37. Information regarding Director retiring by rotation or otherwise seeking appointment/ re-appointment, as required under Secretarial Standard-2 and Regulation 36(3) of SEBI (Listing Regulations and Disclosure Requirements) Regulation, 2015:

Requirements) Regulations, 2015 ('SEBI Listing Regulations'), though statutorily not required in terms of Section 102 of the Companies Act, 2013 and rules thereunder.

The Members at the 28th Annual General Meeting ('AGM') of the Company held on September 22, 2017, had approved appointment of M/s. Agiwal & Associates, Chartered Accountants (FRN: 000181N), as the

Statutory Auditors of the Company to hold office from the conclusion of the 28th AGM till the conclusion of the 33rd AGM of the Company to be held in the year 2022. The first term of five years of M/s. Agiwal & Associates - Chartered Accountants shall terminate on the conclusion of 33rd AGM to be held on September 27, 2022.

M/s. Agiwal & Associates, Chartered Accountants (FRN: 000181N) have shown interest to be appointed as Statutory Auditors for 2nd term and have given their consent for their appointment as Statutory Auditors of the Company besides certificate confirming that their appointment, if made, will be within the limits prescribed under the provisions of Section 139 of the Companies Act, 2013 ('the Act') and the rules made thereunder. Further, they have confirmed their eligibility for appointment as Statutory Auditors in terms of Section 141 of the Companies Act, 2013 besides holding valid certificate for Peer Review issued by ICAI.

After evaluating and considering various factors such as industry experience, competency of the audit team, efficiency in conduct of audit, independence, etc., the Board of Directors of the Company has, based on the recommendation of the Audit Committee, proposed the appointment of M/s. Agiwal & Associates, Chartered Accountants having ICAI Firm Registration No. 000181N as the Statutory Auditor of the Company for 2nd term of 5 years from the conclusion of the 33rd AGM of the Company till the conclusion of the 38th AGM tentatively to be held in the year 2027. The remuneration of Statutory Auditors as per past practice is fixed by the Board after their appointment / reappointment as the case may be is based on authorization made by members in the General Meeting. Accordingly, the remuneration for the year 2022-23 for the Statutory Auditors will be fixed after their appointment in forthcoming AGM. Since there would not be any change in Statutory Auditor, the explanation for any material change in remuneration to be paid to Statutory Auditor is not applicable. The remuneration fixed for Statutory Auditors shall be excluding applicable taxes and out of pocket expenses unless agreed otherwise. The remuneration proposed to be paid to the Statutory Auditors during their second term shall be commensurate with the services to be rendered by them during the said tenure. The Board, in consultation with the Audit Committee shall approve revisions in the remuneration of the Statutory Auditors.

The Board of Directors in consultation with the Audit Committee may alter and vary the terms and conditions of appointment, including remuneration, in such manner and to such extent as may be mutually agreed with the Statutory Auditors.

Besides the audit, the Company would also obtain certifications from the Statutory Auditors under various statutory regulations and certifications required by clients, banks, statutory authorities and other permissible non-audit services as required from time to time, for which they will be remunerated separately on mutually agreed terms.

The Brief profile of the proposed Statutory Auditor is as under:

M/s. Agiwal & Associates was founded in 1968 by CA. D. C. Maheshwari. The firm is managed by twelve partners including CA. Prakash Chand Agiwal, CA. Prakash Gurbuxani, CA. G. D. Chaudhary and CA. R. To the members of South Asian Enterprises Limited ('the Company') Holding shares in physical form

Dear Member(s),

Sub:- Mandatory updation of KYC/ Nomination details

Pursuant to SEBI Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR2021/P/2021/655 dated Nov 03, 2021 and Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2021/687 dated Dec 14, 2021, SEBI has prescribed Common and Simplified Norms for processing investor's service request by RTAs and norms for mandatory furnishing of PAN, postal address, mobile number, email address, specimen signature, bank account details, Nomination ('KYC details') of all the shareholders, holding shares in physical form to the Company or through its RTA. Thus, the company has initiated steps for registering the KYC details of all its shareholders accordingly.

As per our record, your above-mentioned KYC details are not available/ updated in the Folio. It is therefore, requested, to submit the following details in attached formats along with the supporting documents forthwith, in your own interest:

1. Self-attested copy of Aadhar seeded PAN, Address proof (preferably Aadhar), phone number, email address of the shareholder(s) as per enclosed **Form ISR-1**.
2. Bank account details of 1st holder along with self-attested copy of a Cancelled cheque leaf with printed name (If name is not printed, please provide legible copy of Bank passbook/Bank statement with Bank's stamp) as per enclosed **Form ISR-1**.
3. Confirmation of Specimen Signature of holder(s) from your Banker as per enclosed **Form ISR-2**.
4. **NOMINATION** as per enclosed **Form SH-13** or **Form ISR-3** duly filled, in case shareholder(s) does not intend to nominate. All holders should sign in case of joint holders.

All forms mentioned above and other relevant information are also available on the website of the Company i.e. www.sael.co.in

Further, it is advisable to keep the aforesaid information updated with the Company as and when change occurs to avoid inconvenience in future.

In case of non-receipt of aforesaid information / incomplete information, all transactions in the folio could be frozen with effect from April 01/2023.

Further, the existing provision relating of transfer of securities under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 mandates that a request for transfer of securities shall not be processed unless the securities are held by the shareholders in dematerialized form. Accordingly, shares in dematerialized form will improve ease & convenience in the transfer of securities. Moreover, w.e.f. 25/01/2022 service request for processing of transmission, transposition, issue of duplicate share certificate and similar matters which are allowed for shareholders holding shares in physical form, the shareholders will not get the physical shares after processing their request and instead they will receive a 'Letter of Confirmation' for direct credit of relevant securities in their Securities Account ('demat account') as per prescribed procedure.

"YOU ARE, THEREFORE, REQUESTED TO GET YOUR SHARES DEMATERIALIZED ON PRIORITY TO AVOID INCONVENIENCE IN FUTURE."

2. Management Discussion and Analysis

Financial Review

Your Company recorded a total income of Rs. 50.81 lakhs and has incurred a net loss of Rs. 33.24 lakhs during the year under review compared to previous year's income of Rs. 105.66 lakhs and net loss of Rs. 11.09 lakhs. The revenue in the segment of the marketing of earthing products and execution of contracts for earthing and lightning protection systems has dipped to Rs. 13.18 Lakhs i.e. by Rs.49.99 lakhs as compared to Rs.63.17 lakhs in the previous year. The Company's dealings in earthing materials and lightning protection systems including installation in the electrical engineering segment have been categorised under the head "Trading" for the purpose of segment reporting in the annual accounts for the year under review.

Your Company's revenue from amusement parks i.e. entertainment segment has decreased by Rs. 6.39 Lakhs compared to previous year. The other income has increased by Rs. 1.53 Lakhs vis a vis previous year. Segment wise, the entertainment sector has generated revenue of Rs. 1.05 lakhs, the Trading segment Rs. 13.18 lakhs and other income accounted for Rs. 36.58 Lakhs during the year under review.

Industry Structure and Development

Your Company had been able to execute the contracts awarded to it in the electrical engineering under the trading segment. The power utilities, electronics and other hi-tech centres, where earthing is important, are its target customers apart from high-rise buildings, hotels, residential units, etc. However, sustained growth in this segment requires substantial capital infusion which remains a major constraint. The Company is closely monitoring the current market scenario and economic situation in order to improve its growth.

In amusement park segment, except for brief period from mid June 2021 till 13/07/2021, the Amusement Park at Kanpur remained closed. In the first quarter i.e. from April 2021 to mid June 2021, the operation of park were closed due to

COVID-19 restriction by local authorities. After 14/07/2021, the operations of park could not resume because the lease of park had not been renewed by concerned authority inspite of vigorous follow up. However, efforts are being made to resolve the matter at the earliest. The lease of Lucknow Park had expired in September 2019 and the Company after shutting down operations there in 2019 had proposed to handover the park to authorities. However, the matter is not yet settled.

Outlook, Risks and Concerns

Your Company already operates on thin margins and infusion of funds for improvement/ new rides has been a constant challenge. As already reported, the operation of amusement park at Kanpur has not resumed due to non-renewal of lease by concerned authority. With no inflows, the fixed expenses related to said park continue to pose challenge on revenues of the Company. The recurring loss in this segment is being closely monitored to keep it to the minimum. The trading segment, dealing in earthing and lightning protection systems business has garnered less revenue compared to previous year mainly due to slump in real estate sector as also due to COVID -19 pandemic.

The Company has developed a risk management framework that includes identification and mitigation of risks. The Company is implementing Risk Management Policy with a view to ensuring sustainable business growth and promoting a proactive approach in evaluating and resolving risks associated with the business.

Opportunities and Threats

The Company is exposed to normal industry risks attributable to respective segments. In order to meet the challenge of strained margins in amusement segment, the strategy is to get the lease of Kanpur renewed at the earliest and then to achieve increase in the number of visitors and simultaneously to explore avenues for diversification. In trading segment, the Company deploys the latest technology for earthing and lightning protection installations, which leads to better protection from electrical hazards. However, in view of slump prevailing in real estate sector, the Company is aiming at spreading awareness of its products and also securing credentials from its existing clients about the superiority of its products to meet the challenge.

Internal Financial Control Systems

The Company has in place a proper and adequate system of internal control to monitor proper recording of transactions authorized according to prescribed policies and procedures. The Company ensures that all regulatory guidelines are complied with at all levels.

The Audit Committee reviews the internal control mechanism periodically.

Human Resource/ Industrial Relations Front

The relationship with the employees has remained cordial during the year and the Directors place on record their sincere appreciation in this regard.

Under the provisions of Section 197 of the Companies Act, 2013 read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, as amended, there was no employee during the year drawing remuneration more than the stipulated amount in the said rules. The number of employees on the Company's rolls stood at 16 as on 31/03/2022.

Cautionary Statement

Statement in the "Management Discussion and Analysis" describing the Company's projections, estimates, expectations or predictions may be 'forward looking statements' within the meaning of applicable laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that would make a difference to the Company's operations include changes in government regulations, tax regimes, economic developments within the country and abroad and other relevant factors.

3. Dividend and Reserves

As Company has incurred loss during the year under review, no dividend is recommended by the Board and no amount has been transferred to the general reserve.

4. Material Changes & Commitments

The spread of COVID-19 pandemic across India and the globe has contributed to a significant decline in the economic activities which are now slowly picking up. The business of your Company was affected due to pandemic during the year under review. The most visible impact of COVID-19 crisis, for the Company is that the amusement park operations were closed in the first quarter of the year though the operations were later on halted due to non-renewal of lease of park at Kanpur. The operations in trading of electrical goods was also affected in the lockdown period. Other than the aforesaid, there were no material changes and commitments affecting the financial position of the Company during the year under review.

5. Board of Directors and Key Managerial Personnel (KMP):

• Changes in Directorate

There was no change in the Board during the year under review. The Company has complied with the relevant provisions with respect to constitution of the Board during the year under review.

