Chairman's Message

Dear Shareholders,

It gives me immense pleasure to present to you the 43rd Annual Report for the year 2016-17.

Economic Environment & Fertilizer Industry

The country is set to witness economic growth a leap forward through various reforms / initiatives undertaken by the Indian government including Make in India, Goods and Services Tax (GST), Bankruptcy Code, Digital India, Skill India etc. Further, the De-Monetization decision of the Government during the year had resulted in ample liquidity in the system at reduced lending rates for investment in infrastructure.

Apart from above, increase in Foreign Direct Investment due to above reforms / initiatives of the Gol shall further boost the economic growth and employment in the country.

Regarding Agro economy, the foodgrain production in 2016- 17 has touched a new record of 273.4 million tonnes i.e. 8.7 per cent higher than last year. Further, waiver of loans of farmers and technological interventions like e-trading of agriculture produce by various state governments are likely to make favorable impact in the growth of agriculture economy.

Fertilizers sector being highly energy & capital intensive, cost of fertilizers is unavoidably high. At present, Urea prices are highly subsidized and administered under New Urea policy-2015 whereas P & K Fertilizers are partially decontrolled and subsidy is disbursed based on the nutrient content available in the particular fertilizer under Nutrient Based Subsidy introduced by Gol w.e.f. 01-04-2010.

The country as a whole achieved Urea production of 24.20 Million tons during 2016-17, marginally lower than record Urea production of 24.50 Million tons made during 2015-16. Under 'Make in India' initiative of the Government, all out efforts are being made to revive the closed Urea plants in the country in a time bound manner which shall not only reduce the dependence on imports but also make the country self-reliant in Urea.

The introduction of pooling of gas mechanism in the year 2015-16 has been consistently helping ensuring delivery of gas at uniform and lower price to Fertilizer companies to enable them to make Urea production beyond re-assessed capacity and helping to contain the requirement of working capital to some extent.

During 2016-17, due to higher production and lower consumption of Neem Coated Urea, there has been a significant cut in Urea imports in the country by over 3 million tonnes i.e. 5.5 Million tons against 8.5 Million tons imports in 2015-16. Consequent to the favorable Urea policies notified by Gol during 2015-16, the availability position of Urea in the market remained quite comfortable and probably no shortage of Urea was felt by the farmers during 2016-17.

Implementation of Direct Benefit Transfer of subsidy in Fertilizers sector by Government of India through POS devices is in full swing. After the pilot projects in 16 districts, it is now being rolled out across the whole country. This would ensure to reduced leakage of subsidized fertilizers and there by reduce government's subsidy burden, releasing resources to plough back into agriculture in a way that can help a greater number of poor and marginal farmers.

Performance Highlights

Maintaining the growth momentum, your Company has performed exceedingly well during the year 2016-17. The Company has achieved the ever highest Urea production of 38.10 LMT with an overall capacity utilization of 118% during 2016-17 surpassing the previous best production of 37.99 LMT achieved during 2015-16. Your company is second largest domestic producer of Urea with market share of 15.5%.

On the sales front, the company achieved ever best sale of Fertilizers of 39.75 LMT including record sale of 37.58 LMT of Urea, 2.14 LMT of imported DAP (ever best) and 0.03 LMT of Bentonite Sulphur against previous best of 36.91 LMT during 2015-16 which included 36.41 LMT of Urea and 0.50 LMT of DAP.

During 2016-17, the company recorded ever best sale of Nitric Acid of 67949 MT surpassing previous best of 54559 MT during 2015-16. Besides this, 9293 MT of Ammonium Nitrate was also produced &

sold during 2016-17 after resumption of its production in April 2016 at Nangal Unit after a gap of around 2 years. The company sold 545 MT of Bio-Fertilizers (Solid & Liquid) to the tune of ₹ 2.39 crore as against 530 MT of ₹ 3.01 crore during last year. There has been a surge in fertilizers import business of the company during 2016-17. The company imported and sold 214000 MT of DAP and 3000 MT of Bentonite Sulphur worth ₹ 660 crore during 2016-17 as against 52000 MT of imported and indigenous DAP & Bentonite Sulphur worth ₹ 173 crore during 2015-16.

During the year, Company achieved turnover of ₹ 7663.22 crore (including subsidy of ₹ 4958.15 crore) compared to ₹ 7793.91 crore of the CPLY (including subsidy of ₹ 5430.64 crore). Despite higher sale quantity of Urea by 1.17 LMT as compared to CPLY, the decrease in sales turnover is mainly due to lower subsidy on Urea by ₹ 660 crore mainly due to fall in gas price to USD 8.04 / MMBTU during the year as compared to USD 9.96 / MMBTU during CPLY i.e. decrease of 19.28%.

Company earned profit before tax of ₹ 324.88 crore (CPLY ₹ 288.42 crore) and profit after tax of ₹ 208.16 crore (CPLY ₹ 198.62 crore). The increase in profit is mainly attributed to increase in contribution from sale of Urea beyond re-assessed capacity, increase in profit from traded goods, decrease in finance cost, increase in contribution from Industrial products, decrease in energy consumption, decrease in depreciation charges etc. There has been an adverse impact on the profitability of the company during the year mainly due to increase in marketing expenses due to oversupply situation in the market.

The financial results of 2016-17 are the first financial statements of the company under Indian Accounting Standard (Ind AS), a transition from previous Generally Accepted Accounting Principles (GAAP) to Ind AS which has affected the company's financial position, financial performance and cash flows.

Owing of shift in strategy of the company, the composition of gross sale of the company has undergone visible change. Against the Urea (main product) contribution of 94.49% in the overall revenue of the company during 2015-16, Urea contribution has reduced to 88.31% while contribution of non-Urea business including production & sale of industrial Products & certified seeds, sale of imported fertilizers and trading of certified seeds, agro chemicals etc. under single widow concept has increased to 11.69% during 2016-17.

Agriculture Extension Services

NFL is organizing Agriculture Extension Services with the objective to educate farmers on judicious use of fertilizers along with technical knowhow on improved and scientific methods of cultivation, enhancing farmers' knowledge about latest developments in farming sector thus helping them to increase productivity. It is essential to educate the farmers on issues related to soil testing, soil health, balanced fertilization etc. to optimize farmer's crop yield and farm income. 84 farmer training programmes were organized during 2016-17 and more than 5000 farmers benefited. During the year 2016-17, 87 and 85 demonstrations of Bio Fertilizers and City Compost respectively, were carried out at farmers field to demonstrate the effect of Bio Fertilizers and City Compost on crop growth and yield as compared to farmers' own practices. Under the Government of India's initiative, Company has opened 100 Kisan Suvidha Kendras (KSKs) in various locations in its marketing

territory. The company has also upgraded its Soil Testing Labs at Barabanki and Nangal by installation of Atomic Absorption Spectrophotometer (AAS) for micronutrient analysis. The company also undertook analysis of more than 27000 soil samples for Macro and Micro Nutrients to enable farmers for balanced fertilization.

Human Resource

The Company considers its Human Resource as its most important asset and makes sustained efforts for the development of its manpower. Company has a well-established Human Resource Department to cater to the training needs of employees, keeping in view the changing technology and overall business environment.

The Company had a manpower strength of 3517 employees as on 31-03-2017, which comprises of 1663 Executives and 1854 Non-Executives. The company promotes the employment of women and at present 202 women employees are on its roll, which is 5.74% of the total work force. The detailed analysis with regard to human resource including training, incentives and development programmes has been made in the Management Discussion and Analysis Report.

To improve skills and instil behavioural and personality development traits in all supervisory staff and managerial cadre, NFL organised number of training programmes (in-house as well as external) on contemporary subjects during the year. The training programmes were identified through Performance Management System by synchronizing organizational needs with individual needs. The Company also organized specially designed training programmes for developing women employees in various areas of expertise. In these diverse programmes, 11180 man-days training was imparted to employees and 569 man-days training to women employees.

The industrial relations at all Units / Offices of NFL remained cordial.

CSR Activities

The Company continues to involve in meaningful welfare driven initiatives through Corporate Social Responsibility that distinctively impact the quality of life in society. During the year 2016-17, the Company incurred an expenditure of ₹ 261.77 Lakh towards CSR activities. The company has undertaken projects in the area of Health & sanitation, cancer awareness, distribution of artificial limbs, aids & appliances, skill development especially for women & youth and provision of ambulances in remote areas of Arunachal Pradesh etc.

In addition to above, under company's flagship CSR programme, 10 villages, 5 each in Haryana and M.P have been adopted to demonstrate and encourage the use of city compost which is an organic fertilizer.

Safety, Environment and Sustainable Development

During the year, the Company has undertaken various initiatives for adopting best practices for health, safety, environment management and sustainable development.

In order to monitor the level of emission and effluent discharge from all the units, all the units have installed On-line monitoring system both for effluent and emission discharges. Online monitoring system is integrated with Central and State Pollution Control Boards in order to monitor the level of pollutants on continuous and real time basis.

All the units are having their "Disaster Management Quick Response Team" to address the incidents that may occur outside the factory area for transportation of Liquid Ammonia and Chlorine Gas.

Efficiency of Coal fired Boilers at Nangal, Bathinda and Panipat Units is being improved by using various techniques such as use of Coal additives. This will help to reduce consumption of fossil fuel. Afforestation has been adopted in all the Units to improve the environment surrounding the Units. A total of about 20,000 tree saplings were planted in and around various Units leaving a cleaner and greener earth for future generation. The cumulative plantation since commencement is about 8 lakhs for all the units.

To increase the sub soil water level, all the units are under process of installation of Rain Water Harvesting system. During the year, 5 rainwater harvesting system were installed in Units. This would help in conservation of water, increase in underground water table and increase greenery in the surroundings.

Awards and Accolades

I am happy to share with you that during 2016-17, your company has received number of prestigious awards in different spheres which inter alia include good performance award for excellence in Cost Management from institute of Cost Accountants of India (ICAI), Safety awards from Ministry of Labour & Employment and National Safety Council to Panipat Unit for 2014 and 2016 respectively, best technical innovation award and Environment Protection Award for 2016 to Vijaipur Unit from FAI, National Energy Conservation Award 2016 for Panipat Unit from Bureau of Energy Efficiency. In addition, our Company also received Rashtriya Rajbhasha Award from Hindi Advisory Committee, Ministry of Chemicals & Fertilizers and Government of India.

Growth Drivers

The company is focusing on the following areas for achieving growth in its business:

- Maximization of Urea production in energy efficient manner.
- Production of new products like Bentonite Sulphur etc.
- Maximization of production of Industrial Products including Ammonium Nitrate.
- Production and sale of quality & certified seeds in own brand name through seeds multiplication programme.
- Domestic trading of Agro products like pesticides, compost, Bentonite Sulphur etc.
- Import and sale of fertilizers like Urea, DAP, MoP and complex fertilizers.
- Revival of other closed plants in the country through Joint venture mode.
- Setting up of Di-nitro Tetroxide (N₂O₄) plant at Vijaipur Unit for M/s ISRO on Built, Own, Operate & Supply (BOOS) basis.
- Exploring setting up a DAP and Phosphoric Acid Plant in Algeria in a Joint Venture mode and under buy-back arrangement.

Status of New Projects

In order to meet the demand of Bentonite Sulphur and to improve the

top & bottom line, company is in the process of setting up a Bentonite Sulphur plant of 25000 MTPA capacity at Panipat Unit. The job on LSTK basis was awarded in July 2016 with a scheduled completion period of 14 months. The project is in progress and expected to be commissioned within scheduled time i.e. by September 2017.

The company is also exploring to establish a plant for production of Murate of Potash (MoP) from salt in the Little Rann of Kutch (LRK) region with technical support from M/s CSMCRI, Bhavnagar and project consultancy from M/s PDIL. However, production of 100 MT of MoP from pilot plant of CSMCRI is being undertaken before initiating further action to set up MoP plant on commercial scale.

Corporate Governance

The company is committed to the best practices in the area of Corporate Governance, in letter and in spirit and believes that good corporate governance is much more than complying with legal and regulatory requirements. Good governance facilitates effective management and enables company to maintain a high level of business ethics and to optimize the value for all its stakeholders. Report on Corporate Governance has been brought out separately as an annexure to the Director's Report. All Directors and Senior Management officials have affirmed compliance to Code of Conduct.

I welcome Smt. Meenakshi Gupta, Additional Secretary and Financial Advisor, Department of Fertilizers, Shri D S Ahuja, Director (Technical), Shri Anil Verma, Independent Director, Dr. Ramesh Kumar Agarwal, Independent Director, Dr. Kalpana Saini, Independent Director on joining the Board of the Company and hope that the Company will benefit greatly from their rich experience.

