OPERATIONS

COMPANY PERFORMANCE

The Company's performance has been discussed in detail in the "Management Discussion and Analysis" section.

With a poor GDP growth of sub 5% on an all India basis and with industrial activity taking a beating, the performance of the core industries was severely affected during the period under review with cement being no exception.

According to the information published by Department of Industrial Policy and Promotion (DIPP), the industry had registered practically flat growth during the year under review against an estimated growth of 5% in the previous year. Given such a back drop, the performance of the Company can be considered to be satisfactory as it could maintain the overall sales at 100.37 lakh tons including clinker as compared to 100.55 lakh tons in the previous year. The total sales and other income for the year was at Rs.4529.84 crores as compared to Rs.4615.67 crores in the previous year. With huge supply overhang particularly in the South, the selling price of cement went down substantially from the second quarter resulting in a top line erosion which reflected on the bottom line. The cost of production was impacted with increase in the price of Gypsum, Fuel, depreciation of rupee, higher transport charges resulting in a lower EBIDTA of Rs.594.20 crores as compared to Rs.841.95 crores in the previous year. Finance cost including forex loss was higher at Rs.353.65 crores (Rs.307.75 crores) while depreciation charges were lower at Rs.276.39 crores as compared to Rs.281.84 crores in the previous year. There were also exceptional items relating to provision for Fuel Surcharge Adjustment claims of Andhra Pradesh DISCOMS and right of recompense to lenders together amounting for Rs.126.56 crores and resultant loss was at Rs.162.40 crores for the year as compared to a profit before tax of Rs.252.36 crores in the previous year. The year also witnessed the annual bout of cost increases in wages due to settlement and cost of living index, monthly dosage of increase in the prices of petroleum products, impact of power tariff increase by electricity boards of Tamil Nadu and Andhra Pradesh during the year and huge

depreciation of rupee against dollar. However, the impact was mitigated to certain extent with the fuller availability of power from power plant in Tamil Nadu and the commissioning of the power plant in Andhra Pradesh.

SHIPPING

During the year the performance of the division can be considered to be satisfactory with deployment of the three vessels which had done 54 voyages in total in the coastal trade and tramping. The total earnings of the division for the year was at Rs.67.72 crores as compared to Rs.58.57 crores in the previous year. In March 2014, the vessel "MV Chennai Perrumai" was sold for a consideration of approximately \$ 2.486 Million for scraping since it had served its economic life.

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW OF THE ECONOMY

Belying all hopes for recovery during 2013-14, Indian economy remained weak with persisting slowdown and disturbing macro-economic indicators, such as inflationary pressure, escalating costs, high lending rates, high fiscal deficit, low investments and adverse currency movement.

The unprecedented free fall in Rupee was however arrested during the second quarter of the fiscal and its value had more or less stabilised now. With contraction in non-oil imports and pick up in merchandise exports, Forex reserves rose to \$304.2 Billion at the end of March, 2014. But, the country faced uncertainty over policy direction and business confidence continued to take a beating.

According to official estimates, GDP growth for the second year in succession tumbled below 5% to 4.7% during 2013-14. The growth was weighed down by a multi-year low industrial growth of 0.4% while healthy agricultural performance was the only bright spot.

INDUSTRIAL OUTPUT

Following excess rainfall last year, the agricultural sector had shown improvement and clocked a growth rate of 4.7% against mere 1.4% in the previous year. The growth in the services sector remained almost same at 6.8% against 7% in the previous year, but the industrial sector was hit by the worst ever stagnation in the last two decades. Industrial recovery was still far off with the contraction in manufacturing activity and with the eight core industries including coal, crude oil, petroleum products, natural gas, fertiliser, cement, steel and electricity (having a combined weight of 38% in Index of industrial production) recorded a growth of 2.6%. Industrial output contracted by 0.1% during 2013-14 against a marginal growth of 1.1% in the previous year. The manufacturing sector shrank 0.8% during the year under review against a marginal 1.3% growth in 2012-13.

