NOTES

1. A member entitled to attend and vote is entitled to appoint a proxy to attend and vote instead of himself and the proxy need not be a member of the Company.

Proxies, to be effective, should be duly completed, stamped and signed and must be received at the registered office of the company 48 hours before the meeting. Proxies submitted on behalf of limited companies, societies, etc., must be supported by appropriate resolutions / authority, as applicable. Proxy shall have no right to speak on any business item in the meeting.

A person can act as proxy on behalf of members not exceeding fifty (50) and holding in the aggregate not more than 10% of the total share capital of the company. In case a proxy is proposed to be appointed by a member holding more than 10% of the total share capital of the company carrying voting rights, then such proxy shall not act as a proxy for any other person or shareholder.

2. The relevant Explanatory Statement pursuant to section 102 (1) of the Companies Act, 2013 and Listing Agreement, in respect of Special Business at the meeting, is annexed hereto and forms a part of this notice.

A statement giving the relevant details of the Directors seeking re-appointment under Item No. 2 and 4 of the accompanying Notice, as required by Regulation 36(3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 entered with the Stock Exchanges is annexed herewith.

3. Relevant documents referred to in the accompanying Notice and the Statement pursuant to Section 102 of the Act, shall be open for inspection by the members at the Registered Office of the Company between 11:00A.M. to 01:00P.M. on all working days, barring Saturdays and Sundays, prior to the date of the AGM.

4. Electronic copy of the Annual Report for 2017-18 along with Notice of the 26thAGM is being sent to all the members whose e-mail addresses are registered with the Company / Depository Participant(s) for communication purposes, unless any member has requested for a hard copy of it. The members who have not registered their e-mail addresses, physical copies of the Annual Report along with Notice of 26th AGM are being sent to them in the permitted mode, inter alia indicating

the process and manner of e-voting along with attendance slip and proxy form.

5. Members can opt for only one mode of voting i.e. either physical voting at the AGM or voting through electronic means. A member, who has voted through e-voting mechanism, is not debarred from participating in the general meeting physically. However, he shall not be allowed to vote in the meeting again and his earlier vote (cast through e-means) shall be treated as final.

6. Corporate Members intending to send their authorized representatives to attend the Meeting pursuant to Section 113 of the Companies Act, 2013 are requested to send to the Company, a certified copy of the relevant Board Resolution together with their respective specimen signatures authorizing their representative(s) to attend and vote on their behalf at the Meeting.

7. Pursuant to the provisions of the Companies Act, 2013 read with relevant Rules made thereunder, Companies can serve Annual Reports and other communications through electronic mode to those Members who have registered their e-mail address either with the Company or with the Depository. Members are requested to register their e-mail addresses in respect of electronic holdings with the Depository through their concerned Depository Participants. Members who hold shares in physical form are requested to send their e-mail address to the following:

Corporate Email id – info@photoquip.com
Compliance Officer – Vivek Divekar
Email id – vivek.divekar@photoquip.com

The Annual Report, including the notice of the 26th AGM, is available on the website of the Company www.photoquip.com

8. Members are requested to bring their attendance slips duly completed and signed mentioning therein details of their DP ID and Client ID / Folio No. Further the members are requested to bring their copies of the Annual Report to the AGM. As a measure of economy no copies will be distributed at the Meeting.

9. In case of joint holders attending the Meeting, only such joint holder who is higher in the order of names will be entitled to vote at the Meeting.

10. (a) In accordance with the provision of Section 108 of the Companies Act, 2013 read with Companies (Management and Administration) Rules, 2014, the shareholders may exercise their option to participate through electronic voting system and the company is providing the facility for voting by electronic means (e-voting) to all its members. The company has engaged the services of Central Depository Services (India) Limited (CDSL) to provide e-voting facilities and enabling the members to cast their vote in a secured manner. It may be noted that this e-voting facility is optional. This facility will be available at the link www.evotingindia.com during the following voting period:

Commencement of e-voting	:	09:00 A.M. on Monday, 21st September, 2018
End of e-voting	:	05:00 P.M. on Wednesday, 23rd September, 2018

E-voting shall not be allowed beyond 5.00 P.M. on Wednesday, 23rd September, 2018. During the E-voting period, the shareholders of the company, holding shares either in physical form or dematerialized form, as on the closing of business hours of the cutoff date, may cast their vote electronically. The cut-off date for eligibility for e-voting is 17th September, 2018.

(b) Kala Agrawal, Company Secretary in Whole Time Practice, has been appointed as a Scrutinizer for conducting the e-voting process in a fair and transparent manner.

