Summary of Significant Accounting Policies

1 Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention, on the accounting and in accordance with the accounting standards specified in section 211 (3C) of the Companies Act, 1956. Accordingly, the Company has complied with the accounting standards as applicable to a Non-Small and Medium size Company. All amounts are stated in Indian Rupees, except as otherwise specified.

2 Use of Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

3 Tangible and Intangible Fixed Assets and depreciation

Fixed assets are stated at cost less accumulated depreciation. The Company capitalises all costs relating to the acquisition and installation of fixed

Depreciation on fixed assets is calculated based on straight-line method at the rates and in the manner specified in Schedule XIV to the Companies Act, 1956. In case of plant & machinery depreciation is being charged based on 3 shifts at the rates mentioned in Schedule XIV.

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the Company measures its 'value in use' on the basis of undiscounted cash flows of next five years projections estimated based on current prices.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

4 Inventories

Inventories are valued at cost or not realisable value whichever is less

5 Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are valued at the lower of cost and fair value. Changes in the carrying amount of current investments are recognized in the Profit and Loss Account. Long-term investments are valued at cost, less any provision for diminution, other than temporary, in the value of such investments; decline, if any, is charged to the Profit and Loss Account. Cost comprises cost of acquisition and related expenses such as brokerage and stamp duties.

Deferred tax assets and liabilities have been enacted or substantively enacted by the Balance sheet date.  made of the amount of obligation- an appropriate provision is created and disclused;
- where, as a result of past events, there is a possible obligation that may, but probably will not require an outflow of resources- no provision is
 recognized but appropriate disclosure made as contingent liabilities unless the possibility of outflow is remote.
