Management Discussion & Analysis and Review of Operations and Future Law

Overview

MFL India Limited is a premier transport and logistics company with Pan-India coverage; having a self-owned fleet of mixed variety high-volume / heavy-weight cargo carriers; along-with a diversified portfolio of transportation services that includes dedicated high-capacity trucks, trailers.

MFL's logistics' portfolio includes freight management, cargo brokerage, inter-modal are provided through MFL's domestic networked companies and include ocean, air and ground transportation.

The main commodities transported are retail store merchandise, 2- wheeler motorcycles / scooters, consumer products, FMCGs, other manufactured products and grocery products

Industry Structure

Logistics industry in India has huge demand especially with the growth of the Indian economy along with the influx of new companies in sectors that were otherwise unknown.

Indian Logistics Industry is expected to grow at a CAGR of 8.6 percent between 2017 and 2020. The key drivers of this growth are infrastructure investment associated with ports, airports, and other logistics development plans, domestic demand growth and increasing trade.

The industry comprises the following main segments:

- Freight and passenger transportation via road, rail, air and water
- Warehousing and cold-storage

Development of transportation and logistics-related infrastructure such as dedicated freight corridors, logistics parks, free trade warehousing zones, and container freight stations are expected to improve efficiency. Government reform initiatives, promotion of manufacturing and trade, improving investment climate are expected to transform the industry and drive growth between 2020 and 2025.

Economic reforms, trade cooperation, improved transportation infrastructure, and industrial growth is ushering in increasing opportunities for the logistics service providers (LSPs) in India. Presently, the Indian logistics industry is witnessing development and expansion of its existing infrastructure, emergence of e-commerce specific logistics solutions, has a strong focus on manufacturing, but also has a large presence of unorganized service providers.

Key trends observed in the Indian logistics industry are:

- Government initiatives to promote the manufacturing sector and exports are likely to increase the demand for logistics functions. Trade with Asia, Europe, and North America are likely to remain major drivers for freight forwarding and transportation companies in the region.

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

- Major investments by both public and private sectors in the last five years on infrastructure, technology upgrades and expansion of sea and airport facilities, and dedicated logistics corridor in the rail network are expected to strengthen the Indian logistics infrastructure.
- The booming e-commerce market in India is bringing in new opportunities for LSPs. The evolving business model(s) in this space focuses on containing logistics and delivery costs.
- The expected implementation of nationwide uniform GST is likely to transform the distribution structure of majority of industries as it eliminates the need for dedicated warehouses for each individual administrative region

India stands alone as an island of hope in an otherwise volatile, and uncertain, global economy. Recent policy initiatives and regulatory changes pursued by the government are aimed at accelerating India's GDP growth to 7.36% and beyond, in the near future. The logistics industry will be a direct beneficiary of this growth momentum. Equally, the ultimate winner within the logistics industry will be one who is able to outpace competition by delivering on the ever increasing demands of service, quality and cost in both B2B and B2C sectors.

Industry Development

The country's logistics industry which is worth around USD 160 billion is likely to touch USD 215 billion in the next two years with the implementation of GST. "With the implementation of GST, the Indian logistics market is expected to reach about USD 215 billion in 2020, growing at a CAGR of 10.5 per cent," Economic Survey 2018-19 tabled in Parliament. The Indian logistics industry which provides employment to more than 22 million people has grown at a compound annual growth rate (CAGR) of 7.8 per cent during the last five years, The Global Ranking of the World Bank's 2016 Logistics Performance Index shows that India jumped to 35th rank in 2016 from 54th rank in 2014 in terms of overall logistics performance. India has improved its rank in all the six components of logistics performance index. Realising the importance of the sector and to address the inefficiencies, the government has included the sector in the Harmonised Master List of Infrastructure Subsector. Inclusion of logistics sector in the Harmonised Master List of Infrastructure Subsector will benefit the sector in many ways, It will be helpful in facilitating the credit flow into the sector with longer tenures and reasonable interest rates, it said adding the infrastructure status will simplify the process of approval for construction of multi modal logistics (parks) facilities that includes both storage and transport infrastructure. "It will encourage market accountability through regulatory authority and will attract investments from debt and pension funds into recognised projects," it added. "It will encourage market accountability through regulatory authority and will attract investments from debt and pension funds into recognised projects."

