The facility of casting votes by the members using an electronic voting system from a place other than venue of the AGM ('remote e-voting') will be provided by Central Depository Services (India) Limited (CDSL).

- b) The facility for voting through ballot paper or polling paper shall be made available at the AGM venue also and the members attending the meeting who have not cast their vote by remote e-voting shall be able to exercise their right at the meeting through ballot/ Polling paper.
- c) The members who have cast their vote by remote e-voting prior to the AGM may also attend the AGM but shall not be entitled to cast their vote again.

For this purpose, the Company has entered into an Agreement with Central Depository Services (India) Limited (CDSL) for facilitating e-voting.

The instructions for shareholders voting electronically are as under:

The voting period begins on Friday, 21st September 2018 at 9.00 am. and ends on Sunday 23rd September 2018 at 5.00 pm. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date 17th September 2018 may cast their vote electronically. The e-voting module shall be

disabled by CDSL for voting thereafter.

The shareholders should log on to the e-voting website www.evotingindia.com.

Click on Shareholders / Members

Now Enter your User ID

For CDSL: 16 digits beneficiary ID,

For NSDL: 8 Character DP ID followed by 8 Digits Client ID,

Members holding shares in Physical Form should enter Folio Number registered with the Company.

Next enter the Image Verification as displayed and Click on Login.

If you are holding shares in demat form and had logged on to www.evotingindia.com and voted on an earlier voting of any company, then your existing password is to be used.

If you are a first-time user follow the steps given below:

	For Members holding shares in Demat Form and Physical Form
PAN	Enter your 10 digit alpha-numeric PAN issued by Income Tax Department (Applicable for both demat shareholders as well as physical shareholders) Members who have not updated their PAN with the Company/Depository Participant are requested to use the sequence number which is printed on Postal Ballot / Attendance Slip indicated in the PAN field.
Dividend Bank Details	Enter the Dividend Bank Details or Date of Birth (in dd/mm/yyyy format) as recorded in your demat account or in the company records in order to login.
OR Date of Birth (DOB)	If both the details are not recorded with the depository or company please enter the member id / folio number in the Dividend Bank details field as mentioned in instruction (iv).

After entering these details appropriately, click on "SUBMIT" tab.

Members holding shares in physical form will then directly reach the Company selection screen. However, members holding shares in demat form will now reach 'Password Creation' menu wherein they are required to mandatorily

enter their login password in the new password field. Kindly note that this password is to be also used by the demat holders for voting for resolutions of any other company on which they are eligible to vote, provided that company opts for e-voting through CDSL platform. It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential.

For Members holding shares in physical form, the details can be used only for e-voting on the resolutions contained in this Notice.

Click on the EVSN for the relevant <Company Name> on which you choose to vote.

On the voting page, you will see "RESOLUTION DESCRIPTION" and against the same the option "YES/NO" for voting. Select the option YES or NO as desired. The option YES implies that you assent to the Resolution and option NO implies that you dissent to the Resolution.

Click on the "RESOLUTIONS FILE LINK" if you wish to view the entire Resolution details.

After selecting the resolution, you have decided to vote on, click on "SUBMIT". A confirmation box will be displayed. If you wish to confirm your vote, click on "OK", else to change your vote, click on "CANCEL" and accordingly modify your vote.

Once you "CONFIRM" your vote on the resolution, you will not be allowed to modify your vote.

You can also take a print of the votes cast by clicking on "Click here to print" option on the Voting page.

If a demat account holder has forgotten the changed password then Enter the User ID and the image verification code and click on Forgot Password & entering the details as prompted by the system.

Shareholders can also cast their vote using CDSL's mobile app M-Voting available for android

based mobiles. The M-Voting app can be downloaded from Google Play Store. Apple and Windows phone users can download the app from the App Store and the Windows Phone Store respectively. Please follow the instructions as prompted by the mobile app while voting on your mobile.

Note for Non - Individual Shareholders and Custodians

Non-Individual shareholders (i.e. other than Individuals, HUF, NRI etc.) and Custodian are required to log on to www.evotingindia.com and register themselves as Corporates.

A scanned copy of the Registration Form bearing the stamp and sign of the entity should be emailed to helpdesk.evoting@cdslindia.com.

After receiving the login details a Compliance User should be created using the admin login and password. The Compliance User would be able to link the account(s) for which they wish to vote on.

The list of accounts linked in the login should be mailed to helpdesk.evoting@cdslindia.com

and on approval of the accounts they would be able to cast their vote.

