## MANAGEMENT DISCUSSION AND ANALYSIS

### ECONOMIC OVERVIEW

The fundamentals of the Indian Economy are sound. A steady improvement is expected in the year ahead. Reforms may get further push. Industry has rebounded sharply and exports have turned positive. Private consumption is picking up and more importantly investment is showing signs of resurgence. The global environment has improved beyond initial expectations with Asia leading the rebound. The optimism is evident in budgetary expectation of 8.5 per cent GDP growth in 2010-11.

The management of your Company is pleased to present the discussions and analysis on the industry structure, developments, future outlook and operating and financial performance.

### INDUSTRY OVERVIEW:

#### GLOBAL STEEL INDUSTRY – OVERVIEW:

Global steel consumption is likely to grow at a much faster rate than the 13% growth forecast of the World Steel Association. Between January and November, crude steel production was up by 16%. This is despite the seasonal drop in steel production in regions such as Europe. Global crude steel production fell by 2.8% on a sequential basis in the November quarter. China's output was stagnant in November, after rising by 5% in October over the previous month. The country's steel output has been under pressure for months, due to the government's attempt to prevent the economy from overheating. Europe's steel production fell by 5.3% and by a much lower 1.5% in North America.

The global steel scenario is in favour of steel producers, as restocking in countries such as Europe and North America has led to a recovery in 2010, after the slump in 2009. If there are worries, these are on the raw materials front; both iron ore and coal prices have begun to increase again in recent months. But companies have used the stronger demand environment to hike prices to end users, which should offset the impact of higher costs on margins, to some extent. Companies have also been disciplined in keeping production under check, with utilization

falling to the 73%-75% range in the second half of 2010, compared with the highs of 83% seen in April.

The long-term outlook for steel production is bright and, according to an Xstrata Plc presentation, should rise by a 3.6% compounded annual growth rate between 2010 and 2020. The medium-term outlook is still uncertain. Arcelor Mittal said that real demand is growing at a slower pace, due to uncertainty over the economic outlook for 2011, in a recent investor presentation. On the positive side, it believes that steel inventories in the US and Europe are at relatively low levels, which will be a positive when demand recovers

#### INDIAN STEEL INDUSTRY – OVERVIEW:

India occupied the eighth position in terms of global crude steel output. The Indian steel industry comprises producers of finished steel, semi-finished steel, stainless steel and pig iron. The private sector controls almost two-thirds of the steel market, while the public sector producers have the remaining one-third market share.

Indian steel companies are in a comfortable position, as lower Chinese output has brought down the threat of imported steel flooding the market. In November, steel imports were down by 62% over the year-ago period. Also, the ban on iron ore exports has given steel makers an edge. Since their capacities are not enough to meet domestic demand, they will depend on steel prices rising to see their performance improve in fiscal 2012 as well. That depends on a few key factors: chiefly whether developed economies recover and when China returns to its earlier high growth levels.

It also said that the government was drafting a National Steel Policy that would outline a five-year strategy for the steel sector.

A policy paper on research and development has also been prepared with special focus on beneficiation, coal ash reduction and promotion of high grade value added steel in the country.

#### **OPPORTUNITIES & THREATS:**

Shri Bajrang Alloys Limited is optimistic about that the industry in which it operates, force a robust demand both in domestic and international market of its product in the coming years.

Steel industry plays an important role in the development of a country. India, a developing nation, requires huge contribution from this industry, to expedite its run to reach new heights in world economy.

The growth of the construction industry, which is growing at a rate of around 8-9% is one of the major consumers of steel in the country which consistently maintain the demand of the steel products.

The eleventh five year plan (2007-2012) by the Indian government, has allocated investment of USD\$ 490 billion for the core infrastructure sector, comprising power, roads, railways, ports, airports, which are some of the major consumers of steel.

Indian steel industry is closely linked with domestic economic growth. Indian Infrastructure industries are growing at a robust speed, which is one of the major steel consuming industries and also Indian automobile industry, which depends on steel industry for parts manufacturing, will lead to a strong steel demand in future.

Your Company builds on its strength of locational advantages, raw material linkages, technology edge and management expertise to seize opportunities in the iron & steel industry. The steel industry has enough potential to grow at a much accelerated pace in the coming future due to the continuity of the developmental projects around the world. Your Company is presently working near its productive capacity which needs to be increased with increasing demand. New innovations are also taking place in steel industry for cost minimization and production maximization. Your Company is capital intensive, cyclical, highly competitive and has historically been characterized by overcapacity and the associated workforce are highly knowledgeable and experienced. The automobile industry in India, one of the main demander of steel, has a steep upward moving slope. The construction

and infrastructure industry, big demander of steel are also on upward slope due to the govt. policy regarding emphasis on developmental works.

