MANAGEMENT DISCUSSION & ANALYSIS REPORT

GLOBAL KPO INDUSTRY

Technavio's market research analysts predict the global KPO market to grow at a CAGR of around 23% from 2015 to 2019. In line with global perspectives on outsourcing business activities across the globe, companies are looking for more analytical and specialist expertise, and hence KPOs are seen to be increasingly fitting such requirement of companies that are eager to outsource to third party service providers.

The majority of demand for KPO services offshoring is created from regions like the Americas and Europe. However the APAC region leads the market from the delivery perspective. In 2015-16, India held a massive presence in this sector with over 60% of the market share.

IT INDUSTRY OVERVIEW

Software Industry body, National Association of Software and Services Companies (NAASSCOM) expects the country's Information Technology (IT) Industry to grow at 12-14% during the financial year 2016-17. Exports are estimated at USD 108 billion with 10.3% annual growth. IT services are also expected to grow at the same rate.

The Domestic Technology market is projected to grow at over 3%, to reach USD 35 billion (excluding e-commerce) in financial year 2016-17.

According to NASSCOM, India's IT-BPM (Information Technology - Business Process Management) Industry is projected to grow 8.5% from USD 132 billion to USD 143 billion (excl. e-commerce), an addition of USD 11 billion in financial year 2016-17. The aggregate growth rate has been affected due to the dollars strengthening against the rupee, bringing down domestic market growth to about 3.2%.

Share in total service exports is estimated at 45% and the Industry's contribution, relative to India's GDP is more than 9.3%. Overall, the Industry is estimated to employ nearly 3.7 million people, an addition of approximately 200,000 people.

Over the last 25 years, India's IT-BPM Industry, has succeeded in creating a worldwide presence – onshore, offshore, nearshore – for its customers. Presently in over 78 countries, through 840 offshore development centres, this Industry boosts

more than 75% of Fortune 500 enterprises, as its customers. The Industry landscape consists of over 16,000 firms, ranging from multibillion dollar firms to startups, that are emerging as the hotbed for Innovation and disruptive services.

India currently has over 6 million graduates. Its IT-BPM employee base for financial year 2016-17, is estimated at 3.7 million people. With this IT-BPM will become the largest private sector Employer of the Nation.

India is also emerging as the world's fastest growing 'digital hub': Digitally skilled (cloud, mobile, analytics) employees number over 250,000, growing at 50%.

Between 2015 to 2020, it was estimated that, SMAC spending by the enterprise and government sectors together is USD 37 billion. The software and services component of SMAC will grow the fastest. Demand for SMAC Technologies is pushing the need to modernise legacy systems and cloud solutions. BPM exports, at 9% y-o-y growth, are being driven by BPAAS, mobility and advanced analytics.

By 2020, India's IT-BPM sector total revenue is projected to reach USD 200-225 billion and between USD 350-400 billion by 2025. Digital technologies will continue to define the sector and revenue from these is likely to have a 23% share by 2020 and more than 38% by 2025. Indian service providers face a significant opportunity as digital technologies continue to be embedded in an ever widening range of products and services.

Government Initiative

Cloud computing is one of the thrust areas in the national IT and ITeS policy.

In order to benefit from cloud, the Department of Electronics and IT (DEIT) has taken an ambitious project known as 'GI Cloud'. The 'GI Cloud' is the Indian government's initiative to enable the government (both Centre and States) to leverage cloud computing for effective delivery of E-Services.

In the 12th Five Year Plan (2012-17), the Department of Information Technology proposes to strengthen and extend the existing core infrastructure projects to provide more horizontal connectivity, build

redundancy connectivity, undertake energy audits of State Data Centers (SDCs) etc. The core infrastructure including fibre optic based connectivity will be leveraged and additional 150,000 Common Service Centres (CSCs) will be setup to create the right Governance and service delivery ecosystem at the Panchayats.

Annexure - B

Annexure to the Independent Auditor's report of even date on the Standalone Financial Statements of Mold-Tek Technologies Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mold-Tek Technologies Limited ("the Company") as of 31st March 2016 in conjunction with our audit of the financial statements of the Company for the year ended as on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note"), issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing, to the extent applicable to an audit of internal financial controls and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note"), both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to

the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS

SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS

1. SIGNIFICANT ACCOUNTING POLICIES

A. Method of Accounting

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

- a. The company generally recognizes income and expenditure on an accrual basis except those with significant uncertainties.
- b. The preparation of financial statements requires the management of the company to make estimates and assumptions considered in the reported amount of assets and liabilities (including contingent liabilities) as of the date of the financial statements and the reported income and expenses during the reporting period. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.
- a. The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent

liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include computation of percentage of completion which requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended, provisions for doubtful debts, future obligations under employee retirement benefit plans, income taxes, post-sales customer support and the useful lives of fixed tangible assets and intangible assets. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

B. Tangible Assets and Intangible Assets:

- a. Tangible Assets are stated at original cost including taxes, freight and other incidental expenses related to acquisition/installation and after adjustment of CENVAT benefits less accumulated depreciation and impairment in accordance with Accounting Standards 10 and 26 issued by ICAI. Interest/financing costs on borrowed funds attributable to assets are treated in accordance with Accounting Standard 16 issued by ICAI.
- b. Intangible assets are recorded at the consideration paid for acquisition of such assets and are carried at cost less accumulated amortization and impairment.
- c. Expenditure not specifically identified to any asset and incurred in respect of Fixed Assets not commissioned is carried forward as expenditure pending allocation and forms part of Capital work in progress.

- d. Lease Hold improvement are stated at original cost including taxes, freight and other incidental expenses related to acquisition/ installation and after adjustment of CENVAT benefits less accumulated depreciation as per management in accordance with Lease hold period.

Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Company for its use. As prescribed under Part C of Schedule II of the Companies Act 2013.

Residual values of assets depreciated on straight line basis to the extent of assets not in use, and/or discarded having outlived their utility are charged off during the year.

D. Impairment of Assets

The Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

E. Investments
