MANAGEMENT DISCUSSION AND ANALYSIS

Overall review, industry Structure and Developments:

The scenario of the stationary industry is changing from time to time as change in the Indian Economy level. However, at present small scale stationary makers are not often able to protect themselves against the fluctuations in the market prices. In addition, with a lower degree of investment in stationary making infrastructure in these countries, makers face lower switching costs. Thus, your Company is in the process of changing its activities to give boost to its stationary making & export activity. The stationery performance was affected on account of building focus and trying to build the business on a few states rather than on a pan- India basis, which was based on inputs from a leading consultancy firm which lowered off take amongst our distributors as operational modalities were carried on. This trend might continue for a couple of months but then the stationery business should be on track. Your company expects double digit growth for stationery business in the coming year as the outlook on exports continues to remain stable.

Opportunities and Threats

Opportunities

- Large, Potential Domestic Market
- Market is gradually shifting towards Branded Stationary.

- Continuous Quality Improvement is need of the hour as there are different demand patterns all over the world
- Elimination of Quota system will lead to fluctuations in Demand.
- Geographical Disadvantages.
- International labor and Environmental Laws.
- Increase in rate of service tax from 10 percent to 12 percent has given the intense competition in the Industry. Increased competition also translates into serious pressures on cost. These added to soaring commodity prices and volatility of exchange rates pose a serious challenge to cost management.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of

Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of PARTH INDUSTRIES LTD. (“the Company”) as of 31st March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting

was established and maintained and if such controls operated effectively in all material respects.

Our Audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial, assigning a risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that -

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of managements and directors of the company, and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of the internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial

reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1 Significant Accounting Policies

1 Accounting Convention

These financial statements have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP) under the historical cost convention on accrual basis. Indian GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and the provisions of the Act (to the extent notified). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current - noncurrent classification of assets and liabilities.

2 Use of Estimates :

The preparation of Financial Statements in conformity with Indian GAAP requires the management to make estimates and assumptions in the reported amounts of assets and liabilities (including contingent liabilities) as of the date of the financial statements and the reported income and expenses during the reporting period. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates. Difference between the actual results and estimates are recognized in the period in which the results are known or materialize.

3 Fixed Assets

Fixed assets are stated at their original cost of acquisition/revalued cost wherever applicable less accumulated depreciation and impairment losses. Cost comprises of all costs incurred to bring the assets to their location and working condition.

Subsequent expenditure related to an item of fixed assets are added to its book value only if they increase future benefits from the existing assets beyond its previously assessed standard of performance.

4 Impairment of Assets:

The Company evaluates impairment losses on the fixed assets whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If such assets are considered to be impaired, the impairment loss is then recognized for the amount by which the carrying amount of the assets exceeds its recoverable amount, which is the higher of an asset's net selling price and value in use. For the purpose of assessing impairment, assets are grouped at the smallest levels for which there are separately identifiable cash flows.