The threats for your Company would come from adverse fluctuations in input and output capital costs, foreign exchange variations, taxes and duties. The buoyancy in Iron & Steel sectors has attracted many players, resulting in reduced availability of skilled manpower and contractor workforce. Key steel consuming industries such as auto, shipbuilding and construction have been experiencing weak demand in the last few quarters, forcing steel makers to slacken production levels. Financial crunch, coupled with high cost of input, severely will affect the profits of steel companies. The Indian steel industry has raw materials, but these needs to be turned better and in accordance with standardized international demand.

#### **CHALLENGES, RISK & CONCERNS:**

The risk of increased volatility of raw material prices remains a major concern to the steel industry and its customers during 2011. More-than-sufficient stockpiles have been weighing steel prices, a situation further complicated by the domestic steel consumers, who are importing relatively cheaper steel from China. This pressurizes steel prices even further. The Industry continues to be impacted by the problem of parallel imports and increasing incidents of counterfeit, spurious and low quality steel products, which could be detrimental to the Indian society and also damaging India's image in the International market. The high cost of electricity in India may hamper the steel industry's production and profitability level.

#### **FINANCIAL PERFORMANCE:**

During the year under review, the Company recorded Turnover of Rs. 17606.15 lacs as against Rs. 17535.52 lacs in the previous year. The Profit before tax has increased to Rs. 311.99 lacs from Rs. 302.20 lacs in the previous year. Profit after tax has also increased to Rs. 210.89 lacs from Rs. 207.02 lacs in the previous year.

#### **RISK MANAGEMENT:**

Your Company has identified the major thrust areas to concentrate on, which it believes to be critical to achievement of organizational goals. A

well defined structure has been laid down to assess, monitor and mitigate risks associated with these areas, briefly enumerated below:

1. Foreign Exchange – Your Company deals in foreign exchange in exports of finished products as well as in the forward foreign exchange contracts. Necessary guidance is provided by the forex consultant on mitigating foreign exchange exposure.

2. Systems – Your Company has planned to implement Enterprise Resource Planning (ERP) Software to integrate its operations and to use best business and commercial practice. ERP is in its processing phase and your company has appointed a support partner for smoother implementation.

3. Statutory Compliances - Procedure is in place for monthly reporting of compliance of statutory obligations and reported to the Board of Directors.

#### **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:**

The Company has clearly laid down proper internal control system which provide for automatic checks and also provide for the effectiveness and efficiency to ensure that all the assets are protected against and that the financial and operational information is complete and accurate and regular review of the Audit Committee of the Company's processes, systems and procedures ascertained during the course of their audit.

Audits are finalized and conducted based upon the internal risk assessment. Emphasis is placed on adequacy, reliability and accuracy of dissemination of the financial data and information. Compliance issues are given utmost importance and reported regularly to the Board.

#### **HUMAN RELATIONS:**

We lay special emphasis to the human resources functions in our organizations and believe that our work opportunities and competitive compensation policies help us in attracting and retaining our personnel.

We have an elaborate performance management system in place involving goal setting and periodic reviews involving confirmation and

annual reviews. The review sessions impress upon several aspects of the professionals careers such as career and competency development, financial rewards and recognition. We endeavor to link careers to competencies, individual preferences and organizational needs.

#### **SAFETY:**

Safety management is integrated with the Company's overall environment, health and safety (EHS) management and zero accident is taken up as the Company's goal. The following measures have been taken by the Company:

- Identification of hazard and risk present in the work environment and its rectification.
- Continuous monitoring of unsafe conditions and unsafe acts through safety inspections.
- Specific job safety awareness on continuous basis.

#### **OUTLOOK:**

This new research report Indian Steel Industry Outlook to 2012 says that the, Indian crude steel production will grow at a CAGR of around 10% during 2010-2013. Moreover, with the government proactive incentive plans to boost economic growth by injecting funds in various industries, such as construction, infrastructure, automobile, and power will drive the steel industry in future. The report also reveals that, steel consumption in India is expected to grow significantly in coming years as per capita finished steel consumption is far less than its regional counterparts.

The outlook for the steel sector in India remains positive. The Government of India has laid special emphasis on development of infrastructure with huge investments in power, roads & highways, railways, housing, oil and gas etc which shall drive demand. Your Company with a well defined product portfolio is well poised to take advantage of the growth in iron and steel demand.

