THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

(i) The voting period begins on Sunday, December 26, 2021 at 9:00 am and ends on Tuesday, December 28, 2021 at 5: 00 pm. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Wednesday, December 22, 2021 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

(ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

(iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

(iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. MANAGEMENT DISCUSSION AND ANALYSIS

Statements in this Report, particularly those which relate to the Company's objectives, projections, estimates and expectations may constitute forward looking statements within the meaning of applicable laws and regulations. Actual results might differ materially from those either expressed or implied.

A. Industry structure and developments

Considering the plastic industry, in India, high-density polyethylene (HDPE), low-density polyethylene (LDPE), linear low-density polyethylene (LLDPE), polypropylene (PP) and poly vinyl chloride (PVC) are widely used polymers. This segment of polymers is maintained at the same level. More than 50% of LDPE/ LLDPE are used by the packaging industry. The second most used polymer in India is HDPE. The value of its domestic consumption is growing at expected level due to increase in all round of usage of plastics. HDPE is used in the manufacturing of raffia, blow molding, injection molding, and in the paper industry as well. The majority of manufacturing capacities are owned by the big industrial houses.

B. Opportunities and Threats, Risks and Concerns

Plastic industry is making significant contribution to the economic development and growth of various key sectors in the country namely: Automotive, Agriculture, Construction, Electronics, Healthcare, Textiles, FMCG, etc.

Due to volatile prices fluctuation of oil coupled with absence of clear governmental policies on various sector, the capital inflow from the foreign countries have been slowed down. The Indian economy is also passing through its tough time with lower GDP, depreciation in rupee value and all-round increase in cost. The plastic industry in particular with environment issue, and likely adverse effects from use of recycled hazardous sub grade raw materials has also witnessed recessionary trend. However, considering the size of Indian economy the plastic industry has good potential. The industry will do better with good market conditions and stable oil prices.

With more concentration on the specialty grades quality products which are more eco-friendly plastic products and moving away from the type of commodity made cheaply will have more scope to survive in the long run considering the environmental issues attached with the Plastic Industry. With the quality consciousness, India can regain its position in the international market.

The main threat is from the unorganized sector comprising low grade plastic goods manufacturers and from non eco-friendly manufacturing units. This may lead to quality problems in the international market and downgrading of Indian manufacturers image. Secondly, due to its basic nature and use of low grade of plastic which is not eco-friendly, there has always been a threat of substitution of plastic as basic material with other metal or alternate material. These are the key risk factors which the Plastic Industry has to tackle in future.

The Company is in negotiation with various oversea vendors for import of best quality raw material. Further 2 years down the line, the Company plans either on its joint venture to establish a tarpaulin manufacturing plant with capacity of 300 to 400 mt per month near Ahmedabad and the Company is already in negotiation with the concerned business associates.

C. Internal control systems and their adequacy

The Company is in process of designing and putting in place various internal control

Aadi Industries Limited

systems for all the key departments. Further Internal Audit systems will also be placed and proposed to be carried out to check the implementation and working of the Internal Systems.

D. Social Responsibility

The company is conscious of its obligations towards Health, Safety & Environment to meet the norms of Pollution Control Board.

E. Cautionary Statement

Statement in the management discussion & analysis describing the Company's objectives, projections, estimates & exceptions may be "forward looking statements" within the meaning of applicable securities laws & regulations. Actual results could differ materially from those expressed or implied. Important factors that could make difference to the company's operations include economic conditions affecting demand/supply and price conditions in the domestic & overseas markets in which the company operates changes in the Government regulations, tax laws & other statutes & other incidental factors.

F. Future Outlook

The trading in equity shares of the Company was suspended w.e.f. 5th September, 2017 due to non-compliance with Regulation 34 of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 for two consecutive years i.e. March 2015 & March 2016. The Company would like to inform its members that BSE Limited has issued the notice dated September 8, 2021 for resumption of trading. It would also like to inform its members that the suspension in trading of equity shares of Aadi Industries Limited has been revoked w.e.f. September 15, 2021. The Company has also submitted disclosures as required under SEBI (Prohibition of Insider Trading) Regulation, 1992 and SEBI (Substantial Acquisition of Shares and Takeover) Regulation, 2011.

G. Industrial Relations

During the year under review, your Company had cordial and harmonious industrial relations at all levels of the organization.