Shri Anupam Mehrotra - Director (DIN: 08608345) shall retire by rotation at the ensuing Annual General Meeting and being eligible has offered himself for re-appointment. The Board recommends his reappointment in order to have his continued guidance in management of the Company and he has been reappointed as whole-time director by the Board in its meeting dated 30/05/2022 for period of 3 years 10 months subject to approval of members.

Dr. R. L. Bishnoi (DIN: 00130335)-Independent Director, has resigned as Director of the Company vide his letter dated 07/05/2022, stating other preoccupations as reason for his resignation. The Board places its appreciation for the valuable contribution made by Dr. R. L. Bishnoi during his tenure as Director. The vacancy caused due to resignation of Dr. R. L. Bishnoi is expected to be filled within prescribed period and the members will be informed in due course.

• Changes in Key Managerial Personnel ('KMP')

During the year, there was no change in **Key Managerial Personnel (KMP)** except that Ms. Komal Taparia, Compliance officer resigned with effect from 21/03/2022 and Ms. Unnati Jani was appointed as Compliance officer with effect from 05/04/2022.

6. Contracts with Related Party

No related party transaction has been made by the Company with promoters, directors or key managerial personnel etc. which may have potential conflict of interest with the Company at large as already reported. The Company had completed acquisition of 7359 equity Shares constituting 60.34% stake in Chai Thela Pvt. Ltd. ('CTPL') on 23/08/2021 as detailed in Form **AOC-2** annexed to this report as **Annexure – A**. The related party transactions, procedurally, are placed before the Audit Committee and if required, before the Board, specifying the nature, value and terms and conditions of the transactions. Where such transactions are entered in terms of omnibus approval accorded by the Audit Committee, the details are placed before the Audit Committee in its next meeting.

The summary of related party transactions has been disclosed under Note No. 33.05 in the Financial Statements of the Company as on 31/03/2022.

7. Annual Return Extract (MGT-9)

The reporting of extract of Annual Return in Form No. MGT-9 has been done away with pursuant to amendment in section 92(3) of the Companies Act, 2013 read with Rule 12 of Companies (Management and Administration) Rules, 2014 w.e.f. 28/08/2020. The Company is not required to comply with provisions relating to corporate social responsibility since it does not meet the criteria of applicability of provisions of Section 135 of the Companies Act, 2013.

14. Evaluation of Board/Committees/Individual Directors

The aim of the Board's evaluation is to assess the effectiveness of the Board's/Committee's processes, composition and arrangement in order to identify and realize any actions required to improve their effectiveness. The Companies Act, 2013 states that a formal annual evaluation needs to be carried out by the Board or Nomination and Remuneration committee or external agency of the Board's performance and that of its Committees and individual directors. As per the provisions of Section 178 of the Companies Act, 2013, the Nomination and Remuneration Committee is required to prescribe the manner for effective evaluation of performance of Board, its Committees and individual directors so that the evaluation can be carried out by the Board or the said Committee or an external agency appointed for this purpose. Further, Section 134 read with Schedule IV of the Companies Act, 2013 states that the performance evaluation of Independent Directors shall be carried out by the entire Board of Directors, excluding the director being evaluated. Independent Directors at its meeting carry out annually, the evaluation of Non-Independent Directors and the Chairman.

Board conducts on an annual basis an evaluation of the performance of the directors as to whether each director has sufficient time to discharge his/her responsibilities, taking into consideration multiple Board representations and other principal commitments.

The Board through its Nomination and Remuneration Committee has laid down the evaluation criteria for the performance of executive/ non-executive/independent directors through a peer-evaluation mechanism.

The evaluation process comprises:

- Board, Committee and management information and other relevant documentation.
- Discussions with all Board members, Committee members focusing on aspects of the Board's and Committee's composition, strategy, risk and controls, decision-making, roles and performance of the Chairman, independent directors, executive directors and other non-executive directors.

Pursuant to provisions of the Companies Act, 2013 and applicable Regulations of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Board in its meeting held on 30/05/2022 has carried out the evaluation of

its own performance and that of the Board Committees viz. Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee besides Individual Directors.

The evaluation has concluded that the Board and its Committees are overall effective and that all concerned are fully committed to their tasks to ensure healthy corporate governance.

A separate exercise to review the performance of Non-Independent Directors and the Chairman was carried out by Independent Directors in their meeting held on 28/03/2022 besides other matters. Their conclusion on all issues discussed was satisfactory.

15. Independent Directors

The Independent Directors of your Company have complied with the relevant provisions of the law relating to their appointment and they continue to comply with the provisions of the Companies Act, 2013 and the listing regulations. In terms of the provisions of sub-section (6) of Section 149 of the Act and Regulation 16 of the Listing Regulations, the Company has received declarations from all the Independent Directors of the Company stating that they continue to meet with the criteria of independence as provided in the Act and the Listing Regulations. Further, all the Non-Executive Directors of the Company had no pecuniary relationship or transactions with the Company, other than sitting fees, and reimbursement of expenses, if any, incurred by them for the purpose of attending meetings of the Company.

During the year ended 31/03/2022, 1 (One) meeting of Independent Directors was held on 28/03/2022.

Details of meeting of Independent Directors attended by the Independent Directors in the relevant period are as below:

S. No.	Name of the Director	Whether Chairman / Member	No. of Meeting(s) attended during F.Y. 2021 -2022 and dates

2	Shri R. K. Goswami	Member	1 28/03/2022
3	Dr. R. L. Bishnoi*	Member	1 28/03/2022

*Dr. R. L. Bishnoi has resigned from the directorship of the Company w.e.f. 07/05/2022.

16. Evaluation and Training of Directors/Independent Directors

Given the experience and qualifications of the Board members, the Board has not considered it necessary to engage external persons to facilitate the evaluation process as they themselves are accustomed to having their performance regularly evaluated. However, regular updates relating to regulatory, and industry's performance are provided to members of Board, besides any other aspect relevant to business of the Company. The Board also exercises an oversight of the training of Board /Committee members.

The directors are thus kept abreast of requisite information about business activities of the Company and risks involved therein to enable them to discharge their responsibilities in the best possible manner. Further, at the time of appointment, the Company issues a formal appointment letter outlining his/her role, duties and responsibilities as an Independent Director. The format of the letter of appointment is available on Company's website.

17. Directors Responsibility Statement

Pursuant to the provisions of Section 134(3)(c) of the Companies Act, 2013, the Directors hereby confirm:

- That in the preparation of the Annual Accounts for the financial year ended 31st March, 2022, the applicable accounting standards have been followed, along with proper explanation relating to material departures;

- b. That they have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent, so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the loss of the Company for that period;
- c. That they have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities; and

SECRETARIAL AUDIT REPORT For the financial year ended 31st March, 2022 Form MR-3

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
South Asian Enterprises Limited,
Corp. Office: 2nd Floor, 13, Sant Nagar,
East of Kailash, New Delhi-110065.

I have conducted the secretarial audit of the compliances of applicable statutory provisions and the adherence to good corporate practices by **South Asian Enterprises Limited** (hereinafter called "the Company"). Secretarial audit was conducted in a manner that provided me with a reasonable basis for evaluating the corporate conduct/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by it and also information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on **31st March, 2022** complied with the statutory provisions listed hereunder and also that the Company had proper Board processes and compliance-mechanisms in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2022 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings; (Not applicable during the year under review).
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; (Not applicable during the year under review.)

SOUTH ASIAN ENTERPRISES LTD.

- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; (Not applicable during the year under review.)
- (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018; (Not applicable during the financial year under review)
- (i) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
- (j) Securities and Exchange Board of India (Depository and Participants) Regulations, 2018;
- (vi) The Company had properly complied the other laws viz. Income tax Act 1961, Prevention of Money Laundering Act, 2002 and rules made thereunder, other applicable tax laws, labour laws, local revenues laws, Insurance Act, The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, Air (Prevention and Control of Pollution) Act, 1981 and rules made thereunder, Water (Prevention and Control of Pollution) Act, 1974 and rules made thereunder, Environment (Protection) Act, 1986, local revenue laws, etc. as applicable to it.
- I have also examined compliance with the applicable clauses of the following:
- Secretarial Standards issued by The Institute of Company Secretaries of India,
 - The Listing Agreement entered into by the Company with the BSE Limited under SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015,

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above. The Company has been filing requisite forms and returns with Registrar of Companies in time regularly during the year under review. Further no action was initiated against the listed entity/ its promoters/ directors/subsidiaries either by SEBI or by Stock Exchanges (including under the Standard Operating Procedures issued by SEBI through various circulars) or Registrar of Companies under the aforesaid Acts/ Regulations and circulars/ guidelines issued thereunder except as below:

- Fine of Rs.1,71,100/- (Rupees One Lakh Seventy One Thousand One Hundred Only) including GST was levied by BSE Ltd. for violation of Regulation 33 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for delayed disclosure of Consolidated Cash Flow Statement for quarter ended September, 2021.

The fine of Rs.1,71,100/- (Rupees One Lakh Seventy One Thousand One Hundred Only) was paid by the Company on 23/03/2022 through NEFT to BSE Ltd.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notices are given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance except when meeting was called at shorter notice and duly recorded so. A system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting. All decisions were passed unanimously and were properly recorded as part of the minutes.

I further report that based on review of compliance mechanism established by the Company and on the basis of compliance certificate issued inter-alia by Company Secretary which was taken on record by Board of Directors, I am of the opinion that there are adequate systems and processes in the Company are commensurate with its size and operations to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. The provisions relating to Corporate Social Responsibility (CSR) were not applicable to the Company during the year under review.

I further report that during the audit period, the Company has not taken any action having major bearing on affairs of the Company pursuant to above referred laws.

INDEPENDENT AUDITOR'S REPORT

To the Members of South Asian Enterprises Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **South Asian Enterprises Limited** (the "Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to Note No. 33.15 of the financial statements which describes the impact of economic and social consequences of the CoVID-19 pandemic on the Company's business and financial metrics, which continues to be dependent on uncertain future developments. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have nothing to report under this paragraph.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended,

("Ind AS") and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid Standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act;
 - f) With respect to the adequacy of the internal financial controls with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting;
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section of 197(16) of the Act, as amended;

In our opinion and best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors for the year ended March 31, 2022 is in accordance with the provisions of section 197 read with Schedule V to the Act;
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. a) The management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
b) The management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf

of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

- v. No dividend has been declared or paid during the year by the Company.

Annexure '1' to the Independent Auditor's Report

(Referred to in paragraph 1 of "Report on Other Legal and Regulatory Requirements" of our report to the Member of South Asian Enterprises Limited of even date)

In terms of the information and explanations sought by us and given by the company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- i. In respect of the Company's Property, Plant and Equipment and Intangible Assets:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.
(B) The Company has maintained proper records showing full particulars of intangibles assets.
 - (b) The Company has a program of physical verification of Property, Plant and Equipment and right-of-use assets so to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) all immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the financial statements included under Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.
 - (d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use-assets) and intangible assets during the year ended March 31, 2022.
 - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii.
 - (a) The Company does not have any inventory and hence reporting under clause 3(ii)(a) of the Order is not Applicable.
 - (b) The Company has not been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, at any points of time during the year, from banks or financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.
- iii. The Company has made investment in, companies, firms, Limited Liability Partnerships and granted unsecured loans to other parties, during the year, in respect of which:
 - (a) The Company has provided loans or advances in the nature of loans or stood guarantee, or provided security to any other entity during the year. The details of which are as under:

SOUTH ASIAN ENTERPRISES LTD.