I will also like to place on record deep appreciation for the valuable guidance and significant contributions made by outgoing Directors, Shri Gurinderjit Singh Sandhu and Shri M. Sagar Mathews.

Acknowledgments

I also take this opportunity to express my sincere thanks and gratitude to my colleagues on the Board of Directors for their valuable guidance and support in running the affairs of the company.

I am also thankful for the whole-hearted support received by the Company from Dept. of Fertilizers, Fertilizer Industry Coordination Committee (FICC), Railways and other Ministries and Departments of Government of India and various State Governments, Company's Bankers and Auditors and look forward to their continued support in Company's future endeavors. In particular, I would like to thank all the shareholders for their continued confidence in the Company.

I sincerely thank the employees of NFL at all levels and would like to place on record that without their contribution and dedication, the results achieved would not have been possible. I expect the same determination and spirit to continue in future to further improve the performance of the company.

Trading of DAP and Agricultural Products (Pesticides, Seeds, Bentonite Sulphur, Compost, Bio-fertilizers, etc.)

Sale value of traded products during 2016-17 was ₹ 705.43 crore as against ₹ 284.18 crore achieved during CPLY. The higher sale of traded products was mainly on account of higher purchase and sale of 2.14 LMT of imported DAP and Bentonite Sulphur (by ₹ 269.54 crore) as compared to 0.52 LMT. Sale of seeds during the year was ₹ 14.92 crore as against ₹ 16.80 crore achieved during CPLY. The Company also registered a turnover of ₹ 1.09 crore from sale of compost and ₹ 0.5 crore from sale of industrial chemicals during the year.

Agri-Extension Services

NFL is organizing Agriculture Extension Services with the objective to educate farmers on judicious use of fertilizers along with technical knowhow on improved and scientific methods of cultivation, enhancing farmers' knowledge about latest developments in farming sector thus helping them to increase productivity.

Dealers/Retailers are important link between company and farmers and key change agents in motivating the farmers to use fertilizers in a balanced manner and adopting Integrated Nutrient management. 36 Dealers'/Retailers' Orientation Programmes were conducted during the year and more than 2500 dealers/retailers were facilitated by upgrading their knowledge regarding fertilizer/Agro products and improved farm practices so that latest information can be disseminated to farmers at point of sale to the farmers.

It is essential to educate the farmers on issues related to soil testing, soil health, balanced fertilization etc. to optimize farmer's crop yield and farm income. 84 farmer training programmes were organized during 2016-17 and more than 5000 farmers benefited. During these educational programmes, farmers were sensitized towards soil fertility status including deficiency of various nutrients their remedy to increase fertilizer use efficiency and maximize yields.

During the year 2016-17, 87 and 85 demonstrations of Biofertilizers and City Compost respectively, were carried out at farmers field to demonstrate the effect of Bio fertilizers and City Compost on crop growth and yield as compared to farmers' own practices. These demonstrations are being carried out on long term basis.

During the year 2016-17, under the initiative of Government of India Company has opened 100 Kisan Suvidha Kendras (KSKs) at various locations in its marketing territory.

During the year 2016-17, Company has adopted 10 villages (5 each in Haryana and Madhya Pradesh) for promotion of city compost under CSR, 974 MT of city compost was supplied in these villages for conducting the demonstrations on wheat & mustard crops. These demonstrations on long term basis have been laid out in 10 adopted villages followed by Soil Testing, farmer education programmes and field days to educate the farmers on use and advantage of City Compost.

NFL is making all efforts in rendering advisory services to the farmers by conducting Soil testing. It helps to identify problematic soils, their nutritional status, texture and structure thus helps in identification of soil and crop specific solutions. Based on the analysis, farmers are advised on soil fertility management through rational use of manure, fertilizers and other inputs to make agriculture more productive and sustainable. During the year, more

than 30,000 soil samples were analyzed for major and micro nutrients and recommendations given through six static and four mobile soil testing laboratories. NFL has also upgraded its Soil Testing Labs at Barabanki and Nangal by installation of Atomic Absorption Spectrophotometer (AAS) for micronutrient analysis.

Agricultural Exhibitions and Krishi Melas aim to bring stakeholders from all disciplines of Agriculture like farming, livestock, dairy, import and export, poultry and horticulture sectors under one roof and provide opportunity to demonstrate their products, exchange their views and share ideas for the growth, sustainability and development of these vital sectors of our economy. Participation in agro exhibitions and university Kisan melas is very effective way to communicate directly with the farmers and also to interact with scientists and experts from various agricultural fields. During the year 2016-17, NFL participated in 51 Krishi Melas/agriculture exhibitions organized by leading agriculture universities, agriculture department in Punjab, Haryana, UP, Uttarakhand, MP and Rajasthan wherein more than one lakh dealers/farmers participated.

During the year 2016-17, under farm forestry programme, 16,790 no. of saplings of fruit and commercially valuable plants like Neem, Eucalyptus etc. were planted nearby farmer fields and in common areas in the adopted villages.

Management Discussion & Analysis Report

State of Indian Economy, Agriculture Sector & Manufacturing Industry:

The country's economic growth is projected to be 7.6 per cent for the current fiscal year 2017-18 due to better prospects for the agriculture sector on account of normal monsoon being expected during current year. Recent estimates show that foodgrain production in 2016-17 has touched a new record of 273.4 million tonnes or 8.7 per cent higher as compared to last year. Further, waiver of loans of farmers and technological interventions like e-trading of agriculture produce by various state governments are likely to make favorable impact in the growth of agriculture economy.

Moody's(Rating Agency) has affirmed the Government of India's Baa3 rating with a positive outlook stating that the various reforms by the Indian government including Goods and Services Tax and reform of the bankruptcy code will enable the country perform better compared to its peers over the medium term.

Foreign Direct Investment is on the rise in the country due to various government initiatives like "Make in India", Goods & Service tax, Digital India etc.. The Government of India, under the "Make in India" initiative, is trying to give boost to the contribution made by the manufacturing sector and aims to take it up to 25 percent of the GDP from the current 17 per cent.

Besides above, there is ample liquidity in the system for investment in infrastructure, and bank lending rates have come down post demonetization.

Fertilizer Industry Structure & Developments

Fertilizer industry in India operates in public, private and co-operative sector, with the private sector occupying a larger share in the manufacturing capacity. Fertilizers sector being highly energy & capital intensive, cost of fertilizers is unavoidably high. In order to ensure availability of fertilizers to the majority of the small & marginal farmers at affordable prices, this sector is highly regulated and controlled by (Government of India) for pricing and distribution of fertilizers. At present, Urea prices are highly subsidized and administered under New Urea policy-2015 whereas P & K Fertilizers are partially decontrolled and subsidy is disbursed based on the nutrient content available in the particular fertilizer under Nutrient Based Subsidy introduced by Gol w.e.f. 01-04-2010.

In case of Urea, MRP is fixed by Gol which is currently fixed at ₹ 5360 per MT which is around one third of the current cost of production / imported price.

Apart from domestic production, Gol is also importing Urea through three canalizing agencies viz. MMTC, STC and M/s IPL while import of DAP, MoP and other complex Fertilizers is de-canalized.

The country as a whole achieved Urea production of 24.20 Million tons during 2016-17, marginally lower than record Urea production of 24.50 Million tons made during 2015-16. Under 'Make in India' initiative of the Government, all out efforts are being made to revive the closed Urea plants in the country in a time bound manner which shall not only reduce the dependence on imports but also make the country self-reliant in Urea.

The introduction of pooling of gas mechanism in the year 2015-16 has been consistently helping ensuring delivery of gas at uniform and lower price to Fertilizer companies to enable them to make Urea production beyond re-assessed capacity and helping to contain the requirement of working capital to some extent.

During 2016-17, due to higher production and lower consumption of Neem Coated Urea, there has been a significant cut in Urea imports in the country by over 3 million tonnes i.e. 5.5 Million tons against 8.5 Million tons made in 2015-16. Consequent to the favorable Urea policies notified by Gol during 2015-16, the availability position of Urea in the market remained quite comfortable and probably no shortage of Urea was felt by the farmers during 2016-17.

Implementation of Direct Benefit Transfer of subsidy in Fertilizers sector is in full swing. After successful implementation of 16 pilot projects on DBT, it is now being rolled out across the whole country. This would ensure timely and adequate supply of fertilizers to the farmers, reduce leakage and also reduce the government's subsidy burden, releasing resources to plough back into agriculture in a way that can help a greater number of poor farmers. Under DBT scheme, subsidy on Fertilizers would be transferred directly to the manufacturers on sale of fertilizers through Point of Sale Machines at retailers' level in first phase.

The imbalanced use of fertilizers due to highly subsidized Urea continues to be a big challenge and needs to be addressed on priority. On this front, Gol has been distributing Soil health cards to all the farmers to enable them to get information about nutrients level in the soil to make judicious use of fertilizers through soil and seed testing facilities at retail outlets of fertilizer companies. Fertilizer companies including NFL have been marketing city compost and organizing awareness programs for the farmers to boost the use of city compost to improve soil quality and increase yield of crop in line with a policy of the government on city compost under the Swachh Bharat Abhiyan.

Many challenges being faced by Fertilizer Industry which need to be addressed include delay in payment of subsidy due to inadequate subsidy budget of the Gol for Fertilizers, over regulations and procedural delays, unviable investment by Industry on energy saving schemes to meet the stiff energy norms fixed under New Urea Policy

(NUP-2015) applicable w.e.f. 01-04-2018 without any dispensation from Gol, Implementation of DBT shall further aggravate the problem of working capital due to change of subsidy payment from receipt to sale. Lack of availability of domestic gas, increasing trend in the price of RLNG and lower price of Urea in international market is also adversely impacting the profitability of the Urea manufactures.

The fertilizer industry is highly vulnerable to the adverse climatic conditions as year 2015-16 had witnessed deficient rainfall during two consecutive seasons which badly impacted the fertilizer industry during 2016-17 due to carrying forward of higher inventory of fertilizers and selling expenses.

As a result of the above challenges, further investment in the sector is not coming up especially from private companies despite Government's "Make in India" initiative. Bringing Urea in to NBS policy regime and de-canalization of import of Urea could be some positive steps in this direction.

Opportunities & Threats

Opportunities

- ✓ Growing agricultural economy and Urea demand.
- ✓ Incentive for higher production under NUP-2015.
- ✓ Opportunity for New Investments under NIP-2012.
- ✓ Scaling up production of Bio-Fertilizers.
- ✓ Scope for production & sale of certified seeds.
- ✓ Leverage of existing marketing network for undertaking trading and other businesses.
- ✓ Scope for Increase in capacity utilization of Nitric Acid & Ammonium Nitrate Plants at Nangal.
- ✓ Reduction in gas price enabling additional production.
- ✓ Introduction of Direct Benefit Scheme to Farmers for Urea subsidy to improve cash flow and reduce borrowings.
- ✓ Customized, Fortified, Water Soluble & Liquid Fertilizers for balanced fertilization.

Threats

- ✓ Lower international price of Urea making additional production unremunerative.
- ✓ Inadequate subsidy budget of the Government.
- ✓ Increased Government regulations & procedures.
- ✓ Strict energy norms in 2018-19 under NUP-2015.
- ✓ Inadequate availability of domestic natural gas.
- ✓ Poor quality of coal.
- ✓ Adverse demand supply scenario of Fertilizers due to adverse agro Climatic condition.
- ✓ Volatility in prices of Industrial Products.
- ✓ Decontrol of Urea.

Segment wise or product wise performance

Urea

The Company has achieved the **ever highest Urea production of 38.10 LMT** with an overall capacity utilization of 118% during 2016-17 surpassing the previous best production of 37.99 LMT achieved during 2015-16.

On the sales front, the company achieved ever best sale of Fertilizers of **39.75 LMT** including record sale of 37.58 LMT of Urea, 2.14 LMT of imported DAP (ever best) and 0.03 LMT of Bentonite Sulphur against previous best of 36.91 LMT during 2015-16 which included 36.41 LMT of Urea and 0.50 LMT of DAP.

Industrial Products

During 2016-17, the company recorded ever best sale of Nitric Acid of 67949 MT surpassing previous best of 54559 MT achieved during 2015-16. Besides this, 9293 MT of Ammonium Nitrate was also produced & sold during 2016-17 after commencement of its production in April 2016 at Nangal Unit after a gap of around 2 years.

In terms of revenue generation from production and sale of Industrial products, the company achieved ever best sale of Industrial Products (IP) comprising of Nitric Acid, Sodium Nitrate & Sodium Nitrite to the tune of ₹188 crore during the year against previous best of ₹171 crore achieved during 2011-12 & CPLY of ₹ 142 crore.

