MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry Overview:

The Indian economy recovered in the second quarter (Q2) of 2013-14 recording a growth of 4.8 per cent. This follows a growth rate of 4.4 per cent in the first quarter (Q1) of the current financial year 2014-15 the lowest in 16 quarters. Particularly encouraging is the fact that the recovery in Q2 is noticed on the face of significant fiscal consolidation by the Government and tighter liquidity conditions to moderate aggregate demand. The economy went through challenging times since the crisis in the Euro area in 2011-12 with a cyclical down turn with growth slowdown, elevated current account deficit, persistent inflation, and the need to restore fiscal policy to a sustainable path. While the Government delivered on the announced fiscal targets in 2012-13, current account deficit (CAD) continued to remain elevated in Q1 of 2013-14 and in tandem with market misperception of an imminence of the rollback of quantitative easing in US, assumed a serious dimension with the sharp depreciation of the rupee.

India has a wide scope of business opportunities in the field of IT & ITES for both Domestic & Overseas Markets. It has huge clientele in the US and provides employment opportunities to the huge mass of English speaking and computer literate people in the country. The success of the surviving companies proves that medical transcription can hold a vital link in altering the Indian job scenario.

2. Financial Performance:

	Amount (Rs. in Lakhs)
Particulars	2013-14
Total Income	361.36
Total Expenditure	280.71
Profit before Tax	80.65
Provision for Taxation	26.05
Profit after Tax	54.60
Transfer to General Reserve	2.00
Profit Available for Appropriation	52.60
Provision for Proposed Equity Dividend	30.00
Provision for Corporate Dividend Tax	5.09
Balance Carried to Balance Sheet	17.51

3. Opportunities:

With rising dollar rates and availability of skilled employees, the future of the Medical Transcription, Billing & Coding services industry looks fairly positive. Demand for skilled medical transcriptionists to transcribe dictations may decrease as voice recognition technology may replace the need for human transcribers. Currently, medical transcriptionists are responsible for capturing information from a dictation or other type of recording, and creating accurate reports with this information. Medical transcriptionists may work with various types of computer software programs and technologies to create these reports. When these activities are replaced by computers and software programs like voice recognition software, medical transcription services by employees may become obsolete, whereas the industry will keep moving forward.

5. Challenges, Risks, Concerns:

Today's technology service and support business model is rapidly changing. To successfully navigate the shifting landscape, leaders in the services industry need to anticipate these changes and identify strategic options to "future proof" their services business. A future scenario for Technology Services identifies key market and other forces that could potentially impact the future of the support services industry. Particular attention was paid to exploring the relationship between uncertainties that pose the greatest threat to the well-entrenched business model, value chain and customer value proposition that have defined the technology support services business for decades and which are already showing signs of weakening in the market place.

6. Human Resource Development:

The Company has a group of able and experienced employees. The Company believes that the quality of its employees is the key to its success in the long run. The Company continues to have cordial relations with its employees and provides personal development opportunities for all round exposure to them.

Further, we also encourage individual and team awards to sustain and institutionalize the various workforce practices. This helped in giving lots of encouragement to the workforce who have been striving hard to achieve various goals.

7. Cautionary Statement:

Statements in the Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include economic conditions affecting demand/supply and price conditions in the domestic and international markets in which the Company operates, changes in the Government regulations, tax laws and other statutes and other incidental factor.