A scanned copy of the Board Resolution and Power of Attorney (POA) which they have issued in favour of the Custodian, if any, should be uploaded in PDF format in the system for the scrutinizer to verify the same.

In case you have any queries or issues regarding e-voting, you may refer the Frequently Asked Questions ("FAQs") and e-voting manual available at www.evotingindia.com, under help section or write an email to helpdesk.evoting@cdslindia.com.

- b) The Fixed pay shall include monthly remuneration, employer's contribution to Provident Fund, contribution to pension fund, pension schemes, etc. as decided from to time.

Mechanism for evaluating Board members:

One of the key functions of the Board is to monitor and review the board evaluation framework. The Board works with the nomination and remuneration committee to lay down the evaluation criteria for the performance of executive / non-executive / independent directors through a peer-evaluation excluding the director being evaluated through a Board effectiveness survey. The questionnaire of the survey is a key part of the process of reviewing the functioning and effectiveness of the Board and for identifying possible paths for improvement. Each Board member is requested to evaluate the effectiveness of the Board dynamics and relationships, information flow, decision-making of the directors, relationship to stakeholders, company performance, company strategy, and the effectiveness of the whole Board and its various committees on a scale of one to five. Feedback on each director is encouraged to be provided as part of the survey.

Independent directors have three key roles - governance, control and guidance. Some of the performance indicators based on which the independent directors are evaluated include:

- Ability to contribute to and monitor our corporate governance practices
- Ability to contribute by introducing international best practices to address top-management issues.
- Active participation in long-term strategic planning
- Commitment to the fulfillment of a director's obligations and fiduciary responsibilities; these include participation in Board and committee meetings.

ANNEXURE VI : - MANAGEMENT AND DISCUSSION AND ANALYSIS REPORT**INDUSTRY STRUCTURE AND DEVELOPMENT**

The Indian Paper Industry accounts for about 1.6% of the world's production of paper and Paper board. Paper in India is expected to see an average growth of 7 per cent during the next year according to prediction by the Indian Pulp and Paper Technical Association.

The paper industry in India has become more promising as domestic demand is on the rise. Increasing population and literacy rate, growth in GDP, improvement in manufacturing sector and lifestyle of individuals are expected to account for the growth in the paper industry of India. Many of the existing players are increasing their capacity to meet the growing demand. The focus of paper industry is now shifting towards more Eco-friendly products and technology. Government of India has established rules and regulations to control the population and degradation of forest. These measures taken by the government has brought the significant changes in the paper industry of India.

The Indian paper industry has the top 15 global players with output more than 6 million tons annually with an estimated turnover of Rs. 150,000 millions. The Indian paper industry is riding on a strong and on an expanding mood to meet the projected demand of 13 million tons by 2020

Paper Industry plays a vital role in the economic growth of a country through revenue generation, foreign exchange earnings, and employment generation. Paper finds its usage in recording, storage and dissemination of information. In addition to these, paper is a widely used medium for wrapping and packaging of several products.

Despite the technological revolution leading to increased computerization of operations, paper still holds on to its existence and has become an essential commodity

There are various reasons which have made the paper industry of India more promising and attractive than ever before. The population of India has been growing at a significant pace which has led to the increase in the paper consumption as each individual utilizes paper and other related products on daily basis. The growth in the GDP of India has helped the paper industry significantly. Growth in economy has led to the increase in the manufacturing activities which has further led to the increase in the demand for paper products specially paperboard as the paperboard is extensively utilized by the manufacturing sector for a wide range of activities ranging from packing to storage and transportation. The growth in the GDP has also led to the improvement in the purchasing power of the individuals.

The paper industry can be classified into 4 categories namely, paperboard and industrial packaging paper, writing and printing papers, newsprint, and specialty papers. Kay Power and Paper Ltd is a paper mill which is strategically located at Satara and is manufacturing Kraft paper using Indian and imported waste paper. Kraft paper has the largest consumption (52.5%) in the paperboard and industrial packaging market in India.

Over the years company has focused on stringent quality measures, which help to meet all our customers' needs. Our focus on quality has helped us in building strong relationship with customers and eliminated supplementary cost.

OPPORTUNITIES AND THREATS:

India's paper industry is expected to grow at 6 to 7 percent year over year, with the packaging industry poised to grow at 22 to 25 percent annually. Advances in education, a fast-growing middle class, strong growth in sectors like fast-moving consumer goods (FMCG)-pharmaceuticals, liquor, cosmetics, and organized retailing are the main drivers of demand for paper and packaging products.