H. Forward looking and cautionary statements

Statements in the Management Discussion and Analysis Report detailing the Company's objectives, projections, estimates, expectations or predictions may be forward looking statements within the meaning of applicable laws and regulations. These statements being based on certain assumptions and expectation of future events, actual results could differ materially from those expressed or implied. Independent Auditor's Report on the Quarterly and Year to Date Audited Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

**To,
The Board of Directors of
Aadi Industries Limited**

Report on the audit of the Financial Results

Opinion

We have audited the accompanying statement of quarterly and year to date financial results of Aadi Industries Limited (the 'Company') for the quarter ended 31st March, 2021 and for year ended 31st March, 2021, attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, these financial results:

- i. are presented in accordance with the requirements of Regulation 33 of the Listing Regulations in this regard; and
- ii. gives a true and fair view in conformity with the applicable accounting standards and other accounting principles generally accepted in India, of the net loss and other comprehensive income and other financial information of the Company for the quarter ended 31st March, 2021 and for the year ended 31st March, 2021.

Basis for Opinion

We conducted our audit of financial results in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Results" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial results under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial results.

Management's Responsibilities for the Financial Results

These quarterly financial results as well as the year to date financial results have been prepared on the basis of interim financial statements. The Board of Directors of the Company are responsible for the preparation and presentation of these financial results that gives a true and fair view of the net profit and other comprehensive income of the Company and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standards 34, 'Interim Financial Reporting' prescribed under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial results, Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Result

Our objectives are to obtain reasonable assurance about whether the financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial results.

As a part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Board of Directors.

- iv. Conclude on the appropriateness of Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards

Other Matters

Due to complete lockdown, imposed by the government, to restrict the spread of COVID 19, the audit finalisation process, for the year under report, was carried out from remote locations i.e. other than the office of the Company, based on the data/details made available and based on financial information/ records remitted by the management through digital medium. Our report is not modified in respect of this matter.

The Statement includes the results for the Quarter ended 31st March, 2021 being the balancing figure between the audited figures in respect of the full financial year ended 31st March, 2021 and the published unaudited year-to-date figures up to the third quarter of the current financial year, which were subjected to a limited review by us, as required under the Listing Regulations.

2 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the Significant Accounting Policies adopted in the preparation of these Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 BASIS FOR PREPARATION OF ACCOUNTS

a) Statement of Compliance with Ind AS

These financial statements are the separate financial statements of the Company (also called standalone financial statements) prepared in accordance with Indian Accounting Standards ('Ind AS') notified under section 133 of the Companies Act 2013, read together with the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

b) Current versus Non-Current classification

All assets and liabilities have been classified as Current or Non Current as per the Company's normal operation cycle i.e. twelve months and other criteria set out in the Schedule III of the Act.

c) Historical Cost Convention

The financial statements are prepared on accrual basis of accounting under historical cost convention in accordance with Generally Accepted Accounting Principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for the following:

- Certain financial assets and liabilities that are measured at fair value
- Defined benefit plans - plan assets measured at fair value

2.2 USE OF ESTIMATES

In preparation of the financial statements, the Company makes judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Significant judgements and estimates relating to the carrying values of assets and liabilities include useful lives of property, plant and equipment and intangible assets, impairment of property, plant and equipment, intangible assets and investments, impairment of trade receivables, provision for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies.

2.3 REVENUE RECOGNITION

a) Sale of Goods

Revenue from the sale of goods is recognised when property in the goods, or all significant risks and rewards of ownership of the goods have been transferred to the buyer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods as well as its collection. Revenue from the sale of goods is measured at the fair value of the consideration received

b) Rendering of services

Revenue of services are recognized when the services are rendered.

c) Dividend

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

d) Interest Income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable.

2.4 FOREIGN CURRENCY TRANSACTIONS

a) Functional and Presentation Currency

The financial statements are presented in Indian Rupee (INR), which is company's functional and presentation currency.

b) Initial Recognition

Transactions in foreign currencies are recorded at the exchange rate prevailing on the dates of the transactions. Exchange difference arising on foreign exchange transaction settled during the year are recognized in the Statement of profit and loss of the year.

c) Measurement of foreign currency items at the Balance sheet date

Monetary assets and liabilities denominated in foreign currencies are re-translated into functional currency at the exchange rate prevailing at the end of the reporting period. Non monetary assets and liabilities that are measured based on a historical cost in a foreign currency are not re-translated. Exchange differences arising out of these transaction are charged to the profit and loss.