(c) "Voting by electronic means" or "electronic voting system" means a 'secured system' based process of display of electronic ballots, recording of votes of the members and the number of votes polled in favour or against, such that the entire voting exercise by way of electronic means gets registered and counted in an electronic registry in the centralized server with adequate 'Cyber Security'. It also helps the shareholders to cast their vote from anywhere and at any time during E-voting period.

11. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in the securities market. Members holding shares in electronic form are, therefore,

requested to submit their PAN to the Depository Participants with whom they maintain their DEMAT accounts. Members holding shares in physical form should submit their PAN to the Company.

12. The register of members and share transfer book of the Company will remain closed from 18th September, 2018 to 24th September, 2018 (both days inclusive).

13. Instructions for shareholders voting electronically are as under:

- (i) The voting period begins on 21st September, 2018 from 09:00 A.M. and ends on 23rd September, 2018 at 05:00 P.M.. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date of 17th September 2018, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

Operational Review

The financial year 2017-18 has been beset with both opportunities and challenges on several fronts, including global and domestic issues. Developments like GST implementation and static exports have resulted in a mixed bag for the Company during the financial year under review.

During the year, the turnover of the Company decreased by 10.96% and stood at Rs. 4375.83 lacs. However, inspite of the compressed topline the net loss during the year reduced by 63.34% as compared to the previous financial year and stood at Rs. 63.89 Lacs mainly on account of reduction in overall operating costs.

Raw Material Consumption has gone down by 5.18%, overall expenses also have reduced, though marginally by 1.06%. These are encouraging signs on the Company's recovery path. The Company is upbeat about turning the corner during FY 2018-19.

The summarized key indicative figures are mentioned below. (Rs. In Lacs)

Particulars	2017-18	2016-17
Sales / Other Receipts	4375.82	4914.55
Exports	2720.82	2728.85

Annexure III**MANAGEMENT DISCUSSION AND ANALYSIS REPORT****❖ FORWARD-LOOKING STATEMENTS**

This report contains forward-looking statements based on certain assumptions and expectations of future events. The Company, therefore, cannot guarantee that these assumptions and expectations are accurate or will be realized. The Company's actual results, performance or achievements can thus differ from those projected in any such forward-looking statements. The Company assumes no responsibility to publicly amend, modify or revise any forward-looking statements, based on any subsequent developments, information or events.

❖ INDUSTRY STRUCTURE AND DEVELOPMENTS

The Company is engaged in Photographic and Allied Products industry. The Company manufactures, exports and trades in Digital Studio Flashlights and Photographic Accessories and similar products. It is an OEM for Elinchrom SA, a Company based in Switzerland and a renowned named in the global photographic industry. It is a distributor for Elinchrom SA in India since 1986. The Company, over the decades, has been understanding and catering to the needs of the photographic fraternity and has delicately ensured that every photo studio is equipped with the best equipment that meets the most stringent requirements.

Financial year 2017-2018 has been an eventful year overall for the Indian Economy with long awaited nationwide rollout of GST. Disruptions and anxiety due to perceptions, certain lack of clarity and overall adaptation of HSN based tax rates, though affected the business in 2nd/ 3rd quarter, have now been overcome and settled.

The improvement seen in the Indian Industrial Production (IIP) numbers since last couple of months suggest that the Indian economy has now moved on a recovery path which is a good indicator.

The Government expects India's GDP to expand at a growth rate of 7.4 percent during 2018-19. There are certain challenges faced by the country's economic growth due to subdued manufacturing, lower exports and lower capital expenditure. Initiatives such as Make in India, Invest India and Start Up India and are

expected to further improve the ease of doing business and provide a boost to manufacturing sector in the country.

At Company level going forward it is our conviction that the transparent policies and level playing field provided by the GST regime, along with the stringent statute compliance with initiatives like E-way bill implementation, will further help the growth of organized sector due to reduction of unethical practices which had led to unfair and unjust competition in the past

The strong fundamental character of Indian economy indicating the increase in production activities act as fuel for the growth of the Company.

❖ **MARKETING**

The Company is setting up a good marketing team to boost its turnover.

❖ **SWOT ANALYSIS**

a) **STRENGTHS**

Our strengths are our experience and our presence in this field since last 6 decades, adaptation to modern technology and a competent and committed workforce, who have extensive experience in the industry. Their skills, industry knowledge and operating experience provide significant competitive advantages to the Company.

b) OPPORTUNITIES

The photographic market is rapidly maturing in India and therein lies an opportunity for the Company to capitalize. The Company has strong Research and Development base and uses cutting edge technology in development of digital studio flash lights and other products.

