MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS OUTLOOK

The company had a weaving plant at Bhilwara but due to adverse market conditions and stiff competition, the manufacturing unit of the company had to be closed down. The company has taken up agency business of synthetic fabrics. Company hopes to achieve good results in this line looking to the acceptance of Indian products in the global market.

OPPORTUNITIES AND THREATS

The opening of the international markets has thrown a host of opportunities with unique set of challenges. The dismantling of quota system has given an added advantage and a huge opportunity to India as compared to other countries including China. This is especially because viscose fiber is available in abundant quantity in India as compared to China. As such, India is stronger in polyester/viscose fiber suitings as compared to China and other countries. Thus, in India new designs can be introduced faster allowing the Indian manufacturers to cater to the larger section of the people with a variety of color choices and designs which is not feasible for the Chinese manufacturers. This is one of the reasons that the Indian fabrics, particularly viscose suiting dominates the market as compared to the Chinese fabrics. India, therefore, has a massive edge compared to China in viscose polyester fabrics.