EXPORTS / IMPORTS

During 2013-14, exports grew 4.1% in US Dollar terms to \$312.6 Billion from \$300.4 Billion in 2012-13. During the year under review, imports declined by 8.3% in US Dollar terms to \$450.1 Billion against \$490.73 Billion. Due to stringent curbs on non-oil imports like Gold, Silver and luxury items, the trade deficit was curtailed to \$137.5 Billion against a staggering \$190.3 Billion in the previous year.

The narrowing down of Trade deficit helped the country to contain the burgeoning current account deficit to 1.7% of GDP in 2013-14 from a record 4.7% in the previous year.

INFLATION

During the year under review, the headline inflation measured by Wholesale Price Index slightly moderated to 6% as compared to 7.4% in the previous year, while retail inflation measured by Consumer Price Index (CPI) declined to 9.5% from 10.2%.

Continuing the moderation this year, WPI eased to 2.38% in September, 2014 on the back of decline in food and fuel prices. Similarly, CPI had fallen to 6.46% in September, 2014.

FISCAL DEFICIT

The fiscal deficit of the Centre stood at 4.5% of GDP in 2013-14, a tad lower than the interim Budget estimate of 4.6% mainly aided by reduction in expenditure rather than realisation of higher revenue. Revenue deficit stood at 3.3%, reflecting the fiscal strain in the economy. In the current year, softening in global commodity prices and the fall in Brent crude prices are expected to ease the subsidy burden and help the Government to contain fiscal deficit to 4.1% of GDP in the current fiscal.

CEMENT INDUSTRY

The lower growth in cement consumption continued to affect the prospects of the industry in general and the units in South in particular. While the industry presently has a capacity of over 350 million tonnes (which is the second largest capacity in the world next to China), the Southern India accounts for more than 35% of the same resulting in huge capacity overhang in the South. With the result, while the average capacity utilisation of the whole of India was around 71%, the average capacity utilisation in the South is estimated to have been far lesser. As per the official statistics published by Department of Industrial Policy and Promotion (DIPP), the industry stagnated with no growth during the year under review against an estimated growth of 5.6% in the previous year. This low growth coupled with capacity pressure resulted in the cement prices heading South during most part of the year leading to a sub-optimal performance by the industry.

With the increase in lending rates and slowdown in the realty sector and with practically nil government spending on infrastructure projects, the demand for cement remained sluggish throughout the year. This was compounded by the non-availability of sand and restrictions on sand mining in various states. Overload restrictions on outward movement of cement / inward movement of raw materials imposed by government authorities resulted in increase in freight rates for outward movement of cement and increase in cost of input materials.

With the steep depreciation in the value of the Rupee pushing up the prices of imported raw materials and fuel and with steep and frequent escalations in the price of diesel pushing up cost of inward and outward transportation profit margins were further squeezed. The prices of critical input materials like fly ash was also revised upwards substantially by the state-owned thermal power stations, adding to the woes of the industry. The power situation continued to be grim during the early part of the year forcing the Company to outsource costlier power to meet energy requirements and thereby pushed up cost of production. The situation however improved during the latter half of the year following adequate monsoon.

The industry had to operate in such a challenging environment with reduced capacity utilisation, lower realisation and higher operating cost during the year under review.

COMPANY PERFORMANCE

The production and sale of cement for the year under review was as under:-

	In Lakh Ts	
	2013-14	2012-13
Clinker	78.14	76.73
Cement	98.03	99.40
Cement Sales	97.93	99.26
Clinker Sales	2.44	1.29
Total including Clinker Sales	100.37	100.55

Despite the constraints caused by the low demand, lower prices and lower operating margin resulting in lower cash flow, the Company could maintain the capacity utilisation as that of previous year. Production and sale of cement was range bound as a result of nil growth, limited domestic demand and the supply overhang. While the Tamil Nadu Plants could achieve a capacity utilisation of 74% during the year, with a lower demand-supply imbalance in Tamil Nadu and Kerala, the Andhra Pradesh plants which face a huge supply overhang could manage a capacity utilisation of 68% only despite cement being supplied to far off markets in Eastern India suffering higher transportation costs and

consequent lower margins. The Company could achieve a clinker export of 2.28 Lakh Ts and cement of 0.72 Lakh Ts during the year under review thereby increasing its overall capacity utilisation and revenues.