Per capita consumption of paper in India remains woefully low at 22 lbs. compared to 770 lbs. in the United States and 363 lbs. in the European Union in 2010. India has 15 percent of the world's population, but consumes less than 2 percent of the world's paper. But per capita consumption has almost doubled in the last decade.

The company has adequate infrastructure facilities such as land, water & power. Apart from this company has the flexibility of various grades of paper, which gives the company distinct competitive advantage.

The availability of raw material has always been a matter of concern for the industry. In India about 850,000-1,000,000 tons of waste paper is being currently recovered annually. The recovery rate works out to about 20% which is much lower in comparison with 65% recovery achieved by many global players. Low recovery is on account of alternate use of paper in wrapping, packing, etc. The utilization rate of recovered fiber is only 47%. Paper mills are heavily dependent on imported waste paper which commands exorbitant price due to inadequate availability. India needs a well-defined and aggressive system for collection, sorting, grading and utilization of recyclable waste paper to contain imports.

At the same time, it may face competition due

to proliferation of capacities in the country.

SWOT analysis - Indian paper industry

Competitive strengths

1. Large and growing domestic paper market
2. Up to date research institute (CPPRI)
3. Know how in non-wood pulping and applications
4. Well-developed printing industry
5. Local market knowledge

Competitive weaknesses

1. Fiber shortage, especially virgin wood Fiber
2. Small and fragmented industry structure, many non-competitive mills/machines.
3. Highly skilled and job specific manpower is not available
4. Quality and availability of some of the domestic pigments and chemicals
5. Environmental problems of most of the small pulp mills and also some big mills
6. Low standard of converting industry
7. Infrastructure, transportation
8. High cost of raw material including wood, non-wood and waste paper
9. High energy costs
10. High cost of financing
11. Impact of high local taxes
12. Low input into mill level R&D

Competitive opportunities

1. Domestic market potential
2. Modern, world scale paper machine would be cost competitive in most grades
3. Forest plantation potential
4. Integration of combined wood and agro based paper making
5. Government literacy program - increasing

demand for printing/writing papers

6. Low labor costs (allow eg. cost effective sorting of imported mixed waste)

7. Export potential

Competitive threats

1. Unprepared mills for international competition (WTO entry) both on price and quality

2. Decline in capacity due to environmental pressures

3. Decline in capacity as some of the segments/group of mills are unable to compete at national and international levels with respect to quality and cost of products.

4. Delayed forest plantations, deficit of wood fiber.

5. Weakening competitiveness of domestic industry due to shortage and cost of basic input

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kay Power and Paper Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in

accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2018 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018**NOTE 1 : SIGNIFICANT ACCOUNTING POLICIES****1 General Information**

Kay Power and Paper limited, registered under the company's act 1956 and having its registered office at Gat No. 454/457, Village Bargaon Satara-415519., mainly belongs to Paper Industry and operates in manufacturing of Kraft paper in various category. The Company's manufacturing facilities is located at Village Bargaon, Satara.

The Company is public limited company and is listed on the Bombay Stock Exchange (BSE)

The Financial Statements were authorised for issue in accordance with resolution passed by the Board of Directors of the Company on May 28, 2018.

2. Summary of significant accounting policies**a. Basis of preparation**

The standalone financial statements of the Company have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015.

For all periods up to and including the year ended 31st March 2017, the Company prepared its Financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP or Previous GAAP). These Financial statements for the year ended 31st March 2018 are the first the Company has prepared in accordance with Ind AS. Refer note No.34 for information on how the Company adopted Ind AS.

The Financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either, in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

b. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within the operating cycle or twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within the operating cycle or twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle of the Company is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company's normal operating is assumed to be twelve months.

c. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory

and credit risks.

Excise Duty, GST/ VAT/ sales tax is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of goods:

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. Interest income is included in other income in the statement of profit and loss.

d. Property, plant and equipment

Property, plant and equipment, Capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as are placement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Depreciation on Fixed Assets has been provided at the useful lives provided in Schedule II to the Companies Act, 2013 for SLM method on the opening written down value of the assets. No depreciation on

remaining assets of Power Division is charged as power division was not functional and assets in power division remained idle for the whole year. Depreciation on Fixed Assets of Paper Division is charged for the whole year. Depreciation on addition to Fixed Assets is charged on pro-rata basis from date on which asset is put to use.

Intangible Assets

Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Separately acquired software are recorded as intangible assets and amortised from the point at which the asset is available for use.

