OPERATIONS

The Company is making all out efforts to market the various software products developed by it – software in the areas of designing and planning in Textile industry, Inventory Management, Hotel Management, Payroll Management etc. And also the company recently launched the e-commerce website called www.theflamingo.co.in for marketing the goods through web. The company's turnover had increased from Rs.316.82 lacs in the previous year to Rs.462.44 lacs in the current year. The software product marketed by the company had good response during the year, hence there is good growth in the turnover of the company during the year. However your directors are confident of registering substantial increase in turnover and profits in the coming years.

FUTURE PLAN

The company would further push its marketing efforts for the sale of various software programmes it has developed. And would soon restart its dot com operation, which was core strength of the company in the past. Since the company had good customers in textile business, now launching a textile product trading dot.com portal, the domain is already finalized, and during the current period it was launched. Which will give additional revenue to the company and good margin. It has started operations in the textile products also which have given tremendous increase in its turnover.

ENVIRONMENT COMPLIANCE:

India is the seventh largest country in the world by geographical area. While progress in the environmental front is being made, India still faces some major challenges.. Despite highly evolved environmental laws and regulations in some areas, many environmental practices such as regulation of air pollutants using model seen in western countries are still at a very rudimentary stage in India. Increased environmental regulations will likely become a key area of concern in the near future.

The increasing desire of Indian companies to meet world class standards has caused established companies in India to take on sustainable initiatives as a means of improving their global brand and reputation and the environmental sector is expected to be at the forefront of India's evolving story in the coming years.

ARCHANA SOFTWARE LIMITED

The Company has already considered the prerequisites of environment compliance long way back and is doing new initiative every year. Some of the major initiatives of regular basis are:
Slogan of the Company – “One planet, one earth, one nature which propagates save the earth for better tomorrow”.

By regular training for workers and staff to prevent accident related to mechanical, electrical, chemical, physiological and psychological safety the Company has made Zero incidents as acceptable standard.

The Company has started project to conserve water and energy, minimize generation of waste, minimize carbon foot print, generate pollution prevention awareness throughout the plant and to achieve 100 percent legal compliance.

GENERAL

The Management is grateful to the shareholders, valued customers, bankers and vendors for the continued support and co-operation.

○ The Director also wishes to place on record their appreciation of the support and co-operation of all employees to enable the company to achieve its growth plans.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY OUTLOOK

OVERVIEW:

In Financial year 2011-12, there was a sign of recovery from Now, the global economy is slowly recovering from the melt down and showing small green shoots of growth therein financial turmoil across the world now recovering and witnessed a tremendous shakeout of the banking and financial sectors. Financial meltdown in the developed world resulted in heightened M&A activity, global consolidation among Tier 1 banking giants and the emergence of new market economies as opportunities for growth in the sector. Now, the global economy is slowly and gradually recovering from the melt down and showing small green shoots of growth therein.

GLOBAL MARKET

The world has learnt its lessons from recession and is actively taking steps to sustain India's advantage and make India's IT industry more resilient to global economic conditions. This optimism is being reflected in all parts of the world. As per NASSCOM, the Indian Software industry grew between 5-7% during the year 2011-12 within the 4-7 percent expansion projected earlier.

The cloud as a delivery model is also here to stay, and Indian IT service providers will need to adapt themselves in this new world order. From a growth perspective, the future is still bright and has been impacted by the after effects of recession, witnessed by everyone.

The US and Europe remain the biggest markets for outsourcing software related activities. Majority of the works from this market is being outsourced to destinations in the Asia Pacific region and East Europe.

INDIAN MARKET

Indian Software is creating an identity for itself today in the global marketplace. The combined market for Indian ERP software exports in financial year 2011-12 would reach nearly \$ 60 billion. The Indian ERP market is estimated to account for 34% of the domestic IT industry. The growth in the IT service market is estimated to be around 12% in US \$ terms. According to recent NASSCOM figure estimates that India has skilled manpower, all essential ingredients for the growth of ERP Software industry and it estimates that in India, the growth of 13-15% in FY 12 for the export sectors and 15-17% for the Indian Market. Previously, the biggest challenges that the Indian software industry was facing were awareness, skills and manpower development, infrastructure and financial support, which would require industry and government to partner. Now the industry has also enhanced its global workforce, hiring specialized talent in developed markets and building a truly global delivery model.