On the operating side, the parameters of power and fuel consumption were kept under check which was however varying between plants depending upon its capacity utilisation.

The new 48 MW power plant at Vishnupuram was commissioned during the year and this came in handy for reducing the overall cost of power with lesser off-take of higher cost open access power. The power plant at Sankarnagar also stabilised at higher levels of operation yielding further economies. The performance of the Chilamakur Cement Plant also further improved and was up to its enhanced rated capacity during the year.

On the sales front, while the tonnages could be maintained as that of previous year, the softening of prices from the second quarter resulted in top line erosion which resulted in the Net Plant Realisation (NPR) going down when compared with the previous year and this is the main factor for the drop in the profitability during the year under review. The Company also had to move outside its traditional normal marketing markets to far off places and helped to enhance capacity utilisation and improve overall profitability as did clinker and cement exports.

In order to comply with the revised pollution control norms, many of the ESPs at the plants are being replaced with bag filters to reduce the stack emission and during the year such conversions have taken place at Chilamakur and Yerraguntla and being carried out at Malkapur unit.

COST REDUCTION MEASURES

On the power front, the Company could achieve further savings with improved utilisation of the power plant at Sankarnagar which generated 268.7 Million units as against 150.8 Million units in the previous year which was consumed by your plants in Tamil Nadu. The Power plant at Vishnupuram, Andhra Pradesh was also commissioned during the year under review and after its initial teething troubles has settled down from the month of January 2014 resulting in a generation of 74 Million units of power during the year under review, thereby reducing the dependence on high cost purchased power in the power starved State. The Company also availed power at lower cost from APGPCL but supplies were affected due to lower availability of gas to that company.

The Company continuously evaluates its option of using indigenous and imported coal based on quality and price and during the year changes were effected in sources of supply to reduce cost of fuel effecting savings in cost per calorie. Presently the Company draws about 25% of coal from indigenous sources. The Company also used petcoke as an alternate fuel at two of its plants based on cost economies which also significantly contributed in maintaining the cost of fuel.

Much headway could not be achieved in the operating parameters of power and fuel consumption due to the capacity utilisation hovering around 70% due to poor demand in the market. However, significant economies achieved in one or two plants on specific power consumption and the Company also benefited from the much improved output to its rated capacity at the Chilamakur Plant despite operating for lesser number of days. The Company has been gradually improving its blended cement proportion thereby the conversion ratio, which was maintained more or less as that of previous year. The Company has also introduced a Voluntary Retirement Scheme during the year for its managerial staff in order to bring down the overall cost of manpower.

RENEWABLE ENERGY AND CLEAN DEVELOPMENT MECHANISM (CDM)

The Company has generated 508 Lakh units of power from the Waste Heat Recovery System at Vishnupuram, which was consumed by that unit. The Company's wind mills contributed a quantum of 251.48 Lakh units of power only (previous year 327.48 Lakh units) due to problems in evacuation of power caused by restricted grid availability for wind power evacuation.

OPPORTUNITIES, THREATS, RISKS AND CONCERNS

The biggest challenge facing the country and thereby the industry is the very poor economic growth, which has further decelerated during the year under review. This has resulted in a longer downturn in the cement cycle than usual, adding to the woes of the industry. However, the recent projections by experts indicating a revival of growth of over 5% given the strong economic fundamentals of the country, give some hope for the industry to expect a pick-up in demand. However, with a new Central Government in place, having been voted in with a clear mandate, based on a growth agenda on the "Gujarat Model", we could expect the government to quickly push through policies to invigorate the Indian economy, being unfettered by coalition politics. The new governments in Telangana and Andhra Pradesh are expected to revive economic growth in the region with substantial Central Government investments slated in both the States as part of the partition package, which should spur infrastructure spending and consequently cement demand. The indications of lower fiscal deficits also point to a situation of softening of interest rates which may augur well for the growth of the industry.