A) To Subsidiaries, Joint Ventures & Associates:

During the Year (Amount in INR)	As at 31 March, 2022 (Amount in INR)	Name	Nature
98,39,215/-	2,66,74,307/-	Chai Thela Private Limited	Loan to Subsidiary Company

- (b) In our opinion, the investment made and the terms and conditions of grant of loans, during the year are, prima facie, not prejudicial to the Company's interest.
- (c) In respect of loan granted by the Company to its subsidiary company, the schedule of repayment of principal and payment of interest has been stipulated and repayment or receipts are regular as per stipulated schedule.
- (d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.
- (e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- (f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) is not applicable.
- iv. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 with respect to the loans, investment, guarantees and security provided by it, as applicable.
- v. The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
- vi. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence, reporting under clause (vi) of the Order is not applicable to the Company.
- vii. In respect of statutory dues:
- a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.
- There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2022 for a period of more than six months from the date they became payable.
- b) There are no dues of goods and services tax, provident fund, employees' state insurance, income tax, sales-tax, service tax, value added tax, cess, goods and service tax and other statutory dues which have not been deposited on account of any dispute.
- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause 3(ix)(a) of the Order is not applicable.
- b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.
- d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- f) The Company has not raised any loans during the year and hence reporting on clause 3(ix)(f) of the Order is not applicable.

- x. a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi. a) No frauds by the Company and no fraud on the Company has been noticed or reported during the year.
- b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by secretarial auditor or by us in Form ADT - 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- xii. The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a), (b) and (c) of the Order is not applicable to the Company.
- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv. a) In our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provision of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b), and (c) of the Order is not applicable.
- b) In our opinion, there is no core investment company with in the group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has incurred cash losses of Rs. 32,06,364/- during the financial year covered under our audit and cash losses of Rs. 6,27,097/- in the immediately preceding the financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. As per our information and explanation given, the company does not fall under the criteria of Section 135 of Companies Act, 2013 for CSR activities. Hence, this clause of report is not applicable to the company.

Annexure '2' to the Independent Auditor's Report

(Referred to in paragraph 2(f) under the heading "Report on other legal and regulatory requirements" of our report to the Members of South Asian Enterprises Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **South Asian Enterprises Limited** ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone Ind As financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls over these Financial Reporting

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations to us, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

1. Corporate Information

South Asian Enterprises Limited is a public limited company incorporated in 1991 and domiciled in India. The registered office of the Company is situated at K-Block, Kidwai Nagar, Kanpur (U.P.) The Company's shares are listed on the BSE Ltd. The Company is engaged to run amusement parks and other activities including trading in earthing and lightning protection systems.

2. Significant Accounting Policies

2.1 Statement of Compliance with Ind AS

The financial statements have been prepared in accordance with Ind AS prescribed under Section 133 of the Companies Act, 2013 ("Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are approved for issue by the Board of Directors has been considered in preparing these financial statements.

2.2 Basis of Preparation of Financial Statements

These financial statements are prepared on the accrual basis of accounting, under the historical cost convention except for the following:

- i) Certain financial assets and financial liabilities measured at fair value; and
- ii) Defined benefits plan - plan assets measured at fair value.

There is no change in the system of accounting as being consistently followed from earlier years unless otherwise stated

All assets and liabilities have been classified as current or non-current as per company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operations and time between procurement of raw material and realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities

2.3 Use of Estimates

The preparation of the Financial Statements in conformity with Ind AS requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenditure during the period. Management believes that the estimates made in the preparation of the financial statements are prudent and reliable. Actual results might differ from the estimates. Difference between the actual results and estimates are recognized in the period in which results are known / materialized.

2.4 Property, plant and equipment (PPE) and Capital work-in-progress (CWIP)

The Company has elected to continue with carrying value of all Property, plant and equipment and Capital work-in-progress (CWIP).

The Property, plant and equipment were stated at their original cost (net of accumulated depreciation and impairment) adjusted by revaluation of certain assets.

The Property, plant and equipment (PPE) and Capital work-in-progress (CWIP) are stated at cost net of GST credit and/or at revalued price less accumulated depreciation and Accumulated Impairment.

Interest on borrowings used to finance the construction of qualifying assets are capitalized as part of the cost of the asset until such time that the asset is ready for its intended use.

Depreciation on Property, plant and equipment (PPE) is provided on written down value method as prescribed under Part C of Schedule II to the Companies Act, 2013. The additional depreciation, on increase in cost on account of revaluation, is transferred to Retained Earnings from Revaluation Reserve and is thus not charged to statement of Profit & Loss of the year.

Useful life of assets is considered on the basis of schedule-II of Companies Act 2013.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Each item of PPE individually costing Rs.5,000/- or less is depreciated fully in the year of their put to use.

Depreciation/amortization on assets added, sold or discarded during the year is provided on pro-rata basis.

2.5 Intangible Assets (Computer Software)

Intangible assets expected to provide future enduring economic benefits are recorded at the consideration paid for acquisition of such assets and are carried at cost of acquisition less accumulated amortization and impairment, if any.

Intangible assets: Computer software is amortized over a period of four years.

2.6 Revenue Recognition and Expenses

- (i) Effective April 1, 2018 the company adopted Ind AS 115, revenue from contracts with customer using the cumulative catch up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch up transition method, the comparatives have not been retrospectively adjusted. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for services and goods are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on supply and service contracts are recognized as the related performance obligation is completed.

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenues in excess of invoicing are classified as contract assets (which we refer to as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

- (ii) Insurance claims have been accounted for on cash basis looking in to the uncertainty and its collection as per past practice.
- (iii) Interest Income is accounted for on time proportionate basis.

2.7 Expenses

- (i) All expenses are accounted for on accrual basis.

2.8 Inventory

- a) Cost of inventory comprises of purchase price, cost of conversion and other cost that have been incurred in bringing the inventories to their respective present location and condition. Interest costs are not included in value of inventory.

Inventories are valued as under:

Finished Goods are carried at lower of cost or net realizable value. Cost of finished goods is determined following first in first out method.

Traded Goods are carried at lower of cost or net realizable value. Cost of traded goods is determined following first in first out method.

2.9 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022 (Contd...)

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

External valuers are involved for valuation of significant assets, such as properties. Involvement of external valuers is decided by the management after discussion with and approval by the Company's management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.10 Financial instruments

Financial assets and financial liabilities are recognised in the Balance sheet when the Company becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. The financial assets include equity and debt securities, trade and other receivables, loans and advances, cash and bank balances and derivative financial instruments.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in the following categories:

- 1) At amortised cost,
- 2) At fair value through other comprehensive income (FVTOCI), and

- 3) At fair value through profit or loss (FVTPL).

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- 1) The asset is held within a business model whose objective is to hold the asset for collecting contractual cash flows, and
- 2) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

Equity investments

All equity investments in the scope of Ind AS 109 are measured at fair value except in case of investment in subsidiary carried at deemed cost and associate carried at cost.

Equity instruments included within the FVTPL category, if any, are measured at fair value with all changes recognized in profit or loss. The Company may make an irrevocable election to present in OCI subsequent changes in the fair value.

The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price is deferred and after initial recognition deferred difference is recognised as gain or loss to the extent it arises from change in input to valuation technique. If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI.

There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

De-recognition

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

2.11 Employees Benefits

- (i) Short term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services are recognized as an expense as the related service is rendered by employees.

- (ii) Post employment benefits

Defined contribution plans:

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The company makes specified monthly contributions towards provident fund. The Company's contribution is recognized as an expense in the statement of profit and loss during the period in which employee renders the related service.

Defined benefit plan:

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022 (Contd...)

When the calculation results in a benefit to the Company, the recognized asset is limited to the net total of any unrecognized actuarial losses and past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

Actuarial gains and losses are recognized in the other comprehensive income

(ii) Long term employment benefits

The Company's net obligation in respect of long-term employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated using the projected unit credit method and is discounted to its present value and the fair value of any related assets is deducted. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

(iv) Compensated absences

The employees can carry-forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilized wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Short term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit & Loss for the year in which the related service is rendered.

(v) Estimation of Defined benefit obligations

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each financial year end. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the actuary considers the interest rates of government bonds. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

2.12 Borrowing Costs

Borrowing costs attributable to the qualifying assets are capitalized up to the period such assets are ready for the intended use and commenced commercial production. All other borrowing cost is charged to the Statement of Profit & Loss in the period in which they are incurred.

2.13 Foreign Currency Transactions and Translations

- a) Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of transaction. Monetary items denominated in foreign currency at the year end are translated at year end rates.
- b) Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.
- c) In respect of monetary items which are covered by forward exchange contracts, the difference between the year end and the rate on the date of contract is recognized as exchange difference and the premium on such forward contracts is recognized over the life of the forward contract.
- d) The exchange differences arising on settlement/translation are recognized in the Statement of Profit and Loss.

2.14 Taxes on Income

(a) Current Tax

Tax on income for the current period is determined on the basis of taxable income computed in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which give future economic benefit in the form of adjustment to future income tax liability is considered as an asset to the extent there is convincing evidence that the company will pay normal income tax.

(b) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statement and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of an asset or liability in a transaction (other than a business combination) affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for the carry forward of unused tax losses and unused tax credit to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax liabilities are generally recognised on all taxable temporary differences.

2.15 Impairment of Non-financial Assets

- (i) No financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.
- (ii) An impairment loss is recognised for the amount by which the assets' carrying amount exceeds its recoverable amount, costs of disposal and value in use.
- (iii) For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows which are largely independent of the cash inflows from other assets or group of assets (cash generating units).
- (iv) Non financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.16 Leases

Following Ind AS 17 till 31.03.2019, the assets acquired as leases where a significant portion of the risks and rewards of the ownership retained by the lessor are classified as operating leases. Lease rentals are charged to the Statement of Profit & Loss on accrual basis. With effect from 01.04.2019, the Ind AS 116 has been applied by the company.

2.17 Provisions, Contingent Liabilities and Contingent Assets

- (i) Provision is recognized in respect of obligations where, based on the evidence available, their existence at the Balance Sheet date is considered probable.
- (ii) Provision is recognized in the accounts in respect of present probable obligations, the amount of which can be reliably estimated.
- (iii) Provisions are not recognised for future operating losses.
- (iv) Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company.
- (v) A contingent asset is not recognized in the financial statements.
- (vi) Provisions and contingent liabilities are reviewed at each balance sheet date.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022 (Contd...)