The Company participates in various exhibitions and workshops and is in the process of tapping the right opportunities to expand its client base.

c) THREATS/WEAKNESSES

The Company entire exports are made to a single buyer i.e. Elinchrom. The constant fluctuations in foreign exchange and global recession are a threat that the Company encounters frequently. Intense competition in the market for technology products could affect our pricing which, in turn, could impact our revenue.

❖ INTERNAL CONTROL

The Company has adequate internal control system commensurate with the size of its operations. Adequate records and documents are maintained as required by applicable laws. The Company's Audit Committee reviews the internal control system. During the year such controls were tested and no reportable material weaknesses in the design or operations were observed.

❖ SEGMENTWISE REPORTING

During the year under review, Company has only one primary segment i.e. Digital Studio Lights and Photographic accessories. Two secondary segments have been identified based on the geographical locations of customers i.e. domestic and exports.

❖ OUTLOOK

Effective initiatives have been initiated by your Company for technological advances in the areas of business which has resulted in reduction in cost of production and improvement in quality of products.

❖ MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

The Company organizes various developmental programs for its employees relating to improvement of behavioral / managerial and core competencies. These programs

help employees to keep them updated with the latest developments and changes happening in the field of operations, technology, HR, finance etc.

❖ **DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE.**

During the year, GST led destocking across trade and channels led to subdued domestic performance in first half of the year. After a muted H1FY18, the Company witnessed strong growth in H2 on the back of healthy domestic demand recovery against this backdrop, however the overall domestic turnover during the financial year 2017-18 has decreased to Rs. 1,562.63 Lacs as compared to Rs. 2,159.33 lacs in the previous year.

Further, due to adverse overseas markets conditions exports of the company had marginally increased to Rs. 2,720.82 Lacs during the FY 2017-18 as compared to Rs. 2,678.56 Lacs in the previous year.

The FY 2017-18 has been a challenging period for us and we have utilized the situation to work on opportunities that strengthen our operations

The Company is aggressively pursuing its marketing strategy of increasing the market share.

With the demand environment further improving, we are confident of reporting normalized growth rates in the coming fiscal.

New Product Launches

Photoquip India Ltd. has been committed towards equipping the Indian photo-imaging industry with exceptional quality, cutting-edge products. During the FY 2017-18 with the objective to provide innovative products which will enhance the offerings and improve the top and bottom line of both the Channel Partners and the Company, your Company has introduced following two international brands in India –

Light & Motion:

Designed, manufactured and tested in California, Light & Motion sets a new standard in broadcast, cinema and photo lighting. The products consists of cutting-edge technology and innovative design to meet both the recognized and unrecognized needs of our customers.

Jupio Batteries and Chargers:

Manufactured in Netherlands with superior quality raw materials and using advanced technology, Jupio offers an extensive range of power related products that deliver true enhanced performance and tremendous value for money. These products were introduced in India at India International Photo Video Trade Fair 2017. These state of the art brands are all set to revolutionize the future of the photography and broadcasting industry in India.

❖ RISKS AND CONCERNS

In any business, risks and prospects are inseparable. As a responsible management, the Company's principal endeavor is to maximize returns. The Company continues to take all steps necessary to minimize its expenses through detailed studies and interaction with experts.

❖ CAUTIONARY STATEMENT

Statement in this Management's Discussion and Analysis detailing the Company's objectives, projections, estimates, estimates, expectations or predictions are "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include global and Indian demand-supply conditions, finished goods prices, feedstock availability and prices, cyclical demand and pricing in the Company's principal markets, changes in Government regulations, tax regimes, economic developments within India and the countries within which the Company conducts business and other factors such as litigation and labour negotiations.

INDEPENDENT AUDITOR’S REPORT

TO THE MEMBERS OF PHOTOQUIP INDIA LIMITED

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of PHOTOQUIP INDIA LIMITED(‘the Company’), which comprise the Balance Sheet as at 31st March 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management’s Responsibility for the Ind AS Financial Statements

The Company’s Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (‘the Act’) with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (‘Ind AS’) prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules, 2015, as amended and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the

accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under and order issued under section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its loss, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Other Matters

The comparative financial information of the Company for the year ended 31st March, 2017 and the transition date opening Balance Sheet as at 1st April, 2016 included in these Ind AS financial statements, are based on the previously issued statutory financial statements prepared in accordance with the Companies(Accounting Standards) Rules, 2006 audited by the predecessor auditor whose report for the year ended 31st March, 2017 and 31st March, 2016 dated 30th May, 2017 and 30th May, 2016 respectively expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Our opinion on the Ind AS financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit, we report to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which

to the best of our knowledge and belief were necessary for the purpose of our audit;

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this report are in agreement with the relevant books of account;
- d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act;
- e) On the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2018 from being appointed as a director in terms of Section 164(2) of the Act;
- f) With respect to the adequacy of the Internal Financial Controls over financial reporting of the company, and the operating effectiveness of such controls, refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's Internal Financial Controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements -Refer Note 35 to the financial statements.

- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of Photoquip India Limited (the "Company") as of 31st March 2018 in conjunction with our audit of the IndAS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's Internal Financial Control over Financial Reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Control over Financial Reporting was

established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls system over Financial Reporting and their operating effectiveness. Our audit of Internal Financial Control over Financial Reporting included obtaining an understanding of Internal Financial Control over Financial Reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal Financial Control system over Financial Reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's Internal Financial Control over Financial Reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles.

A Company's Internal Financial Control over Financial Reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have

a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of Internal Financial Controls system over Financial Reporting, including the possibility of collusion or improper management over ride of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls over Financial Reporting, to future periods are subject to the risk that Internal Financial Controls over Financial Reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the criteria for internal financial controls over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

COMPANY BACKGROUND

Photoquip India Limited (the 'Company') is a public limited company is incorporated in 1992 under provisions of the Companies Act, 1956. The Company is engaged in the business of manufacturing of Digital Studio Flash Lights and Photographic Accessories. The Company sells its products in the domestic as well as export markets. The equity shares of the Company are listed on the Bombay Stock Exchange Limited (BSE).

1. SIGNIFICANT ACCOUNTING POLICIES:

1.1. Basis of preparation of financial statements

(i) Compliance with Ind AS

These financial statements have been prepared in accordance with Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified under Section 133 of the Companies Act, 2013 ("Act) read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

For all periods up to and including the year ended 31st March, 2017, the Company had prepared its financial statements in accordance with Accounting Standards notified under the Section 133 of the Companies Act, 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 ('Previous GAAP').

These financial statements are the first financial statements prepared under Ind AS. The date of transition to Ind AS is 1st April, 2016. Refer Note 42 for an explanation of how the transition from Indian GAAP (IGAAP) to Ind AS has affected the Company's financial position, financial performance and cash flows.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values (Refer note No. 33) and Defined benefit planned assets measured at fair value (Refer note no. 41) at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these financial statements.

(ii) Use of estimated and judgments

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

(iii) Current / Non- Current Classification

All assets and liabilities have been classified as current or noncurrent as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

1.2. Property, Plant and Equipment:

The Company has applied for the one time transition exemption of considering the previous GAAP carrying value of all its Property Plant and Equipment as on the transition date i.e. April 1, 2016 as deemed cost of property plant and equipment under INDAS. Hence regarded thereafter as historical cost.

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

The Company identifies and determines cost of each part of an item of property, plant and equipment separately, if the part has a cost which is significant to the total cost of that item of property, plant and equipment and has useful life that is materially different from that of the remaining item.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price. Cost includes cost of replacing a part of a plant and equipment if the recognition criteria are

met. Expenses directly attributable to new manufacturing facility during its construction period are capitalized if the recognition criteria are met. Expenditure related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant and equipment if the recognition criteria are met.

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight Line Method based on the useful life of the asset as estimated by the management and is charged to the Statement of Profit and Loss as per the requirement of Schedule II of the Companies Act, 2013. The estimate of the useful life of the assets is determined as prescribed in Schedule II of Companies Act, 2013.

The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

1.3. Impairment

Assets that have an indefinite useful life, for example goodwill, are not subject to amortization and are tested for impairment annually and whenever there is an indication that the asset may be impaired.

Assets that are subject to depreciation are reviewed for impairment, whenever events or changes in circumstances indicate that carrying amount may not be recoverable. Such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in the economic environment.

An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash in flows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognized in the Statement of Profit and Loss and included in depreciation and amortization expense. Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

1.4. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

A financial asset is recognised in the balance sheet when the Company becomes party to the contractual provisions of the instrument. At initial recognition, the Company measures a financial asset at its fair value plus or minus, in the case of a financial asset not at fair value through statement of profit and loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset.