Bio-fertilizers

The company sold 545 MT of Bio-Fertilizers (Solid & Liquid) to the tune of ₹ 2.39 crore during the year as against 530 MT of ₹ 3.01 crore during CPLY.

Import & sale of Fertilizers

There has been a surge in fertilizers import business of the company during 2016-17. The company imported and sold 214000 MT of DAP and 3000 MT of Bentonite Sulphur worth ₹ 660 crore during 2016-17 as against 52000 MT of imported and Indigenous DAP & Bentonite Sulphur worth ₹ 173 crore during 2015-16.

Domestic Trading of Agro Products

The company has registered a total revenue of ₹16.51 crore towards trading of various agro products such as seeds, pesticides & compost during the year against ₹16.80 crore during CPLY.

Sale Composition

Item	% of total revenue		% Increase / (Decrease)
	2016-17	2015-16	
Urea	88.31	94.49	(6.54)
Non-Urea	11.69	5.51	112.16

Owing to shift in strategy of the company, the composition of gross sale of the company has undergone visible change. Against the Urea (main product) contribution of 94.49% in the overall revenue of the company during 2015-16, Urea contribution has reduced to 88.31% while contribution of non-Urea business has increased to 11.69% during 2016-17.

Projects completed / underway

Revival of Ramagundam Plant of FCIL through Joint Venture with M/s EIL & FCIL

NFL, in association with M/s EIL and M/s FCIL has formed a Joint Venture (JV) Company as Ramagundam Fertilizers & Chemicals Limited (RFCL) to revive the old FCIL plant at Ramagundam (Annual installed capacity-12.71 LMT of Urea) with a total

estimated project cost of Rs.5254 crore and equity participation of 26% each of NFL and EIL and 11% of FCIL. The foundation stone laying ceremony of the Ramagundam Plant was held on 07.08.2016 through the hands of Hon'ble Prime Minister. Construction work at the project site is in progress. For untied equity portion, Government of Telangana has already given in-principle approval for 11% equity and for balance equity, prospective partners are being explored through outside agency viz. M/s SBI Cap, The company shall be leveraging its existing marketing network to sell 100% Urea to be produced by this JV company and also looking forward to provide requisite trained manpower for operation and management of Ramagundam Plant. The project is expected to be completed by December 2018. M/s GITL is expected to lay the pipeline and supply the gas to the plant by September, 2018.

Bentonite Sulphur Plant at Panipat Unit

In order to meet the demand of Bentonite Sulphur to address the issue of Sulphur deficiency in soil and to improve the top & bottom line, company is in the process of setting up a Bentonite Sulphur plant of 25000 MTPY Capacity at Panipat Unit. The job on LSTK basis has been awarded in July 2016 with a scheduled completion period of 14 months. The project is in progress and expected to be commissioned by December 2017.

Murate of Potash plant in Little Rann of Kutch

To recover potash from salt in the Little Rann of Kutch (LRK) region, Central Salt and Marine Chemicals Institute (CSMCRI) had been engaged who has prepared the feasibility report to set up a plant for production of Murate of Potash (MoP) on commercial basis. Based on this report, the company has given the job of detailed engineering and Project Management Consultancy to PDIL which is underway.

CSMCRI, Bhavnagar and Hindustan Salt Limited are engaged for technical support and to make available raw material & land respectively. However, production of 100 MT of MoP from pilot plant of CSMCRI is being undertaken before initiating further action to set up MoP plant on commercial scale.

However the results of analysis of Mixed Salt collected are not encouraging for producing MOP. Samples from different locations are being extracted to produce Mixed Salt of Desired Quality.

Hooking up of old Synthesis Converter (S-200) in parallel with new Synthesis Converter (S-300) at Bathinda Unit

Towards efforts of energy saving, the company has implemented the hooking up of the old Synthesis converter (S-200) which got rendered redundant after AFCP revamp in parallel with new Synthesis Converter (S-300) at Bathinda Unit during annual shutdown in March / April 2017. Similar hooking up was implemented at Panipat Unit in 2015-16.

Integrated Energy Saving Projects

In order to achieve stringent energy norms applicable w.e.f. 01-04-2018 under new Urea policy-2015, the company is in the process of setting up Gas Turbine Generators along with Heat Recovery Steam Generation (HRSG) Unit at Panipat, Bathinda & Nangal Units with a total estimated cost of ₹ 700 crore. The global NIT has been issued and LSTK job is likely to be awarded by August 2017.

In order to recover the investment required for implementation of these energy saving schemes, Gol has been requested for deferment of new energy norms applicable from 01-04-2018 and for retention of existing DFR norms in respect of Panipat, Bathinda & Nangal Units for a period of at least 5 years post implementation of the project.

NFL Board has also accorded in-principle approval for implementation of energy saving scheme at Vijaipur I & II Units with estimated cost of ₹ 220 crore and targeted energy reduction of 0.21 Gcal/MT and 0.09 Gcal/MT of Urea at Vijaipur I & II respectively.

Industrial Safety, Ecology & Pollution Control

Company strives to achieve excellence in improving employees occupational and personal health by minimizing health hazards and providing model facilities. Company has well equipped hospitals at all the Units. In addition to that the employees have also access to specialized medical services wherever required. Employees also undergo periodic medical examinations.

Company remained focused towards achieving sustained energy efficiency operations of its ageing manufacturing facilities while maintaining pollution free environment and process safety. All manufacturing units continue to be ISO 9001-2008, ISO 14001-2004 and OHSAS-18001 compliant which reflects company's commitment to Quality, Environment and Occupational Health and Safety.

In order to monitor the level of emission and effluent discharge from all the units, all the units have installed On-line monitoring system both for effluent and emission discharges. Online monitoring system is integrated with Central and State Pollution Control Boards in order to monitor the level of pollutants on continuous and real time basis.

Unit level Health and Safety Committees have been constituted at all the Units to address the of health and safety issues. Quarterly review meetings are conducted regularly at all units. Modern method and latest technologies such as 'International Sustainable Rating System', 'Total Quality Management' and 'Hazard and Operability Study' were implemented in various units to improve the process safety.

To safeguard the plants from emergencies like fire, explosion and toxic gas release, "On site Emergency Disaster Plan" and "Off-site Emergency plan" are available at Units. These plans aim to train people act efficiently and confidently in emergency with minimum damage to humans and assets. The procedures are regularly reviewed and updated by carrying out surprise mock drills. Performance of each mock drill is evaluated and reviewed to bring improvements in the systems. Visits of local authorities and central agencies such as National Disaster Management Authority are regularly conducted in order to remain updated on safety related issues in all the plants. All the units are having their "Disaster Management Quick Response Team" to address the incidents that may occur outside the factory area for transportation of Liquid Ammonia and Chlorine Gas.

Efficiency of Coal fired Boilers at Nangal, Bathinda and Panipat Units is being improved by using various techniques such as use of Coal additives. This will help to reduce consumption of fossil fuel.

Afforestation has been adopted in all the Units to improve the environment surrounding the Units. A total of about 20,000 tree saplings were planted in and around various Units leaving a cleaner and greener earth for future generation. The cumulative plantation since commencement is about 8 lakhs for all the units.

To increase the sub soil water level, all the units are under process of installation of Rain Water Harvesting system. During the year, 5 rainwater harvesting system were installed in Units. This would help in conservation of water, increase in underground water table and increase greenery in the surroundings.

Outlook

The company is envisaging the growth in its top & bottom line by adopting various business strategies as under:

- ✓ Maximization of Urea production in energy efficient manner.
- ✓ Production of new products like Bentonite Sulphur, MoP, SSP etc.
- ✓ Maximization of production of Industrial Products including Ammonium Nitrate
- ✓ Production and sale of quality & certified seeds in own brand name through Seeds Multiplication Program.
- ✓ Domestic trading of Agro products like pesticides, seeds, compost, Bentonite Sulphur, etc.
- ✓ Import and sale of fertilizers like Urea, DAP, MoP and complex fertilizers.
- ✓ Sale of Ramagundam Urea on commission basis
- ✓ Providing of trained manpower for operations & management of Ramagundam Plant.
- ✓ Dividend from Ramagundam JV.
- ✓ Establishing global foot prints through setting up fertilizer plant in Joint venture mode and under buy back arrangement.

Risk & Concerns

The major risk & concerns of NFL are outlined below:

- ✓ Higher dependence on subsidy. Delay in receipt of subsidy leads to higher interest cost.
- ✓ Low operating margins in Urea due to tight regulations.
- ✓ Strict Energy Norms for all the plants applicable w.e.f 01-04-2018 under New Urea policy (NUP-2015). Dispensation sought from Govt against investment required to meet energy norms under NUP-2015 in 2018-19 to maintain profitability at all the plants.
- ✓ Lack of Internal resources (funds) for future investment.
- ✓ Bathinda, Nangal and Panipat being old plants consuming high energy.
- ✓ Small Prill size of Urea at Panipat & Bathinda Units leading to lower acceptability in the market.
- ✓ Dependence of Nangal Unit on external power.

Risk Management Policy

The chemical fertilizer industry is operated in a hazardous environment and faces many risks including those related to health, safety and environment in addition to general business & financial risks. In order to mitigate them, the company has a comprehensive Risk Management Policy which is regularly reviewed and a periodical review of the risks, procedures and strategies is undertaken. Risks are analyzed at the highest level by a Board level Audit Committee and efforts are made in a planned way to obviate the risks either fully or to minimize their impact.

Internal Control Systems and their adequacy

The Company has a sound system of internal controls that ensures compliance with statutory requirements, regulations and implementation of various policies and guidelines. Besides Statutory Audit by C & AG appointed Auditors, regular and exhaustive internal audits are conducted by independent chartered accountant firms in close co-ordination with NFL's Internal Audit Division to examine, evaluate, monitor and report on adequacy and effectiveness of the system of checks and balances is in place, compliance with policies, plans and statutory requirements, to protect its resources against waste, fraud and in-efficiency and to ensure accuracy and reliability in accounting and operating data.

The policies and guidelines are in the form of various codes, manuals and procedures, issued by the management, covering all critical and important activities viz. Budget, Purchase, Material, Stores, Works, Finance, Human Resources etc. Internal Audit Programme is approved by Audit Committee of Directors and is conducted as per Accounting Standards and these codes, manuals, procedures, etc. that are updated from time to time. The observations/recommendations made by the auditing agencies are reported to Management Audit Committee and the Audit Committee of Directors along with a report of compliance of directions issued in the past. The quarterly financial statements as also reports of statutory and Government Audit are reviewed by the Audit Committee of Directors before they are submitted to Board of Directors.

The Company has a well-defined Delegation of Powers in place, which lays down the powers for different managerial levels to facilitate faster decision making. The various policies, procedures and guidelines are continuously reviewed to improve effectiveness of the systems.

The Company has a full-fledged Vigilance Division to oversee that the guidelines of the Government and the rules/procedures of the company are strictly adhered/ implemented in all matters. The Vigilance Division conducts regular inspection of various activities in Manufacturing Units, Zonal Offices and other Offices for taking corrective/preventive action.

Internal financial controls and its effectiveness

As per assessment done by an external auditor, internal controls over periodic financial reporting in the company for the year 2016-17 have been found effective in general except few deficiencies which are not likely to lead to any major misstatement in the annual financial statements. However, company is gearing up to integrate existing home grown on line applications in vogue for different business functions in a seamless way to gain greater benefits in terms of improved MIS, faster declaration of results and greater analysis of operational parameters which shall facilitate easier decision making and improved control on financial reporting.

Financial Performance

During the year, Company achieved turnover of ₹ 7663.22 crore (including subsidy of ₹ 4958.15 crore) compared to 7793.91 crore of the CPLY (including subsidy of ₹ 5430.64 crore). Despite higher sale quantity of Urea by 1.17 LMT as compared to CPLY, the decrease in sales turnover is mainly due to lower subsidy on Urea by ₹ 660 crore mainly due to fall in gas price to USD 8.04 / MMBTU during the year as compared to USD 9.96 / MMBTU during CPLY i.e. decrease of 19.28%.

Company earned profit before tax of ₹ 324.88 crore (CPLY ₹ 288.42 crore) and profit after tax of ₹ 208.16 crore (CPLY ₹ 198.62 crore). The increase in profit is mainly attributed to increase in contribution from sale of Urea beyond re-assessed capacity, increase in profit from traded goods, decrease in finance cost, increase in contribution from Industrial products, decrease in energy consumption, decrease in depreciation charges etc. There has been an adverse impact on the profitability of the company during the year mainly due to increase in marketing expenses due to oversupply situation in the market.

The financial results of 2016-17 are the first financial statements of the company under Ind AS, a transition from previous GAAP to Ind AS which has affected the company's financial position, financial performance and cash flows.