2.18 Segment Reporting

Primary Segment

Based on the guiding principles given in the Ind AS-108 "Segment Reporting" issued by ICAI, the Company's segments are running of amusement parks and trading in earthing & lightning protection systems.

Revenue and expenses have been accounted for on the basis of their relationship to the operating activities of the respective segment.

Segment Identification

Business segments have been identified on the basis of the nature of products/ services, the risk return profile of individual business, the organizational structure and the internal reporting system of the company.

The operating segments are reported after taken into consideration of aggregation criteria and quantitative threshold as mentioned in Para 12 and 13 of Ind AS 108.

2.19 Earnings Per Share

Basic earnings per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extra ordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extra ordinary items, if any) by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares.

2.20 Cash and Cash Equivalents

Cash and cash equivalents in the Balance sheet comprise cash on hand, cheques on hand, balance with banks on current accounts and short term, highly liquid investments with an original maturity of three months or less and which carry insignificant risk of changes in value.

For the purpose of the Cash Flow Statement, Cash and cash equivalents consist of Cash and cash equivalents, as defined above and net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

2.21 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payment and item of income or expenses associated with investing or financing flows. The cash flows operating, investing and financing activities of the company are segregated.

2.22 Investment Property:

An investment property shall be measured initially at its cost. Transaction costs shall be included in the initial measurement.

The cost of a purchased investment property comprises its purchase price and any directly attributable expenditure. Directly attributable expenditure includes, for example, professional fees for legal services, property transfer taxes and other transaction costs.

Cost model after initial recognition, an entity shall measure all of its investment properties in accordance with Ind AS 16's requirements for cost model, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations. Investment properties that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) shall be measured in accordance with Ind AS 105.

When measuring the fair value of investment property in accordance with Ind AS 113, an entity shall ensure that the fair value reflects, among other things, rental income from current leases and other assumptions that market participants would use when pricing investment property under current market conditions.

This Standard requires all entities to measure the fair value of investment property, for the purpose of disclosure even though they

are required to follow the cost model. An entity is encouraged, but not required, to measure the fair value of investment property on the basis of a valuation by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being value.

2.23 Estimated fair value of unlisted securities

The fair values of financial instruments that are not traded in an active market and cannot be measured based on quoted prices in active markets is determined using valuation techniques including the net assets value (NAV) model. The Group uses its judgment to select a variety of method / methods and make assumptions that are mainly based on market conditions existing at the end of each financial year. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.24 Insurance claims and liquidated damages

Insurance claims are accounted as and when admitted/settled. Subsequent changes in value, if any, are provided for.

2.25 Ind AS 116: Leases

Effective April 01, 2019, the Company has adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 01, 2019 using the modified retrospective method. Accordingly, the Company recognizes right-of-use asset at the date of initial application. The right-of-use asset is measure equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before the date of initial application.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

A lease that transfers substantially all the risks and rewards incidental to ownership to the lessee is classified as a finance lease. All other leases are classified as operating leases.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term

SOUTH ASIAN ENTERPRISES LTD.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022 (Contd...)

or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or

less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately.

It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

Impact of Ind AS 116:

Ind AS 116 Leases was notified by MCA on 30th March 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17.

The Company has adopted the new standard on the required effective date using the modified retrospective method. Accordingly, the company has not restated comparative information, instead, the right-of-use asset is recognized at the date of initial application. The right-of-use asset is measure equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before the date of initial application.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022 (Contd...)

33.1 Financial risk management objectives and policies

The Company's principal financial liabilities include Trade payable and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include Trade receivables, Cash and cash equivalents and other financial assets that derive directly from its operations. The Company is exposed to credit risk, liquidity risk and market risk. The Company's senior management oversees the management of these risks and the appropriate financial risk governance framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

The Board of Directors reviewed policies for managing each of these risks, which are summarized below:

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other risks, such as regulatory risk and commodity price risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings obligations with floating interest rates but the financial implication is not material.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency denominated payables on account of import and receivables of export value but the financial implication is not material.

(iii) Regulatory risk

There is no regulatory risk in the business operations of the company.

(iv) Commodity price risk

Prices of commodity are subject to fluctuation. The earthing material price is subject to some fluctuation but it is not a regular feature. Its prices are more or less stable. The Company mitigates this risk by properly planning of stock in hand and sale orders.

(v) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company has a follow up policy in place with parties, thereby the credit default risk is significantly mitigated.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date. Financial assets are written off when there is no reasonable expectation of recovery, however, the Company continues to attempt to recover the receivables. Where recoveries are made, these are recognized in the Statement of Profit and Loss.

Description	As at 31st March 2022	As at 31st March 2021	Remarks
Up-to 6 months	-	-	
6 to 12 Months	1.30	18.54	-
More than 12 months	5.67	12.43	-
More than 12 months	2.76	2.76	Alloawances for expected credit loss
Total	4.21	28.21	

Management is of view that certain amounts are beyond credit period so provision for expected credit loss has been made in books of accounts.

(vi) Trade receivables

Trade receivables are non-interest bearing and are generally on credit terms of 30 to 90 days. An impairment analysis is performed at each balance sheet date on an individual basis for major clients.

(vii) Liquidity Risk

Liquidity risk refers to the probability of loss arising from a situation where there will not be enough cash and/or cash equivalents to meet the needs of depositors and borrowers, sale of illiquid assets will yield less than their fair value and illiquid assets will not be sold at the desired time due to lack of buyers. The primary objective of liquidity management is to provide for sufficient cash and cash equivalents at all times and any place in the world to enable us to meet our payment obligations. The company is maintaining cash credit limit to a reasonable level to meet out the current obligation.

The Company's objective is to meet the funding requirement and maintain flexibility in this respect through the use of cash credit facilities, short term loans and commercial papers. The table below summarises the maturity profile of the Company's financial liabilities:

Sensitivity Analysis: Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase rate. Effect of change in mortality rate is negligible. Please note that the sensitivity analysis presented below may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. The results of sensitivity analysis are given below:

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022 (Contd...)

33.12 Details of Investments made pursuant to requirements of Section 186(4) of the Companies Act, 2013 are given in Note No.5.

33.13 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio between 3% and 10%. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and short term deposits.

Particulars	As at 31.03.2022	As at 31.03.2021
Borrowings	0.06	-
Other Liabilities	17.59	15.88
Trade and other payables	3.05	3.48
Less: Cash and short- term deposits	(2.91)	(82.25)
Net debts	17.79	(62.89)
Equity	399.91	399.91
Other Equity	275.30	309.73
Total Capital	675.21	709.64
Capital and net debt	693.00	646.75
Gearing ratio (%)	2.57%	-9.72%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

Dividend Distribution Policy

In view of the working capital requirements and for expansion of the Company, your directors have not recommended any dividend for the financial year ended 31 March 2022.

33.14 Fair value

- i) Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Particulars	Carrying value		Fair value	
	As at	As at	As at	As at
	31-Mar-22	31-Mar-21	31-Mar-22	31-Mar-21
Financial assets				
FVOCI financial instruments:	-	-	-	-

Financial liabilities				
Obligation under finance lease	-	-	-	-
Fixed rate borrowings	-	-	-	-
Floating rate borrowings	-	-	-	-

- a) The management assessed that cash and cash equivalents, other bank balances, trade receivables and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments.
- b) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022 (Contd...)

- c) Long-term fixed-rate and variable-rate receivables / Borrowings are evaluated by the company based on parameters such as interest Rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.
- d) Non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or the discount rate, the fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.
- e) The fair values of the unquoted equity shares have been estimated using a net asset value method.
- f) The fair values of the Company's interest-bearing borrowings and loans are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31 March 2022 was assessed to be insignificant.

33.15 Estimation uncertainty relating to the global health pandemic on COVID-19

In assessing the recoverability of different assets, the Company has considered internal and external information up to the date of approval of these financial statements including credit reports and economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

33.16 The Taxation Laws (Amendment) Ordinance, 2019 contain substantial amendments in the Income Tax Act 1961 and the Finance (No.2) Act, Sec 115BAA of the Income Tax Act, 1961 provide an option to domestic companies to pay income tax at a concessional rate. However, the Group has elected to continue with the old tax rates as there is no current tax liability for the current year.

33.17 The company has acquired 60.34% share capital of Chai Thela Private Limited (CTPL) comprising 7359 equity shares of Rs.10/- each at an investment value of Lakh.28.85 and it has become the subsidiary of the company with effect from 23rd August, 2021. The Company had earlier approved to provide a term loan of Lakh.2.65 in the year 2021 at an interest rate of 7% to CTPL for its business activities, which has been completely disbursed during the year. CTPL is engaged in the business of selling tea and other food items through their restaurants, cafes, kiosks / counters, carts etc. for last more than 5 years. The company intends to make more investments by acquiring more equity in CTPL and also to extend financial assistance to meet their expansion plans along with their working capital needs.

33.20 : Ratio Analysis

(₹ in lakhs)

S. No.	Ratio as per Schedule III requirements	As at 31st March 2022	As at 31st March 2021	Explanation
1	Current Ratio = Current Assets/Current Liabilities) Current Assets Current Liabilities	16.80 379.19 22.57	26.96 580.34 21.53	Current ratio is lower compared to last year as the company has provided loan to its subsidiary i.e. Chai Thela Private Limited. The loan is lended at 7% ROI.
2	Debt Equity Ratio = Total Debt/Shareholders Equity) Total Debt Total Equity	0.00 0.06 675.22	- - 709.64	Within limits.
3	Debt Service Coverage ratio = a/b) Profit for the year Add: Non cash operating expense and finance cost Depreciation and amortization expense Finance cost a. Earnings available for debt servicing Interest cost on borrowings Principal repayments (including certain prepayments) b. Total Interest and principal repayments	(225.53) (34.45) 1.08 0.15 (33.22) 0.15 - 0.15	(10.93) (12.51) 6.36 0.52 (5.64) 0.52 - 0.52	The company has incurred losses due to the following reasons: 1. The amusement park owned by the company was in operation only for the period of 3 months due to closure of park. 2. Electrical division operations has also been reduced substantially due to pandemic 3. Consequently the revenue has decreased by 80% as compared to last year
4	Return on Equity Ratio / Return on Investment Ratio = Net profit after tax divided by Equity Profit for the year Total Equity	-5% (34.45) 675.22	-2% (12.51) 709.64	ROE has further reduced due to reduction in operations and consequently revenue for the year.
5	Inventory Turnover Ratio = Cost of materials consumed divided by closing inventory Cost of material consumed Closing Inventory	1.37 11.58 8.48	1.93 29.62 15.37	Inventory turnover has fallen because the operations of the company is reduced. Fall in consumption of material consumed is more than fall in the closing inventory.