Computer software: 3 years

e. Inventory

Inventory comprises of stock of raw material, completed products for sale and work-in-progress. Inventories valued at cost or net realizable value whichever is lower.

f. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds.

g. Taxes

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss of the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rate enacted or substantially enacted at the reporting date. However, due to accumulated losses in the books as well as income tax computation no income tax is required to be paid for the year.

Deferred tax

Deferred tax is recognised in respect of

temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognised for deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which those can be utilised. The deferred tax assets are not recognized in the year as there is lack of reasonable certainty that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognised deferred tax assets are re-assessed at each reporting date and will be recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

h. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

i. Provisions and Contingent liability

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Contingent liabilities are disclosed in the Notes. Contingent liabilities are disclosed for

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- ii. present obligations arising from past

events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

j. Employee benefits

Short-term obligations

Short-term employee benefits are expensed as the related service is provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within one year after the end of the period in which the employees render the related service or the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Post-employment obligations

The Company operates the following post-employment schemes:

- i. defined benefit plans such as gratuity and
- ii. defined contribution plans such as provident fund

Defined benefit plans

The liability for defined benefit obligation towards gratuity is recognised in the year of payment and in view of the heavy accumulated losses and due to the small eligible staff strength, no actuarial working is taken to avoid extra expenditure for it. The liability or asset in respect of defined benefit gratuity plans is not recognised in the balance sheet.

Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

k. Financial instruments

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value.

The classification depends on the Company's business model for managing the financial asset and the contractual terms of the cash flows. The Company classifies its financial assets in the following measurement categories:

- i. those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss),
- ii. those measured at amortised cost, and

Subsequent measurement

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. All other financial assets are measured at amortised cost, using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss.

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss financial assets that are not fair valued.

The Company follows 'simplified approach' for recognition of impairment loss for trade receivables and lease receivables resulting from transactions within the scope of Ind AS 17 that have no significant financing component. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on life time ECLs at each reporting date, right from its initial recognition.

For all other financial assets, expected credit losses are measured at an amount

equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at life time ECL.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized, is recognized under the head 'other expenses' in the statement of profit and loss. The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

De-recognition of financial assets

The Company derecognizes a financial asset when -

- i. the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under IND AS 109.
- ii. it retains contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

When the entity has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to extent of continuing involvement in the financial asset.

Financial liabilities

Initial recognition

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification, as described below:

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within one year after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least one year after the reporting period. Where there is a breach of a material provision of a long-term loan

arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

i. Earnings per share

The basic earnings per share is computed by dividing the net profit for the year attributable equity shareholders by the weighted average number of equity shares outstanding during the period. The Company does not have any potential equity share or warrant outstanding for the periods reported, hence diluted earnings per share is same as basic earnings per share of the Company.

m. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Board of Directors of the Company, assesses the financial performance and position of the Company, and makes strategic decisions. The Board of Directors is therefore considered to be the chief operating decision maker.

n. Standards issued but not yet effective

Appendix B to Ind AS 21, foreign currency transactions and advance consideration:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company is in process of evaluating the impact on the financial statements.

Ind AS 115- Revenue from Contract with Customers:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The standard permits two possible methods of transition:

1. Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors.
2. Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach).

The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

o. Critical estimated and judgements

i Impairment of Trade receivables

The Company estimates the uncollectability of accounts receivable by analyzing historical payment patterns, customer concentrations, customer credit-worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

ii Income Taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

i) This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

The following table provides the fair value measurement hierarchy of the company's financial assets and liabilities that are measured at fair value or where the fair value disclosure is required.

Level- 3 If one or more of the significant is no based on observable data. The instrument is included in level three. This is the case for unlisted equity securities.

(ii) Valuation technique used to determine fair value

The following methods and assumptions were used to estimate the fair value of the level 3 financial instruments included in the above tables:

The investment in unquoted equity instrument represents investment in equity shares of Ambala Cements Ltd and National General Industries Ltd. The fair value arrived at is after taking into account the relevant financial indicators of the respective companies.