To a large extent, the logistics sector in India remains unorganised, it said adding the industry is facing challenges such as high cost of logistics impacting competitiveness in domestic and

global market, underdeveloped material handling infrastructure, fragmented warehousing and lack of seamless movement of goods across modes, among others, "In order to develop this sector in an integrated way, it is important to focus on new technology, improved investment, skilling, removing bottlenecks, improving inter modal transportation, automation, single window system for giving clearances, and simplifying processes," By recognising the importance of the sector, a new logistics division has been created in the Department of Commerce to develop and coordinate integrated development of the industry, improvement in existing procedures, identification of bottlenecks and gaps, and introduction of technology-based interventions in this sector, the survey said

Improving logistics sector has huge implication on exports and it is estimated that a 10 per cent decrease in indirect logistics cost can increase 5-8 per cent of exports, Apart from increasing trade, better performance in logistics will augment programmes like Make in India, and also enable India to become an important part of the global supply chain.

Recent Scenario

The recent Indian logistics sector comprises of inbound and outbound segments of the manufacturing and service supply chains. Of late, the logistics infrastructure has gained a lot of attention both from business industry as well as policy makers. The role of managing this infrastructure, to effectively compete has been slightly under-emphasized.

Inadequate logistics infrastructure has an effect of creating bottlenecks in the growth of an economy. The logistics management regimen has the capability of overcoming the disadvantages of the infrastructure in the short run while providing cutting edge competitiveness in the long term. There exist several challenges and opportunities for logistic sector in the Indian economy.

Challenges Faced By the Recent Logistic Industry in India

An essential challenge faced by the industry today is the insufficient integration of transport networks, information technology, and warehousing & distribution facilities. Regulations exist at a number of different tiers, is imposed by national, regional and local authorities. However, the regulations differ from city to city, hindering the creation of national networks.

Trained manpower is essential both for the third party logistics sector as well as the manufacturing and retailing sectors, which is very weak at a practical level, i.e., IT, driving and warehouse as well as at a higher strategic level. The disorganized nature of the logistics sector in India, its perception as a manpower-heavy industry and lack of adequate training institutions has led to a shortfall in skilled management and client service personnel. There is a lack of IT standard, equipment and poor systems integration.

Poor facilities and management are the reason for high levels of loss, damage and deterioration of stock, mainly in the perishables sector. Part of the problem is insufficient

specialist equipment, i.e. proper refrigerated storage and containers, but it is also partly down to lack of training. The practitioners and the academicians are now aware of the importance of logistics and supply chain; however the field is still under-penetrated as far as research is concerned. It is essential to prioritize research and development so that the weaknesses in the industry can be taken care of and improved.

Solutions to Some of the Challenges

Infrastructure is the backbone of every country's growth and prosperity and for the logistics industry to flourish special emphasis has to be on building world-class road networks, integrated rail corridors, Modern cargo facilities at airports and creation of logistics parks which need to be given a status equivalent to Special Economic Zones.

It is necessary to realize that the benefits which can best be practiced in logistics industry can be brought about by the companies by establishing training intuitions so that there is improvement in the overall service quality of the sector. Good storage and Warehousing facilities are important for the growth of the logistics industry. With the increase in the transportation of perishable products, the logistics agencies need to give a lot of importance to enhancing the Warehousing facilities.

Warehousing is required to go to the next level taking into account the changing dynamics of JIT manufacturing, global procurement and new models of sales and distribution. Emphasis on research and development is potent mainly because it encourages the use of indigenous technology which can make the industry cost competitive and can also bring about improvement in services thereby using better, effective and efficient services. Particular focus has to be on research in process excellence which can help to eliminate inefficiencies and bring Indian logistics on par with global practices.

Future Prospects

The logistics firms are moving from a traditional setup to the integration of IT and technology to their operations to reduce the costs incurred as well as to meet the service demands. The growth of the Indian logistics sector depends upon its soft infrastructure like education, training and policy framework as much as the hard infrastructure.

To support India's fast-paced economy growth of logistics industry is very essential. It is estimated that the Indian logistics industry will continue to show robust growth of 10-15% annually, leading the pace of growth of the economy at large.

The global economic outlook, indeed that of India is expected to significantly improve as India Inc begins to tackle the economic downturn. With a new government many policies are expected to be implemented which will give a fresh impetus to India's growth engine particularly in the corporate and SME sector which in turn will expand demand for the logistics sector.