2.5 PROPERTY, PLANT AND EQUIPMENTS AND INTANGIBLE ASSETS

a) Property, plant and equipment (PPE)

i) Recognition and measurement

Freehold land is carried at cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenses directly attributable to the acquisition of the assets. The cost of an item of a PPE comprises its purchase price including import duty, and other non-refundable taxes or levies and any directly attributable cost of bringing the assets to its working condition of its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

ii) Subsequent expenditure

Expenditure incurred on substantial expansion upto the date of commencement of commercial production are capitalised. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

b) Capital Work-In-Progress And Pre-Operative Expenses During Construction Period

Capital work-in progress includes expenditure directly related to construction and incidental thereto. The same is transferred or allocated to respective Property, Plant and Equipment on their completion / commencement of commercial production.

c) Intangible assets

Intangible assets are held on the balance sheet at cost less accumulated amortisation and impairment loss if any.

2.6 IMPAIRMENT OF NON- FINANCIAL ASSETS

The Company's non-financial assets other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is an indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash flows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a discount rate that reflects current market assessments of time value of money and the risks specific to the CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment losses recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amount of the other assets of the CGU on a pro rata basis.

SIGNIFICANT ACCOUNTING POLICIES

An impairment loss in respect of assets for which impairment loss has been recognized in prior periods, the Company reviews at reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.7 DEPRECIATION AND AMORTISATION

Depreciation is computed using Straight Line Method (SLM) over the useful lives of the assets as specified in Schedule II to the Companies Act, 2013. Lease hold land is amortised over the period of lease.

Useful lives of the items of Property, Plant and Equipment are as follows:

Asset	Estimated Useful Life
Building	30 Years
Plant & Machinery	8 Years
Furniture and Fixtures	10 Years
Vehicles	8 Years
Computers	3 Years
Other equipment	5 Years

Intangible Assets are amortized over their individual estimated useful lives on a Straight Line basis, commencing from the year in which the same are available to the Company for its intended use. The useful life so determined is

Assets	Amortisation period
Software Licenses	5 years

The assets; residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. Depreciation and amortization on property, plant and equipment added/disposed off during the year has been provided on pro-rata basis with reference to the date of addition/disposal.

Depreciation and amortization methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate

2.8 FINANCIAL INSTRUMENTS

I. Financial Assets

a) **Classification of financial assets**

The Company classifies financial assets as subsequently measures at amortised cost, fair value through other comprehensive income or fair value through profit & loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

i) Debt instrument at amortised cost:

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objectives is to hold assets for collecting contractual cash flow and
- Contractual terms of the asset give rise on specified dates to cash flow that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or cost that are an integral part of the EIR. The EIR. Amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. The category generally applies to trade and other receivable

ii) Debt instrument at fair value through other comprehensive income (FVOCI):

Assets that are held for collection of contractual cash flow and selling the financial assets, where the assets' cash flow represents solely payments of principal and interest are measuring at FVOCI, movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue or foreign exchange gains and losses which are recognised in profit and loss. When the financial assets is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income suing the EIR method. The company does not have any instruments classified as fair value through other comprehensive income (FVOCI).

iii) Debt instrument measured at fair through profit and loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/ (losses) in the period in which it arises. Interest income from these financial assets is included in other income.

iv) Equity investments:

Investment in associates are accounted using equity method.

All other equity investments which are in scope of Ind-AS 109 are measured at fair value. Equity instrument which are held for trading are classified as at FVTPL. For all other equity investments, the Company decide to classify the same either as at fair value through other comprehensive income (FVOCI) or FVTPL. The company makes such election on an instrument-by- instrument basis. The classification is made on initial recognition and is irrevocable.

For equity investments classified as FVOCI, all fair value changes on the instruments, excluding dividend, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of such investment

Equity investments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Costs of certain unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range.

b) Initial recognition and measurement

All financial assets are recognised initially at fair value and for those instruments that are not subsequently measured at FVTPL, plus/minus transaction cost that are attributable to the acquisition of the financial assets.

Trade receivable are carried at original invoice price as the sales arrangements do not contain any significant financial component. Purchase or sales of financial assets that required delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the assets.