The short-term borrowings of the company as at 31st March, 2017, stood at ₹ 3153.73 crore including cash credit utilization, short-term loans, working capital demand loan etc. (₹ 4295.32 crore as at 31st March, 2016). The short-term borrowings are lower as compared to CPLY due to better realization of subsidy as compared to CPLY and decrease in working capital requirement due to fall in gas price.

For changeover of feed stock from LSHS/FO to Gas at Nangal, Panipat & Bathinda units, Rupee Term Loan of ₹ 3850 crore was arranged from consortium of 13 Banks with SBI as a lead Bank, of which, ₹ 3080 crore was paid up to 31st March, 2017. As on 31st March, 2017 long term loan of ₹ 770 crore was outstanding which is to be repaid in four equal quarterly installment of ₹ 192.50 crore up to March-2018.

For Energy Saving and Urea Capacity Augmentation Project at Vijaipur-I & II, and installation of Carbon-Dioxide Recovery (CDR), long term loan was raised by way of 9.42% Secured Redeemable Non-Convertible Taxable Bonds of ₹ 100.40 crore, which has been fully repaid by September 2016.

Further the Buyer's credit of USD 15.68 million also raised for the same project which has already been repaid up to 31st March, 2016 and External Commercial Borrowing (ECB) of USD 50 million out of which USD 13.05 million has been repaid up to 31st March, 2016. Balance ECB of USD 36.95 million (availed from SBI New York Branch) has been refinanced from DBS Bank Limited Singapore on 6th January 2016 at reduced interest cost and extended maturity. A saving of 1.04% has been achieved in all in cost.

Analysis of the Financial Performance of the Company:

(a) Turnover

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Sales Turnover (Gross)	7663.22	7793.91	(1.68)

The decrease in sales turnover is mainly due to lower subsidy on Urea by ₹ 660 crore due to fall in gas price to USD 8.04 / MMBTU during the year as compared to USD 9.96 / MMBTU during CPLY i.e. decrease of 19.28%.

(b) Consumption of Raw Materials

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Raw Materials Consumed	3015.06	3636.43	(17.08)

The decrease in raw material consumption expenditure by ₹621.37 crore as compared to CPLY is mainly due to fall in prices of gas (\$ 8.04 per mmbtu during current year from \$ 9.96 per mmbtu during CPLY) due to uniform pool gas pricing mechanism applicable w.e.f. June 2015 although there is increase in production as compared to FY 2015-16.

(c) Finance Cost

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Finance Cost	189.75	228.42	(16.93)

Reduction in finance cost by ₹ 38.67 crore is achieved due to lower interest rates, efficient borrowings and subsidy received at concessional interest rate of 1.75% per annum against Special Banking Arrangement (SBA). There was direct saving in interest cost of around ₹ 6.32 crore due to SBA vis-à-vis borrowing through commercial papers (CPs).

(d) Repairs & Maintenance

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Repairs and Maintenance	82.19	81.59	0.74

Plants at Nangal, Bathinda and Panipat are more than 30 years old. In view of their vintage, they require regular maintenance to run smoothly & efficiently. For regular maintenance, contracts are lined up in each Unit besides other unforeseen repairs of plants owing to breakdown / tripping, etc.

(e) Employees Benefits

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Employee Remuneration & Benefits	488.08	457.18	6.76

Employee cost has increased from ₹ 457.18 crore to ₹ 488.08 crore (by ₹ 30.90 crore) mainly due to consideration of 3rd Pay Revision Committee Report (₹ 25.20 crore on estimated basis), actuarial valuation considered on account of reduction in discounting rate which is based on rate of interest on government securities in respect of gratuity, leave encashment etc. (₹ 1.62 crore).

(f) Power and Fuel

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Power and Fuel	2213.12	2423.93	(8.70)

The decrease in power and fuel consumption expenditure by ₹210.81 crore is mainly due to fall in prices of gas as mentioned earlier due to uniform pool gas pricing mechanism applicable w.e.f. June 2015 although there is increase in production as compared to FY 2015-16.

(g) Freight and Handling

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Freight and Handling	544.79	435.81	25

Freight and handling expenditure has increased by ₹ 108.98 crore as compared to CPLY due to higher dispatches of DAP of 2.14 LMT as against 0.51 LMT during CPLY. Further, freight (mainly pass through) on Urea has increased due to higher dispatches (by 0.66 LMT), dispatches to distant destinations and change in system of re-imbursement of freight to dealers from per MT fixed to Per MT normative basis (as reimbursed by DoF).

(h) Other Expenses

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Other Expenses	192.03	147.54	30.15

Other expenses (₹192.03 crore) have increased by ₹44.49 crore as compared to CPLY (₹147.54 crore) mainly due to higher rent (₹9.96 crore), security expenses which are mainly due to 7th pay commission impact on CISF salaries (₹9.30 crore), sales promotion and publicity expenses (₹6.16 crore) and other administrative expenses (₹9.01 crore) mainly due to higher rebate to dealers as inventory carrying cost and adhoc payment for out of court settlement of contract labour etc.

(i) Interest Earned

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Loan to Employees, Term deposit etc.	15.48	10.75	44

Reason for Variation

Increase in interest income on term deposit etc.

(j) Other non-operating Income

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Other Income (Rent, profit on sale of assets, scrap, misc. income etc.)	29.11	35.78	(18.64)

Reason for Variation

Decrease due to decrease in rental income, sale of scrap and other miscellaneous income.

Financial Status

(a) Fixed Assets

(₹ in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Tangible Assets	4046.67	4239.44	(4.55)
Intangible Assets	11.86	19.16	(38.10)
Capital work in progress	50.57	32.62	55.03
Total	4109.10	4291.22	(4.26)

Reason for Variation:

Assets were reduced by ₹ 182.12 Cr. due to depreciation charge of ₹ 272.33 Cr., additions in assets of ₹ 84.35 Cr. and increase in capital work in progress of ₹ 17.95 Cr.

(b) Non-current Investment

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Investments (Net of Provisions)	125.47	15.47	711.05

Reason for Variation:

Increase due to increase in equity investment of Ramagundam Fertilizers & Chemicals Limited.

(c) Inventories

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Raw Materials	1.39	2.44	(43.03)
Stores and Spares (Incl. packing material)	186.92	145.95	28.07
Semi-finished / finished products	386.84	337.21	14.71
Total	575.15	485.60	18.44

Reason for Variation:

Stock of Urea has increased by 0.52 Lakh MT as compared to 31st March 2016 due to excess supply situation in the Market.

(d) Trade Receivables

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Gross Debtors – FICC	4044.92	4604.28	(12.15)
- Others	233.47	209.46	11.46
Less: Provision for Doubtful Debts	(10.96)	(10.97)	0.09
Net Debtors	4267.43	4802.77	(11.15)

Reason for Variation:

Subsidy receivable from FICC has decreased mainly due to higher receipt of Subsidy as compare to CPL. Trade receivable from market have increased due to higher sale of DAP and oversupply situation of fertilizers in market.

(e) Current Assets – Other Financial Assets

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Other Financial Assets	668.82	1222.36	(45.28)

Reason for Variation:

Other Financial Assets includes Capital Subsidy receivable from GOI for Ammonia Feed Stock Changeover Project (AFCP) has decreased due to capital subsidy received during the year.

(f) Current Liabilities

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Short Term Borrowings	3153.73	4295.32	(26.58)
Trade Payables	400.70	306.80	30.61
Other Financial Liabilities	1088.20	1104.44	(1.47)
Provisions	109.71	78.87	39.10
Total	4752.34	5785.43	(17.86)

Reason for Variation:

Short Term Borrowings have decreased due to reduction in borrowing in view of reduction in gas prices. The increase in trade payables is mainly attributed to increase in gas supplies.

(g) Non-current Liabilities

(₹. in crore)

Particulars	FY 2016-17	FY 2015-16	Change (%)
Long Term Borrowings	172.35	985.99	(82.52)

Reason for Variation:

Decrease in Long Term Borrowings is due to repayment of Rupee Term Loan and External Commercial Borrowing for financing the project of changeover of Feed Stock at Nangal, Bathinda and Panipat Units and Energy saving scheme and capacity enhancement at Vijaipur.

The company has also set in place various policies, with due approval from its Board encompassing the entire gamut of its performance and operations. The company's Business Responsibility Policy also covers aspects related to ethics, bribery and corruption.

Principle 2: Product Lifecycle Sustainability (Safety & Sustainability of Goods & Services)

The ultimate goal of sustainability in this context is a closed-loop product life cycle, in which all elements that go into production of a product are reused, recycled or remanufactured rather than discarded.

The company has been manufacturing and marketing Urea and other allied products in a responsible manner for decades and established consistent commitment to productive economic activity and sustainability.

In line with the objectives to achieve safer & sustainable operations, the company has undertaken / implemented the following measures / schemes for achieving the above objectives:

- a) All the plants of NFL are certified under ISO-9001, ISO-14001 and OHSAS-18001 for compliance and maintenance of quality, environment and occupational health and safety management respectively which ensure that all the goods and services procured, manufactured and delivered by NFL comply with the principles of labor practices, human rights, ethics, occupational health, safety and environment..
- b) Carbon Di-oxide Recovery (CDR) plant established at Vijaipur Unit for recovery of CO₂ gas from flue stack leading to higher Urea production and lower carbon footprints.
- c) Purge Gas recovery System installed at Vijaipur Units to recycle the purge gas for production of additional ammonia.
- d) Nox emissions (gaseous effluent) from Nitric Acid plant at Nangal Unit being converted in to saleable products viz. Sodium Nitrate & Sodium Nitrite.
- e) Production of three strains of liquid and solid bio-fertilizers.
- e) Roof Solar Power plants of 100 KW set up at its Corporate Office, Noida and Bathinda Unit.
- f) All the Manufacturing Units have state of the art effluent treatment plants for treatment of solid, liquid and gaseous effluents. The treated liquid effluent is being recycled / reused for the horticulture purpose in the township.
- g) Composting of Bio-degradable waste being done at its Nangal & Vijaipur units.

Principle 3: (Employee Well Being)

NFL believes that workforce is the greatest asset that propels the growth engine. Employees are considered as "Change Catalysts" and the Company nurtures and channelizes the expertise and talent of people for growth, performance, feedback, motivation and training. Certificate on Corporate Governance

To,
The Members,
National Fertilizers Limited,

We have examined the compliance of conditions of Corporate Governance by National Fertilizers Limited for the year ended 31st March, 2017, as prescribed in Regulations 17 to 27, 46 (2) (b) to (i) and para C, D and E of Schedule V of Chapter IV of Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter called as "SEBI (LODR) Regulations, 2015") and guidelines on Corporate Governance for Central Public Sector Enterprises issued by Department of Public Enterprises (DPE), Government of India.

The compliance of conditions of Corporate Governance is the responsibility of the management of the Company. Our examination has been limited to review of procedures and implementations thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance as stipulated in the said clause and guidelines. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us and based on representations made by the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulations 17 to 27, 46 (2) (b) to (i) and para C, D and E of Schedule V of Chapter IV of SEBI (LODR) Regulations, 2015 and DPE Guidelines on Corporate Governance except:

i) Regulation 17 (1) of SEBI (LODR) Regulations, 2015 and Para 3.1.2 & 3.1.4 of the DPE Guidelines on Corporate Governance require that in case the Chairman is an Executive Director, at least half of the Board should comprise of Independent Directors. At present, the Board of Directors of the Company is headed by an Executive Chairman. Accordingly, the number of Independent Directors should have been at least 50% of the Board Members, however, during the year Company did not have required number of Independent Directors.

ii) Regulation 17 (10) of SEBI (LODR) Regulations, 2015, that required: Performance evaluation of Independent Directors shall be done by the entire Board of Directors.

iii) Regulation 25 (4) (a) and (b) of SEBI (LODR) Regulations, 2015, that required: Independent Directors in their meeting shall review the performance of non-independent directors and the Board as a whole; review the performance of the Chairperson of the company.

The Independent Directors met on 02.05.2016 and 14.02.2017 whereas inter-alia the review of performance of the Board as a whole was made. Further at the said meeting, the Independent Directors also assessed the quality, quantity and timeliness of flow of information, as required under Regulation 25(4) (c) of SEBI (LODR) Regulations, 2015.

The appointment of functional Directors, part-time official Directors as well as Independent Directors on the Board of NFL is made by Government of India (GOI). Further, terms & conditions of appointment as well as tenure of Directors are also decided by GOI and there is a well laid down procedure for evaluation of functional Directors and C&MD by Administrative Ministry.