The second major challenge facing the industry is the massive capacity second only to China and the very low capacity utilisation. Over the last 5 years the capacity addition has been over 125 million tonnes much ahead of increase in demand resulting in idle capacities. With around 350 million tonnes of capacity and 250 million tonnes of consumption during the year under review, the industry's overall capacity utilisation has been only 70% much below the remunerative levels of utilisation. However, based on the 12th Five Year Plan, substantial investments have been targeted in infrastructure sector which if addressed by the new Government will translate into improved performance in the construction industry and in cement industry in particular. With no major expansion plans in the anvil and with the capacity creation tapering down in the last two years, it is expected that any reasonable increase in cement consumption will lead to better capacity utilisation in the coming years.

The availability of key input materials for the industry like indigenous coal, gypsum are also of concern with substantial increase in prices and deterioration in quality. However, the Company resorts to cost effective imports to overcome this problem at present. The Company has also taken steps to mitigate these risks through usage of alternate fuels like Petcoke. During the year under review, the Company moved its first shipment of coal from its captive mines in Indonesia. The Company continually evaluates the types of fuel and their indigenous and imported sources of supply in its endeavour to achieve an optimum and effective mix both in terms of quality and cost. The Company is also constantly on the lookout for other alternate cheaper fuels but the availability of the same is very limited within the vicinity of the plants. Since the last two years there has been substantial hike in the service charges for supply of fly ash by the thermal power plants in various States imposing additional costs to the Company. Availability of fly ash has also been a constraint from time to time during breakdowns of State run thermal plants. However, with the setting up of new thermal power plants both in the public and private sector and their expansion / stabilisation, availability of fly ash is expected to be surplus over the next two or three years which could considerably ease the cost of fly ash and ensure its adequate availability.

Electrical energy, which is the second component of energy costs, continues to be in short supply both in Tamil Nadu and Andhra Pradesh during the year under review necessitating purchase of costlier power from private parties through the power exchange to meet the requirements of the Company for its Andhra Pradesh plants in particular. While power continues to be in short supply in several States including Tamil Nadu and Andhra Pradesh, the Company has majorly addressed this problem by: -

- a) Setting up 48 mw power plant at Sankarnagar & Vishnupuram
- b) Drawing power from its subsidiary Coromandel Electric Company Limited
- c) Availing wind power from its wind mills.

Hence going forward the need to buy expensive power is not anticipated.

Logistics cost is another area of concern for the industry with the distribution costs accounting for a big chunk of the total expenses. The ever increasing prices of petroleum products with dosages of monthly increases resulted in frequent revision in rates of freights for inward and

outward movement of materials and this was further compounded by the overload restrictions imposed by the relevant authorities in Tamil Nadu, which resulted in further hike in freight rates. With the steep hike in railway freight during the last two years, the alternative mode of transport by rail also became expensive and the Company judiciously employs different modes of transport based on their respective costs to and from its plants. The policies of the new Government on pricing of petroleum products and railway freight are awaited.

OUTLOOK

Leading Global markets are facing unbalanced growth prospects. It is only the US that is showing strong growth. Euro zone is still crisis-ridden. After consistently clocking double digit growth for a number of years, China is struggling with slowdown with IMF expecting the economy to grow at 7.4% in 2014 against 7.7% in 2013.

For Indian Economy, the worst phase of sub five per cent GDP growth seems to be over. In the first quarter of Financial year 2015, GDP grew 5.7%. IMF has raised its growth projection to 5.6% in 2014-15 from 5.4% earlier. World Bank also expects economy to expand at 5.6% this year, followed by a further acceleration to 6.4% in 2015-2016. RBI also expects 5.5% growth this year and 6% next year.

The prospects for the cement industry appear to have significantly brightened since the close of the year. With a stable Central Government having been voted to power with a comfortable majority and with new Governments having assumed office in Andhra Pradesh and Telangana, we could expect policy impetus and vibrant economic activity, which could augur well for cement demand. This is particularly so in AP and Telangana where one can expect enhanced infrastructural spending including on the building of a State Capital in AP. Improvement in macro-economic conditions, recovery in growth and the positive outlook for infrastructure and construction industry augur well for the cement industry in the medium term.

