## Management Discussion and Analysis Report

The Company has three divisions

- a) Cement Division;
- b) Finance Division; and
- c) Pole Division

The management's perception and analysis about these three divisions is summed up as follows:

### Cement Division:

The Company is operating a 200 tonnes per day mini cement plant based on Vertical Shaft Kiln (VSK) Technology, at village Jaliawas, District Rewari, Haryana. The Company has taken various steps to become cost effective and has achieved a turnover of ₹ 11.29 Crores and during the year 2009-10 it has sold 37570.800 MT of Portland Cement. The Company is making all efforts to increase its cost effectiveness, but, due to stiff competition and higher power tariff and government duties in the State of Haryana, the net realisation for the Company has been quite low considering the fact that the cement industry has been passing a lean phase, and a sluggish off take, and taking into account the per capita consumption of cement in India (100 kgs.) as compared to the world per capita cement consumption (270 kgs.) being on the lower side, the Management is hopeful of getting better result for cement division in the near future.

### Finance Division :

The Finance division of the Company has created a niche for itself in financing heavy earth moving equipment like loaders and tippers etc. in various states and has retained its competitive edge in the industry. The company also provides loan syndication facilities besides direct funding to maintain its lead and has an excellent track record in collections & recovery.

### Pole Division :

During the year the Company has acquired business of Manufacturing of PCC Poles from Sainik Pole Manufacturing Co. at Jaliawas, District Rewari, Haryana and achieved a turnover of ₹ 3.77 Crores.

- 3) Stock on Hire/Hypothecation/Loan Syndication Principal represents disbursed value of assets less capital repayments matured including un-matured finance/hypothecation/loan syndication charges thereon as per IRR. The un-matured finance/hypothecation/loan syndication charges are reduced from stock on hire/hypothecation/loan syndication to reflect the net principal outstanding.
- 4) Lease Rentals are accounted for on accrual basis and full months rental is considered as income irrespective of the date on which the lease rentals fall due during the month. Further the company accounts for income arising out of leasing activities on the method recommended by the Institute of Chartered Accountants of India. For assets leased up to 31<sup>st</sup> March 2001, the lease income is recognised at an Internal Rate of Return (IRR) on the principal amount outstanding at the due date of the lease rental. An annual lease equalisation charge is computed by deducting from lease rentals the income derived at IRR, which is then compared with depreciation provided. The difference is adjusted through lease equalisation in lease adjustment account. No assets have been leased after 1-4-2001 and therefore the mandatory provisions under Accounting standard (A 8-9) in respect of leased assets after 1-4-2001 do not apply.
- 5) Hire Purchase Finance Charges/ Hypothecation charges/ Loan Syndication Charges have been accounted for on instalment due basis based on Internal Rate of Return.
- 6) All Incomes and expenses have been accounted for on accrual basis. Overdue charges from hirers/lessees are accounted for on realisation.
- 7) Income Recognition, assets classification and provisioning in respect of Non-Performing Assets has been done in accordance with the Reserve Bank of India Directions, 1998 as amended upto 12<sup>th</sup> May, 1998. Income in respect of non performing assets has been considered on realisation basis.
- 8) Revenue is being recognised in accordance with the guidance note on Accrual Basis of accounting issued by the Institute of Chartered Accountants of India. Accordingly, if there are any uncertainties in the realisation of income, the same are not accounted for.
- 9) Closing Stock of Shares/Securities has been valued at cost or market price which ever is lower.