We further state that such compliance certificate is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

2. Energy Conservation Measures

Commitment to achieve lowest possible energy consumption is one of the foremost goals of the company. Taking this forward, Purge Gas Recovery plant has been commissioned in Ammonia plant of Vijaipur II at an estimated cost of ₹ 29.01 Crore. With the commissioning of PGR, NFL Vijaipur has further increased its Urea Production by 149 MT per day and reduction of 0.06 Gcal/MT Urea in energy consumption.

At Panipat & Bathinda Unit, the redundant S-200 synthesis converter has been re-installed in parallel to S-300 to further bring down the energy consumption by 0.012 GCal/MT & 0.0155 GCal/MT of Urea with an estimated cost of ₹ 1.13 Crore & ₹ 0.85 Crore respectively.

Preventive maintenance practices have been adopted for reducing the downtime leading to improved energy consumption. Bathinda Unit achieved on-stream efficiency of 96.03% while Panipat, Vijaipur I and Vijaipur II Units achieved an on-stream efficiency of more than 92 %.

3. Technology Absorption

- In order to improve efficiency of coal fired boilers, trial run of use of coal additives were made by each of the Units. Based on the results of the trial runs done at Units, it was observed that combustibles in fly ash reduce leading to improvement in boiler efficiency. Thus coal additive is being used at Panipat Unit while procurement of coal additive is in progress at Nangal and Bathinda Units.
- At Panipat Unit Vibro prillers were installed and trials were conducted. Though Improvement was there but increase in prill size could not be achieved on continuous basis. Vibro prilling system could not perform during summer months and its use was discontinued. Presently, Proposal for new 1800 MTPD Prilling Tower is under consideration for Panipat & Bathinda Units.
- Procurement of make-up gas chiller in the synthesis gas compressor is in progress at Vijaipur II to improve energy consumption.
- Additional Cooling Tower cells of Ammonia-II & Urea II have been installed for reliable and sustained operation of plant.
- To meet revised energy norms as stipulated in New Urea Policy-2015, NIT for installation of GTG & HRSG at Panipat, Bathinda & Nangal has been issued with estimated cost of ₹ 696.74 Crore to bring down the energy consumption of Urea to the tune of 6.5 GCal/MT of Urea. Last date for bid submission was 27.07.2017. Four bids received on due date. Technical bids are being evaluated.

4. Foreign Exchange Earnings and outgo

The foreign exchange earnings by way of trade margins during the year was 'NIL'. The foreign exchange outgo by way of imports and other expenses amounted to ₹ 519.12 crores.

Report on Safety, Environment and Sustainable Development

Inclusive and sustainable development is the need of the hour in view of increasing climatic changes and rising disparities in the society at large. Company has taken various initiatives in adopting best practices for health safety and environment management, energy conservation and social up-liftment leading to sustainable development.

Health, Safety and Environmental Consciousness:

Company strives to achieve excellence in improving employees occupational and personal health by minimizing health hazards and providing model facilities. Company has well equipped hospitals at all Units. In addition to that the employees have also access to specialized medical services wherever required. Employees also undergo periodic medical examinations.

Company remained focused towards achieving sustained energy efficiency operations of its ageing manufacturing facilities while maintaining pollution free environment and process safety. All manufacturing units continue to be ISO 9001-2008, ISO 14001 and OHSAS-18001 certified which indicate Company's commitment to quality, Environment and Occupational Health and Safety.

To tackle climate change company remained focused towards achieving a low carbon society, reducing emission level and effluent discharge from the units. All the units have installed On-line monitoring system both for effluent and emission discharge. On-line monitoring systems are already integrated with Central and State Pollution Control Board in order to monitor the level of pollutants on continuous basis.

Board Level Health and Safety Committee are meeting at regular intervals to address the Health and Safety issues of all the Units. Quarterly review meeting are conducted regularly at all units. Modern method and latest technologies such as 'International Sustainable Rating system', 'Total Quality Management' and 'Hazard and Operability Study' have been implemented in various units to improve process safety.

To safeguard the plants from emergencies like Fire, Explosion and Toxic gases, "On site Emergency Disaster Plan" are available in units. Plan aims to train people act efficiently and confidently in emergency with minimum damage to humans and asset. The procedures are regularly reviewed and updated at the company by carrying out surprise mock drills. Performance of each mock drill is evaluated and reviewed to bring improvements in the system. Visits of local Authorities and central agencies such as National Disaster Management Authority are regularly conducted in order to remain updated on safety related issues in all the plants. All the units are having their "Disaster Management Quick Response Team" to address the incidents that may occur outside the factory area for transportation of liquid Ammonia, Chlorine Gas and Ammonium Nitrate.

To protect, restore and promote sustainable use of trees and trial ecosystem, afforestation has been adopted in all units to improve the environment surrounding the units. A total of 21000 tree saplings were planted in and around various units leaving a cleaner and greener earth for future generation. The cumulative plantation since commencement is about 8.21 lakhs for all the units.

Sustainable development is the solution to the problems of environmental degradation. All units of NFL are under process of installation of Rain Water Harvesting System to increase the sub soil water level. Five (05) rain water harvesting system were installed in units. This would help in conservation of water, increase in underground water table and increase greenery in the surroundings.

Use of Green Power :

Company is committed to promote ecologically sustainable growth by utilizing cleaner fuel i.e. Natural Gas for power generation at its units, presently using coal for power generation. NFL is in the process of installing GTG (Gas turbo Generator) along with heat recovery steam generation (HRSG) at Nangal, Bathinda & Panipat Units for reducing the energy consumption and CO2 emission of plants.

To ensure affordable, reliable, sustainable and modern energy for the community, about 80 Nos of solar street light have been installed in near by village of all NFL Units. All Units are in the process of replacing existing conventional lights with ecofriendly LED lights.

Development of Sustainable Product :

Neem Coated Urea: During 2016-17 the total production of Neem Coated Urea was 38.10 lakh MT. Neem Coated Urea is useful for slow release of Nitrogen in soil as compared to normal Urea. Further, it acts as a bio-pesticide for crops.

Manufacturing of Bio fertilizers : Bio Fertilizers more commonly known as microbial inoculants are artificially multiplied cultures of certain soil organisms that can improve soil fertility and crop productivity. Besides accessing nutrients, bio fertilizers control soil borne diseases and improve the soil health and soil properties. Bio fertilizers help in effective use of Chemical Fertilizers for higher yields.

Company is currently producing three types of bio fertilizers in both powder and liquid base i.e. Rhizobium, Azectobactor and PSB. To increase the shelf life of Bio Fertilizers, NFL is gradually shifting from Powder Bio Fertilizers to Liquid Bio Fertilizers. This has resulted in less use of lignite, which is used as a carrier for Powder Bio Fertilizers. This has also resulted in lesser use of Natural resources. During 2016-17, the sale of Liquid & Powder Bio Fertilizers is 545 MT.

City Compost -- NFL is committed to Government of India's dream of Swachh Bharat Mission by marketing of 2660 MT of city compost sourced from manufacturers located in various states during 2016-17. City Compost is a soil conditioner which is produced out of bio-degradable waste. Compost from city garbage would not only provide carbon and primary/secondary nutrients to soil but also help in keeping the city clean. Use of City Compost is also undertaken by NFL in the adopted villages in the states of Haryana and Madhya Pradesh. NFL is further working to increase trading business in this fields.

Procurement made from Micro and Small Enterprises (MSEs) during 2016-17

Public Procurement Policy for Micro and Small Enterprises (MSEs) notified by the Government of India under the Micro, Small and Medium Enterprises Development Act, 2006 stipulates that 20% of total annual procurement of goods and services shall be made by all Central Ministries /Departments /CPSUs from Micro & small Enterprises (MSEs). Within this percentage, a sub total of 4% procurement is to be made from MSEs owned by SC/ST entrepreneurs. The Policy has become mandatory w.e.f. 01.04.2015.

Clause no. 12(2) of MSMED Act inter alia stipulates that Central Ministries or Departments or Public Sector Undertakings can be considered for exemption from 20 % target of mandatory procurement from MSEs on case to case basis.

NFL has requested Ministry of Micro, Small and Medium Enterprises through Ministry of Chemicals & Fertilizers for waiver from mandatory procurement of 20 % from MSEs for following items required for fertilizer business, since the same are not available from MSEs:

- Raw Materials (Natural Gas/RLNG etc.).
- Traded products (DAP, Bentonite Sulphur, seeds, pesticides etc.).
- Power and fuel (Coal etc.).
- Petrol, diesel, Lubricants etc.
- OEM spares (Proprietary/Imported).
- High tech items, services and consultancies, etc.

NFL has taken following actions to maximize procurements from MSEs:

- i. Items identified for procurement from MSEs at respective plants have been displayed on NFL website www.nationalfertilizers.com. All other items which are being procured at our units are also displayed on NFL website for prequalification of Vendors, for wider participation by suppliers including MSEs.
- ii. Enabling provisions have been made in Purchase Manual for providing purchase preference for participating MSEs including SC/ST bidders in case they match L1-Price as per Procurement Policy.
- iii. Units have been instructed to buy exclusively from MSEs their requirements of 358 items reserved for procurement from MSEs.
- iv. Nodal officers have been appointed for respective Units to help/provide hand holding support to local MSEs.
- v. Vendor development programmes have been organized by Panipat and Bhatinda units. One Vendor development programme by Nangal unit has also been organized for MSEs promoted by SC/ST entrepreneurs exclusively, during 2016-17.

With concerted efforts NFL has been able to achieve a percentage of 31.18 % during 2016-17 against earlier achievement of 20% during 2015-16 from MSEs, out of total procurement of Goods and Services excluding Raw materials, traded products, Power & Fuel, and other goods/services which cannot be procured from MSEs.

The details of the procurement of Goods and Services made by Company during 2016-17 are as below:

₹ in crore

Sr. No.	Particulars	Annual procurement Target for the year 2016-17	Target achieved for the year 2016-17
I.	Annual procurement of Goods and Services*.	200.00	335.81

INDEPENDENT AUDITOR'S REPORT

To the Members of
National Fertilizers Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of National Fertilizers Limited ('the Company'), which comprise the balance sheet as at 31st March 2017, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Standalone Ind AS financial statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31st March, 2017, and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

ANNEXURE "B"

The Annexure referred to in Independent Auditor's Report to the members of the Company on the standalone Ind AS financial statement for the year ended 31st March, 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of National Fertilizers Limited ("the Company") as of 31st March 2017 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements and Significant Accounting Policies

1. Company Overview and Significant Accounting Policies

1.1 Company Overview

National Fertilizers Limited (the 'Company') is a company limited by shares, incorporated and domiciled in India. The Company is engaged in production and marketing of Neem Coated Urea, Bio-Fertilizers (solid & liquid) and other allied Industrial products like Ammonia, Nitric Acid, Ammonium Nitrate, Sodium Nitrite and Sodium Nitrate. The Company is also engaged in trading of Imported and Domestic Fertilizers, Compost, Seeds, Agro Chemicals and other Agro products. The registered office of the company is located at New Delhi, India. The Government of India is the principal shareholder of the Company. The shares of the Company are listed on National Stock Exchange ("NSE") and the Bombay Stock Exchange ("BSE"), India.

The financial statements are approved for issue by the Company's Board of Directors on 18-05-2017.

1.2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.2.1 Basis of preparation

(a) Compliance with Ind AS

The financial statements prepared on accrual basis, as a going concern, comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] (as amended) and other relevant provisions of the Act.

The financial statements up to year ended 31 March 2016 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These financial statements are the first financial statements of the Company under Ind AS. Refer note 59 for an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

(b) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) and contingent consideration that is measured at fair value;
- assets held for sale — measured at fair value less cost to sell; and
- defined benefit plans — plan assets measured at fair value

1.2.2 Use of estimates

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates and judgments affect the application of accounting policies and the reported amount of assets and liabilities, the disclosure of contingent assets and contingent liabilities at the date of financial statements and the reported amount of revenue and expenses during the period. Application of accounting policies that require critical accounting estimates involving judgments have been disclosed in note (1.2.3).

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of change in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in the notes to the financial statements.

1.2.3 Critical Accounting Estimates and judgments

(a) Property Plant and Equipment:

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(b) Revenue Recognition

Price and Freight Subsidy is measured based on principle/ notifications received from Fertilizer Industry Coordination Committee (FICC) an office of Government of India which regulates such subsidy and the bills are raised based on such notification. Escalation/De-escalation in notified rates is estimated taking into account the effect of guidelines, policies, instructions and clarifications given by the Government. The difference, if any based on final notification received is treated as current year income or expenditure and the effect of change in estimate, if material, is disclosed separately.

1.2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Refer note 48 for segment information presented.

1.2.5 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Statement of Profit and Loss except in case of long term liability relating to acquisition of fixed assets acquired upto March 31, 2016, where the same are adjusted to carrying amount of such assets.