With the implementation of GST, logistics companies, which are currently forced to set up many small warehouses across multiple cities can set up just a few, big warehouses region

wise and can follow the hub-and-spoke model for freight movement from the warehouses to the different manufacturing plants, wholesale outlets, retail outlets and the various POS. This growth is backed by the boom in the e-commerce sector and expansionary policies of the FMCG firms.

This has increased the service geography of the logistics firms but they also have to meet the demands of quick delivery and tight service level agreements. The industry has moved from being just a service provider to the position which provides end to end supply chain solutions to their customers. Thus, all this has paved the way for further growth of Logistics and Warehousing industry in the coming years.

QUALIFIED INDEPENDENT AUDITOR'S REPORT

To
The Members of **M/s MFL INDIA LIMITED**

Qualified Audit Report on the Financial Statements

We have audited the accompanying financial statements of M/s MFL INDIA LIMITED (“the Company”), which comprise the Balance Sheet as at March 31, 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and a summary of the significant accounting policies and other explanatory information.

Management’s Responsibility for the Financial Statements

The Company’s Board of Directors are responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require

that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

Our opinion on the Statement is qualified in respect of the matters described below.

Attention is drawn to the following matters:

1. The Bankers of the company have termed the Credit facilities of the company as a Non Performing Asset (NPA) and has recalled their facilities.
2. They have taken symbolic possession of the assets of the company mortgaged with them and have communicated their stand to the debtors of the company.
3. The business of the company has been discontinued/disrupted because of the above said affects. As a result there is no turnover of the company in the last quarter of FY 2018-19.
4. After the closure of the financial year the major moveable assets of the company which generated revenue were repossessed by the financiers.
5. The company has generated cash losses during the financial year, the net worth of the company has been fully eroded, and current liabilities are substantially higher than current assets.

Qualification

The facts mentioned above indicate a material uncertainty and cast significant doubt on the company's ability to continue as a going concern. However in absence of adequate information we cannot quantify the net realizable amount of assets and liabilities of the company to be stated in the financial statements.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of Auditor’s report to the Members of M/s MFL INDIA LIMITED of even date):

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of M/s MFL INDIA LIMITED (“the Company”) as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s

Judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

MFL INDIA LIMITED

Notes to Financial Statements for the year ended 31st March, 2020

Note-1: Company overview

MFL India Ltd. is a company rendering logistics and supply chain services all over the country. The Indian logistics & supply chain sector is increasingly becoming attractive to foreign and domestic operators as well as strategic and financial investors. The company has the mission to extend its operations to every nook and corner of the country in the years to come as the logistics & supply chain sector is also growing with the growing India.

The Company is a public limited company incorporated on 28/11/1981 in India and has its registered at 94/4, UG-F, UG-9 Village Patparganj, Delhi-110091, India. The Company has its listing on BSE Limited.

Note-2: Statement of compliance:

- a) The financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.
- b) Upto the year ended 31st March, 2020, the Company prepared its financial statements in accordance with the requirements of previous GAAP prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014. These are the Company's first Ind AS financial statements.

Note-3: SIGNIFICANT POLICIES

a) Basis of preparation of financial statements

- i. In accordance with the notification issued by the Ministry of Corporate Affairs, the Company is required to prepare its Financial Statements as per the Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Accounting Standards) Amendment Rules, 2016. Accordingly, the Company has prepared these Financial Statements which comprise the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss, the Statement of Cash Flows and the Statement of Changes in Equity for the year ended 31st March, 2020, and a summary of the significant accounting policies and other explanatory information (together hereinafter referred to as "Financial Statements").
- ii. The financial statements of the Company are prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP) on the accrual basis of accounting and historical cost convention except for certain material items that have been measured at fair value as required by the relevant Ind AS and explained in the ensuing policies below.
- iii. The financial statements are presented in Indian Rupees ('INR') and all values are rounded to the nearest crore, except otherwise indicated.

b) Use of estimates and judgments

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

**MFL India Limited**

(CIN: L63040DL1981PLC012730)

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

- i) The preparation of the financial statements requires that the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.
- ii) The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

c) Property, plant and equipment

- i) The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are charged to Statement of Profit and Loss in the period in which the costs are incurred.
- ii) An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss.

d) Other Intangible assets

- i) Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Intangible assets with indefinite useful lives are carried at cost less accumulated impairment losses.
- ii) Certain computer software costs are capitalized and recognised as intangible assets based on materiality, accounting prudence and significant benefits expected to flow therefrom for a period longer than one year.

e) Depreciation / Amortisation

- a. Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method.
- b. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.
- c. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained

MFL India Limited

(CIN: L63040DL1981PLC012730)

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

- d. Depreciation on tangible assets is provided as per the provisions of Part B of Schedule II of the Companies Act, 2013 based on useful life and residual value notified for accounting purposes by Electricity Regulatory Authorities.
- e. Lease improvement costs are amortized over the period of the lease. Leasehold land acquired by the Company, with an option in the lease deed, entitling the Company to purchase on outright basis after a certain period at no additional cost is not amortized.