SIGNIFICANT ACCOUNTING POLICIES

c) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) primarily derecognised (i.e. removed from the company's balance sheet) when :

- The rights to receive cash flows from the asset have expired, or
- The Company has neither transferred nor retained substantially all the risks and rewards all the assets, but has transferred control of the assets.

When the company has transferred its rights to receive cash flow from an asset or has entered into a pass-through arrangement, it evaluates whether it has transferred substantially all the risks and rewards of ownership. In such cases, the financial asset is derecognised. When it has neither transferred nor retained substantially all of the risks and rewards of the assets, nor transferred control of the assets, the Company continues to recognise the transferred asset to the extent of the company's continuing involvement. In the case, the company recognises and associated liability. The transferred asset and the associated liability are measured on a basis that reflect the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and maximum amount of consideration that the company could be required to repay.

d) Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loan, debt security, deposits, and bank balance.
- Trade Receivables

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application simplified approach does not require the company to track change in risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivable. The provision matrix based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, historically observed default rate updated and change in the forward looking estimates are analysed.

II. Financial Liabilities and equity instruments

Debt and equity instruments issued by an entity are classified as either financial liability or as equity in accordance with substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

a) Equity instruments:

An equity instruments is any contract the evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by an entity are recognised at the proceeds received, net of direct issue costs.

An equity instruments is any contract the evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by an entity are recognised at the proceeds received, net of direct issue costs.

b) Financial liabilities :- Classification

Financial liabilities are classified as either's at FVTPL' or' other financial liabilities consists of derivative financial instruments, wherein the gain/losses arising from remeasurement of these Instruments of recognized in the statements of profit and loss. Other financial liability (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

c) Initial recognition and measurement:

All financial liability are recognised initially at fair value and for those instruments that are not Subsequently measured at FVTPL, plus/minus transaction cost that are attributable to issue of these instruments.

d) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires .When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of the new liability. The difference in the respective carrying amounts is recognised in the statement of Profit and Loss.

III. Fair Value

The Company determines the fair value of its financial instruments on the basis of the following hierarchy:

- a) Level 1 : The fair value of financial instruments quoted in active markets is based on their quoted closing price at the balance sheet date. Examples include exchange traded commodity derivatives and other financial instruments in equity and debt securities which are listed in a recognised stock exchange
- b) Level 2 : The fair value of financial instruments that are not traded in active markets is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions. For example, the fair value of forward exchange contracts, currency swaps and interest rate swaps is determined by discounting estimated future cash flows using a risk-free interest rate
- b) Level 3 : The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs)

IV. Accounting for day 1 differences

If the fair value of the financial asset or financial liability at initial recognition differs from the transaction price, this if it is not consideration for goods or services or a deemed capital contribution or deemed distribution, is accounted as follows :

- i) If the fair value is evidence by a quoted price in an active market for an identical asset or liability (ie Level 1 input) or based on a valuation technique that uses data from observable market, the entire day 1 gain/loss is recorded immediately in the statement of profit and loss; or
- ii) in all other cases, the difference between the fair value at initial recognition and transaction price is deferred. After initial recognition, the deferred difference is recorded as gain or loss in the statement profit and loss only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

In case difference represents :

- i) deemed capital contribution - it is recorded as investment in subsidiary
- ii) deemed distribution - It is recorded in equity
- iii) deemed consideration for goods and services - it is recorded as an asset or liability. This amount is amortised / accredited to the

statement of profit and loss as per the substance of the arrangement (generally straight line basis over the duration of the arrangement)

2.9 INVENTORIES

Inventories are stated at the lower of cost and net realizable value.

Cost of Raw Material is determined on a First In First Out (FIFO) basis.

Packing materials are valued at cost.

Finished goods are valued at cost or net realizable value whichever is lower. Cost comprises direct materials and where applicable, direct labour costs, those overheads but excluding borrowing cost that have been incurred in bringing the inventories to their present location and condition. Cost is arrived on weighted average cost basis.

Work in Progress is valued at cost or net realizable value whichever is less. Cost comprises direct materials and appropriate portion of direct labour costs, manufacturing overheads but excluding borrowing cost that have been incurred in bringing the inventories to their present location and condition.