Independent Auditor's Report

To the Members of Chai Thela Private Limited

Report on the Audit of financial statements

Opinion

We have audited the accompanying financial statements of **Chai Thela Private Limited ("the Company")** which comprises the Balance Sheet as at March 31, 2022, the Statement Profit and Loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year ended on that date, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information [hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other information, which we will obtain after the date of auditors' report and we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those charged with governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Emphasis of Matter

1. We draw attention to note 15 and 16 to the financial statements; during the year ended on 31st March, 2022 the Company's net worth is substantially eroded. The Company has other equity of Rupees (3,22,29,834) which has eroded the entire share capital of Rs 1,21,960 and shareholder's funds as on 31.03.2022 amounts to Rupees (3,21,07,876). In our opinion, erosion of net worth raises significant doubt about the going concern assumption of the company. However, the management is of the opinion and are hopeful that the performance of the Company will be more satisfactory in coming year ahead and the promoters will infuse more funds for revival of the Company. Considering the matters set out in the said note, this financial statement is prepared on a going concern basis. Our opinion is not qualified in respect of these matters.

CHAI THELA PRIVATE LIMITED

2. The company has become subsidiary of South Asian Enterprises Ltd in the financial year 2021-2022 which is a listed company, due to which the company has to reclassify its financial statements as per IND-AS, which is done in accordance with Indian Accounting Standard (IND AS) 101. The financial statements up to the financial year 2020-2021 were prepared in accordance with INDIAN – GAAP.

Other Matter

We have not audited the financial statements of the company for the financial year 2019-2020. The financial statements for the year 2019-2020 have been reclassified and presented along with current period's financial statements due to the implementation of IND AS 101 and we do not express any opinion for the same. However, the auditor of the company for the said financial year had given an unmodified opinion.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the **Annexure 'A'** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, based on our report we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, Statement of Change in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

Annexure - B to the Independent Auditors' Report**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act 2013 ("the Act") of Chai Thela Private Limited for the year ended 31st March, 2022**

We have audited the internal financial controls over financial reporting of **Chai Thela Private Limited** ("the Company") as of 31 March 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to company's policies the safeguarding of its assets the prevention and detection of frauds and errors the accuracy and completeness of the accounting records and the timely preparation of reliable financial information as required under the Companies Act 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act 2013 to the extent applicable to an audit of internal financial controls both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls material misstatements due to error or fraud may occur and not be detected. Also projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us the Company has in all material respects an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2022 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Statement of Compliance with Ind AS

In accordance with the notification dated 16th February, 2015, issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) with effect from 1st April, 2020 with restatement of previous year figures presented in this financial statements. Accordingly, the financial statements have been prepared in accordance with Ind AS prescribed under Section 133 of the Companies Act, 2013 ("Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

The Company has adopted all the applicable Ind AS and the adoption was carried out in accordance with Ind AS-101 First time adoption of Indian Accounting Standards.

The transition was carried out from Generally Accepted Accounting Principles in India which comprised of applicable Accounting Standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, other pronouncements of the Institute of Chartered Accountants of India (ICAI), relevant applicable provisions of the Companies Act, 1956, and the Companies Act, 2013 to the extent applicable ("Previous GAAP").

These financial statements for the year ended 31st March, 2022 are the first financial statements of the Company prepared in accordance with Ind AS. The date of transition to Ind AS is 1st April, 2020.

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are approved for issue by the Board of Directors has been considered in preparing these financial statements.

2.2 Basis of Preparation of Financial Statements

These financial statements are prepared on the accrual basis of accounting, under the historical cost convention except for the following:

- Certain financial assets and financial liabilities measured at fair value; and
- Defined benefits plan - plan assets measured at fair value.

There is no change in the system of accounting as being consistently followed from earlier years unless otherwise stated except application of Ind AS w.e.f. transition date i.e. 01.04.2020.

All assets and liabilities have been classified as current or non-current as per company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operations and time between procurement of raw material and realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities

2.3 Use of Estimates and Judgments

The preparation of the Financial Statements in conformity with GAPP requires management to make estimates, judgments and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenditure during the period. Management believes that the estimates made in the preparation of the financial statements are prudent and reliable. Actual results might differ from the estimates. Difference between the actual results and

estimates are recognized in the period in which results are known / materialized.

2.4 Property, plant and equipment (PPE) and Capital work-in-progress (CWIP)

Transition to Ind AS

The Company has elected to continue with carrying value of all Property, plant and equipment and Capital work-in-progress (CWIP) under the previous GAAP as deemed cost as at the transition date i.e. 1st April, 2020.

Under the previous GAAP, Property, plant and equipment were stated at their original cost (net of accumulated depreciation and impairment) adjusted by revaluation of certain assets.

The Property, plant and equipment (PPE) and Capital work-in-progress (CWIP) are stated at cost net of cenvat credit and/or at revalued price less accumulated depreciation and Accumulated Impairment.

Interest on borrowings used to finance the construction of qualifying assets are capitalized as part of the cost of the asset until such time that the asset is ready for its intended use.

Depreciation on Property, plant and equipment (PPE) is provided on written down value method as prescribed under Part C of Schedule II to the Companies Act, 2013. The additional depreciation, on increase in cost on account of revaluation, is transferred to Retained Earnings from Revaluation Reserve and is thus not charged to statement of Profit & Loss of the year.

Useful life of assets is considered on the basis of schedule-II of Companies Act 2013.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Depreciation/amortization on assets added, sold or discarded during the year is provided on pro-rata basis.

2.5 Intangible assets (Computer Software)

Transition to Ind AS:

The Company has elected to continue with carrying value of computer software under the previous GAAP, as deemed cost as at the transition date i.e. 1st April, 2020. Under the previous GAAP, computer software was stated at their original cost (net of accumulated amortization and accumulated impairment, if any).

Intangible assets expected to provide future enduring economic benefits are recorded at the consideration paid for acquisition of such assets and are carried at cost of acquisition less accumulated amortization and impairment, if any.

Intangible assets: Computer software is amortized over a period of four years.

2.6 Revenue Recognition and Expenses

- Revenue is recognized to the extent it is probable that economic benefits would flow to the Company and the revenue can be reliably measured, regardless of when the revenue proceeds is received from customers.
- Revenue is measured at the fair value of the consideration received/receivable taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government.
- Revenue from rendering restaurant services is recognized when the related services are performed and billed to the customer and is net of GST, as applicable.
- All other Income are accounted for on accrual basis.

2.7 Expenses

- All expenses are accounted for on accrual basis.

2.8 Inventory

- Cost of inventory comprises of purchase price, cost of conversion and other cost that have been incurred in bringing the inventories to their respective present location and condition. Interest costs are not included in value of inventory.

Inventories are valued as under:

Finished Goods are carried at lower of cost or net realizable value. Cost of finished goods is determined following first in first out method.

2.9 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

External valuers are involved for valuation of significant assets, such as properties. Involvement of external valuers is decided by the management after discussion with and approval by the Company's management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.10 Financial instruments

Financial assets and financial liabilities are recognised in the Balance sheet when the Company becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. The financial assets include equity and debt securities, trade and other receivables, loans and advances, cash and bank balances and derivative financial instruments.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in the following categories:

- 1) At amortised cost,
- 2) At fair value through other comprehensive income (FVTOCI), and
- 3) At fair value through profit or loss (FVTPL).

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- 1) The asset is held within a business model whose objective is to hold the asset for collecting contractual cash flows, and
- 2) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

Equity investments

All equity investments in the scope of Ind AS 109 are measured at fair value except in case of investment in subsidiary carried at deemed cost and associate carried at cost.

Deemed cost is the carrying amount under the previous GAAP as at the transition date i.e. 1st April, 2020. Equity instruments included within the FVTPL category, if any, are measured at fair value with all changes recognized in profit or loss. The Company may make an irrevocable election to present in OCI subsequent changes in the fair value.

The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price is deferred and after initial recognition deferred difference is recognised as gain or loss to the extent it arises from change in input to valuation technique. If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI.

There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

De-recognition

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

2.11 Employees Benefits

(i) Short term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short term employee benefits to be paid in exchange for employee services are recognized as an expense as the related service is rendered by employees.

(ii) Post employment benefits

Defined contribution plans:

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The company makes specified monthly contributions towards provident fund. The Company's contribution is recognized as an expense in the statement of profit and loss during the period in which employee renders the related service.

Defined benefit plan:

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees

have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

When the calculation results in a benefit to the Company, the recognized asset is limited to the net total of any unrecognized actuarial losses and past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

Actuarial gains and losses are recognized in the other comprehensive income

(ii) Long term employment benefits

The Company's net obligation in respect of long-term employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated using the projected unit credit method and is discounted to its present value and the fair value of any related assets is deducted. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

(iv) Compensated absences

The employees can carry-forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilized wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Short term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit & Loss for the year in which the related service is rendered.

(V) Estimation of Defined benefit obligations

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each financial year end. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the actuary considers the interest rates of government bonds. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

2.12 Borrowing Costs

Borrowing costs attributable to the qualifying assets are capitalized up to the period such assets are ready for the intended use and commenced commercial production. All other borrowing cost is charged to the Statement of Profit & Loss in the period in which they are incurred.

2.13 Foreign Currency Transactions and Translations

- Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of transaction. Monetary items denominated in foreign currency at the year end are translated at year end rates.
- Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.
- In respect of monetary items which are covered by forward exchange contracts, the difference between the year end and the

rate on the date of contract is recognized as exchange difference and the premium on such forward contracts is recognized over the life of the forward contract.

- The exchange differences arising on settlement/translation are recognized in the Statement of Profit and Loss.

2.14 Taxes on Income

(a) Current Tax

Tax on income for the current period is determined on the basis of taxable income computed in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which give future economic benefit in the form of adjustment to future income tax liability is considered as an asset to the extent there is convincing evidence that the company will pay normal income tax.

(b) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statement and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of an asset or liability in a transaction (other than a business combination) affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for the carry forward of unused tax losses and unused tax credit to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax liabilities are generally recognised on all taxable temporary differences.

2.15 Impairment of Non-financial Assets

- No financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.
- An impairment loss is recognised for the amount by which the assets' carrying amount exceeds its recoverable amount, costs of disposal and value in use.
- For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows which are largely independent of the cash inflows from other assets or group of assets (cash generating units).
- Non financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of the each reporting period.

2.16 Leases

The Company lease asset classes primarily consist of leases for space taken on lease for operating its restaurants. The Company assesses whether a contract contains a lease, at inception of a contract. At the date of commencement of the lease, the company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term. The lease liability is initially measured at amortized cost at the present value of the future lease payments

Transition

The Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2020 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application.

As a lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term

unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

2.17 Provisions, Contingent Liabilities and Contingent Assets

- (i) Provision is recognized in respect of obligations where, based on the evidence available, their existence at the Balance Sheet date is considered probable.
- (ii) Provision is recognized in the accounts in respect of present probable obligations, the amount of which can be reliably estimated.
- (iii) Provisions are not recognised for future operating losses.
- (iv) Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company.
- (v) A contingent asset is not recognized in the financial statements.
- (vi) Provisions and contingent liabilities are reviewed at each balance sheet date.

2.18 Segment Reporting

Primary Segment

Based on the guiding principles given in the Ind AS-108 "Segment Reporting" issued by ICAI, the Company's operated only in one segment i.e. running of restaurant chain.