Subsequent measurement

For purpose of subsequent measurement, financial assets are classified into:

- a. Financial assets measured at amortised cost;
- b. Financial assets measured at fair value through other comprehensive income (FVTOCI);
- c. Financial assets measured at fair value through statement of profit and loss (FVTPL)

The Company classifies its financial assets in the above mentioned categories based on:

- a. The Company's business model for managing the financial assets;
- b. The contractual cash flows characteristics of the financial asset.

Financial assets measured at amortised cost

This category generally applies to trade and other receivables.

A financial asset is measured at amortised cost if both of the following conditions are met:

- a. The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows;
- b. The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

Financial assets measured at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- a. The financial asset is held within a business model whose objective is achieved by both collecting the contractual cash flows and selling financial assets;
- b. The asset's contractual cash flows represent SPPI.

Financial assets measured at fair value through the statement of profit and loss (FVTPL)

FVTPL is a residual category. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

Equity Instruments

All the equity instruments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL.

If the company decides to classify an equity instrument as at FVTOCI, then all the fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity. Equity instruments included within FVTPL category are measured at fair value with all the changes recognized in statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's balance sheet) when:

- a. The contractual rights to the cash flows from the financial asset have expired, or
- b. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
- c. The Company has transferred substantially all the risks and rewards of the asset, or
- d. The Company has neither transferred nor retained substantially all the risks and

rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company assesses impairment based on expected credit loss (ECL) model to the following:

- a. Financial assets measured at amortised cost;
- b. Financial assets measured at fair value through other comprehensive income

Expected credit losses are measured through a loss allowance at an amount equal to:

- a. The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- b. Full time expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

The Company follows simplified approach for recognition of impairment loss allowance on trade receivables, under the simplified approach; the Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable which is adjusted for management's estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through statement of profit and loss, loans and borrowing, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in case of loans and borrowing and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and short term borrowing.

Subsequent measurement

- a. Financial liabilities measured at amortised cost;
- b. Financial liabilities subsequently measured at fair value through statement of profit and loss

Financial liabilities at fair value through profit or loss include financial liabilities held for

trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through statement of profit and loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied.

Trade and other payables

These amounts represent liability for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

| Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

| Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

| Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

1.5. Inventories

Raw materials, finished goods, stock-in-trade, and stores and spares are carried at the lower of cost and net realizable value after providing for obsolescence, if any. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, stock-in-trade, stores and spares, First-in-First-Out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods includes the cost of raw materials, an appropriate share of fixed and variable production overheads, excise duty as applicable and other costs incurred in bringing the inventories to their present location and condition.

1.6. Revenue Recognition

Revenue is recognized when it is probable that economic benefits associated with a transaction flows to the Company in the ordinary course of its activities and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates allowed by the Company.

Revenue includes only the gross inflows of economic benefits, including excise duty, received and receivable by the Company, on its own account. Amounts collected on behalf of third parties such as sales tax and value added tax are excluded from revenue.

Sale of products:

Sales are recognized when substantial risk and rewards of ownership are transferred to customer, In case of domestic customer, generally sales take place when goods are dispatched or delivery is handed over to transporter, in case of export customers,

generally sales take place when goods are shipped onboard based on bill of lading.

Revenue from services:

Revenue from services is recognized when the stage of completion can be measured reliably. Stage of completion is measured by the services performed till Balance Sheet date as a percentage of total services contracted

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive dividend is established.

Other Operating Revenue -Export Incentive:

Export Incentives are recognized as income when right to receive credit as per the terms of the scheme is established in respect of the exports made and when there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

1.7. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

1.8. Borrowing Costs

Interest and other borrowing costs attributable to qualifying assets are capitalised. Other interest and borrowing costs are charged to Statement of Profit and Loss.

1.9. Earnings per Share

Basic earnings per share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity Shares outstanding during the year.

Diluted earnings per share

Diluted earnings per share is calculated by dividing the profit for the year attributable to the equity holders of the Company by weighted average number of Equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential Equity shares in to Equity shares.

1.10. Foreign Currency Translation

Functional and presentation currency

The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Transactions and balances:

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

1.11. Income Taxes

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961.

Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to

apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

1.12. Provisions and Contingent Liabilities

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources

embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

1.13. Employee Benefits

Short Term Employee Benefits:

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus, short term compensated absences, ex-gratia, etc. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

Other long-term employee benefit obligations

Entitlements to annual leave and sick leave are recognized when they accrue to employees. Sick leave can only be availed while annual leave can either be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The Company determines the liability for such accumulated leaves using the Projected Accrued Benefit method with actuarial valuations being carried out at each Balance Sheet date. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

Post-Employment Benefits:

(i) Defined Contribution plans:

Defined contribution plans are employee state insurance scheme and Government administered provident fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceed the contributions already

paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

(ii) Defined Benefit plans:

Provident Fund scheme:

Defined Contribution Plans such as Provident Fund etc., are charged to the Statement of Profit and Loss as incurred. The contributions are made to a government administered Provident Fund towards which the Company has no further obligations beyond its monthly contributions.

