MANAGEMENT ANALYSIS AND REVIEW REPORT

A. INDUSTRY STRUCTURE & DEVELOPMENT:

Realty prices in the country, have been impacted by various factors over the past year, such as the GST, RERA, demonetisation and the support to affordable housing. The implementation of the Real Estate Regulation Act (RERA) and consumer activism against project delays, have pushed developers to focus on completion of existing projects. However, with cheaper home loan interest rates and increased developer focus on completion of projects, buyers' confidence should perk up.

B. OPPORTUNITIES:

In comparison to markets such as Mumbai and New Delhi, Chennai is still touted as one of the emerging market and is far off from being saturated. The future scope is believed to be tremendous. Chennai residential market is believed to be associated with great potential in the coming time as the home prices in major residential areas are consistently increasing. A new government change in the center is expected to be followed with better investment sentiments. Cut in Repo Rate will stimulate availability of home loans and credit, thereby fueling the market. On the backdrop of rise in income and newer job creation, demand for residential units is expected to further increase.

C. SEGMENT-WISE ANALYSIS:

Your Company is dealing in only one segment i.e., buying and selling of vacant land.

D. OUTLOOK:

The various steps taken by the Centre including the introduction of Real Estate Regulation Act (RERA) and the Goods and Services Tax (GST) along with Real Estate Investment Trusts (REITs) have all been positive steps towards increasing transparency and boosting consumer confidence in the real estate market. With the overall market moving towards ease of doing business, we can expect potential investors to relook at the market for investment opportunities. The government has increased allocation under the Pradhan Mantri Awas Yojana scheme. This will not only encourage home buyers to invest but also encourage participation from private players to launch projects in this segment

E. THREATS, RISKS, AND CONCERNS

Chennai's residential market remained subdued in terms of new launches, as well as sales, as buyers' sentiments remained weak due to a series of events in 2016. Subdued global economy can affect the investments from the international markets. In some of the areas such as GST and OMR there has been a rise in unsold units.

With increased trend of investing with tier 1 and 2 developers, there could be downward pressure on other small time developers. Rising fuel prices, labour cost, inflation have also been major concern for the growth of Company.

F. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Your Company has in place, adequate internal control systems and procedures commensurate with the size and nature of our business. These procedures are designed to ensure that:

- An effective and adequate internal control environment is maintained across the Company.
- All assets and resources are acquired economically, used efficiently and are adequately protected.
- Significant financial, managerial and operating information is accurate, reliable and is provided timely, and
- * All internal policies and statutory guidelines are complied with.

g. Material developments in human resources/industrial relations front, including number of people employed

The Company is continuously endeavoring to align the employee's objectives with the business objectives of the organisation through its HR policies, process and other development initiatives to achieve its organizational goals. Industrial relations have been cordial.