Segment Identification

Business segments have been identified on the basis of the nature of products/ services, the risk return profile of individual business, the organizational structure and the internal reporting system of the company.

The operating segments are reported after taken into consideration of aggregation criteria and quantitative threshold as mentioned in Para 12 and 13 of Ind AS 108.

2.19 Earnings Per Share

Basic earnings per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extra ordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/(loss) after tax (including the post tax effect of extra ordinary items, if any) by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares.

2.20 Cash and Cash Equivalents

Cash and cash equivalents in the Balance sheet comprise cash on hand, cheques on hand, balance with banks on current accounts and short term, highly liquid investments with an original maturity of three months or less and which carry insignificant risk of changes in value.

For the purpose of the Cash Flow Statement, Cash and cash equivalents consist of Cash and cash equivalents, as defined above and net of outstanding book overdrafts as they are considered an integral part of the Company's cash management

2.21 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payment and item of income or expenses associated with investing or financing flows. The cash flows operating, investing and financing activities of the company are segregated.

2.22 Investment Property:

An investment property shall be measured initially at its cost. Transaction costs shall be included in the initial measurement.

The cost of a purchased investment property comprises its purchase price and any directly attributable expenditure. Directly attributable expenditure includes, for example, professional fees for legal services, property transfer taxes and other transaction costs.

Cost model after initial recognition, an entity shall measure all of its investment properties in accordance with Ind AS 16's requirements for cost model, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with Ind AS 105, Non-current Assets

held for Sale and Discontinued Operations. Investment properties that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) shall be measured in accordance with Ind AS 105.

When measuring the fair value of investment property in accordance with Ind AS 113, an entity shall ensure that the fair value reflects, among other things, rental income from current leases and other assumptions that market participants would use when pricing investment property under current market conditions.

This Standard requires all entities to measure the fair value of investment property, for the purpose of disclosure even though they are required to follow the cost model. An entity is encouraged, but not required, to measure the fair value of investment property on the basis of a valuation by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being value.

2.23 Insurance claims and liquidated damages

Insurance claims are accounted as and when admitted/settled. Subsequent changes in value, if any, are provided for.

Note 3: Key accounting estimates and Judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on ongoing basis. Any changes to accounting estimates are recognized prospectively. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect on the amounts recognized in the financial statements are included in the following notes:

- (a) Provision and contingent liability: On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.
- (b) Allowance for impairment of financial asset: Judgments are required in assessing the recoverability of overdue loans / investment and determining whether a provision against those loans / investments is required. Factors considered include the aging of past dues, value of collateral and any possible actions that can be taken to mitigate the risk of non-payment.
- (c) Recognition of deferred tax assets: Deferred tax assets are recognized for unused tax-loss carry forwards and unused tax credits to the extent that realization of the related tax benefit is probable. The assessment of the probability with regard to the realization of the tax benefit involves assumptions based on the history of the entity and budgeted data for the future.
- (d) Property, plant and equipment and Intangible Assets: Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.
- (e) The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.
- f) Defined benefit plans: The cost of defined benefit plans and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long - term nature, a defined benefit obligation is highly sensitive to changes in these assumptions.

33.1 Explanation of transition to Ind AS

The company has prepared its first financial statements in accordance with Indian Accounting Standards (Ind AS) for the year ended March 2022. For period upto and including the year ended March 2021, the Company has prepared its financial statements in accordance with Indian GAAP including accounting standards notified under the Companies (Accounting Standards) Rules, 2006 (as amended). These financial statements, for the year ended 31st March, 2022, are the first financial statements, the Company has prepared in accordance with Ind AS. Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for year ended 31st March, 2022, together with the comparative figures for the year ended 31st March, 2021, as described in the summary of significant accounting policies.

In preparing these financial statements, the Company's opening balance sheet was prepared as at 1st April, 2020, i.e. the date of transition to Ind AS.

This note explains the principal adjustments made by the Company and an explanation on how the transition from the previous GAAP to Ind AS has affected its financial statements, including the Balance Sheet as at 1st April, 2020 and the financial statements for the year ended 31st March, 2021. Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from the previous GAAP to Ind AS:

(a) The Company has elected to continue with carrying value of all Property, plant and equipment under the previous GAAP as deemed cost as at the transition date i.e. 1st April, 2020. Under the previous GAAP, Property, plant and equipment were stated at their original cost (net of accumulated depreciation, amortization and impairment), if any, adjusted by revaluation of certain assets.

(b) The Company has elected to continue with the carrying value of Capital work in progress as recognized under the previous GAAP as deemed cost as at the transition date.

(c) The Company has elected to continue with the carrying value for intangible assets (computer software) as recognized under the previous GAAP as deemed cost as at the transition date. Under the previous GAAP, Computer Software was stated at its original cost, net of accumulated amortization.

(d) Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. However, the Company has used Ind AS 101 exemption and assessed all arrangements for embedded leases based on conditions in place as at the date of transition.

(e) The estimates as at 1st April, 2020 and as at 31st March 2021 are consistent with those made for the same dates in accordance with Indian GAAP (after adjustments to reflect any differences in accounting policies).

(f) Ind AS 101 requires the de-recognition requirements of Ind AS 109 to be applied prospectively to transactions occurring on or after the date of transition. Therefore, the Company has not recognized financial assets and liabilities under Ind AS which were derecognized under the previous GAAP as a result of a transaction that occurred before the date of transition.

33.2 Financial risk management objectives and policies

The Company's principal financial liability includes Borrowings, Trade payable and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include Trade receivables, Cash and cash equivalents and other financial assets that derive directly from its operations. The Company is exposed to credit risk, liquidity risk and market risk. The Company's senior management oversees the management of these risks and the appropriate financial risk governance framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

The Board of Directors reviewed policies for managing each of these risks, which are summarized below:

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other risks, such as regulatory risk and commodity price risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings obligations with floating interest rates but the financial implication is not material.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency denominated payables on account of import and receivables of export value but the financial implication is not material.

(iii) Regulatory risk

There is no regulatory risk in the business operations of the company.

(iv) Commodity price risk

Prices of commodity are subject to fluctuation. The food material price is subject to fluctuation due to high inflation. The Company mitigates this risk by properly planning of stock requirement.

CHAI THELA PRIVATE LIMITED

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st March, 2022 (Contd...)

(v) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company has a follow up policy in place with parties, thereby the credit default risk is significantly mitigated.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date. Financial assets are written off when there is no reasonable expectation of recovery, however, the Company continues to attempt to recover the receivables. Where recoveries are made, these are recognized in the Statement of Profit and Loss.

(vi) Trade receivables

Trade receivables are non-interest bearing and are generally on credit terms of 30 to 60 days. An impairment analysis is performed at each balance sheet date on an individual basis for major clients.

(vii) Liquidity Risk

Liquidity risk refers to the probability of loss arising from a situation where there will not be enough cash and/or cash equivalents to meet the needs of depositors and borrowers, sale of illiquid assets will yield less than their fair value and illiquid assets will not be sold at the desired time due to lack of buyers. The primary objective of liquidity management is to provide for sufficient cash and cash equivalents at all times and any place in the world to enable us to meet our payment obligations. Amount due from party are recovered in time there by liquidity risk is significantly minimized.

33.3 Earnings per Share Ind AS 33

Basic and Diluted EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the company by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computation.

33.8 In the absence of necessary information with the company, relating to the registration status of suppliers under the micro, small and medium enterprises development ACT, 2006, the information required under the said act could not be complied and disclosed.

33.9 The Company has become the subsidiary company of South Asian Enterprises Ltd. w.e.f. 23.08.2021.

33.10 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital.

using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio as minimum as possible. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and short term deposits.

Particulars	31 March 2022	31 March 2021	1st April 2020
Borrowings	336.32	181.07	46.07
Other Liabilities	61.17	41.87	42.76
Trade and other payables	52.62	42.83	52.99
Lease Liability	181.17	267.37	120.94
Less: Cash and short term deposits	(2.44)	(3.73)	(4.19)
Net debts	628.83	529.42	258.57
Equity	1.22	1.22	1.22
Other Equity	(322.30)	(158.46)	(32.82)
Total Capital	(321.08)	(157.24)	(31.60)
Capital and net debt	307.76	372.18	226.97
Gearing ratio (%)	204.33%	142.25%	113.92%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2022, 31 March, 2021 and 31 March 2020:

Financial liabilities						
Obligation under finance lease	-	-	-	-	-	-
Fixed rate borrowings	-	-	-	-	-	-
Floating rate borrowings	-	-	-	-	-	-

a) The management assessed that cash and cash equivalents, other bank balances, trade receivables and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

b) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

c) Long-term fixed-rate and variable-rate receivables/Borrowings are evaluated by the company based on parameters such as interest Rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

d) Non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or the discount rate, the fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

e) The fair values of the unquoted equity shares have been estimated using a net asset value method.

f) The fair values of the Company's interest-bearing borrowings and loans are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31 March 2022 was assessed to be insignificant.

ii) Fair value hierarchy

33.12 Effective April 1, 2020, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2020 using the modified retrospective method. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application.

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2022, 2021 and 2020:

One to five years	117.29	267.37	120.94
More than five years	-	-	-
Total	181.17	267.37	120.94

The Company does face a significant liquidity risk with regard to its lease liabilities as the current assets are insufficient to meet the obligations related to lease liabilities as and when they fall due. However, the holding company has assured necessary financial assistance to the company on need basis.

33.13 The Company has accumulated losses of Lakh 322.30 at the year end and its net worth has been fully eroded. The Company has incurred a net loss of Lakh 163.46 (P.Y. Lakh 124.97) and net cash loss of Lakh 92.78 during the current and net cash loss during previous year Lakh 58.21 and, the Company's current liabilities exceeded its current assets by Lakh 405.73 as at the balance sheet date. These conditions may indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern but the management does not conclude so. The management has shown their willingness and sincere intention to run the business and infuse funds as may be required for business needs. The management are in a position to arrange the required funds and are able to meet the existing liabilities of the company. In view of the same, these financial statements of the Company have been prepared on a going concern basis.

Deferred Tax

Previous GAAP required deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the year. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which were not required under the previous GAAP. The various transitional adjustments lead to temporary differences and consequently deferred tax adjustments have been recognized in correlation to the underlying transaction in retained earnings.

Defined benefit liabilities

As under the previous GAAP and under Ind AS also, the Company continues to recognize costs related to its post-employment defined benefit plan on an actuarial basis. The entire cost, including actuarial gains and losses, was charged to the Statement of Profit and Loss. Under Ind AS, re-measurements of defined benefit plan are recognized in the Balance Sheet with a corresponding debit or credit to equity through Other Comprehensive Income (OCI). Re-measurement losses on defined benefit plans has been recognized in the OCI and related tax shown separately as at the year end. Under Ind AS, an entity is permitted to transfer amounts recognized in Other Comprehensive Income within equity. The Company has taken recourse of the said provision and has transferred all re-measurement costs to Retained earnings.