Foreign exchange gains and losses regarded as an adjustment to borrowing costs are charged in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/ (losses).

1.2.6 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty. Revenue is recognised net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

Revenue in respect of sale of goods is recognised when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria's for revenue recognition have been met.

Sale of scrap/ waste materials is recognized on disposal.

1.2.7 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase / acquisition of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented as deduction from related depreciation expenses.

Interest subsidy received/receivable from Government for changeover of Ammonia Feed Stock Conversion Project from FO/ LSHS to Gas is recognized in the Statement of Profit and Loss and is being deducted in reporting the related expense.

1.2.8 Income tax

Income tax comprises current and deferred income tax. Income tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in other comprehensive income or directly in equity, respectively. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in Joint Ventures where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

1.2.9 Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at cost less depreciation. Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised where the carrying value of an asset to be replaced is not separately identifiable it is derecognized on estimated/technical report basis. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives which are aligned to useful life specified under Schedule II of the Companies Act, 2013 except for certain items of plant and machinery which are depreciated as below:

- | | |
|--|----------|
| a) Reformer Package and Instrumentation: | 15 years |
| b) Heat Exchangers, pumps, turbines and CO2 Booster: | 20 years |

Leasehold land and buildings are amortized over the lease period. Buildings constructed over leasehold land are depreciated at the estimated useful life which is in line with useful life as specified under Schedule II of the Companies Act, 2013, where the lease period is beyond the useful life of the building.

Depreciation on Fixed Assets whose actual cost does not exceed five thousand rupees, are provided at the rate of 100% and residual value of Rupee one is retained.

Spares that can be used only in connection with an item of fixed asset is depreciated over a period not exceeding the useful life of the principal item.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss with other Income.

1.2.10 Intangible Assets

Intangible Assets are stated at cost less accumulated amortization and impairment.

License and process know-how having future economic benefits is amortized on straight line method over a period of ten years or license period, whichever is less.

Software, which is not integral part of related hardware, is treated as intangible asset and amortized on straight line method over a period of five years or its license period, whichever is less.

Intangible assets' useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

1.2.11 Capital Work in Progress

All revenue expenses incurred during Construction period, which are exclusively attributable to acquisition/construction of fixed assets, are capitalised at the time of commissioning of Assets.

Pre-project expenditure relating to Projects which are considered unviable/closed is charged off to Revenue in the year of declaration/closure.

The capital work in progress includes Construction Stores including Material in Transit/Equipment/Services etc. received at site for use in the projects.

1.2.12 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit or Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to Statement of Profit or Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

1.2.13 Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

1.2.14 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks/ financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.2.15 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.2.16 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

1.2.17 Inventories - Raw materials and stores, work in progress, packaging material and finished goods

Raw materials, packaging materials and stores and spares are stated at the lower of monthly weighted average cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

In case of stores and spares not moved for more than two years and upto five years, provision for obsolescence is made at five percent per annum (on straight line basis) and charged to revenue. In case of stores and spares which have not moved for more than five years/identified as surplus or obsolete, value is taken as certified by Valuers and diminution, if any is charged to revenue.

Finished and semi-finished goods are valued at lower of annual average cost inclusive of excise duty where applicable and net realizable value based on the applicable Concession/Sale Price. In warehouses carrying Finished Goods of more than one Plant, the Plant wise finished stocks are determined on first-in-first-out basis and costs worked out accordingly.

1.2.18 Investments and other financial assets

(a) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses arising from fair valuation will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(b) Measurement

Initial recognition

The Company measures a financial asset at its fair value and, in the case of a financial asset not at fair value through profit or loss, at fair value including transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement

Subsequent measurement of financial assets depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its financial assets:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest,

are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss.

Investment in Joint Venture:

Investment in Joint venture is carried at cost in the financial statements.

(c) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 56 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(d) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

(e) Derivatives

Derivatives are initially recognised at fair value and are subsequently re-measured to their fair value through profit or loss at the end of each reporting period.

1.2.19 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.2.20 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

1.2.21 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

1.2.22 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the statement of Profit and Loss Account in the period in which they are incurred.

1.2.23 Employee benefits

(a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the financial reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Other long-term employee benefit obligations

The Company provides following long term benefits:

- i) Leave Encashment (Earned Leave/Sick Leave/Half Pay Leave)
- ii) Long Service Award (LSA)

The liability for Leave encashment and Long term service awards are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the financial reporting period using the projected unit credit method as calculated by Actuary. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

(c) Post-employment obligations

The Company operates the following post-employment schemes:

- (i) defined benefit plans such as gratuity, provident fund, post retirement settlement benefits, social security benefits and employees' family economic rehabilitation scheme; and
- (ii) defined contribution plans such as post-employment medical plan and pension plan.

(d) Defined Benefit Obligations

The defined benefit obligation (other than Provident Fund) is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The liability or asset recognised in the balance sheet in respect of defined benefit obligations (except Provident Fund) is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, if any.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised directly in other comprehensive income.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(e) Provident Fund

Contribution to provident fund is accounted for on accrual basis. The provident fund contributions are made by employee and company as monthly contribution equal to specified percentage of covered employee's salary to a trust administered

by the Company. The trust invests in specific designated instruments as permitted by Indian Law. The interest rate payable to the members of the trust is notified by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

(f) Defined Contribution Plans

The Company has a Post-Retirement Medical Benefits (PRMB) and pension plan for its employees. The Company has taken the insurance policies to meet its obligations under these plans. Accordingly, the liability of the company is limited upto the amount of insurance premium paid. These plans have been treated as defined contribution plans. The insurance premium paid for these plans is recognised as employee benefit expense and charged in statement of profit and loss account.

1.2.24 Provisions

Provisions (other than employee benefits) are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

1.2.25 Claims

Pending settlement, claims made on underwriters /railways /others as assessed by the Company on a probable realization basis are recognized at the time of lodgment.

1.2.26 Adjustment pertaining to Prior Period

Income/Expenditure pertaining to prior period upto ₹ 10.00 crores in each case subject to cumulative limit of 0.50% of sales turnover of previous year are not considered material and are included under the income/expenditure of the current year.

1.2.27 Prepaid Expenditure

Prepaid expenditure upto Rupee one lakh in each case not being considered material is included under the expenditure of the current year.

1.2.28 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

1.2.29 Earnings per share

(a) Basic earnings per share

Basic earnings per share is calculated by dividing:

- (i) the profit attributable to owners of the Company
- (ii) by the weighted average number of equity shares outstanding during the financial year.

(b) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- (i) the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- (ii) the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

47.1 Ind AS-19: Employee Benefits

47.1.1 General description of defined benefit schemes:

Gratuity	Payable on separation @ 15 days pay for each completed year of service subject to maximum of ₹10 lakh to eligible employees who render continuous service of 5 years or more.
Leave Encashment {Earned Leave (EL) and Half Pay Leave(HPL)}	Payable on separation to eligible employees who have accumulated earned leave and half pay leave. During the service period encashment of accumulated earned leave is allowed in a financial year leaving minimum balance leave of 10 days.
Long Service Award (LSA)	Payable to employees on completion of specified years of service.
Legal heirs of deceased employees and disabled employees (separated) can opt for either of the following two schemes:	
Social Security Benefits (SSB)	Lump sum benefit payable for left over month of service limited to 60 month pay (maximum ₹9.00 lakhs with minimum benefits of ₹1.00 lakhs).
Employees' Family Economic Rehabilitation Scheme (EFERS)	Monthly payment along with medical and children education benefits in lieu of prescribed deposit upto the date of notional superannuation.

47.1.2 Provident Fund: The Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952.

During the year an amount of ₹27.09 crore (P.Y. ₹26.56 crore) has been charged to statement of Profit and loss towards contribution by the Company.

The Provident Fund Trust set up by the Company, is treated as Defined Benefit Plan since the Company has to meet the shortfall in the fund assets, if any. Further, having regard to the assets of the Fund and the Return on the Investments, the Company does not expect any deficiency in the foreseeable future. In terms of the guidance note issued by the Institute of Actuaries of India, the actuary has provided a valuation of provident fund liability and determined that there is no shortfall as at 31st March, 2017.

The funds of the trust have been invested under various securities as prescribed by regulatory authorities.

i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of foreign currency option contracts is determined using Black Scholes valuation model.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2

The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other current financial liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, security deposits and investment in government securities were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 fair values in the fair value hierarchy since significant inputs required to fair value an instrument are observable.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 2 fair values in the fair value hierarchy since significant inputs required to fair value an instrument are observable.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Note No. 57 Financial Risk Management

The company's activities expose it to market risk, liquidity risk and credit risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortized cost.	Aging analysis, Credit Analysis, Post Dated Cheques and Security Deposit.	Diversification of bank deposits, credit limits and Bank Guarantees

Market risk – foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash Flow Forecasting, Monitoring of Forex Risk Management Policy	Forward Foreign exchange contracts
Market risk – interest rate	Long-term borrowings at variable rates	Monitoring of Forex Risk Management Policy	Interest Rate Swap

The company's risk management is carried out by a central treasury department and marketing department under policies approved by the board of directors. Treasury identifies, evaluates and hedges financial risks. The board provides written principles for overall risk management, marketing manual, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, derivative financial instruments and investment of excess liquidity.

(A) Credit risk

Credit Risk refers to the risk of default on its obligations resulting in financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹4274.84 crore and ₹4802.73 crore as of March 31, 2017 and March 31, 2016, respectively. Trade receivables mainly constitute subsidy receivable from Government of India and from sale of fertilizers to dealers. Trade receivables from dealers are partially secured. Credit risk is being managed through credit approvals, establishing credit limits and monitoring the creditworthiness of customers to allow credit terms in the normal course of business

Breakup of Trade Receivables is as under:

Category	Party Wise breakup of Trade Receivables			
	31.03.2017	% of Total Debtors	31.03.2016	% of Total Debtors

Total Sales	7663.22	55.83	7793.91	61.76

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

Financing arrangements

The company had access to the following undrawn borrowing facilities at the end of the reporting period:

	31 st March, 2017	31 st March, 2016	1 st April, 2015
Floating rate			
Expiring within one year (Bank Overdraft/ CC Limit and other facilities)	2,053.00	907.77	197.73

The Bank Overdraft/Cash Credit (CC)/Short term loan (STL) facilities may be drawn at any time and may be called back by the bank at their discretion. The credit facilities of Banks are subject to compliance with sanctioned terms & conditions. The credit facilities have an average maturity of 1 year.

Note 58 Capital Management

(a) Risk Management

The company's objectives when managing capital are to:-

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, The company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt as per guidelines of Government of India.

Consistent with others in the industry, The company monitors capital on the basis of the following gearing ratio:

Net debt (total borrowings net of cash and cash equivalents)

divided by

Total 'equity' (as shown in the balance sheet).

The company's strategy is to maintain Debt Equity ratio within 2.5:1. The Debt Equity ratio is as follows:

	31 st March 2017	31 st March 2016	1 st April 2015
Net debt	3389.85	4,632.85	5,413.18

Note No. 59 Ind AS 101

First-time adoption of Ind AS

Transition to Ind AS

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 March 2017, the comparative information presented in these financial statements for the year ended 31 March 2016 and in the preparation of an opening Ind AS balance sheet at 1 April 2015 (The company's date of transition). In preparing its opening Ind AS balance sheet, the company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP).

An explanation of how the transition from previous GAAP to Ind AS has affected The company's financial position, financial performance and cash flows is set out in the following tables and notes.

A. Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A.1 Ind AS optional exemptions

A.1.1 Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and Investment Property covered by Ind AS 40 Investment Properties.

Accordingly, The company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

A.1.2 Long-term foreign currency monetary items

Ind AS 101 includes an optional exemption that allows a first-time adopter to continue the above accounting treatment in respect of the long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period

The company has elected to apply this exemption

A.2 Ind AS mandatory exceptions

A.2.1 Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at 1 April 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

A.2.2 De-recognition of financial assets and liabilities

"Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 1 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

A.2.3 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Notes

- A) (i) During the implementation of the Ind AS, the Company has noted that an employee benefit plan relating to post-retirement medical benefits was wrongly classified as defined benefit plans instead of defined contribution plan. The Company has rectified the error in the opening balance sheet as at April 1, 2015. Consequent to this rectification, opening reserves of the Company is increased by ₹ 60.25 crores and the profit for the year ended March 31, 2016 has reduced by ₹ 1.59 crores.
- ii) During the year ended March 31, 2015, the Company wrongly estimated the amount of freight subsidy receivable from the Government of India. Accordingly, the same has been adjusted in the opening balance sheet. Opening Reserves as at April 1, 2015 are reduced by ₹ 21.95 crores and profit for the year ended March 31, 2016 has reduced by ₹ 2.94 crores

B) Remeasurement of Post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the profit for the year ended March 31, 2016 increased by ₹ 9.82 crore. There is no impact on the total equity as at 31 March 2016.