VALUE ENHANCING STRATEGIES

With the creation of capacity ahead of demand, the Company is well poised for taking part in any upswing in the market for cement demand with a latent capacity of 30% on hand.

To ensure adequate availability of electrical energy and to control the cost thereof, the Company has been constantly improving the captive energy sources as earlier detailed. The total capacity thus created of around 125 MW will take care of most of the energy needs of the Company.

As earlier reported, the Company has also acquired mining rights in Indonesia as part of energy security. One shipload of coal was moved during the year under review to meet the requirements of the power. This will ensure sufficient coal availability for the power plants and with proper blending this coal could service the needs of cement plants also.

The Company has also got 2 ships (capacity 90508 Ts) in its fold to cover against the risk of volatility in international freight rates of coal and other imported raw materials.

As earlier mentioned, the Company has also pruned down the overall manpower leading to increase in productivity. The Company has also introduced a voluntary separation scheme for the management staff during the year.

The Company is also constantly exploring the residual markets of East, West, North to improve the capacity utilisation with reasonable contribution to improve the bottom line. The Company is also resorting to exports of clinker and cement to enhance capacity utilisation and earnings.

With no major capacity addition in pipeline, the Company is considering its options to expand its capacity further either at an existing location or in North or Central India for which it is pursuing mining leases. This would enable the Company to enhance its participation in the next boom cycle of the industry.

The Company constantly endeavours to enhance the quality of its product and resorts to supply of premium quality products in certain highly competitive but remunerative markets. It plans to introduce premium quality Pozzolona cement from one of its factories to further enhance its production of blended cements to reduce cost as a strategy to penetrate traditional OPC markets.

The Company plans to install a new Roll Press with a closed circuit mill for cement grinding at its Sankarnagar plant in place of the old existing cement mills in order to reduce the power cost and enhance quality of production.

COMPETITION COMMISSION

On a complaint filed by the Builders' Association of India against 11 Cement Manufacturers in India including your Company alleging cartelization and abuse of dominance, the Office of the Director General of the Competition Commission was ordered to investigate into the matter. Based on the investigation by Director General, an Order imposing a penalty of Rs.187.48 Crores equal to 0.5 times of the profit from 20th May 2009 to 31st March 2011 was served on us. We, besides the other cement companies filed appeals before the Competition Appellate Tribunal challenging the said Order on various grounds and the Hon'ble Competition Commission Appellate Tribunal after elaborate hearing has reserved its orders. On the basis of the arguments of senior advocates and as per their considered views we are confident that the said Order would be set aside by the Hon'ble Tribunal. The orders in the appeal are awaited still. In the meantime there is an interim Order passed against the commission directing them not to initiate any coercive steps for the recovery of the penalty which has been extended periodically and is still in force. The management backed by legal opinion from learned Senior Counsels' strength believes that the Company has a good case on merits to succeed and hence no provision has been made in the books of accounts but the amount of penalty is shown as a contingent liability.

HUMAN RESOURCES & INDUSTRIAL RELATIONS

The industrial relations remained cordial throughout the year at all the units. Training and multi task development skills are given prime importance. The overall number of employees in the rolls of the Company at the end of the year under review was 2901 (3103).

INTERNAL CONTROL SYSTEMS & THEIR ADEQUACY

Your Company has a well-defined internal control system to support efficient business operations and statutory compliance. External auditors carry out concurrent audit of all the plants and offices which adds to the stability of the internal control systems. Suitable internal checks have been built in to cover all monetary transactions with proper delineation of authority, which provides for checks and balances at every stage. The Company has a strong system of budgetary control which covers all aspects of operations, finance, capital expenditure at a macro level on a monthly basis reporting directly to top management. All the physical performances and efficiency parameters are monitored on a daily basis and actions are taken then and there. The Company has an Audit Committee of Directors to review financial statements to shareholders. The role and terms of reference of the Audit Committee cover the areas mentioned under Clause 49 of the Listing Agreement with Stock exchanges and Section 292A of the Companies Act, 1956 besides other terms as may be referred to by the Board of Directors from time to time.