2.10 BORROWING COSTS

Borrowing Costs that are interest and other costs that the company incurs in connection with the borrowings of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs include interest cost measured at EIR and exchange difference arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing Costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets, wherever applicable, till the assets are ready for their intended use. Such capitalisation is done only when it is probable that the asset will result in future economic benefits and the costs can be measured reliably. Capitalisation of borrowing cost is suspended and

Capitalisation of borrowing costs commences when all the following conditions are satisfied:

- i. Expenditure for the acquisition, construction or production of a qualifying asset is being incurred;
- ii. Borrowing costs are being incurred; and
- iii. Activities that are necessary to prepare the asset for its intended use are in progress.

A qualifying asset is one which necessarily takes substantial period to get ready for intended use. All other borrowing costs are charged to revenue account.

2.11 ACCOUNTING FOR TAXES ON INCOME

a) Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in Deferred Tax Assets and Liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on the rates and tax laws enacted or substantively enacted, at the reporting date in the country where the Company operates and generates taxable income. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Current tax assets and liabilities are offset only if, the Company :

- i) has legally enforceable right to set off the recognised amounts; and
- ii) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

b) Deferred Taxes

Deferred tax is recognised in respect of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purpose

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences only if it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realised; such reductions are reversed when the probability of future taxable profits improves

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantially enacted at the reporting date.

Deferred Tax Assets and Liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and Deferred Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Any tax credit including MAT credit available is recognised as Deferred Tax to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilised. The said asset is created by way of credit to the Statement of Profit and Loss and shown under the head deferred tax asset

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the Deferred Tax Asset to be utilised. Unrecognised Deferred Tax Assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset only if, the Company :

- i) has legally enforceable right to set off the recognised amounts; and
- ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

2.12 PROVISIONS AND CONTINGENT LIABILITIES

a) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

b) Contingent Liability

Contingent liabilities are not provided for and if material, are disclosed by way of notes to accounts. Contingent Liability is disclosed in the case of:

- i. A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- ii. A present obligation arising from the past events, when no reliable estimate is possible;
- iii. A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

2.13 EARNING PER SHARE

a) Basic Earnings Per Share

Basic Earnings Per Share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the company's earnings per share is the net profit for the period after deducting preference dividends, if any, and any attributable distribution tax thereto for the period.

b) Diluted Earnings Per Share

Diluted Earnings Per Share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares

2.14 CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents comprise cash and deposits with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known of cash to be cash equivalents.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.15 STATEMENT OF CASH FLOWS

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing Cash Flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement

The Company is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

2.16 DIVIDEND

The Company recognises a liability for dividends to equity holders of the Company when the dividend is authorised and the dividend is no longer at the discretion of the Company. As per the corporate laws in India, a dividend is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.17 ROUNDING OFF

All amounts disclosed in the financial statements and notes have been rounded off to the nearest rupees, unless otherwise stated.

2.18 EVENTS OCCURRING AFTER THE REPORTING DATE

Adjusting events (that provides evidence of condition that existed at the balance sheet date) occurring after the balance sheet date are recognized in the financial statements. Material non adjusting events (that are inductive of conditions that arose subsequent to the balance sheet date) occurring after the balance sheet date that represents material change and commitment affecting the financial position are disclosed in the Directors' Report.

2.19 EXCEPTIONAL ITEMS

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements

2.20 OPERATING CYCLE

All assets and liabilities have been classified as current or non-current as per each Company's normal operating cycle and other criteria set out in the Schedule III to the Act

2.21 SEGMENT REPORTING

As the Company has only one primary business activity, Segment reporting is not applicable.

2.22 LEASES

At the inception it is assessed, whether a contract is a lease or contains a lease. A contract is a lease or contains a lease if it conveys the right to control the use of an identified asset, for a period of time, in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, company assesses whether the contract involves the use of an identified asset. Use may be specified explicitly or implicitly.

- Use should be physically distinct or represent substantially all of the capacity of a physically distinct asset.
- If the supplier has a substantive substitution right, then the asset is not identified.
- Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use
- Company has the right to direct the use of the asset.
- In cases where the usage of the asset is predetermined the right to direct the use of the asset is determined when the company has the right to use the asset or the company designed the asset in a way that predetermines how and for what purpose it will be used.
- At the commencement or modification of a contract, that contains a lease component, company allocates the consideration in the contract, to each lease component, on the basis of its relative standalone prices. For leases of property, it is elected not to separate nonlease components and account for the lease and non-lease components as a single lease component.

a) Company as a Lessee

Company recognizes a right-of-use asset and a lease liability at the lease commencement date.