(iii) As per Ind AS 107 "Financial Instrument: Disclosure", fair value disclosures are not required when the carrying amounts reasonably approximate the fair value. Accordingly fair value disclosures have not been made for the following financial instruments:-

1. Trade receivables
2. Cash and cash equivalent
3. Other bank balances
4. Security deposits
5. Borrowings
6. Trade payables
7. Employee dues
8. Other payables

NOTE 30: FINANCIAL RISK MANAGEMENT

The Company's business activities are exposed to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has the overall responsibility for establishing and governing the Company's risk management framework. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Company.

a. MANAGEMENT OF CREDIT RISK

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations and arises principally from the company's receivables from customers

i) Trade receivables:-

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to 436.37 lakhs and 299.66 lakhs as of 31 March 2018 and 31 March 2017, respectively. Trade receivables are typically unsecured and are derived from revenue earned from customers located in India. Credit risk has always been managed by the company through credit approvals, establishing credit limits and

**NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018**

continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

The company have stop supply mechanism in place in case outstanding goes beyond agreed limits. Based on prior experience and an assessment of the current economic environment, management believes there is no further credit risk provision required.

More Than 6 months	3.77	3.77	3.77
Others	432.61	295.89	354.16

ib. Other financial assets:-

Credit risk on cash and cash equivalents is limited as the company generally invests in deposits with banks and financial institutions with good reputation. The Company's maximum exposure to credit risk is the carrying value of each class of financial assets.

b. MANAGEMENT OF LIQUIDITY RISK

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses or risking damage to company's reputation. In doing this, management considers both normal and stressed conditions. Management monitors the rolling forecast of the company's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents. The company has access to funds from debt markets through loan from banks. The company invests its surplus funds in bank deposits.

The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

* Borrowing includes Inter-Corporate deposits. Repayment period of ICDs is not stipulated but it is assumed that they will be repaid over a period of five years.

c. MANAGEMENT OF MARKET RISK:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of fluctuation in market prices. These comprise three types of risk i.e. currency rate, interest rate and other price related risks. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments. Regular interaction with bankers, intermediaries and the market participants help us to mitigate such risk.

i) Foreign currency risk

The company makes payment in foreign currency for material imported. The transactions in foreign currency constitute very small proportion of total transaction. Hence, foreign exchange risk is not material market risk to the Company. During the period under audit or in comparative period presented the company has not made any derivative financial instruments related transaction to cover foreign exchange risk or otherwise. The company did not have any unhedged foreign currency exposure as on 31/03/2018 or any other earlier two preceding years.

ii) Interest rate risk exposure

Interest rate risk is the risk that the fair value or future cash flows on a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the company's interest rate position. Various variables are considered by the management in structuring the company's investment to achieve a reasonable competitive cost of funding. Only interest bearing loan outstanding is small amount of loan against vehicle bearing fixed interest. The company has not borrowed any other funds bearing interest.

NOTE 31 : CAPITAL MANAGEMENT
(a) Risk management

The Company's capital comprises equity share capital, share premium, retained earnings and attributable to equity holders.

The Company's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital.

The company had incurred heavy loss in past resulting in complete erosion of its net worth. Net worth has turned position as on 31/03/2018. But the company is not yet in position to pay dividend to share holder.

These are the company's first financial statement prepared in accordance with Ind AS. For periods up to and including the year ended 31st March 2017, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP or Indian GAAP). The accounting policies set out in Note 1 have been applied in preparing the financial statements for the year ended 31 March 2018, the comparative information presented in these financial statements for the year ended 31 March 2017 and in the preparation of an opening Ind AS balance sheet at 1st April 2016 (Company's transition date). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with Previous GAAP. An explanation of how the transition from previous GAAP to Ind AS has affected the company's financial performance and cash flows is set out in the following tables and notes.

Ind AS 101 allows first-time adopters certain exemptions/exception from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions/exception:

(a) Exemptions from full retrospective application:

aa. Business combinations :-

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. The Company does not have any business combination occurring after its transition date. Business combinations occurring prior to the transition date have not been restated.

ab. Deemed cost:-

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its Property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for Intangible assets covered by Ind AS 38.

Accordingly, the Company has elected to measure all of its Property, plant and equipment and Intangible assets at the Previous GAAP carrying value as on transition date.

ac. Leases

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material.

The Company does not have any lease assets.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

(b) Mandatory exceptions:

ba. (i) Estimates

An entity's estimate on the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1st April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVPL;
- Impairment of financial assets based on expected credit loss model; and
- Fair valuation of financial assets and liabilities

bb. (ii) Derecognition of financial assets and financial liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS -109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

bc (iii) Classification and measurement of financial assets :-

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

(c) Reconciliations between previous GAAP and Ind AS

No significant difference arises from the transition from previous GAAP to Ind AS in accordance with Ind AS 101 any of the amounts.