The net sales and income from operations was lower on account of the fall in cement price during the year as explained elsewhere. The total expenditure was up by 4% mainly on account of the increase in the cost of inputs, increase in price of petroleum products and on account of rupee depreciation. Finance costs had gone up on account of fuller utilisation of cash credit and availing of loans for operations and also due to charges on account of foreign exchange fluctuation to the tune of Rs.46 crores during the year as compared to Rs.26 crores in the previous year. Depreciation was marginally lower than that of previous year. There were exceptional items on account of fuel surcharge adjustment of AP TRANSCO Rs.69 crores and right of recompense to lenders around Rs.57 crores resulting in a net loss of Rs.162 crores as compared to Rs.163 crores profit in the previous year.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

INTRODUCTION

During the year 2013-14, all the Plants together carried out about 100 different activities and these activities reached nearly two and half lakhs of beneficiaries in 167 villages in and around our plants. Presented below are highlights of some of the activities.

ENRICHING LIVELIHOODS

Livelihood training programmes

As in the last year, this year the focus was on improving the livelihood activities in the villages. Several plants like Trinetra Cement, Chilamakur, Yerraguntla, Parli Grinding Unit, Sankari, Sankarnagar, Dalavoi and Chennai Grinding Unit (CGU) have very successfully organised tailoring training for women. Totally about 400 women have been trained and each of them is able to earn a minimum of Rs.1000 a month with a majority of them earning about Rs.4000 to 5000 a month. Some of these plants also distributed sewing machines to very needy women like widows. The women were selected through a rigorous process of beneficiary identification.

The Parli Grinding Unit (PGU) organised a special training for 90 women from Below Poverty Line (BPL) families in making pickles, spices and candles. These women are now earning about Rs.1000 a month as additional income for the family.

The Dalavoi and Vishnupuram plants organised training in driving for young men and enabled them to obtain valid licenses.

Farm related activities

Many of the plants also organised veterinary camps as this initiative is highly appreciated by the local farmers. Such camps save considerable amount of time and money for the farmers by providing veterinary care in the villages where the farmers live.

A new initiative this year was to organise a Farmers' Seminar by the PGU in Parli town. The experts from the Agriculture Department discussed various issues relating to increase in crop production, protection of crops from natural disasters and so on.

WORKING FOR THE CAUSE OF EDUCATION

In this year the CSR programmes covered nearly 300 Government run schools in the 167 CSR target villages. Nearly one third of the annual budget was spent on these activities.

The major activities included improving the infrastructure of the schools. Thus, we have provided compound wall, class rooms, auditorium, library, sports equipments and toilets - especially for girl students and such other facilities.

The other major set of activity was to improve the quality of education. Towards this goal, we have provided computers, library books, organised summer camps, special coaching classes, Career Guidance Programme, motivating students for passing and scoring high marks in school final examinations and so on. In addition we have sponsored poor students for higher education. For instance the Parli Grinding Unit has been sponsoring students for a nursing course. The Vishnupuram Plant sponsors girls for paramedical courses.

The Trinetra Plant organised for the first time in the area, an Inter school competition and distribution of scholarship to brilliant students of nearby schools in the presence of Administrative Officials. Totally 900 students of 15 schools participated. Such competitions are a recurring event in the PGU where children from nearly 15 villages participate every year.

The CGU is continuing to successfully offer an ABACUS training classes for Govt (ADW) High schools. In this program, 150 students were effectively trained for ABACUS skills. It was really motivating to know from the School Headmasters that the students who had undergone this training are showing good improvement in their logical skills.

Motivational Camps for 10th and 12th standard students have been organised by Sankari, Dalavoi and few other plants. These camps have helped the students to gain self confidence, face the examination boldly and consequently the percentage of students passing has increased.

