MANAGEMENT DISCUSSION AND ANALYSIS

This section contains certain forward-looking statements which are based on the certain assumptions and expectations of certain future events.

Overall Review

The unit of the Company is located at Plot No.3 & 4, Block 'H' at Kandla port Kandla, Kutch District in Gujarat. The location of the unit is very ideal for the reason that Kandla port is a site recognized by the Government authorities for export and import. The Company has developed petroleum and edible oil storage tanks with connecting pipelines with Port/ Jetty for directly loading & unloading ship. These storage tanks are rented and the rental income contributes a major portion of the Company's total income. The Company has in all fourteen storage tanks owned by it.

The Company was involved in the business of trading in commodities including silver. Subsequently, the Company decided to close down the businesses of dealing in bullions, currencies etc. However, the Company continues to carry on the business of renting of storage tank, trading in commodities including gold and silver and also shares and securities. During the year, the Company traded in commodities including silver. However, due to sudden and volatile price movements, it had to incur loss in the same.

Industry Structure and developments

There are very few organised players in the field of commodities trading and renting of storage tank. As such these activities are carried out by large number of unorganised players and such activities are also carried out by organised players as incidental/ancillary/other activities.

The Commodities trading business is very volatile and risky in nature. There has been sweeping movements in the commodities in which the Company deals. Hence, the company has to take market position after considering various factors. As regards, business of renting of storage tank, there is more or less assured revenue stream. However, due to increased capacity available, the rates/realisation are under pressure. The Company, therefore, enters into firm contract with reputable corporate to have hedge against sudden drop in rent and to optimise its revenue from this segment.

Opportunities and threats

The volatility in the commodity prices provides both opportunities and poses threat. Hence, the Company weigh all aspects before venturing into the commodities trading. Due to general trade depression, lesser import of edible oil, increase in overall tank capacity at Kandla, the rent rates have come down substantially. However, in the time to come, if edible oil industry trade scenario improves, there may be more realisations from the renting of the storage tank.

Internal Control Systems & their adequacy

The Company practices an internal control system which ensures proper handling and management of its assets. The internal control system of the Company is geared towards achieving efficiency in operations, effective monitoring and compliances with all applicable laws and regulations. The Company regularly conducts internal audit programs. The internal control department of the Company functions under the guidelines of the Audit Committee of the Company.

The Company regularly reviews the adequacy and effectiveness of the internal control system and suggests improvement for strengthening them.

Outlook and Opportunities

The Company's one portion of income is dependent on the rent received from letting the tanks, and it is likely to increase in the near future if we get the permission of increase of heights of our storage tanks.

There is a strong undercurrent prevalent in the commodities market also, which is favourable for the company. Our main portion of income is from rent for giving storage tank on hire. At the same time, wherever found appropriate, the Company also undertake trading in commodities and its future market.

Discussion on financial performance with respect to operational performance

The gross turnover of the Company i.e. ₹ 26604.50 Lacs in the year 2014-15 had decreased to ₹ 9743.98 Lacs in the year 2015-16. After providing for Taxation (mainly, deferred tax liability), the Company has made profit of ₹ 16.20 lacs in current year as compared to profit of ₹ 42.50 lacs of last year which has been transferred to the Balance Sheet

Risks and Concerns

The Company regularly insures all its assets to enable itself in case of any mishappening. The Company has framed a risk management division which constantly monitors the Indian and international markets and guides the management of any sort of prevailing risk to the company, as the Company is involved in the business of trading in commodities, gold & silver,

which is highly volatile in nature. The commodities, gold & silver prices being internationally traded are affected by the global market demand and supply forces and the dollar rate. The risk management division plays a major role here.

Material Developments in Human Resources and Industrial Relations Front, including number of people employed

The Company has continued to give special attention to Human Resources/Industrial Relations development. Industrial relations remained cordial throughout the year and there was no incidence of strike, lock out etc.

Cautionary Statement

Statement in this Management Discussion and Analysis Report, describing the Company's objectives, estimates and expectations may constitute 'Forward Looking Statements' within the meaning of applicable laws or regulations. Actual results might differ materially from those either expressed or implied.

Annexure - B to the Independent Auditor's Report

Report on internal financial controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the act")

We have audited the internal financial controls over financial reporting of **Parker Agrochem Exports Limited** as on 31st March 2016 in conjunction with our audit of financial statement of the company for the year ended on that date.

Management's Responsibility For Internal Financial Controls

The management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing deemed to be prescribed under section 143(10) of the Act and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note"), to the extent applicable to an audit of internal financial controls and, both issued by the ICAI.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

An entity's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. An entity's internal financial control over financial reporting includes those policies and procedures that

- (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity,
- (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and directors of the entity, and
- (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Inherent Limitation of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to errors or fraud may occur and not be detected. Also projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinions, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI.