#### **ENVIRONMENT FRIENDLY OPERATIONS:**

Environmental protection is prime concern for us and we are aware of our core responsibility to the society. The Company's plant complies with all norms set up for clean and better environment by the competent authorities. The Company

undertakes regular checks / inspection for the maintenance of environment, health and safety. The company has adequate effluent treatment plant to avoid pollution. The Company is continuously endeavoring to improve the quality of life in the community surrounding its industrial complex.

**CAUTIONARY STATEMENT:**

Statements in the Management Discussion and Analysis, describing the Company's objectives, projections, estimates and expectations may be forward looking statements within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the company's operations include, among other things, economic conditions affecting demand/supply and price conditions in the domestic and overseas markets in which the company operates, changes in the government regulations, tax laws and other statutes and incidental factors.

**SCHEDULE "T"**

**SCHEDULE ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT AND THE PROFIT & LOSS ACCOUNT FOR THE YEAR ENDED 31.03.2011**

**(A) COMPANY OVERVIEW :**

Shri Bajrang Alloys Limited is one of the leading manufacturing company of Raipur. Company is engaged in manufacturing of Structural Steels like Angle, Channal, Joist/Beam, Round etc.

**(B) SIGNIFICANT ACCOUNTING POLICIES :**

**1. BASIS OF PREPARATION :**

- (i) The financial statements have been prepared on Historical Cost convention in accordance with the generally accepted accounting principles and the provisions of the Companies Act, 1956 and the applicable Accounting Standards in India.
- (ii) The company follows mercantile system of accounting and recognizes income and expenditure on accrual basis except those with significant uncertainties.
- (iii) The accounting policies have been consistently applied by the company.

**2. USE OF ESTIMATES :**

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues & expenses during the reported period. Although these statements are based up on management's best knowledge of current events and actions, actual results could differ from these statements. Difference between the actual results and the estimates are recognised in the period in which the results are known / materialised.

**3. FIXED ASSETS :**

Fixed Assets are stated at acquisition cost less depreciation. Cost includes related taxes, duties, freight, insurance etc attributable to acquisition and installation of assets and borrowing cost incurred up to the date of commencing operations, but excludes duties and taxes that are recoverable subsequently from the taxing authorities.

**4. DEPRECIATION :**

- (i) Depreciation on Fixed Assets has been provided on "Straight Line Basis" at the rates and in the manner prescribed in Schedule – XIV of the Companies Act, 1956.
- (ii) Leasehold land is amortised over the period of lease.
- (iii) Depreciation on Fixed Assets added / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.
- (iv) Expenditure of amount below Rs. 5000 /- had been written off in full.

**5. INVESTMENTS :**

- (i) Long Term Investments are stated at cost. A provision for diminution is made to recognise a decline, other than temporary, in the value of long term investments.
- (ii) Current Investments are stated at lower of cost and fair value.

**6. INVENTORIES :** Inventories are valued in following manner:

Raw Materials	: At Cost
Finished Goods	: At Lower of Cost or Market Price
Traded Goods	: At Cost
Materials in transit	: At Invoice Value.
Stores & Consumables	: At Cost
Waste and Scrap	: At Net Realisable Value

Cost of finished goods includes direct materials, labour and conversion and other manufacturing expenses incurred to bring the inventories in the present condition and location

The determination of cost are on FIFO basis.

**7. CONTINGENT LIABILITIES :**

Liabilities which are material and whose future outcome cannot be reasonably ascertained are treated as contingent and not provided for and disclosed by way of notes to the accounts.

**8. REVENUE RECOGNITION :**

- (i) Mercantile method of accounting has been employed unless otherwise specifically stated elsewhere in this schedule. However where the amount is immaterial / negligible and / or establishment of accrual / determination of amount is not possible, no entry is made for accruals.
- (ii) Sale of Products - Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Excise Duty and Value Added Tax deducted from turnover (gross) is the amount that is included in the amount of turnover (gross) and not the entire amount of liability arised during the year.
- (iii) Bonus and Leave Encashment are recognised as per Cash Basis.

**9. FOREIGN CURRENCY TRANSACTIONS :**

- (i) Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.
- (ii) Any income or expense on account of exchange difference on settlement of Monetary items is recognised in the Profit & Loss Account.
- (iii) In respect of transactions covered by Forward Foreign Exchange Contracts, the difference between the forward rate and exchange rate at the inception of contract is recognized as income or expenses over the life of the contract except for contracts relating to liabilities incurred for purchase of Fixed Assets, the difference thereof is adjusted in the carrying amount of respective Fixed Assets.

**10. BORROWING COST :**

Interest and other costs in connection with the borrowing of the funds to the extent related/attribution to the acquisition/construction of fixed assets are capitalized only with respect to qualifying fixed assets i.e. those which take substantial period of time to get ready for its intended use.

