ANNEXURE TO THE DIRECTOR'S REPORT MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC SCENARIO

The path for the Indian economy in the last few years were, to a very large Extent, determined by the happenings in the global economic environment. The Onset of the global Financial Crisis Interrupted India's growth momentum The moderation in growth was mainly felt in the industry and the services sectors which have been the prime growth engines for India over the past five years.

FINANCIAL MARKETS

The turmoil in the global financial markets had a significant adverse impact on India's balance of payment (Bop) position. This impact was manifested by the reversal of FII inflows and the decline in the long term and short term debt flows. On the other hand, NRI inflows improved and FDI inflows resilient.

CAPITAL MARKETS

F.Y, 2007-08 witnessed buoyant capital markets on a global level. The benchmark sensex crossed the 21,200 mark in January 2008. F.y. 2008-09 reversed this rally. A series of adverse global events resulted in a major correction in the Indian stock markets, with market capitalizations of major companies falling to two to three year lows. The Sensex fell to a low of 7697 before closing this year at 9708. Nifty which had crossed 6300 in January 2008 saw a low of 2524 before closing the year at 3021. The average daily volumes came down from INR 57042 Crore to INR 37493 Crore in the derivatives segment.

In 2008, there were only 37 IPOs as against 100 in 2007. There was no Debt issue in 2008. There were only 766 mergers and acquisitions and 312 Private equity deals in 2008 as against 1081 and 405 deals respectively in 2007.

OPPORTUNITIES AND THREATS

Opportunities

Being Part of India's Growth story

Recovery of capital Markets

Increasing awareness of various types of financing activities among the sme's & the Mid- Cap Segment

Relaxation in FDI Norms by the Government and increased inflow of money through FII's in INDIA

Threats

Volatile Capital markets

Increasing fiscal deficit

Intense competition from Indian and multinational investment banks

High Attrition rate of young, dynamic and experienced Professionals

Internal control

The Company will have adequate internal control System for business processes across

various profit centres with regard to efficiency of operations, financial reporting,

compliance with applicable laws and regulation. The roles and responsibilities for all

managerial positions have been clearly defined. Regular internal audits and checks ensure that responsibilities are executed effectively. The Audit committee of the board of directors

actively reviews the adequacy and effectiveness of the internal control system and suggests improvements status of resolution tracking and pending issues is reported to

senior management on a regular basis. There is a detailed process for monitoring the

progress of implemented action plan.

Human Resource

The human resource assets are integral to your Company's ongoing plans and will

enable the company to deliver better performance in order to optimize the contribution of

the employees to the company's business, several training and development programme

at all levels are being conducted. Further, the company is also exploring other avenues to

keep the employee morale at the highest level to enable them to optimally utilize their

strengths for maximum benefit to your company.

Risk & Concerns

Risks are integral aspects of business. Evaluation of risk and its management

becomes more important in the global scenario especially when the company is trying to

penetrate the global markets. The management of your company consistently analyzes the

various risks associated with the business and adopts relevant risk management practices to minimize the adverse impact of these risks both external and internal developments are

assessed regularly. Fund raising both in the form of debt syndication, IPO, Rights, FCCB,

ECB and other forms is dependent upon government policies, performance of capital

markets, and central banks decisions. Also in this era of liquidity crunch and volatile capital

markets, There is fair amount of liquidity and financial risk from the clients.

Future Outlook

The global economic scenario that was filled with uncertainties during F.Y. 2008-09, seems to be stabilizing. Many analysts believe that it is safe to say that the worst is finally over. Although, this does not imply that the global economies will resume the rapid growth that they showed over the 2005-08 period, it definitely provides a hope of better times to come.

With Central governments world wide lowering interest rates and announcing enormous economic stimulus packages and moderating commodity prices we expect those in emerging economies like India, will resume their growth momentum albeit at a slightly moderate pace as compared to the previous Bull Run.