Right-of-use asset (ROU):

The right-of-use asset is initially measured at cost. Cost comprises of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, any initial direct costs incurred by the lessee, an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received

Right-of-use asset is depreciated using straightline method from the commencement date to the end of the lease term. If the lease transfers the ownership of the underlying asset to the company at the end of the lease term or the cost of the right-of-use asset reflects company will exercise the purchase option, ROU will be depreciated over the useful life of the underlying asset, which is determined based on the same basis as property, plant and equipment.

Lease liability:

SIGNIFICANT ACCOUNTING POLICIES

Lease liability is initially measured at the present value of lease payments that are not paid at the commencement date. Discounting is done using the implicit interest rate in the lease, if that rate cannot be readily determined, then using company's incremental borrowing rate. Incremental borrowing rate is determined based on entity's borrowing rate adjusted for terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprises of fixed payments (including in substance fixed payments), variable lease payments that depends on an index or a rate, initially measured using the index or rate at the commencement date, amount expected to be payable under a residual value guarantee, the exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

Lease liability is measured at amortised cost using the effective interest method. Lease liability is re-measured when there is a change in the lease term, a change in its assessment of whether it will exercise a purchase, extension or termination option or a revised in-substance fixed lease payment, a change in the amounts expected to be payable under a residual value

b) guarantee and a change in future lease payments arising from change in an index or rate.

When the lease liability is re-measured corresponding adjustment is made to the carrying amount of the right-of-use asset. If

the carrying amount of the right-of-use asset has been reduced to zero it will be recorded in statement of profit and loss.

Company has elected not to recognise right-of-use assets and lease liabilities for short term leases. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

b) Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

Leases are classified as Finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

2.23 RECENT ACCOUNTING PRONOUNCEMENTS

NOTE 24: FINANCIAL RISK MANAGEMENT AND POLICIES

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the managing board. The details of different types of risk and management policy to address these risks are listed below:

(a) Market Risk:-

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

(a)(i) Market Risk - Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The company's exposure to the risk of changes in market interest rates primarily to the Company's fixed deposits. Since all these are generally for short durations, there is no significant interest rate risks pertaining to these deposits

Exposure & Sensitivity analysis to interest rate risk

The Company doesn't have any variable interest rate financial liability or financial assets. Accordingly, the company has no exposure to interest rate risk and thereby a change in interest rates at the reporting date would not affect profit or loss.

(a)(ii) Market Risk - Price Risk

The Company has no surplus for investment in debt mutual funds, deposits etc. The Company does make deposit with the banks to provide security against its bank borrowings. Deposit is made in fixed rate instrument. In view of this it is not susceptible to market price risk, arising from changes in interest rates or market yields which may impact the return and value of the investments.

(a)(iii) Market Risk - Currency Risk

The fluctuation in foreign currency exchange rates may have a potential impact on the statement of profit and loss and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Company. The company does not have any asset or liability in the foreign currency. In view of this it is not susceptible to market currency risk arising from fluctuation in foreign currency exchange rates.

(b) Credit Risk

Credit Risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

The carrying amount of Financial Assets represents the maximum credit exposure

Trade Receivables

The Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, industry information, business intelligence and in some cases bank references.

Trade Receivables of the Company are typically unsecured, except to the extent of the security deposits received from the customers or financial guarantees provided by the market organizers in the business. Credit Risk is managed through credit approvals and periodic monitoring of the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company performs ongoing credit evaluations of its customers' financial condition and monitors the creditworthiness of its customers to which it grants credit terms in the normal course of business. The Company has no concentration of Credit Risk as the customer base is geographically distributed in India.

Expected credit loss for trade receivable:

The allowance for impairment of Trade receivables is created to the extent and as and when required, based upon the expected collectability of accounts receivables. On account of adoption of Ind AS 109, the Company uses lifetime Expected Credit Loss (ECL) model for assessing the impairment loss. For this purpose, the Company uses a provision matrix to compute the expected credit loss amount for trade receivables. Loss rates are based on actual credit loss experience and past trends. The provision matrix takes into account external and internal credit risk factors and historical experience / current facts available in relation to defaults and delays in collection thereof

(c) Liquidity Risk

Liquidity Risk is the risk that the Company will face in meeting its obligation associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach in managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements is retained as Cash and Cash Equivalents (to the extent required).