C) Proposed Dividend

Under the previous GAAP, dividends proposed by the Board of Directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognized as a liability. Under Ind AS, such dividends are recognized when the same is approved by the shareholders in general meeting. Accordingly, the liability for proposed dividend of ₹ 71.44 crore as at March 31, 2016 and ₹ 10.04 crores as at April 1, 2015 included under the provision has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity increased by equivalent amount for these periods.

- D) The Company has received certain security deposits from its vendor and EFRS deposits from the employees which were earlier carried at cost. However, now under Ind AS, these deposits have been discounted at their present value at each reporting date and differential of ₹ 5.10 Crores in the opening reserve and ₹ 0.30 crores for March 2016 has been accounted in the Statement of Profit and Loss account.
- E) Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Under previous GAAP, these transaction costs were charged to statement of profit or loss on a straight line basis over the tenure of the loan. Accordingly, retained earning has been reduced by ₹ 0.11 crore as at March 31, 2016 (2015 — ₹ 0.32 crore). The profit for the year ended 31 March 2016 increased by ₹ 0.11 crore.

- F) Deferred tax has been recognised on the Ind AS adjustments resulting in increase in profit for the year ended March 31,2016 by ₹ 3.40 crores.
- G) Ind AS 16 "Property, Plant and Equipments" requires that all items of spares having a life of more than one year need to be capitalized as part of the Property, Plant and Equipment (PPE). Accordingly, stores and spares which meet the above criteria has been adjusted to PPE and depreciation thereon has been recorded as an expense in the Statement of Profit and Loss Account. Also, certain stores and spares were already booked as repair and maintenance expenses during the financial year 2015-16, the same has now been capitalized.

Accordingly, retained earning for March 2015 and March 2016 is reduced by ₹ 13.84 crore and ₹ 0.76 crore respectively.

INDEPENDENT AUDITOR'S REPORT

To the Members of

National Fertilizers Limited

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying Consolidated Ind AS financial statements of National Fertilizers Limited ('the Company') and its Jointly Controlled Companies (collectively referred to as "the Group"), which comprise the consolidated balance sheet as at 31st March 2017, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of cash flows and the consolidated statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Company's Board of Directors is responsible for the preparation of these Consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (herein after referred to as "the Act") that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated cash flows and Consolidated changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of consolidated financial statements by the Directors of the company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these Consolidated Ind AS financial statements based on our audit. While conducting the audit we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Consolidated Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the Consolidated financial position of the Group as at 31st March, 2017, and its Consolidated financial performance including other comprehensive income, its consolidated cash flows and the consolidated changes in equity for the year then ended.

Other Matters

ANNEXURE “A”

The Annexure referred to in Independent Auditor’s Report to the members of the Company on the Consolidated Ind AS financial statements for the year ended 31st March, 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of National Fertilizers Limited (“the Company”) and its jointly controlled companies in India (collectively referred to as “the Group”) as of 31st March, 2017 in conjunction with our audit of the Consolidated Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Respective Board of Directors of the company and its jointly controlled companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’).

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to group’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Group’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors referred to in the “Other Matters” paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Group’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Group’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A group’s internal financial control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the group;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the group are being made only in accordance with authorizations of management and directors of the group; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the group’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company and its jointly controlled companies has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to two jointly controlled companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Notes to the Consolidated Financial Statements and Significant Accounting Policies

1. Overview and Significant Accounting Policies

1.1 Overview

National Fertilizers Limited (the 'Company') is a company limited by shares, incorporated and domiciled in India. These are consolidated financial statements of National Fertilizers Limited and its Joint Ventures referred below for the year ended 31 March 2017.

- a) UrvarakVidesh Limited, a joint venture with Krishak Bharti Co-operative Limited and Rashtriya Chemicals & Fertilizers Limited has been setup for fertilizer business and rendering consultancy services in this regard. UrvarakVidesh Limited has been declared Dormant Company.
- b) Ramagundam Fertilizers & Chemicals Limited, a joint venture with Engineers India Limited (EIL) and Fertilizer Corporation of India (FCIL) has been incorporated on 17.02.2015 for revival of closed Fertilizer Unit of FCIL at Ramagundam, Telengana, India.

The Company is engaged in producing and marketing of Neem Coated Urea, Bio-Fertilizers (solid & liquid) and other allied Industrial products like Ammonia, Nitric Acid, Ammonium Nitrate, Sodium Nitrite and Sodium Nitrate. The Company is also engaged in trading of Fertilizers, Compost, Seeds, Agro Chemicals and other Agro products. The registered office of the company is located at New Delhi, India. The Government of India is the principal shareholder of the Company. The shares of the Company are listed on National Stock Exchange ("NSE") and the Bombay Stock Exchange ("BSE"), India.

The consolidated financial statements were approved for issue by the Board of Directors and authorized for issue on May 18, 2017.

1.2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.2.1 Basis of preparation

(a) Compliance with Ind AS

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] (as amended) and other relevant provisions of the Act.

The consolidated financial statements up to year ended 31 March 2016 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These consolidated financial statements are the first financial statements of the Group under Ind AS. Refer note 59 for an explanation of how the transition from previous GAAP to Ind AS has affected the consolidated financial position, financial performance and cash flows.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

(b) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) and contingent consideration that is measured at fair value;
- assets held for sale — measured at fair value less cost to sell; and
- defined benefit plans — plan assets measured at fair value

1.2.2 Basis of consolidation

Joint Venture

In the consolidated Balance Sheet Interests in the joint venture are accounted for using the equity method. Under the equity method of accounting, the investment are initially being recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit or loss, and the group's share of movements in other comprehensive income of the investee in other comprehensive income.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note (m) below.

These consolidated financial statements comprise the financial statement of National Fertilizers Limited ("the Company") and its joint ventures (JV) (the "Group"), as given in the following table:

Name of Joint Venture	Country of incorporation	Extent of Holding (%age)		
		31 March 2017	31 March 2016	31 March 2015
UrvarakVidesh Limited	India	33.33%	33.33%	33.33%
Ramagundam Fertilizers & Chemicals Limited	India	49.99%	49.99%	49.99%

1.2.3 Use of estimates

The preparation of consolidated financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates and judgments affect the application of accounting policies and the reported amount of assets and liabilities, the disclosure of contingent assets and contingent liabilities at the date of financial statements and the reported amount of revenue and expenses during the period. Application of accounting policies that require critical accounting estimates involving judgments have been disclosed in note (1.2.4).

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of change in circumstances surrounding the estimates. Change in estimates are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in the notes to the consolidated financial statements.

1.2.4 Critical Accounting Estimates and judgments

(a) Property Plant and Equipment:

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(b) Revenue Recognition

Price and Freight Subsidy is measured based on principle/ notifications received from Fertilizer Industry Coordination Committee (FICC) an office of Government of India which regulates such subsidy and the bills are raised based on such notification. Escalation/De-escalation in notified rates is estimated taking into account the effect of guidelines, policies, instructions and clarifications given by the Government. The difference, if any based on final notification received is treated as current year income or expenditure and the effect of change in estimate, if material, is disclosed separately.

1.2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Refer note 48 for segment information presented.

1.2.6 Foreign currency translation

(a) Functional and presentation currency

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Statement of Profit and Loss except in case of long term liability relating to acquisition of fixed assets acquired upto March 31, 2016, where the same are adjusted to carrying amount of such assets.

Foreign exchange gains and losses regarded as an adjustment to borrowing costs are charged in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/ (losses).

1.2.7 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty. Revenue is recognised net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

Revenue in respect of sale of goods is recognised when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria's for revenue recognition have been met.

Sale of scrap/ waste materials is recognized on disposal.

1.2.8 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase / acquisition of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented as deduction from related depreciation expenses.

Interest subsidy received/receivable from Government for changeover of Ammonia Feed Stock Conversion Project from FO/ LSHS to Gas is recognized in the Consolidated Statement of Profit and Loss and is being deducted in reporting the related expense.

1.2.9 Income tax

Income tax comprises current and deferred income tax. Income tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in other comprehensive income or directly in equity, respectively. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in Joint Ventures where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

1.2.10 Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at cost less depreciation. Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised where the carrying value of an asset to be replaced is not separately identifiable it is derecognized on estimated/technical report basis. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives which are aligned to useful life specified under Schedule II of the Companies Act, 2013 except for certain items of plant and machinery which are depreciated as below:

- | | |
|--|----------|
| a) Reformer Package and Instrumentation: | 15 years |
| b) Heat Exchangers, pumps, turbines and CO2 Booster: | 20 years |

Leasehold land and buildings are amortized over the lease period. Buildings constructed over leasehold land are depreciated at the estimated useful life which is in line with useful life as specified under Schedule II of the Companies Act, 2013, where the lease period is beyond the useful life of the building.

Depreciation on Fixed Assets whose actual cost does not exceed five thousand rupees, are provided at the rate of 100% and residual value of Rupee one is retained.

Spares that can be used only in connection with an item of fixed asset is depreciated over a period not exceeding the useful life of the principal item.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss with other Income.

1.2.11 Intangible Assets

Intangible Assets are stated at cost less accumulated amortization and impairment.

License and process know-how having future economic benefits is amortized on straight line method over a period of ten years or license period, whichever is less.

Software, which is not integral part of related hardware, is treated as intangible asset and amortized on straight line method over a period of five years or its license period, whichever is less.

Intangible assets' useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

1.2.12 Capital Work in Progress

All revenue expenses incurred during Construction period, which are exclusively attributable to acquisition/construction of fixed assets, are capitalised at the time of commissioning of Assets.

Pre-project expenditure relating to Projects which are considered unviable/closed is charged off to Revenue in the year of declaration/closure.

The capital work in progress includes Construction Stores including Material in Transit/Equipment/Services etc. received at site for use in the projects.

1.2.13 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit or Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are

charged to Statement of Profit or Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

1.2.14 Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

1.2.15 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks/ financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.2.16 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.2.17 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

1.2.18 Inventories - Raw materials and stores, work in progress, packaging material and finished goods

Raw materials, packaging materials and stores and spares are stated at the lower of monthly weighted average cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

In case of stores and spares not moved for more than two years and upto five years, provision for obsolescence is made at five percent per annum (on straight line basis) and charged to revenue. In case of stores and spares which have not moved for more than five years/identified as surplus or obsolete, value is taken as certified by Valuers and diminution, if any is charged to revenue.

Finished and semi-finished goods are valued at lower of annual average cost inclusive of excise duty where applicable and net realizable value based on the applicable Concession/Sale Price. In warehouses carrying Finished Goods of more than one Plant, the Plant wise finished stocks are determined on first-in-first-out basis and costs worked out accordingly.

1.2.19 Investments and other financial assets

(a) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses arising from fair valuation will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(b) Measurement

Initial recognition

The Company measures a financial asset at its fair value and, in the case of a financial asset not at fair value through profit or loss, at fair value including transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement

Subsequent measurement of financial assets depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its financial assets:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss.

Investment in Joint Venture:

Investment in Joint venture is carried at cost in the financial statements.

(c) **Impairment of financial assets**

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 56 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(d) **Income recognition**

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

(e) **Derivatives**

Derivatives are initially recognised at fair value and are subsequently re-measured to their fair value through profit or loss at the end of each reporting period.

1.2.20 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.2.21 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

1.2.22 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

1.2.23 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the statement of Profit and Loss Account in the period in which they are incurred.

1.2.24 Employee benefits

a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the financial reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Other long-term employee benefit obligations

The Company provides following long term benefits:

- i) Leave Encashment (Earned Leave/Sick Leave/Half Pay Leave)
- ii) Long Service Award (LSA)

The liability for Leave encashment and Long term service awards are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the financial reporting period using the projected unit credit method as calculated by Actuary. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

(c) Post-employment obligations

The Company operates the following post-employment schemes:

- (i) defined benefit plans such as gratuity, provident fund, post retirement settlement benefits, social security benefits and employees' family economic rehabilitation scheme; and
- (ii) defined contribution plans such as post-employment medical plan and pension plan.

