MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Company is engaged in the business of international trade of electronic products and export of dyestuffs, bulk pharmaceuticals and intermediates.

1.1 INDUSTRY STRUCTURE AND DEVELOPMENTS **Electronics Division:**

n Se

Electronics and Information Technology is the fastest growing segment of Indian industry in terms of both production and exports. According to International Data Corporation, India Fiscal Year 2009-2010 saw the revival of PC sales growth with a growth of 7.6% (from 2008-2009). This was on the back of an 8.1% decline in fiscal year 2008-2009 from the period 2007-2008. The overall India PC market sales touched 22.40 lakh units during the January-March 2010 quarter recording a 33% yearon-year (1Q 2010 over 1Q 2009) and a 14% quarter-onquarter (1Q 2010 over 4Q 2009) increase.

Desktop PC sales accounted for nearly two-thirds of total PC sales at 14.36 lakh units, representing 18 percent growth year-on-year (1Q 2010 over 1Q 2009). The sales of Notebook computers grew at 72 percent yearon-year (1Q 2010 over 4Q 2009) clocking 8.03 lakh shipments, the highest in a quarter.

The virtual decline in computer prices in the past few years has considerably increased affordability of computers. Also, easy finance schemes, SOHO and SME segments, remarkable rise in IT and IT enabled service markets, e-governance initiatives by Central and State governments and various government departments apart from demand from households, together have bolstered the pace of growth.

Chemical Division:

The Chemical Industry of India is one of the fastest developing industries with an average growth of 14% per annum. The increasing demand of chemical products has played a vital role in the expansion of the sector and has triggered the restoration of chemical plants in India.

1.2 OPPORTUNITIES AND THREATS

Electronics Division:

We have improved the distribution network of VXL thin clients which is one of the global market leaders in the industry. Thin client concept is becoming increasingly important globally, where we are continuing to establish a strong market position. We are targeting both - the domestic and international markets.

The change of focus from component marketing to a solution providing Company has produced positive results. This division is facing stiff competition from multinational companies both Indian and Foreign. Attrition level is also high in this industry which also affects the sustenance of better performance.

Chemical Division:

The onslaught by the emerging Asian and other smaller countries continues despite the efforts by the Western and Indian governments resorting to impose anti- dumping duties. A thorough review of all the products is called for to identify only the profit making and sustainable products. Completion of this exercise should help us to re-enter the market with better vision and focus. Exercise is on

in this direction, which can also include a review on exports of bulk chemicals, pharmaceutical intermediates and also Bulk Pharmaceuticals.

SEGMENT-WISE OR **PRODUCT-WISE** 1.3 PERFORMANCE

Electronics Division:

The overall performance during the year was satisfactory in comparison with the last year excepting marginal decrease in turnover. The segment result, before adjustment for unallocated expenses (net) and provisions for taxation, marginally decreased to Rs. 883.56 Lacs as compared to Rs. 1006.57 Lacs in the previous year. **Chemical Division:**

There is decrease in the turnover and the margin too has decreased in the same period.

1.4 FUTURE OUTLOOK

Electronics Division:

The electronic industry shows no sign of recession, or even much of a slow down. The growing Indian market for electronic products is over US\$72 bn and is growing at about 20% per annum.

Big corporate houses, banks, educational and healthcare segments are increasingly opting for the Thin Client technology in comparison to P.C - Server technology which will increase the available market for our Electronic division.

We have set up a strong technical support team to provide total network solutions which in the long term will, enhance competitiveness and maintain profitability.

Chemical Division:

New product range is contributing to the otherwise low demand market. Efforts are on to concentrate on new product ranges to increase business. Some of the Latin American countries like Argentina have been given open cover by ECGC. We are trying to revive business in these countries.

1.5 RISKS AND CONCERNS

Flectronics Division:

Rapidly changing technology, shift in consumer taste and increasing competition are the matters of main concerns. The depreciation of Rupee against Dollar affects the margins to a great extend and this is an imminent threat to profitability.

The competition between multinationals to capture the market has resulted in the reduction in margins. The talent crunch in research and development affects the introduction of novel products. Quickly vanishing dealers are adding to the bad debt pile for the industry as a whole and is another area of concern.

Chemical Division:

There is a severe shortage of raw materials (both local and imported) and suppliers are finding it difficult to complete production within the given time frame. This has resulted in buyers either sourcing from elsewhere or postponing their requirements. The exchange rate and the appreciating Rupee are again areas of concern in our Exports.

1.6 INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has adequate internal control systems/ procedures in place covering all facets of business. The internal control systems/procedures are reviewed periodically and updated/ modified on need basis. The Company has earned a profit (before tax and extra ordinary items) of Rs 187.44 Lacs as compared to a profit (before tax and extra ordinary items) of Rs. 371.88 Lacs in the previous year.