Sensitivity Analysis: Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase rate. Effect of change in mortality rate is negligible. Please note that the sensitivity analysis presented below may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. The results of sensitivity analysis are given below:

33.19 Impact of COVID-19 on Going Concern Assumption

The COVID-19 outbreak has developed rapidly in 2020 and it kept continuing in 2021 and 2022. To control the spread of outbreak of COVID-19, timely steps have been taken by the Government from time to time. The most visible impact of COVID-19 crisis, for the company was the lockdown measures imposed by the Govt. from time to time. However, the Government had taken various measures to support the industries and also to uplift the business environment by giving various incentives and making the availability of money.

Based on the aforesaid, the management concludes that no material uncertainty exists about the company's ability to continue as a going concern and accordingly; the management has prepared these financial statements on a going concern basis. Further, the management has also performed an impairment test considering the impact of COVID-19 on the carrying amount of the assets which has resulted in no significant impairment. However, the impact of COVID-19 may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes in future economic conditions.

33.20 Estimation uncertainty relating to the global health pandemic on COVID-19

INDEPENDENT AUDITOR'S REPORT

To the Members of South Asian Enterprises Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **South Asian Enterprises Limited** (the "Company") and its subsidiaries (the Company and its subsidiaries together referred to as the "Group") which comprise the Consolidated Balance Sheet as at March 31, 2022, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022 and their consolidated profit, their consolidated total comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to Note No. 33.15 of the consolidated financial statements which describes the impact of economic and social consequences of the CoVID-19 pandemic on the Group's business and financial metrics, which continues to be dependent on uncertain future developments. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have nothing to report under this paragraph.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Boards of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Boards of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going

concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiaries included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid Consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e) On the basis of the written representations received from the directors of the Company as on March 31, 2022 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls,

refer to our separate Report in "Annexure 1" which is based on the auditors' reports of the Company and its subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section of 197(16) of the Act, as amended;

In our opinion and best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors for the year ended March 31, 2022 is in accordance with the provisions of section 197 read with Schedule V to the Act;

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Group does not have any pending litigations which would impact its financial position;
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group.
 - iv. a) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiaries to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
b) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v. No dividend has been declared or paid during the year by the Group.

Annexure '1' to the Independent Auditor's Report

(Referred to in paragraph 2(f) under the heading "Report on other legal and regulatory requirements" of our report to the Members of South Asian Enterprises Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of **South Asian Enterprises Limited** (hereinafter referred to as the "Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Boards of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal

financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls over these Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

SOUTH ASIAN ENTERPRISES LTD.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

1. Corporate Information

The South Asian Enterprises Limited (the Company) and its subsidiary i.e. Chai Thela Private Limited are collectively referred to as "the Group". The Company is a public limited company incorporated in 1991 and domiciled in India. The registered office of the Company is situated at K-Block, Kidwai Nagar, Kanpur (U.P.) The Company's shares are listed on the BSE Ltd.

The Company is a subsidiary of VLS Capital Limited and act intermediate holding company of Chai Thela Private Limited. The Group is engaged in running the amusement parks, restaurants and food outlets and trading in earthing and lightning protection systems.

These consolidated financial statements have been prepared in Indian rupee and rounded off to rupees in Lakhs.

2. Significant Accounting Policies

2.1 Basis of preparation

(i) Statement of Compliance with Ind AS

The financial statements have been prepared in accordance with Ind AS prescribed under Section 133 of the Companies Act, 2013 ("Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are approved for issue by the Board of Directors has been considered in preparing these financial statements.

The financial statements have been prepared using the significant accounting policies and measurement bases summarized as below. These accounting policies have been applied consistently over all the periods presented in these financial statements, except where the Group has applied certain accounting policies and exemptions upon transition to Ind AS.

(ii) Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Group and entities (including structured entities) controlled by the Group and its subsidiaries.

Subsidiaries

Subsidiaries are entities (including structured entities) over which the Group has control. Subsidiaries are consolidated on a line-by-line basis from the date the control is transferred to the Group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the Group. Changes in the Group's interest in subsidiaries that do not result in a loss of control are accounted as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Group. Inter-Group transactions, balances and unrealised gains on transactions between Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. These financial statements are prepared by applying uniform accounting policies in use at the group.

Associates

Associates are the entities over which the Group has significant influence. Investment in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

The Subsidiaries and Associate considered in the Consolidated Financial Statements are as under:

Name of the Entity	Proportion of Ownership Interest March 31, 2022	Proportion of Ownership Interest March 31, 2021	Country of Incorporation	Status
Subsidiaries				
Chai Thela Private Limited	60.34%	-	India	Food and Restaurants

(iii) Historical cost convention

These financial statements are prepared on the accrual basis of accounting, under the historical cost convention except for the following:

- Certain financial assets and financial liabilities measured at fair value; and
- Defined benefits plan - plan assets measured at fair value.

There is no change in the system of accounting as being consistently followed from earlier years unless otherwise stated

All assets and liabilities have been classified as current or non-current as per Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operations and time between procurement of raw material and realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities

(iv) Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgments, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Group becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. The estimates and judgments that have significant impact on carrying amount of assets and liabilities at each balance sheet date are discussed at note 3.

2.2 Property, plant and equipment (PPE) and Capital work-in-progress (CWIP)

The Company has elected to continue with carrying value of all Property, plant and equipment and Capital work-in-progress (CWIP).

The Property, plant and equipment were stated at their original cost (net of accumulated depreciation and impairment) adjusted by revaluation of certain assets.

The Property, plant and equipment (PPE) and Capital work-in-progress (CWIP) are stated at cost net of GST credit and/or at revalued price less accumulated depreciation and Accumulated Impairment.

Interest on borrowings used to finance the construction of qualifying assets are capitalized as part of the cost of the asset until such time that the asset is ready for its intended use.

Depreciation on Property, plant and equipment (PPE) is provided on written down value method as prescribed under Part C of Schedule II to the Companies Act, 2013. The additional depreciation, on increase in cost on account of revaluation, is transferred to Retained Earnings from Revaluation Reserve and is thus not charged to statement of Profit & Loss of the year.

Useful life of assets is considered on the basis of schedule-II of the Companies Act 2013.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Each item of PPE individually costing Rs.5,000/- or less is depreciated fully in the year of their put to use.

Depreciation/amortization on assets added, sold or discarded during the year is provided on pro-rata basis.

2.3 Intangible Assets (Computer Software)

Intangible assets expected to provide future enduring economic benefits are recorded at the consideration paid for acquisition of such assets and are carried at cost of acquisition less accumulated amortization and impairment, if any.

Intangible assets: Computer software is amortized over a period of four years.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

2.4 Revenue Recognition and Expenses

- (i) Effective April 1 2018 the company adopted Ind AS 115, revenue from contracts with customer using the cumulative catch up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch up transition method, the comparatives have not been retrospectively adjusted. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for services and goods are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on supply and service contracts are recognized as the related performance obligation is completed.

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenues in excess of invoicing are classified as contract assets (which we refer to as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

- (ii) Insurance claims have been accounted for on cash basis looking in to the uncertainty and its collection as per past practice.
(iii) Interest Income is accounted for on time proportionate basis.

2.5 Expenses

- (i) All expenses are accounted for on accrual basis.

2.6 Inventory

- a) Cost of inventory comprises of purchase price, cost of conversion and other cost that have been incurred in bringing the inventories to their respective present location and condition. Interest costs are not included in value of inventory.

Inventories are valued as under:

Finished Goods are carried at lower of cost or net realizable value. Cost of finished goods is determined following first in first out method.

Traded Goods are carried at lower of cost or net realizable value. Cost of traded goods is determined following first in first out method.

2.7 Fair value measurement

The Group measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

External valuers are involved for valuation of significant assets, such as properties. Involvement of external valuers is decided by the management after discussion with and approval by the Group's management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The management decides, after discussions with the Group's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management, in conjunction with the Group's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.8 Financial instruments

Financial assets and financial liabilities are recognised in the Balance sheet when the Group becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. The financial assets include equity and debt securities, trade and other receivables, loans and advances, cash and bank balances and derivative financial instruments.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in the following categories:

- 1) At amortised cost,
- 2) At fair value through other comprehensive income (FVTOCI), and
- 3) At fair value through profit or loss (FVTPL).

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- 1) The asset is held within a business model whose objective is to hold the asset for collecting contractual cash flows, and
- 2) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

Equity investments

All equity investments in the scope of Ind AS 109 are measured at fair value except in case of investment in subsidiary carried at deemed cost and associate carried at cost.

Equity instruments included within the FVTPL category, if any, are measured at fair value with all changes recognized in profit or loss. The

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

Group may make an irrevocable election to present in OCI subsequent changes in the fair value.

The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price is deferred and after initial recognition deferred difference is recognised as gain or loss to the extent it arises from change in input to valuation technique. If the Group decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI.

There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

De-recognition

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

2.9 Employees Benefits

(i) Short term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services are recognized as an expense as the related service is rendered by employees.

(ii) Post employment benefits

Defined contribution plans:

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Group makes specified monthly contributions towards provident fund. The Group's contribution is recognized as an expense in the statement of profit and loss during the period in which employee renders the related service.

Defined benefit plan:

The Group's gratuity benefit scheme is a defined benefit plan. The Group's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

When the calculation results in a benefit to the Group, the recognized asset is limited to the net total of any unrecognized actuarial losses and past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

Actuarial gains and losses are recognized in the other comprehensive income

(iii) Long term employment benefits

The Group's net obligation in respect of long-term employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated using the projected unit credit method and is discounted to its present value and the fair value of any related assets is deducted. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

(iv) Compensated absences

The employees can carry-forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilized wholly within twelve

months after the end of such period, the benefit is classified as a long-term employee benefit. The Group records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Short term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit & Loss for the year in which the related service is rendered.

(V) Estimation of Defined benefit obligations

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each financial year end. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the actuary considers the interest rates of government bonds. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

2.10 Borrowing Costs

Borrowing costs attributable to the qualifying assets are capitalized up to the period such assets are ready for the intended use and commenced commercial production. All other borrowing cost is charged to the Statement of Profit & Loss in the period in which they are incurred.

2.11 Foreign Currency Transactions and Translations

- a) Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of transaction. Monetary items denominated in foreign currency at the year end are translated at year end rates.
- b) Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.
- c) In respect of monetary items which are covered by forward exchange contracts, the difference between the year end and the rate on the date of contract is recognized as exchange difference and the premium on such forward contracts is recognized over the life of the forward contract.
- d) The exchange differences arising on settlement/translation are recognized in the Statement of Profit and Loss.

2.12 Taxes on Income

(a) Current Tax

Tax on income for the current period is determined on the basis of taxable income computed in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which give future economic benefit in the form of adjustment to future income tax liability is considered as an asset to the extent there is convincing evidence that the Group will pay normal income tax.

(b) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statement and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of an asset or liability in a transaction (other than a business combination) affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for the carry forward of unused tax losses and unused tax credit to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

manner in which the Group expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax liabilities are generally recognised on all taxable temporary differences.