INFRASTRUCTURE

Several infrastructural facilities in the community have been provided by us. Augmenting water supply has been a constant effort in our activities. Out of the many such activities, the effort by Yerraguntla plant stands out.

In the Kadirevaripalli Village near Yerraguntla plant a drinking water facility was recently inaugurated as the village does not have any source of clean water. A site measuring around 2.00 cents was donated by one of our retired employee Mr. K. Lokanatha Reddy, who hails from that village, for installing the water plant. The Water plant is located between SC colony and main village as decided by village elders; thus it is accessible to all the people. As a part of RO plant installation, the plant has dug a bore and provided motor, constructed a room with RCC slab to house the RO plant. After inauguration of the plant, the plant has also provided 100 water cans of 20 litre capacity each to the poor among the village people, as per their request. The village panchayat is collecting Re.1/- per can from the users, to meet the monthly maintenance expenses.

HEALTH CAMPS

The Sankari Plant organised an Eye and Dental camp for Government School students. This program was an eye opener for the poor children. Many students were diagnosed with dental defects. By arranging this program early diagnosis was possible.

Many plants also organised general health camps and nearly 25,000 persons have benefitted from these camps. In addition special camps were held for seniors who needed cataract surgery.

OTHER ACTIVITIES

The Trinetra Plant contributed to the Program "Mahi Mahotsav" which was organized on 1st February, 2014 and 2nd February, 2014 to promote tourism and local folk art of tribes in Banswara District. This programme was conducted by district administration and tourism department with the help of local industrialist and NGOs. In this 2-day celebration many events like water sports, rangoli, group dance, Folk dance, etc. were organized.

On request of the Police Department, Kadapa, the Chilamakur Plant constructed and donated Police Sub Control Room for Police picket in the centre of Chilamakur Village for the benefit of public. With this, Police Dept, has established a Mini police station like and being provided their services round the clock to the public and it minimizes the distance between the Police and public.

INDEPENDENT AUDITORS' REPORT

To

The Members of The India Cements Limited

1. Report on the Financial Statements

- a. We have audited the accompanying financial statements of The India Cements Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014 and the Statement of Profit and Loss and Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.
- b. The original financial statements of the Company for the year ending 31st March 2014 were approved by the Board of Directors at its meeting held on 26th May 2014 and we have issued our audit report in terms of clause 41 of the listing agreement on those financial statements.

The audited financial statements for the financial year ending 31st March 2014 have been published in terms of listing agreement. Further the Company was in the process of seeking Regulatory Approvals for Scheme of Amalgamation for merging two of its subsidiaries with itself and an arrangement for withdrawing a sum of Rs.126.56 Crores from the General Reserve to adjust certain non-recurring items of exceptional expenditure that were debited to the P & L for the year ended March 31, 2014. The Company sought the consent of stock exchanges for said scheme. The Stock Exchange directed the Company to withdraw the portion relating to withdrawing from General Reserve to meet exceptional items of expenditure. In view of the reservations expressed by the stock exchanges against the arrangement as stated above a modified scheme has been filed before the High Court of Madras. As the adjustment of charging of expenditure against the reserves explained above stands withdrawn, the Audit Committee in its meeting held on 12th November 2014 recommended to the Board of Directors to modify the audited financial statements for the year ending 31st March 2014 (which were originally approved by the Board of Directors on 26th May 2014 and our report of even date issued in terms of clause 41 of listing agreement was qualified in this regard) and the Board of Directors in its meeting held on 12th November 2014 approved the modified financial statements for the year ending 31st March 2014.

In view of the aforesaid decision of the management vide their communication dated 12th November 2014 in accordance with the provisions of Standard on Auditing (SA) 560 on subsequent events issued by Institute of Chartered Accountants of India we are issuing this report on the modified financial statements.

2. Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956 ("the Act") read with general circular 15/2013 dated 13th September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditors' Responsibility

- a. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

- b. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
- c. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

4. Opinion

In our opinion and to the best of our information and according to the explanations given to us the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a. in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- b. in the case of the Statement of Profit and Loss, of the Loss for the year ended on that date; and
- c. in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

5. Emphasis of Matter

CCI in its interim order dated 17th May, 2013 directed the Company to pay 10% of the imposed penalty. The Company is advised by legal experts that it has good case before appellate tribunal and accordingly no provision has been considered necessary by the Company in this regard. Our opinion is not qualified in respect of this matter.
- b) The Shareholders of the Company approved the remuneration paid/payable to its Directors. Owing to the inadequate profits for the current year, as computed under Section 349 of the Companies Act, 1956, the managerial remuneration paid / payable has exceeded the limits specified under Section 198 read with Section 309 of the Companies Act, 1956 by Rs.683.81 lacs. The Company is in the process of obtaining requisite approvals from the Central Government. Our opinion is not qualified in respect of this matter.

6. Report on Other Legal and Regulatory Requirements

- a) As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- b) As required by Section 227(3) of the Act, we report that:

INDEPENDENT AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

To

**The Board of Directors
The India Cements Limited**

1. Report on the Consolidated Financial Statements

a) We have audited the accompanying consolidated financial statements of The India Cements Limited ("the Company"), its subsidiaries and associates (collectively referred to as "the Group") which comprise the Consolidated Balance Sheet as at 31st March 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

b) The original consolidated financial statements of the Company for the year ending 31st March 2014 were approved by the Board of Directors at its meeting held on 26th May 2014 and we have issued our audit report in terms of clause 41 of the listing agreement on those financial statements.

The audited consolidated financial statements for the financial year ending 31st March 2014 have been published in terms of listing agreement. Further the Company was in the process of seeking Regulatory Approvals for Scheme of Amalgamation for merging two of its subsidiaries with itself and an arrangement for withdrawing a sum of Rs.126.56 Crores from the General Reserve to adjust certain non-recurring items of exceptional expenditure that were debited to the P & L for the year ended March 31, 2014. The Company sought the consent of stock exchanges for said scheme. The Stock Exchange directed the Company to withdraw the portion relating to withdrawing from General Reserve to meet exceptional items of expenditure. In view of the reservations expressed by the stock exchanges against the arrangement as stated above a modified scheme has been filed before the High Court of Madras. As the adjustment of charging of expenditure against the reserves explained above stands withdrawn, the Audit Committee in its meeting held on 12th November 2014 recommended to the Board of Directors to modify the audited consolidated financial statements for the year ending 31st March 2014 (which were originally approved by the Board of Directors on 26th May 2014 and our report of even date issued in terms of clause 41 of listing agreement was qualified in this regard) and the Board of Directors in its meeting held on 12th November 2014 approved the modified consolidated financial statements for the year ending 31st March 2014.

In view of the aforesaid decision of the management vide their communication dated 12th November 2014 in accordance with the provisions of Standard on Auditing (SA) 560 on subsequent events issued by Institute of Chartered Accountants of India we are issuing this report on the modified consolidated financial statements.

2. Management's Responsibility for the Consolidated Financial Statements

This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditors' Responsibility

We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

b. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

c. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

5. Emphasis of Matter

- a. We draw attention to note no.33.3(a) of the consolidated financial statements, which describes the uncertainty related to the outcome of the appeal filed by the Company against the order of the Competition Commission of India (CCI), before the Competition Appellate Tribunal concerning the alleged contravention of provisions of Competition Act, 2002 imposing a penalty on the Company amounting to Rs.187.48 crores. CCI in its interim order dated 17th May, 2013 directed the Company to pay 10% of the imposed penalty. The Company is advised by legal experts that it has good case before appellate tribunal and accordingly no provision has been considered necessary by the Company in this regard. Our opinion is not qualified in respect of this matter.
- b. The Shareholders of the Company approved the remuneration paid / payable to its Directors. Owing to the inadequate profits for the current year, as computed under Section 349 of the Companies Act, 1956, the managerial remuneration paid / payable has exceeded the limits specified under Section 198 read with Section 309 of the Companies Act, 1956 by Rs.683.81 lacs. The Company is in the process of obtaining requisite approvals from the Central Government. Our opinion is not qualified in respect of this matter.