Estimated useful life of the assets are as follows:

Class of Property, plant and equipment	Useful life
Plant and equipment	08 years
Furniture and fixtures	10 years
Vehicles	08 years
Office equipment	5 years

- f. Useful life is either the period of time which the asset is expected to be used or the number of production or similar units expected to be obtained from the use of asset. The estimated useful life, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on prospective basis.

f) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

g) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and demand deposits with an original maturity of three months or less and highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

h) Inventories:

Cost of inventories includes cost of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Inventories of stores, spare parts, coal, fuel and loose tools are stated at the lower of weighted average cost and net realizable value. Net realizable value represents the estimated selling price for

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

MFL India Limited

(CIN: L63040DL1981PLC012730)

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

inventories in the ordinary course of business less all estimated costs of completion and estimated costs necessary to make the sale.

i) Revenue recognition:**i. Sale of Services**

Revenue is recognised to the extent that it is probable that economic benefit will flow to the Company and that the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated rebates and other similar allowances.

Revenue from sale of logistics and other related services is recognised when substantial risks and rewards of ownership is transferred to the buyer under the terms of the contract.

ii. interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

i) Employee benefits

The Company has following post-employment plans:

a. Defined contribution plans - provident fund

- I. Under defined contribution plans, provident fund, the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. Defined Contribution plan comprise of contributions to the employees' provident fund set up as trust and certain state plans like Employees' State Insurance. The Company's payments to the defined contribution plans are recognised as expenses during the period in which the employees perform the services that the payment covers.
- II. A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

j) Taxation

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

a) Current tax

Current tax is the amount of tax payable based on the taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

MFL India Limited

(CIN: L63040DL1981PLC012730)

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

b) Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, except when it is probable that the temporary differences will not reverse in the foreseeable future.

k) Earnings per share

a. Basic earnings per share is computed by dividing the profit/ (loss) for the year by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

b. Diluted earnings per share is computed by dividing the profit/ (loss) for the year as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date.

l) Provisions, contingencies and commitments:

a. Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, and it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation

b. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

c. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably

d. A disclosure for contingent liabilities is made where there is-

MFL India Limited

(CIN: L63040DL1981PLC012730)

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

- i. a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- ii. a present obligation that arises from past events but is not recognized because:
- iii. it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- iv. The amount of the obligation cannot be measured with sufficient reliability.
- e. A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.
- f. Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets.
- g. Provisions, contingent liabilities, contingent assets and commitments are reviewed at each reporting period.
- h. Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

m) Financial instruments

Financial assets and financial liabilities are recognised when Company becomes a party to the contractual provisions of the instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and finance fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

a. Financial assets

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the Statement of Profit and Loss.

b. Subsequent measurement

Financial assets, other than equity instruments, are subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

- (a) the entity's business model for managing the financial assets and
- (b) The contractual cash flow characteristics of the financial asset.

c. Classification of financial assets

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

MFL India Limited

(CIN: L63040DL1981PLC012730)

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated at fair value through profit or loss on initial recognition):

- a) the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- b) The contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount -outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as fair value through profit or loss on initial recognition):

- a) the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- b) The contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in Statement of Profit and Loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in Statement of Profit and Loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to Statement of Profit and Loss.

All other financial assets are subsequently measured at fair value.

d. Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in Statement of Profit and Loss and is included in the "Other income" line item.

e. Financial liabilities

All Financial liabilities are measured at amortized cost using effective interest method or fair value through profit and loss. However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

f. Financial liabilities subsequently measured at amortised cost

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

MFL India Limited

(CIN: L63040DL1981PLC012730)

Regd. Office: 94/4, UG-F, UG-9, Village Patparganj, Delhi 110091

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

g. Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in Statement of Profit and Loss.

n) Provision for liabilities and charges, Contingent liabilities and contingent assets

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS.

Provisions represent liabilities to the Company for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

o) Cash Flow Statement

Cash flows are reported using indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information
