a marginal growth in the world economy attributable to a feeble pace of global investment, dwindling world trade, flagging productivity and high levels of debt. The Company thrust is on trading and investment in commodities, forex and derivative products. This will be supplemented through more research and qualitative techniques for decision making.

During the financial year under review, the company has earned an operational profit of Rs. 29.69 lac against the operational loss of Rs. 30.59 lac in previous year. The management of your company expects further improvement in the current year with the growing economic scenario and market conditions.

During the year under review, there was no change in the nature of business of the Company.

ECONOMIC SCENARIO

The global economy continued to be subdued in 2016. The slowdown in the advanced economies of the West adversely impacted growth levels, resulting in the slowing of the world economic growth to 3.1% from 3.4% in the earlier year.

India emerged as a 'bright spot' in an otherwise subdued world economy when it overtook China in 2015-16 as the fastest-growing major economy in the world. Though India's fundamentals still remain strong, the recent demonetisation initiative undertaken by the Indian Government is expected to lower India's GDP growth from 7.6% in FY16 to 6.8% in FY17. India's GDP growth is expected to remain stable during FY18. The Government's stimulus for improving overall business sentiments will be the major growth drivers. Implementation of GST will have a positive impact, going forward.

The Indian Government's decisive policy manoeuvres towards ensuring fiscal consolidation and pegging back inflation will help it maintain economic stability in the years ahead. India's eight core infrastructure industries – coal, crude oil, natural gas, refinery products, fertilisers, steel, cement and electricity

registered cumulative growth of 4.9% during the April-November period compared to 2.5% a year ago.

Your Company is seeking great opportunities in its business segment considering the expected economic development & growths initiatives taken by the government.

OPPORTUNITIES AND THREATS

The Indian economy and markets are standing on stronger and exciting fundamentals. Equities have already begun to discount the prospects of higher growth in earnings with the BSE 200 appreciating 23% during the fiscal year ended March 2017. The Company is looking forward to grasp the available opportunities. The company is continuing with task to build businesses with long term goals through intrinsic strength in corporate and investment research. To accelerate further value creation, your company continues to work on new fields through collaboration, association and strategic investments. The uncertain state of the global economy however remains a cause of concern.

OUTLOOK, RISKS AND CONCERNS

Your Company has been making use of available opportunities in the capital and the commodities markets for its operations, keeping in view its business objectives.

The underlying strength of Indian consumption and demand, continues to remain robust. The country's equity markets remain a favourite of global investors. The performance of your Company is closely linked to those of the stock and commodities markets and more particularly to stock markets. The growth tendencies for 2017-18 are expected to be mostly reflective of the developments in these areas. Your Company is cautiously optimistic in the current scenario and will focus on a well-adjusted portfolio mix, resourceful cost management and risk containment measures in order to sustain profitability.

ANNEXURE “B” TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2(f) under Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of ('the Company') as of 31 March, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountant of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial

statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountant of India.