Defined benefit Gratuity plan:

The Company has funded its gratuity liability with Life Insurance Corporation of India (LIC)

Defined Privilege Leave Benefit plan

Provision for Leave Encashment, which are expected to be availed and encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of leave encashment as the additional amount expected to be paid as a result of the unused entitlement as at the year end. Leave encashment, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits.

The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognised in the Statement of Profit and Loss in the year in which they arise.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined

benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the LIC within the next twelve months.

1.14. Recent accounting pronouncements Standards issued but not yet effective

In March, 2018, the Ministry of Corporate Affairs (MCA) issued the Companies (Indian Accounting Standards) Amendment Rules, 2018, notifying Ind AS 115, Revenue from Contract with Customers, Appendix B to Ind AS 21, Foreign Currency Transactions and advance consideration and amendments to certain other standards. These amendments are in line with recent amendments made by International Accounting Standards Board (IASB). These amendments are applicable to the Company from 1st April, 2018. The Company will be adopting the amendments from their effective date.

a) Ind AS 115, Revenue from Contract with Customers:

Ind AS 115 supersedes Ind AS 11, Construction Contracts and Ind AS 18, Revenue, Ind AS 115 requires an entity to report information regarding nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with customers. The Principle of Ind AS 115 is that an entity should recognize revenue that demonstrates the transfer of promised goods and services to customers at an amount

that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard can be applied either retrospectively to each prior reporting period presented or can be applied retrospectively with recognition of cumulative effect of contracts that are not completed contracts at the date of initial application of the standard.

Based on the preliminary assessment performed by the Company, the impact of application of the standard is not expected to be material.

b) Appendix B to Ind AS 21, Foreign currency transactions and advance consideration:

The Appendix clarifies that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the asset, expenses or income (or part of it) is the date on which an entity initially recognizes the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration towards such asset, expenses or income. If there are multiple payments or receipts in advance, then an entity must determine transaction date for each payment or receipts of advance consideration.

The impact of the Appendix on the financial statements, as assessed by the Company, is expected to be not material.

1.15. KEY ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the Company's financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

Income taxes

The Company's tax jurisdiction is India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions (Refer Note 32).

Property, Plant and Equipment

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

Defined Benefit Obligation

The costs of providing gratuity and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. The same is disclosed in Note 41, 'Employee benefits'.

Fair value measurement of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgments and assumptions.

<p>The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.</p> <p>Types of inputs for determining fair value are as under:</p> <p>Level 1: This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, and mutual fund investments. The mutual funds are valued using the closing NAV.</p> <p>Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.</p> <p>Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.</p> <p>B. C. Financial risk management

The Company's financial liabilities comprise mainly of borrowings, trade payables and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The Company is exposed to Market risk, Credit risk and Liquidity risk. The Board of Directors ('Board') oversee the management of these financial risks through its Risk Management Committee. The Risk Management Policy of the Company formulated by the Board, states the Company's approach to address uncertainties in its endeavor to achieve its stated and implicit objectives. It prescribes the roles and responsibilities of the Company's management, the structure for managing risks and the framework for risk management. The framework seeks to identify, assess and mitigate financial risks in order to minimize potential adverse effects on the Company's financial performance.

The following disclosures summarize the Company's exposure to financial risks and information regarding use of derivatives employed to manage exposures to such risks. Quantitative sensitivity analysis have been provided to reflect the impact of reasonably possible changes in market rates on the financial results, cash flows and financial position of the Company.

1) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk includes borrowing, investments, trade payables, trade receivables, loans and derivative financial instruments.

a) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Since the Company has insignificant interest bearing borrowing, the exposure to risk of changes in market interest rates is minimal. The Company has not used any interest rate derivatives.

Current portion of Long term borrowing	29.60	183.40	203.69
Total Rs.	509.43	187.38	355.47

b) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The Company operates, in addition to domestic markets, significantly in international markets through its sales and services in overseas and purchases from overseas suppliers in US\$ and is therefore exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US\$. The Company does not enter into any derivative instruments for trading or speculative purposes.