(d) Defined Benefit Obligations

The defined benefit obligation (other than Provident Fund) is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The liability or asset recognised in the balance sheet in respect of defined benefit obligations (except Provident Fund) is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, if any.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised directly in other comprehensive income.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(e) Provident Fund

Contribution to provident fund is accounted for on accrual basis. The provident fund contributions are made by employee and company as monthly contribution equal to specified percentage of covered employee's salary to a trust administered by the Company. The trust invests in specific designated instruments as permitted by Indian Law. The interest rate payable to the members of the trust is notified by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

(f) Defined Contribution Plans

The Company has a Post-Retirement Medical Benefits (PRMB) and pension plan for its employees. The Company has taken the insurance policies to meet its obligations under these plans. Accordingly, the liability of the company is limited upto the amount of insurance premium paid. These plans have been treated as defined contribution plans. The insurance premium paid for these plans is recognised as employee benefit expense and charged in statement of profit and loss account.

1.2.25 Provisions

Provisions (other than employee benefits) are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

1.2.26 Claims

Pending settlement, claims made on underwriters /railways /others as assessed by the Company on a probable realization basis are recognized at the time of lodgment.

1.2.27 Adjustment pertaining to Prior Period

Income/Expenditure pertaining to prior period upto ₹ 10.00 crores in each case subject to cumulative limit of 0.50% of sales turnover of previous year are not considered material and are included under the income/expenditure of the current year.

1.2.28 Prepaid Expenditure

Prepaid expenditure upto Rupee one lakh in each case not being considered material is included under the expenditure of the current year.

1.2.29 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

1.2.30 Earnings per share

(a) Basic earnings per share

Basic earnings per share is calculated by dividing:

- (i) the profit attributable to owners of the Company
- (ii) by the weighted average number of equity shares outstanding during the financial year.

(b) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- (i) the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- (ii) the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

The Capital Grant from Govt. of India, Ministry of Chemicals & Fertilizers for Ammonia Feed Stock Conversion Project (AFCP) from 'LSHS/FO' to 'Gas' vide sanction letter no. 14016/2/2007-FP(Vol.II)(2) dated 8.02.2010 for Panipat Unit, sanction letter no.14016/2/2007-FP (Vol. II)(1) dated 8.02.2010 for Bathinda Unit and sanction letter no.14016/2/2007-FP (Vol. II)(3) dated 8.02.2010 for Nangal Unit has accrued since the conditions attached to the grant have been fulfilled by the Company. The grant has been accordingly accounted for as per Ind AS 20 'Accounting for Government Grants'. The Government would make payment of the above grant over a period of 5 years from the commencement of commercial production. The actual project cost that would be reimbursed shall be admitted after scrutiny by a team constituted by Government of India. The return on own funds shall be recognized on finalisation of project cost by the Government.

Pending the finalisation of Project Cost, the subsidy recoverable has been adjusted by the subsidy amount received based on notified adhoc special fixed cost rate. Adjustments, if any, on account of final settlement of LSTK (Lump Sum Turn Key) contracts and due to actual sales realization of the redundant assets discarded after conversion will be made in the year of occurrence. While arriving at the amount of grant accrued to the Company, the deduction has been made for the amount of disposable value of discarded assets, currently at the written down value of the assets concerned.

* Represents addition to Property, Plant & Equipment in respect of Ammonia Feed Stock Conversion Projects from 'LSHS/FO' to 'Gas' at Bathinda, Panipat and Nangal units.

Deferred Government Grant*#	187.17	186.57	186.37
	<u>187.17</u>	<u>186.57</u>	<u>186.37</u>

The Capital Grant from Govt. of India, Ministry of Chemicals & Fertilizers for Ammonia Feed Stock Conversion Project (AFCP) from 'LSHS/FO' to 'Gas' vide sanction letter no. 14016/2/2007-FP(Vol.II)(2) dated 8.02.2010 for Panipat Unit, sanction letter no.14016/2/2007-FP (Vol. II)(1) dated 8.02.2010 for Bathinda Unit and sanction letter no.14016/2/2007-FP (Vol. II)(3) dated 8.02.2010 for Nangal Unit has accrued since the conditions attached to the grant have been fulfilled by the Company. The grant has been accordingly accounted for as per Ind AS 20 'Accounting for Government Grants'. The Government would make payment of the above grant over a period of 5 years from the commencement of commercial production. The actual project cost that would be reimbursed shall be admitted after scrutiny by a team constituted by Government of India. The return on own funds shall be recognized on finalisation of project cost by the Government.

Pending the finalisation of Project Cost, the subsidy recoverable has been adjusted by the subsidy amount received based on notified adhoc special fixed cost rate. Adjustments, if any, on account of final settlement of LSTK (Lump Sum Turn Key) contracts and due to actual sales realization of the redundant assets discarded after conversion will be made in the year of occurrence. While arriving at the amount of grant accrued to the Company, the deduction has been made for the amount of disposable value of discarded assets, currently at the written down value of the assets concerned.

* Represents addition to Property, Plant & Equipment in respect of Ammonia Feed Stock Conversion Projects from 'LSHS/FO' to 'Gas' at Bathinda, Panipat and Nangal units.

Non Current Deferred Government Grant is disclosed in Note No. 24.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

47.1 Ind AS-19: Employee Benefits

47.1.1 General description of defined benefit schemes:

Gratuity	Payable on separation @ 15 days pay for each completed year of service subject to maximum of ₹10 lakh to eligible employees who render continuous service of 5 years or more.
Leave Encashment {Earned Leave (EL) and Half Pay Leave(HPL)}	Payable on separation to eligible employees who have accumulated earned leave and half pay leave. During the service period encashment of accumulated earned leave is allowed in a financial year leaving minimum balance leave of 10 days.
Long Service Award (LSA)	Payable to employees on completion of specified years of service.
Legal heirs of deceased employees and disabled employees (separated) can opt for either of the following two schemes:	
Social Security Benefits (SSB)	Lump sum benefit payable for left over month of service limited to 60 month pay (maximum ₹9.00 lakhs with minimum benefits of ₹1.00 lakhs).
Employees' Family Economic Rehabilitation Scheme (EFERS)	Monthly payment along with medical and children education benefits in lieu of prescribed deposit upto the date of notional superannuation.

47.1.2 Provident Fund: The Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952.

During the year an amount of ₹27.09 crore (P.Y. ₹26.56 crore) has been charged to statement of Profit and loss towards contribution by the Company.

The Provident Fund Trust set up by the Company, is treated as Defined Benefit Plan since the Company has to meet the shortfall in the fund assets, if any. Further, having regard to the assets of the Fund and the Return on the Investments, the Company does not expect any deficiency in the foreseeable future. In terms of the guidance note issued by the Institute of Actuaries of India, the actuary has provided a valuation of provident fund liability and determined that there is no shortfall as at 31st March, 2017.

The funds of the trust have been invested under various securities as prescribed by regulatory authorities.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of foreign currency option contracts is determined using Black Scholes valuation model.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2

The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other current financial liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, security deposits and investment in government securities were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 fair values in the fair value hierarchy since significant inputs required to fair value an instrument are observable.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 2 fair values in the fair value hierarchy since significant inputs required to fair value an instrument are observable.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Note No. 57 Financial Risk Management

The company's activities expose it to market risk, liquidity risk and credit risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortized cost.	Aging analysis, Credit Analysis, Post Dated Cheques and Security Deposit.	Diversification of bank deposits, credit limits and Bank Guarantees
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash Flow Forecasting, Monitoring of Forex Risk Management Policy	Forward Foreign exchange contracts
Market risk – interest rate	Long-term borrowings at variable rates	Monitoring of Forex Risk Management Policy	Interest Rate Swap

The company's risk management is carried out by a central treasury department and marketing department under policies approved by the board of directors. Treasury identifies, evaluates and hedges financial risks. The board provides written principles for overall risk management, marketing manual, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, derivative financial instruments and investment of excess liquidity.

(A) Credit risk

Credit Risk refers to the risk of default on its obligations resulting in financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹4274.84 crore and ₹4802.73 crore as of March 31, 2017 and March 31, 2016, respectively. Trade receivables mainly constitute subsidy receivable from Government of India and from sale of fertilizers to dealers. Trade receivables from dealers are partially secured. Credit risk is being managed through credit approvals, establishing credit limits and monitoring the creditworthiness of customers to allow credit terms in the normal course of business.

Breakup of Trade Receivables is as under:

The Bank Overdraft/Cash Credit (CC)/Short term loan (STL) facilities may be drawn at any time and may be called back by the bank at their discretion. The credit facilities of Banks are subject to compliance with sanctioned terms & conditions. The credit facilities have an average maturity of 1 year.

Note 58 Capital Management

(a) Risk management

The company's objectives when managing capital are to

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt as per guidelines of Government of India

Consistent with others in the industry, the company monitors capital on the basis of the following gearing ratio:

Net debt (total borrowings net of cash and cash equivalents)

divided by

Total 'equity' (as shown in the balance sheet).

The company's strategy is to maintain Debt Equity ratio within 2.5:1. The Debt Equity ratio is as follows:

	31 March 2017	31 March 2016	1 April 2015
Net debt	3389.85	4,632.85	5,413.18

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Note No. 59 Ind AS 101

First-time adoption of Ind AS

Transition to Ind AS

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 March 2017, the comparative information presented in these financial statements for the year ended 31 March 2016 and in the preparation of an opening Ind AS balance sheet at 1 April 2015 (The company's date of transition). In preparing its opening Ind AS balance sheet, The company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP).

An explanation of how the transition from previous GAAP to Ind AS has affected The company's financial position, financial performance and cash flows is set out in the following tables and notes.

A. Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A.1 Ind AS optional exemptions

A.1.1 Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, The company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

A.1.2 Long-term foreign currency monetary items

Ind AS 101 includes an optional exemption that allows a first-time adopter to continue the above accounting treatment in respect of the long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period

The company has elected to apply this exemption

A.2 Ind AS mandatory exceptions

A.2.1 Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at 1 April 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

A.2.2 De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 1 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

A.2.3 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Notes

- A) (i) During the implementation of the Ind AS, the Company has noted that an employee benefit plan relating to post-retirement medical benefits was wrongly classified as defined benefit plans instead of defined contribution plan. The Company has rectified the error in the opening balance sheet as at April 1, 2015. Consequent to this rectification, opening reserves of the Company is increased by ₹60.25 crores and the profit for the year ended March 31, 2016 has reduced by ₹1.59 crores.
- ii) During the year ended March 31, 2015, the Company wrongly estimated the amount of freight subsidy receivable from the Government of India. Accordingly, the same has been adjusted in the opening balance sheet. Opening Reserves as at April 1, 2015 are reduced by ₹ 21.95 crores and profit for the year ended March 31, 2016 has reduced by ₹ 2.94 crores

B) Remeasurement of Post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the profit for the year ended March 31, 2016 increased by ₹ 9.82 crore. There is no impact on the total equity as at 31 March 2016.

C) Proposed Dividend

Under the previous GAAP, dividends proposed by the Board of Directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognized as a liability. Under Ind AS, such dividends are recognized when the same is approved by the shareholders in general meeting. Accordingly, the liability for proposed dividend of INR 71.44 crore as at March 31, 2016 and ₹ 10.04 crores as at April 1, 2015 included under the provision has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity increased by equivalent amount for these periods.

- D) The Company has received certain security deposits from its vendor and EFRS deposits from the employees which were earlier carried at cost. However, now under Ind AS, these deposits have been discounted at their present value at each reporting date and differential of ₹5.10 Crores in the opening reserve and ₹ 0.30 crores for March 2016 has been accounted in the Statement of Profit and Loss account.
- E) Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Under previous GAAP, these transaction costs were charged to statement of profit or loss on a straight line basis over the tenure of the loan. Accordingly, retained earning has been reduced by ₹ 0.11 crore as at March 31, 2016 (2015 — ₹ 0.32 crore). The profit for the year ended 31 March 2016 increased by ₹ 0.11 crore.
- F) Deferred tax has been recognised on the Ind AS adjustments resulting in increase in profit for the year ended March 31, 2016 by ₹ 3.40 crores.
- G) Ind AS 16 "Property, Plant and Equipments" requires that all items of spares having a life of more than one year need to be capitalized as part of the Property, Plant and Equipment (PPE). Accordingly, stores and spares which meet the above criteria has been adjusted to PPE and depreciation thereon has been recorded as an expense in the Statement of Profit and Loss Account. Also, certain stores and spares were already booked as repair and maintenance expenses during the financial year 2015-16, the same has now been capitalized.

Accordingly, retained earning for March 2015 and March 2016 is reduced by ₹13.84 crore and ₹0.76 crore respectively.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF NATIONAL FERTILIZERS LIMITED FOR THE YEAR ENDED 31 MARCH 2017.

The preparation of financial statements of National Fertilizers Limited for the year ended 31 March 2017 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139(5) of the Companies Act, 2013 are responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 18 May, 2017.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit under section 143(6)(a) of the Act of the financial statements of National Fertilizers Limited for the year ended 31 March 2017. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records. On the basis of my audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report.