**11. EMPLOYEES RETIREMENT BENEFITS :**

- (i) **Defined Contribution plan**  
Company's contribution to Provident Fund and Employee state Insurance are charged to Profit and Loss Account. Value of encashable leave are encashed during the year and charged to Profit & Loss Account. there is no other obligation other than the contribution Payable to respective authorities.
- (ii) **Defined Benefit plan**  
Company's Liabilities towards gratuity are determined on the basis of simple calculation as per Gratuity Act and Labour Act only.

**12. PROVISIONS :**

Provisions are recognized, where the company has any legal or constructive obligation or where reliable estimate can be made for the amount of the obligation and as a result of past events, for which it is probable that an outflow of economic benefits will be required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

**13. IMPAIRMENT OF ASSETS :**

The Company assesses at each balance sheet date whether there is any indication that any asset may be impaired. If any such indication exists, the carrying value of such assets is reduced to its estimated recoverable amount and the amount of such impairment loss is charged to profit & loss account. If at the balance sheet date there is an indication that previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to that effect.

**14. TURNOVER :**

Gross Turnover includes sales inclusive of excise duty, sales tax, services and are adjusted for discounts.

**15. EXCISE DUTY :**

Excise duty expenses are accounted for at the time of removal of goods from the factory. Total excise expenses includes the amount of reversal of cenvat amount and penalty, if any, on order passed during the year.

CENVAT Credit relating to raw materials/components are debited under current assets for availing credit against CENVAT and credited to respective materials/component account.

**16. UNSECURED LOAN FORM OTHERS :**

Unsecured Loan from others consists of amount payable to State Sales Tax Department on account of deferred sales tax liability. This year its account is settled.

**17. SEGMENT REPORING :**

The company has only one primary segment, i.e. Structural Rolling Mill. As such there is no other reportable segment as defined by Accounting Standard - 17 "Segment Reporting" issued by the Institute of Chartered Accountants of India. There is no reportable Geographical Segment either.

**18. PROVISION FOR CURRENT AND DEFERRED TAX :**

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961. Deferred Tax resulting from "timing difference" between book profit and taxable profit is accounted for using the tax rates and laws that have been enacted or substantially enacted as on the Balance Sheet Date. The Deferred Tax Asset is recognised and carried forward only to the extent that there is reasonable certainty that the asset will be realised in future.

**19. EARNING PER SHARE :**

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by weighted average number of equity shares outstanding during the period.

**(C) NOTES ON ACCOUNTS :**

1. Contingent Liabilities not provided for in the accounts in respect of:

- a) Bank Guarantees outstanding at Rs. 26.64 Lacs (previous year Rs. 30.02 Lacs) against which margin money of Rs. 3.14 Lacs (previous year Rs. 4.36 Lacs) has been deposited with bank.
- b) Claims against the company / disputed tax liabilities not acknowledged as debt amounting to Rs. 32.25 Lacs (Previous year Rs. 31.00 Lacs).
- c) Guarantees given on behalf of the other companies Rs. 33711 Lacs (previous year Rs.33711 Lacs).
- d) Customers' bills discounted Rs. 3101.52 Lacs (previous year 3627.31 Lacs).

2. Auditor's remuneration include the following: -

PARTICULARS	F.Y. 2010-11	F.Y. 2009-10

Weighted Avg. No. of Equity Share Outstanding	9000000	9000000
Basic / Diluted Earning / (Loss) per Share	2.34	2.30

**5. GRATUITY :**

- (i) Provision for gratuity has been determined on the basis of simple calculation as per Gratuity Act and Labour Act only. This is not as per compliance of the accounting standard 15 issued by ICAI as the company has not determined the liability as required as per revised AS-15, which was mandatory w.e.f. 01.04.2007 However, additional liabilities if any will be provided later on. The quantum of additional liability is at present unascertainable.
- (ii) Provision for gratuity has been made on the basis of half month of last drawn salary as this method is generally followed by all the incidental industries. Actuarial was not done as the strength of employees are not too high. Had the actuarial valuation been made the difference would not be material, looking towards the low strength of Employees.
- (iii) As the company has not separately invested any of its liability of Gratuity in any specific Govt. Bonds / Securities, hence the changes in assets is not there.
6. Amounts have been rounded off to the nearest rupees and previous year's figures have been regrouped, rearranged and reclassified wherever considered necessary.
7. Balances of the sundry debtors, sundry creditors, loans and advances etc. are subject to confirmation and reconciliation.
8. The company has not received any information from any of the suppliers of their being a Small Scale Industrial Unit. Hence the amounts due to Small Scale Industrial Unit as on 31st March 2011 are not ascertainable.