The company does not enter into forward exchange contracts to hedge against its foreign currency exposures relating to the underlying transactions and firm commitments. The sources of foreign exchange risk are outstanding amounts payable for imported raw materials and other supplies denominated in foreign currency. The Company is also exposed to foreign exchange risk on its exports. Most of these transactions are denominated in US dollars.

(c) Foreign Currency Risk Sensitivity							
The Company is mainly exposed to changes in USD. The below table demonstrates the sensitivity to a 5% increase or decrease in the USD against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate.							
A change in Foreign currency would have following Impact on profit before tax							
Amount in Lacs							
	As at March 31, 2018		As at March 31, 2017		As at April 01, 2016		
	5% Increase	5% Decrease	5% Increase	5% Decrease	5% Increase	5% Decrease	
USD	3.12	(3.12)	(0.85)	0.85	4.36	(4.36)	

C) Other Price Risk							
Other price risk is the risk arising from investments in equity instruments recognised at FVTOCI. As at 31st March, 2018, the carrying value of such instruments recognised at FVTOCI amounts to Rs. 5.34 Lacs (Rs. 5.37 Lacs as at 31st March, 2017 and Rs. 3.82 Lacs as at 1st April, 2016). The details of such equity instruments are given in Note 3 (A). Investments in equity instruments which is not considered to be significant.							
2) Credit Risk							
Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. To manage this, the Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information. The Company considers Credit risk arises primarily from financial assets such as trade receivables, other balances with banks, loans.							
Credit risk arising from other balances with banks is limited and there is no collateral held against these because the counterparties are banks and recognised financial institutions with high credit ratings assigned by the credit rating agencies.							
Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss.							
The Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no provision considered.

NOTE 41 : EMPLOYEE BENEFITS**1) Post-employment benefits :**

The Company has the following post-employment benefit plans:

1.1) Defined benefit gratuity plan

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The scheme is funded with Life Insurance Corporation of India in the form of qualifying insurance policy.

1.2) Defined Privilege Leave Benefit plan

Provision for Leave Encashment, which are expected to be availed and encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of leave encashment as the additional amount expected to be paid as a result of the unused entitlement as at the year end. Leave encashment, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognised in the Statement of Profit and Loss in the year in which they arise.

As per Actuarial Valuation as on 31st March, 2018, 31st March, 2017 and 1st April, 2016 and recognised in the financial statements in respect of Employee Benefit Schemes:

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED ON 31st MARCH, 2018

NOTE: 42 FIRST TIME ADOPTION OF Ind AS

These are the Company's first financial statements prepared in accordance with Ind AS.

For all periods up to and including the year ended 31st March, 2017, the Company had prepared its financial statements in accordance with the accounting standards notified under Section 133 of the Companies Act, 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 ('Previous GAAP'). This note explains the principal adjustments made by the Company in restating its financial statements prepared under Previous GAAP for the following:

- a) Balance Sheet as at 1st April, 2016 (Transition date);
- b) Balance Sheet as at 31st March, 2017;
- c) Statement of Profit and Loss for the year ended 31st March, 2017; and
- d) Statement of Cash flows for the year ended 31st March, 2017.

EXEMPTIONS AVAILED:

Ind AS 101- First-time adoption of Indian Accounting Standards, allows first-time adopters, exemptions from the retrospective application and exemption from application of certain requirements of other Ind AS. The Company has availed the following exemptions as per Ind AS 101:

1 Fair value measurement of financial assets and liabilities

For financial instruments, wherein fair market values are not available (viz. interest free and below market rate security deposits or loans) the Company has elected to adopt fair value recognition prospectively to transactions entered after the date of transition.

2 Deemed Cost for Property Plant & equipment

The Company has elected to consider the carrying value of all its items of property, plant and equipment recognised in the financial statements prepared under Previous GAAP and use the same as deemed cost in the opening Ind AS Balance Sheet.

3 Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates at April 1, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in financial instruments carried at FVTPL or FVOCI,
- Impairment of financial assets based on expected credit loss model
- Determination of the discounted value for financial instruments carried at amortised cost.

PHOTOQUIP INDIA LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED ON 31st MARCH, 2018

4 Classification and measurement of financial assets:

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable. Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

5 Recognised of financial instruments through FVOCI

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS. The Company has elected to apply this exemption for its investment in equity investments.

NOTE: 42 FIRST TIME ADOPTION OF Ind AS

The presentation requirements under Previous GAAP differs from Ind AS, and hence, Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The Regrouped Previous GAAP information is derived from the Financial Statements of the Company prepared in accordance with Previous GAAP.

