MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRIAL OVERVIEW, STRUCTURE AND DEVELOPEMENT:

The history of publishing is characterized by a close interplay of technical innovation and social change, each promoting the other. Publishing as it is known today depends on a series of three major inventions—writing, paper, and printing—and one crucial social development—the spread of literacy. The activity has grown from small beginnings into a vast and complex industry responsible for the dissemination of all manner of cultural material; its impact upon civilization is impossible to calculate.

India offers a promising market for the print media industry. India is fast becoming one of the major print producer and manufacture of printed paper products in the world markets. The bright future and the immense scope of the Indian print media have also aroused the interest of foreign investors. Foreign media has also shown interest in investing in Indian publications. A booming Indian economy, literate population on the rise, increasing consumerism, entry of global brands in the country and opening of the sector to foreign investors would drive the growth in print media.

The publication industry was traditionally known for propagating news and information to a large audience through printed materials. With the advent of the internet and web 2.0, the industry has evolved significantly and today its purpose and objectives are not limited by the constraints imposed on it through the choice of the print medium. The industry has adapted the new medium and has quickly transformed its characteristics from being just broadcast to becoming interactive. Every consumer of information has become a producer of information as well, creating a new breed of knowledge customer called as "prosumers".

FINANCIAL PERFORMANCE:

The Company is engaged in the business of publication of business books and journals. In the current financial year due to continuous financial crunch and accumulated losses, the Company could not carry any business activity.

OPPORTUNITIES AND THREATS:

The threats to this industry are the entry of foreign players as this industry is being slowly opened by the government. The change in communication medium from paper to electronic is a great opportunity for this industry as it is reducing the cost of production and at the same time helping the industry to publish in real time, thus giving more opportunities for advertisers to participate in the various products of this industry. Due to the larger appetite to consume information of the growing literate population in the country there is an emerging need to address the gaps in niche areas. Existing newspapers and publications have already established their brands and customer connects, however their platforms are limited and cannot address the horizontal width and variety of information that is being sought. Though the Internet has also empowered the users with the ability to access information on demand, this has also enhanced the need for processed and analyzed information that can be utilized for taking actions and decisions. This is a huge opportunity for the publishing industry.

MARKET ATTRACTIVENES:

India is on the rise and enhanced literacy rate of this country is adding to the demand of news and information. In spite of the large proliferation of TV channels and the internet, the demand for printed publications continues to grow. Indian, as a community has always been well informed. The democratic constitution of the country has also added to the information explosion as free speech is one of the privileges that every Indian citizen enjoys. Thus the market attractiveness of the Indian publishing industry is very high.

RISKS AND CONCERN:

The print industry is highly competitive. The industry is not only facing competition from its peers but also from other media forms, like television broadcasters, radio broadcasters, e-broadcasting and websites. With launch of many news channels recently, the competition has increased. The Internet has many inherent advantages over print due to its search, sort and organising functions. Though there is still time, the threat is inevitable, as is evident from the increasing Internet penetration and the fact that Internet is gaining relevance in the models of print media plays a vital role.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

In view of no business activities carried out during the year, no formal Internal Control System is adopted by the Company. However, the Board of Directors of the Company controls over the affairs of the Company.

HUMAN RESOURCE DEVELOPMENT:

The employees of the company are the key assets of the Company. Company has formulated sound policies for employee's motivation and retention. All the required training and education are been given to them at all the required stage. Due to harmonious and cordial relation with the employees no disputes has been arisen during the year.

CAUTIONARY STATEMENT:

Statement in this Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, changes in Government regulations, tax regimes, economic developments within India and the countries in which the Company conducts business and other incidental factors.