Further, the year end India Domestic Information and Communication Technology (ICT) Market Top 10 predictions 2010 report by leading ICT market intelligence firm international Data Corporation (IDC) India suggests that important structural changes brought about by the impact of economic slowdown will accelerate a order. This new phase of market growth and development, termed as 'Growth Phase 2.0' is evolving along trends that are quiet different from earlier phase, Growth Phase 1.0(2003-08) and Indian ERP software industry continues to dominate the global market place with 51 percent market share.

As per the findings, the coming years are going to represent a significant shift in terms of business models, service lines, customers and talent structure. There will be increased focus on higher end offerings such as system integration, consulting, business intelligence, knowledge services etc.

The industry is expected to generate an increasing share of revenues from the untapped SMB segment through improved pay per use business models and platform solutions. It is also expected to acquire domain expertise and near shoring capabilities to further advance India's value proposition as a global outsourcing hub.

●BUSINESS OVERVIEW

Even as the global economy struggles to recover from an unprecedented economic crisis, India is one of the few countries that are expected to record a healthy growth of 7% for fiscal 2011-12. A significant portion of all Indian business falls under the small and medium enterprise segment. SMBs are expected to emerge as a significant opportunity due to lower IT adoption currently.

○ Service providers are expected to enhance focus to domestic market to de-risk business and tap into the local growth opportunities.

Your Company has rightly identified the ERP software segment as the focus area. There has been a huge demand for ERP for SME segment which your company will address in a very substantial manner. The growing demand for ERP solutions in SME is evidenced by the entry of bigger player's viz. SAP, Oracle, Microsoft etc. into this area. The company would also continue to exploit various software modules which it has developed and developing, including inventory management, textile design and planning, hotel management, hospital management, etc.

A significant proportion of all Indian businesses fall under the small and medium enterprise segment. So, a broad-based, sustainable growth in the Indian economy can emerge only if the country's SMB enterprises record a healthy growth as they attempt to improve productivity, adopt best practices and bring innovative products to market.

BUSINESS MODEL

○ The future of the Indian ERP Software Industry looks very positive and we expect excellent opportunities in this field.

Your Company is developing the software in the following areas:

- Accounting with Inventory Management
- Hotel Management
- Pay Roll Management

A brief overview of the business model of your Company in the above divisions is as under :

●ACCOUNTING WITH INVENTORY MANAGEMENT:

Your Company shall focus in its inherent creative capabilities to build excellent quality ERP software for the Domestic Market. The horizons of the Indian ERP Software sector space is fast expanding and the use of Hi-end technology has brought new synergies to overall businesses perspective in the software arena.

Now days ERP Software for accounting with inventory management are helpful because by making a single entry, both records for accounting and inventory are updated simultaneously. Thereby it's becoming more popular among retail and medium scale business peoples as it serves as the effective tools for cost control and cost reduction.

Your Company has identified the potential of the domestic market and intends to target the retail and medium scale business organization by explaining the features of the software. Your company intends to use this huge demand.

HOTEL MANAGEMENT:

In the service sector, your Company shall be developing high quality content for International Clients. India becoming one of most tourists' spots in the world and many Foreigners are visiting India as tourist for knowing the different cultures, for visiting the heritage places in India and for taking better medical treatment considering cost and quality thereof. Hotel Industry in India is grasping this good opportunities and expanding their existing facilities including increasing the number of rooms and identifying and building the new construction with international standard. Your company has identified this and developing the software for hotel management in the area of billing, room booking, cancellation and various report for management purposes.

