### MANAGEMENT DISCUSSION AND ANALYSIS:

Indian economy recorded a growth rate of 7.1% in terms of real GDP in 2016-17. While agriculture growth rose to 4.4 % in 2016-17 from 0.8 % in 2015-16, service sector growth decline to 7.9% from 9.8 % during the same period. Inflation moderated, with the average level of consumer price inflation declining to 4.6% in 2016-17 from 4.9% % in 2015-16. FDI inflow increased by 12% in April-December period of 2016 compare to previous corresponding period. The growth inflation mix should continue to remain broadly unchanged in 2017-18. Going forward, headline GDP growth is likely to increase to 7.5 % in 2017-18 from 7.1% in 2016-17

The year was marked by major events namely demonetization of specified bank notes, conclusion of legislative assembly elections in five states, passage of Goods and Services Tax (GST) Bill by the Parliament. On November 8, 2016, the government announced the demonetization of ₹500 and ₹1,000 denomination notes, thereby rendering 86% of the cash in circulation as invalid. The decline in cash in circulation had led to increase in bank deposits with a resultant decline in interest rates on deposits, loans and government securities as well as a decline in real-estate prices, increase in savings, digitalization, income disclosure with a resultant increase in collections by tax and other local authorities. The immediate effect of demonetization was on the daily wages/earnings of the contract and unskilled laborer's employed in highly labour intensive, unorganized sector, construction, transportation sectors etc. These sectors are more dependent on cash for working capital requirements. There was a temporary decline in demand due to shortage of cash. This had caused layoff of contract workers, disruption in production activities due to manpower loss, etc. The impact of demonetisation is dissipating with entry of replacement notes in circulation.

This has affected largely to small NBFCs. India's financial services sector is diversified, comprising of entities such as commercial banks, co-operatives, insurance companies, pension funds, mutual funds, non-banking financial companies and other various entities. As on December 31, 2016, the total managed retail credit (including off balance sheet book) of NBFCs stood at ~Rs. 5.6 trillion, growing year-on-year by about 17.5% in 9M FY 2017 (as against 19.5% in FY 2016 and 14.8% in FY 2015). The total NBFC retail credit including SME exposure stood at about Rs. 6.2 trillion as on December 31, 2016, growing year-on year by about 19.0% in 9M FY 2017 (as against 21.2% in FY2016 and 16.2% in FY 2015).

The parliament took a decisive step towards a possible roll out of Goods and Services Tax (GST) on July 1, 2017 by passing therefore related legislations on GST. The state governments will have to pass the GST law in their respective state assemblies. GST will be a single levy to replace multiple central and state taxes to make the country a seamless national market and is expected to boost India's growth rate. According to RBI, GVA growth is projected to strengthen to 7.4% in 2017-18. Inflation is expected to average 4.5% in the first half and 5 % in the second half of the FY 2017-18. Domestic sales of passenger vehicles are expected to grow from 2.8 million in 2016 to 9.4 - 13.4 million by 2026. The Budget 2017 proposals include the Government's commitment to double the farmers' income in 5 years. With further boost to the infrastructure and rural sector announced in the Budget 2017, it will contribute in increasing the business of the Company.

## CEEJAY FINANCE LIMITED

---

As on now, company major focus is on two wheeler business in rural area. The growth rate of two wheeler industry and its financing pattern make direct impact on the performance of the company. After flat development in year 2015, two and three wheeler market improved in 2016. Compared production of 19429 thousand in 2014 and 19462 thousand in 2015 the segment growth is increased to 20814 thousand in 2016. However demonetization did impact two wheeler markets in the last quarter and after effects of this disruption are still felt in the first quarter of 2017. However against that, union budget for 2017-18 provides for increased allocation for rural development and welfare scheme. This will support positive development of this segment in current year. However financing its own product by manufacturers is big threat to small and middle level NBFC.

Our mission is to be sound NBFC among regional players in terms of product offerings, technology, service levels, risk management and audit and compliance etc. The objective is to continue building sound customer /franchises across distinct businesses so as to be a preferred provider of NBFC services for its target retail and customer segments, and to achieve a healthy growth in profitability, consistent with the company's risk appetite. The company's range of retail financial products and excellent services and branches net work is fairly exhaustive to meet up the coming challenges. The objective is continue to build sound customer/dealer friendly atmosphere to achieve healthy growth in profitability, consistent with company's risk appetite. The company also emphasizes to develop innovative products and services that attract its Customers, Increase its market share as NBFC and financial services industry by following a disciplined growth strategy focusing on balancing quality and volume growth while delivering high quality customer service, maintain reasonably good standards for asset quality through disciplined credit risk management; and continue to develop products and services that reduce its cost of funds; and Focus on healthy earnings growth with low volatility. Our company growth is more important especially looking to the concentration in rural area for the business. The company grew its retail assets portfolio in a well balanced manner focusing on both returns as well as risk. Company intends to follow conservative view in the coming years. Company also expects continuous threats to small/medium Company like us, from global/giant players in the retail finance market especially with large size/volume, lower rate of interest and ability to sustain in the market is inevitable for the company to sustain in the market.

Overall, in spite of various pros and cons your company has demonstrated outstanding achievement in terms of earned valued and well-built market presence. Your company is cash rich, has better liquidity, improved working capital and it has shown its readiness to accept market challenges. All of these are signs of strong fundamentals which the company has been able to establish with the help of better and professional management support.

### **RISK MANAGEMENT /SWOT ANALYSIS**

Your company has comprehensive Risk Management System towards identification and evaluation of all potential business risks. Management has developed Risk Management Plan and reviews its implementation regularly. The company is exposed to external and internal risk associated with its business. To counter these risks, the company continues to broaden its product portfolio, increase customer profile and geographic reach.

Taking on various types of risk is integral to the NBFC business. Sound risk management and balancing risk-reward trade-offs are critical to a company's success. Business and revenue growth have therefore to be weighed in the context of the risks implicit in the company's business strategy. Of the various types of risks your company is exposed to, the most important are credit risk, credit concentration risk, market risk, business risk, strategic risk, interest rate risk, model risk, technology risk including liquidity risk price risk and operational risk. The identification, measurement, monitoring and management of risks accordingly remain a key focus area for the Company. For credit risk, appropriate distinct policies and processes are in place for the retail businesses. Overall portfolio diversification and reviews also facilitate mitigation and management. Especially a small capital based company faces multiple problems due to poor recovery systems. The specific NPA provisions that the company has made continue to be more conservative than the regulatory requirements. This will help the company to maintain high standards for assets quality through disciplined credit risk management.

However, while the balance of risks in the last financial year were largely external, demonetization did impact two wheeler markets in the last quarter and after effects of this disruption are still felt in the first quarter of 2017.

The company has strength as being the pioneer in the two wheeler vehicles financing sector in Gujarat/Maharashtra, Oldest NBFC since last 20 years, sound financial position since inception, a well-defined and scalable organisation structure, strong financial track record with low Non-Performing Assets (NPAs), Experienced and stable management team, strong relationships with public, private as well as banks, fast Procedure. However your company is facing the threat of, small

organisation structure, availability of cheaper fund, competition with large NBFC's/Banks, direct manufacturer involvement in finance business and rain fall affecting rural area.
