After that Company had issued and allotted 25,00,000; 6% Non Cumulative Redeemable Preference (NCRP) shares on 31-03-2004. Your Board of Directors of the Company had passed the Board resolution dated 1st May, 2004 and altered the terms and conditions subject to which those shares had been issued followed by the meeting of the preference share holders. SIGNIFICANT ACCOUNTING POLICY AND NOTES TO ACCOUNTS FOR THE YEAR ENDED SEPTEMBER 30, 2014**1. Background**

Basis of the preparations of financial statements are prepared accordance with "GAAP" under the historical cost conversion on the accrual basis. In accordance with the requirements of the Companies Act, 1956, accounting policies not referred to otherwise are consistent with generally accepted accounting principles and the provisions of the Companies Act, 1956.

2. Basis of Preparation

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year, except for the change in accounting policy explained below.

2.1 Summary of significant accounting policies**(a) Change in accounting policy****Presentation and disclosure of financial statements**

During the year ended September 30, 2014, the revised Schedule VI notified under the Companies Act 1956, has become applicable to the Company, for preparation and presentation of its financial statements. The adoption of revised Schedule VI does not impact recognition and measurement principles followed for preparation of financial statements. However, it has significant impact on presentation and disclosures made in the financial statements. The Company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

(b) Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

(c) Tangible fixed assets

Fixed assets are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and

maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

(d) Depreciation Tangible fixed assets.

Depreciation on fixed assets is calculated on a straight line method based on the useful lives estimated by the management, or those prescribed under the Schedule XIV to the Companies Act, 1956, whichever is higher. The company has used the following rates to provide depreciation on its fixed assets.

	Rates (WDV)
Furniture and fixtures	6.33%
Computers	16.21%
Vehicles	9.50%
Residential House	1.63 %

(e) Leases

Leases, where the less or effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

(f) Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

(g) Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. Investments are not physically verified by us.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties and finance charges of brokers, if an investment is acquired, or partly acquired, by the issue of shares or other securities.

Company has not making any provision for dimluation in the value of shares and securities. And as per management opinion there is no requirements to make any provisions for the same because it is temporary in nature

(h) Inventories

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(i) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured as per AS-9 Revenue recognitions issued by ICAI.

(j) Accounting for taxes on income

Tax expense comprises of current and deferred taxes. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.

Deferred tax assets are recognized only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Unrecognized deferred tax assets of earlier years are re-assessed and recognized to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realized. The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

(k) Retirement and other employee benefits

Company doesn't have any employee whose completed 5 year of continues services for provision for gratuity and other benefits. And Contributions payable by the Company to the concerned government authorities in respect of provident fund, family pension fund and employee state insurance are charged to the profit and loss account if any.

(l) Provisions

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

(m) Contingent liabilities

Provisions are recognized when the Company has present legal or constructive obligation, a result of past events, for which it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation. Contingent liabilities, if any, are disclosed by way of notes to the Balance Sheet