•PAY ROLL MANAGEMENT:

India is identified by the world as good place for commencing the new business considering availability of man power at low cost and other available resources in India. Further, Indian Government opens the market for FDI and FII for developing the infrastructures facilities in India. They are commencing their business activities by forming either subsidiary Indian company and employing various Indian contractors for executing the work. In India, Various labour laws have to be complied with while employing the Labourers in India. In order to complying the said laws and considering the number of labourers employed in the various industry, it require to maintain the details of employees and labourers with their statutory and other deduction they need pay roll management.

In the Pay Roll Management arena, your Company would be focusing on development of ERP software for fulfilling their needs and other statutory compliances in India for labourers and employees.

Archana Software Knowledge center will provide training in the field of ERP software programming and development thereof. Archana with its creative pool of talent shall impart production-oriented training with the blend of the latest technology.

NASSCOM report mention that ERP industry will continue to be a net hirer; direct employment expected to grow by 4 percent and cross 2.3 million with over 90,000 jobs added in FY09-10. However it also mentions that the number of professionals joining the industry will be lower than this figure. This scenario, they feel will be due to many factors such as lack of proper training institutes, lack of proper trainers , awareness about the industry, accredited courses etc.

The inherent characteristic of this industry is the lack of skilled talent. Archana intends to bridge its resource gap by imparting high quality education in this field.

OPERATIONS OVERVIEW:

The revenue of the company for the FY 11-12 was increased to Rs.462.44 lacs from Rs.316.82 lacs in FY 10-11 registering growth rate of 146% over previous year.

The Company has posted a Profit of Rs.57.56 Lacs for the year as compared to the previous year of Rs 47.54 lacs and registered the growth of 121%. There is no provision for taxation attracted considering the brought forward losses of the company.

Reason for increase in net profit of the company was due to recovering of market around the global and also reduction in employee cost , travel, professional charges among other heads in keeping with our goal of reduction in cost.

●THREATS, RISKS & CONCERNS

●Competition

As the industry is poised for exponential growth, a lot of Companies are entering this arena and the cost efficient competitors are increasing. Also in the global scenario, there is a huge advent of software companies in China, Korea, Philippines and Singapore. These Countries also have a huge cost advantage like India. Over and above that, the Government in such countries is actively supporting the growth of the Software Industry. However, due to global economic meltdown, companies may reduce or postpone their technology spending. Reduction in spending may result in lower demand and negatively affect our revenues and profitability. According to the World Economic Outlook Update published by International Monetary Fund in April 2010, GDP of US is estimated to contract by 7.8% in calendar 2011.

For the past several years, India has achieved healthy economic growth rates in the range 7.5-8%. The growth has been contributed by robust service sector performance as well as strong manufacturing output. India is being viewed as a key market among the emerging economies. Several multinational IT companies and Indian IT services companies are focusing on the Indian markets. This could affect our growth and profitability.

●Scarcity of Human Capital

This is an inherent problem with this industry. The skill required here has to be combination of creativity and synergizing of technology to bring the best results. There are very few training centers providing training which cater to the needs of the Industry. Also there is a lack of any organized channel of education and awareness as relating to the potential of this industry.

ARCHANA SOFTWARE LIMITED

•Capital Intensive and technology obsolesce

This Industry is very capital intensive and typically requires high-end systems and storage equipment and proper infrastructure planning. Also the methods, software's used in this field are dynamically changing and the advent of new technology, techniques and upgrades seem to be very fast. It poses a continuing challenge to companies in this Industry to adapt to newer technologies and also for the personnel to get trained and use these effectively.

INTERNAL CONTROL SYSTEMS:

The Company has an adequate systems and internal controls to safeguard the assets of the company; and to ensure maintenance of proper accounting records. Audit Committee periodically reviews the functioning of the entire system.

FINANCIAL PERFORMANCE:

During the year under review, the company has achieved operating profit of Rs.57.56 lacs for the year ended 31st March 2012. The net profit % on revenues amounts to 12.45.% approximately.

HUMAN RESOURCES AND INDUSTRIAL RELATIONS:

The Company makes efforts to ensure that employees are provided with a congenial work atmosphere. Facilities are equipped with state -of-the-art hardware, software and communication equipment apart from periodic recreational facilities to motivate the team. Continuously improving the quality of people through training in skill development as well as personality development.