PHOTOQUIP INDIA LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED ON 31st MARCH, 2018

NOTE: 46 FIRST TIME ADOPTION OF Ind AS (Contd...)

Notes to the reconciliation of equity as at 1st April 2016 and 31st March 2017 and Total comprehensive income for the year ended 31st March 2017.

1 Fair Valuation of Investments

Fair value changes with respect to investments in equity instruments designated as at FVTOCI have been recognised in FVTOCI. The resulting fair value changes of these investments have been recognised as a separate component of equity, in the retained earnings as at the date of transition and subsequently in the Other Comprehensive Income(OCI) for the year ended 31st March 2017. This increased other reserves by Rs. 3.50 Lacs as at 31st March, 2017 (Rs. 1.96 Lacs As at 1 April, 2016).

2 Employee Benefits

Both under Previous GAAP and Ind-AS, the company recognises costs related to its post-employment defined benefit plan on an actuarial basis. Under Previous GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind-AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI.

Under Previous GAAP company is in process of taking Acturial Valuation for preveilage Leave Benefits. As a result of this change, the profit for the year ended 31st March 2017 is decreased by Rs.1.69 lacs and retained earnings decreased by Rs. 13.34 Lacs as at 31st March, 2017 (Rs. 11.65 Lacs As at 1 April, 2016).

3 Deferred Tax

In the financial statements prepared under Previous GAAP, deferred tax was accounted as per the income statement approach which required creation of deferred tax asset/liability on temporary differences between taxable profit and accounting profit. Under Ind AS, deferred tax is accounted as per the Balance Sheet approach which requires creation of deferred tax asset/liability on temporary differences between the carrying amount of an asset/liability in the Balance Sheet and its corresponding tax base.

The application of Ind AS has resulted in recognition of deferred tax on new temporary differences which were not required to be recognised under Previous GAAP. In addition, the above mentioned transitional adjustments relating to current/non-current investments have also led to temporary differences and creation of deferred tax thereon.

The above changes have resulted in creation of deferred tax assets (net) amounting to Rs. 3.60 lacs as at date of transition to Ind AS and Rs. 11.69 Lacs as at 31st March, 2017. For the year ended 31st March, 2017, it has resulted in a decrease in deferred tax expense by Rs. 3.82 Lacs in the Statement of Profit and Loss and recognition of deferred tax benefit by Rs. 4.27 Lacs in OCI.

4 Revenue from sale of products:

Under Previous GAAP, sales commission given was shown as as a part of other expenses. However, under Ind AS, such commission expenses amounting to Rs.206.93 lacs for the year ended 31st March, 2017 are reduced from revenue from sale of products. This has resulted in reduction in sales and other expenses.

PHOTOQUIP INDIA LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED ON 31st MARCH, 2018

The above changes do not affect equity as at date of transition to Ind AS, profit after tax for the year ended 31st March, 2017 and Equity as at 31st March, 2017.

5 Amortisation of Loan Processing Fees

Under previous GAAP, upfront fees paid to the lenders is charged to statement of profit and loss as and when incurred. However, Ind AS - 109 "Financial instruments" requires long term debt to be recognised at amortised cost and upfront fees are charged on the basis of effective interest rate method. Accordingly borrowings as at 31st March 2017 decreased by Rs 0.18 lacs (Rs. 0.65 Lacs as at 1st April, 2016) with corresponding effect in retained earning resulting in increase in total equity.

The above change has resulted in decrease in profit before tax for the year ended 31st March, 2017 by 0.46 lacs in the Statement of Profit and Loss Account.

6 Restatement of Prior Period Expenses

Under Previous GAAP, Prior period expenses of Rs. 4.55 lacs was recorded in the statement of Profit and Loss for the year ended March 31, 2017. However in accordance with the requirements of Ind AS the same has been recognised by restating the retained earnings as on April 01, 2016.

As per Ind AS Prior period expenses was restated in the previous year financial statements or retained earnings. Prior period expenses of Rs. 12.14 lacs was recognised by restating the retained earnings as on 31st March, 2017 and prior period expenses of Rs. 2.80 lacs recorded in the Profit and Loss for the year ended March 31, 2017.

7 Statement of cash flows

The transition from Indian GAAP to Ind AS do not any material impact on Statement of cash flows.

8 Other comprehensive income

Under Indian GAAP, the Company has not presented other comprehensive income (OCI) separately. Hence, it has reconciled Indian GAAP profit or loss to profit or loss as per Ind AS. Further, Indian GAAP profit or loss is reconciled to total comprehensive income as per Ind AS.