2.13 Impairment of Non-financial Assets

- (i) No financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.
- (ii) An impairment loss is recognised for the amount by which the assets' carrying amount exceeds its recoverable amount, costs of disposal and value in use.
- (iii) For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows which are largely independent of the cash inflows from other assets or group of assets (cash generating units).
- (iv) Non financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.14 Leases

Following Ind AS 17 till 31.03.2019, the assets acquired as leases where a significant portion of the risks and rewards of the ownership retained by the lessor are classified as operating leases. Lease rentals are charged to the Statement of Profit & Loss on accrual basis. With effect from 01.04.2019, the Ind AS 116 has been applied by the Group.

2.15 Provisions, Contingent Liabilities and Contingent Assets

- (i) Provision is recognized in respect of obligations where, based on the evidence available, their existence at the Balance Sheet date is considered probable.
- (ii) Provision is recognized in the accounts in respect of present probable obligations, the amount of which can be reliably estimated.
- (iii) Provisions are not recognised for future operating losses.
- (iv) Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group.
- (v) A contingent asset is not recognized in the financial statements.
- (vi) Provisions and contingent liabilities are reviewed at each balance sheet date.

2.16 Segment Reporting

Primary Segment

Based on the guiding principles given in the Ind AS-108 "Segment Reporting" issued by ICAI, the Group's segments are running of amusement parks, restaurants and food and trading in earthing & lightning protection systems.

Revenue and expenses have been accounted for on the basis of their relationship to the operating activities of the respective segment.

Segment Identification

Business segments have been identified on the basis of the nature of products/ services, the risk return profile of individual business, the organizational structure and the internal reporting system of the Group.

The operating segments are reported after taken into consideration of aggregation criteria and quantitative threshold as mentioned in Para 12 and 13 of Ind AS 108.

2.17 Earnings Per Share

Basic earnings per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extra ordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extra ordinary items, if any) by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares.

2.18 Cash and Cash Equivalents

Cash and cash equivalents in the Balance sheet comprise cash on hand, cheques on hand, balance with banks on current accounts and short term, highly liquid investments with an original maturity of three months or less and which carry insignificant risk of changes in value.

For the purpose of the Cash Flow Statement, Cash and cash equivalents consist of Cash and cash equivalents, as defined above and net of

outstanding book overdrafts as they are considered an integral part of the Group's cash management.

2.19 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payment and item of income or expenses associated with investing or financing flows. The cash flows operating, investing and financing activities of the Group are segregated.

2.20 Investment Property:

An investment property shall be measured initially at its cost. Transaction costs shall be included in the initial measurement.

The cost of a purchased investment property comprises its purchase price and any directly attributable expenditure. Directly attributable expenditure includes, for example, professional fees for legal services, property transfer taxes and other transaction costs.

Cost model after initial recognition, an entity shall measure all of its investment properties in accordance with Ind AS 16's requirements for cost model, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations. Investment properties that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) shall be measured in accordance with Ind AS 105.

When measuring the fair value of investment property in accordance with Ind AS 113, an entity shall ensure that the fair value reflects, among other things, rental income from current leases and other assumptions that market participants would use when pricing investment property under current market conditions.

This Standard requires all entities to measure the fair value of investment property, for the purpose of disclosure even though they are required to follow the cost model. An entity is encouraged, but not required, to measure the fair value of investment property on the basis of a valuation by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being value.

2.21 Estimated fair value of unlisted securities

The fair values of financial instruments that are not traded in an active market and cannot be measured based on quoted prices in active markets is determined using valuation techniques including the net assets value (NAV) model. The Group uses its judgment to select a variety of method / methods and make assumptions that are mainly based on market conditions existing at the end of each financial year. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.22 Insurance claims and liquidated damages

Insurance claims are accounted as and when admitted/settled. Subsequent changes in value, if any, are provided for.

2.23 Ind AS 116: Leases

Effective April 01, 2019, the Group has adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 01, 2019 using the modified retrospective method. Accordingly, the Group recognizes right-of-use asset at the date of initial application. The right-of-use asset is measure equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before the date of initial application.

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease.

SOUTH ASIAN ENTERPRISES LTD.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

A lease that transfers substantially all the risks and rewards incidental to ownership to the lessee is classified as a finance lease. All other leases are classified as operating leases.

Group as a lessee

The Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the

carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Group recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Group as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Group is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

Impact of Ind AS 116:

Ind AS 116 Leases was notified by MCA on 30th March 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17.

The Group has adopted the new standard on the required effective date using the modified retrospective method. Accordingly, the Group has not restated comparative information, instead, the right-of-use asset is recognized at the date of initial application. The right-of-use asset is measure equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before the date of initial application.

33.01 Financial risk management objectives and policies

The Company's principal financial liabilities include Trade payable and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include Trade receivables, Cash and cash equivalents and other financial assets that derive directly from its operations. The Company is exposed to credit risk, liquidity risk and market risk. The Company's senior management oversees the management of these risks and the appropriate financial risk governance framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

The Board of Directors reviewed policies for managing each of these risks, which are summarized below:

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other risks, such as regulatory risk and commodity price risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings obligations with floating interest rates but the financial implication is not material.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency denominated payables on account of import and receivables of export value but the financial implication is not material.

SOUTH ASIAN ENTERPRISES LTD.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

(iii) **Regulatory risk**

There is no regulatory risk in the business operations of the company.

(iv) **Commodity price risk**

Prices of commodity are subject to fluctuation. The earthing material price is subject to some fluctuation but it is not a regular feature. Its prices are more or less stable. The Company mitigates this risk by properly planning of stock in hand and sale orders.

(v) **Credit risk**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company has a follow up policy in place with parties, thereby the credit default risk is significantly mitigated.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date. Financial assets are written off when there is no reasonable expectation of recovery, however, the Company continues to attempt to recover the receivables. Where recoveries are made, these are recognized in the Statement of Profit and Loss.

Description	As at 31st March 2022	As at 31st March 2021	Remarks
Up-to 6 months	-	-	
6 to 12 Months	12.44	18.54	-
More than 12 months	5.67	12.43	-
More than 12 months	2.76	2.76	Less: Allowances for expected credit loss
Total	15.35	28.21	

Management is of view that certain amounts are beyond credit period so provision for expected credit loss has been made in books of accounts.

(vi) **Trade receivables**

Trade receivables are non-interest bearing and are generally on credit terms of 30 to 90 days. An impairment analysis is performed at each balance sheet date on an individual basis for major clients.

(vii) **Liquidity Risk**

Liquidity risk refers to the probability of loss arising from a situation where there will not be enough cash and/or cash equivalents to meet the needs of depositors and borrowers, sale of illiquid assets will yield less than their fair value and illiquid assets will not be sold at the desired time due to lack of buyers. The primary objective of liquidity management is to provide for sufficient cash and cash equivalents at all times and any place in the world to enable us to meet our payment obligations. The company is maintaining cash credit limit to a reasonable level to meet out the current obligation.

The Company's objective is to meet the funding requirement and maintain flexibility in this respect through the use of cash credit facilities, short term loans and commercial papers. The table below summarises the maturity profile of the Company's financial liabilities:

Maturity profile of defined benefit obligation

Particulars	As on: 31/03/2022	As on: 31/03/2021
Weighted average duration (based on discounted cash flows) in years	27	5

Sensitivity Analysis: Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase rate. Effect of change in mortality rate is negligible. Please note that the sensitivity analysis presented below may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. The results of sensitivity analysis are given below:

Period	As on: 31/03/2022
Defined Benefit Obligation (Base)	17.89 @ Salary Increase Rate: 5%, and discount rate : 6.50%
Liability with x% increase in Discount Rate	17.23; x=1.00% [Change (3)%]
Liability with x% decrease in Discount Rate	18.61; x=1.00% [Change 4%]

The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act, 2006.	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under Section 23 of the MSMED Act, 2006.	-	-

33.12 Details of Investments made pursuant to requirements of Section 186(4) of the Companies Act, 2013 are given in Note No.5.

33.13 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio between 3% and 10%. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and short term deposits.

SOUTH ASIAN ENTERPRISES LTD.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

(₹ in lakhs)

Particulars	As at 31.03.2022	As at 31.03.2021
Borrowings	71.38	-
Other Liabilities	77.01	15.88
Trade and other payables	55.67	3.48
Lease Liability	181.17	-
Less: Cash and short- term deposits	(5.38)	(82.25)
Net debts	379.85	(62.89)
Equity	400.39	399.91
Other Equity	85.76	309.73
Total Capital	486.15	709.64
Capital and net debt	866.00	646.75
Gearing ratio (%)	43.86%	-9.72%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

Dividend Distribution Policy

In view of the working capital requirements and for expansion of the Company, your directors have not recommended any dividend for the financial year ended 31 March 2022.

33.14 Fair value

- i) Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Particulars	Carrying value		Fair value	
	As at	As at	As at	As at
	31-Mar-22	31-Mar-21	31-Mar-22	31-Mar-21
Financial assets				
FVOCI financial instruments:	-	-	-	-
Unquoted equity shares	8.61	17.48	8.61	17.48
Quoted equity Shares	-	-	-	-
Total	8.61	17.48	8.61	17.48
Financial liabilities				
Obligation under finance lease	-	-	-	-
Fixed rate borrowings	-	-	-	-
Floating rate borrowings	-	-	-	-

- a) The management assessed that cash and cash equivalents, other bank balances, trade receivables and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments.
- b) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.
- c) Long-term fixed-rate and variable-rate receivables / Borrowings are evaluated by the company based on parameters such as interest Rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.
- d) Non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or the discount rate, the fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.
- e) The fair values of the unquoted equity shares have been estimated using a net asset value method.
- f) The fair values of the Company's interest-bearing borrowings and loans are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31 March 2022 was assessed to be insignificant.

ii) Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities

33.15 Estimation uncertainty relating to the global health pandemic on COVID-19

In assessing the recoverability of different assets, the Company has considered internal and external information up to the date of approval of these financial statements including credit reports and economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

33.16 The Taxation Laws (Amendment) Ordinance, 2019 contain substantial amendments in the Income Tax Act 1961 and the Finance (No.2) Act, Sec 115BAA of the Income Tax Act, 1961 provide an option to domestic companies to pay income tax at a concessional rate. However, the Group has elected to continue with the old tax rates as there is no current tax liability for the current year.

33.17 The company has acquired 60.34% share capital of Chai Thela Private Limited (CTPL) comprising 7359 equity shares of Rs.10/- each at an investment value of 28.85 Lakh and it has become the subsidiary of the company with effect from 23rd August, 2021. The Company had earlier approved to provide a term loan of 265 Lakh in the year 2021 at an interest rate of 7% to CTPL for its business activities, which has been completely disbursed during the year. CTPL is engaged in the business of selling tea and other food items through their restaurants, cafes, kiosks / counters, carts etc. for last more than 5 years. The company intends to make more investments by acquiring more equity in CTPL and also to extend financial assistance to meet their expansion plans along with their working capital needs.
