6. ECONOMIC SCENARIO AND OUTLOOK

Demographic trends in both developed & emerging markets create basis for pharmaceuticals sector growth. These include an aging population; increasing population growth & rising wealth; and an increase in lifestyle & at the same time increase in chronic diseases is also been observed. While these trends are heartening from pharmaceutical company's perspective, pharmaceutical companies around the globe continue to be battered by blockbuster drug patent expirations, ever increasing competition from generics makers, and government & health care industry efforts to control costs which is broadly demonstrated by price controls, pro-generic policies & patent challenges. Across the globe, Governments and health care payers are looking at ways to reduce cost of rigidly rising healthcare. In recent times heavy cost of drugs has become a contentious issue & focus remains on reducing the burden on payers. Changing demographics around the world, growing awareness, affordability & patent expires every year worth thousands of Rupees are offering global generic companies tremendous opportunities for consistent growth.

Your Company believes in "Quality and Reliability" and these values have been pillars of success in the international markets. Syncom has been always on the right side of the various regulatory audits and has followed processes recommended by various regulators thereby constantly upgrading by implementing and adopting WHO-GMP guidelines.

7. INDUSTRY STRUCTURE AND OPPORTUNITIES

An analysis by IMS shows that the Indian Pharmaceuticals Market will likely grow between 10% and 11% year on year to more than 1 lakh crore by 2018. This growth will be driven by increasing affordability, increasing access particularly as private providers expand to lower tier towns and cities and favorable demographic factors-an overall increase in Indian population as well as increased prevalence of chronic, non-communicable diseases such as cardiovascular diseases, diabetics & cancer.

Several large selling drugs going off patent over next few years & increasing use of pharmaceutical generics in developed markets to reduce healthcare cost will provide attractive growth opportunities to generics manufacturers and thus Indian Pharmaceutical industry is poised for an accelerated growth in the coming years. For the near future, the Company has identified specific opportunities to leverage this growth, capitalize on its strengths & position itself as a leading science driven pharmaceutical company.

8. RISKS & CONCERNS

The Pharmaceutical regulatory environment across the world is becoming more stringent including the Indian Pharmaceutical Industry. The Industry witnessed many important changes & challenges which included the New Pharmaceutical Pricing Policy, additional oversight mechanisms for clinical trials, Fixed Dose Combinations (FDCs) and new rules being notified for new drugs as well as clinical trials.

Various Regulatory Committees were formed by the Government to streamline the current processes which resulted in delays of clinical trials & new drug approvals. These processes form an inherent part of the drug development process. The mandatory generics drive by the State Governments will also pose challenges for pharma companies in the near future.

However, poor public healthcare funding & infrastructure, low per capita consumption of medicines in developing and under developed countries including India, currency fluctuations, regulatory issues and inflation and results in all round increase in input costs, are few causes of concern.

Syncom has a Risk Management Policy in force to review and mitigate risks relevant to environmental, operational & business risks to safeguard its interest. Syncom continued investments in manufacturing facilities and its strategy to remain a vertically integrated pharmaceutical business is a critical differentiator to create sustainable competitive advantage not only for products launched in international markets but also for contractual supplies to global generic companies, with a conscious endeavor for market and customer diversification. To de-risk significant concentration of domestic revenues from few brands, the Company's strategy is for focused promotion of specific brands to increase their

share of revenue to overall revenue.

9. CSR INITIATIVES

In view of the profits and turnover of Syncom during the previous three years, it is required to undertake social responsibility projects during the year 2014-15 under the provisions of the section 135 of the Companies Act, 2013 and the rules made there under.

As part of its initiatives under "Corporate Social Responsibility (CSR), Syncom has undertaken projects in the areas of Education, Livelihood, Health, Water and Sanitation. These projects are largely in accordance with Schedule VII of the Companies Act, 2013.

The Annual Report on CSR activities is annexed herewith as "Annexure A" and the CSR policy is also available at the Company's website at www.sfil.in.

10. OCCUPATIONAL HEALTH & SAFETY (OH&S)

This initiative involved and positively engaged all levels of personnel on the plant and the Company's business. With regard to contractor safety, two key areas of focus identified were Facility Management for the contractors' employees and Equipment, Tools & Material Management. The Facility Management initiative was implemented to ensure adequate welfare facilities for contract labour such as washrooms with bathing facilities, rest rooms, availability of drinking water etc. The Equipment, Tools & Material Management program ensured that the tools used by contractors were safe. The process of screening of contractors was made more stringent to ensure that the contractors were aligned with the Company's objectives to ensure 'Zero Harm'.

11. HUMAN RESOURCES

Many initiatives have been taken to support business through organizational efficiency, process change support and various employee engagement programmes which has helped the Organization achieve higher productivity levels. A significant effort has also been undertaken to develop leadership as well as technical/functional capabilities in order to meet future talent requirement.

Syncom's HR processes such as hiring and on-boarding, fair transparent online performance evaluation and talent management process, state-of-the-art workmen development process, and market aligned policies have been seen as benchmark practices in the Industry. During the year under review, the following Human Resources initiatives received greater focus:

- **Employer of Choice:** Employees are encouraged to express their views and are empowered to work independently. Employees are given the opportunity to learn through various small projects which make them look at initiatives from different perspectives and thus provide them with a platform to become result oriented. This has helped greatly in overall development of the employee and has significantly arrested the attrition rate.
- **Leadership Development:** As a part of leadership development, talented employees have been seconded to the senior leadership team to mentor them and prepare them for the next higher role.
- **Industrial Relations:** Syncom Industrial Relations policy shares relevant business information with the Unions in order to enlighten them and make them sensitive towards business requirements. This has helped to build a healthy relationship and resolve issues through mutual dialogue.

11.1 Disclosure under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

The Company has in place an Anti Sexual Harassment Policy in line with the requirements of The Sexual Harassment of Women at the Workplace (Prevention, Prohibition & Redressal) Act, 2013. Internal Complaints Committee (ICC) has been set up to redress complaints received regarding sexual harassment. All employees (permanent, contractual, temporary, trainees) are covered under this policy. No complaint was received during the year under review.

12. RISK MANAGEMENT POLICY AND INTERNAL ADEQUACY

Syncom has in place a mechanism to identify, assess, monitor and mitigate various risks to key business objectives. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis. These are discussed at the meetings of the Audit Committee and the Board of Directors of Syncom.

Syncom has an Internal Control System, commensurate with the size, scale and complexity of its operations. To maintain its objectivity and independence, the Internal Audit function reports to the Chairman of the Audit Committee of the

Board.

Based on the report of internal audit function, process owners undertake corrective action in their respective areas and thereby strengthen the controls. Significant audit observations and corrective actions thereon are presented to the Audit Committee of the Board.
