MANAGEMENT DISCUSSION AND ANALYSIS

Overview of the Economy:

The economy has grown at a rate of 4.71% in the previous year. It was a year of low GDP growth, lower industrial output, high inflation, high interest rates and depreciated currency. The economy was to a large extent stagnant with very conservative policy reforms. The oil price rise pushed up the raw material costs of the polyester industry.

Textile Industry Scenario:

The Indian textile industry is expected to grow in the coming years. The worldwide trade of textiles and clothing has boosted up the GDP of India to a great extent. More so as the government has acknowledged this sector amongst a list of industries requiring special attention.

The textile and garment makers of India are eyeing 15-20 percent growth in exports this year as the Textiles Ministry has assured full support to the industry and the Indian Government is planning to implement some new measures to boost exports.

Corporate Review:

The company reviewed the challenging domestic market situation and stepped up its efforts on exports.

The domestic market is also looking up and is likely to improve in the current year. The company is developing certain value addition products to improve its profitability and versatility.

Opportunities:

Opportunities in the textile market are susceptible to numerous factors like inflation, uncertainties of monsoon, etc. The volatility in the prices of oil makes the raw material price very unstable. However the improving political scenario and the new governments pro reform commitments, provide hope for the improvement in the current year.

The new textile policy in Gujarat, Maharashtra and many other States gives a lot of hope to the textile industry. The governments commitment to boost exports also is a soother to the industry.

Threats:

The increasing cost of production is one of the major challenges that the industry faces. Increasing power costs, higher interest rates and other expenses curtail the company's profitability.

Risk Management:

The Company is taking steps to reduce the interest costs, economise the power costs and follow prudent financial policies. It is looking for suitable growth opportunities to improve its profitability.

The Company has a suitable policy to meet market fluctuations of foreign exchange and raw material prices. Safety, health and environmental risks are controlled by formulating a clear policy on environmental conservation, safety and health. The management tries to minimise other uncertainties by monitoring the same vigilantly and taking pro-active action immediately.

Internal Control System

The necessary internal control system has been set up in the organization in consultation with the Auditors of the Company and is being further strengthened commensurate with the size of the growing operations.

Human Relations, Industrial Relations, etc.

There were cordial industrial relations during the year. The management feels that the same situation would continue during the coming year also.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating leases. Lease rentals under operating leases are recognised as revenue expenses.
- (h) **Depreciation :** Depreciation on fixed assets other than freehold land and capital work-in-progress is being provided on Straight Line Method at the rates and in the manner specified in Schedule XIV of the Companies Act, 1956.

However, provision for diminution is made to recognise a decline, other than temporary, in the value of the investments, such reduction being determined and made for each investment individually.
- (j) **Accounting for taxes :** Provision for tax is made and retained in the accounts considering the taxable income for the relevant years, assessment orders and decisions of appellate authorities in the Company's case. These benefits include compensated absences such as paid annual leave and performance incentives. (ii) Post employment and other long term employee benefits are recognized as an expense in the Profit and Loss account for the year in which the employee has rendered services.
