OPERATIONS AND PROSPECTS:

Current year being one almost free of Dengue & Malaria cases resulted in lower bed utilisation, lower pharmacy as well as investigations compared to previous year when it was of epidemic proportions. This resulted in lack of revenue growth in all the three divisions of the Company namely **N G Medicare & Calcutta Hope Infertility Clinic, N G Nursing Home** and **N G Pharmacy**. High Inflation and slower growth of the economy in general, compounded with increased competition in the sector also posed challenges to the Company.

Higher Interest & Depreciation due to investment in new premises leading to higher utilisation of Bank credit as well as introduction of VAT on Pharmacy & other Sales and consequent assessed liability for past period has affected profits for the year. Service Tax on reverse charge basis introduced late last year also increased costs.

Inflationary pressures and economic slowdown raised employee costs for service sector companies like us. Enhanced Food coupons provided to employees as well as significant higher provisions towards Gratuity Fund contributions to LIC have raised employee costs during the year.

The Company relocated its Registered Office to its own newly acquired premises from April onwards. Company continues to meet the challenges and expects to perform well in the coming year.

DIVIDEND:

Your Directors recommend a Dividend of Rs. 3.50 per Equity Share (Previous Year Rs.3.50) for your consideration for the year ended 31st March, 2014. The Dividend will be paid after it is approved at the forthcoming Annual General Meeting.

Notes forming part of the Financial Statement

Particulars

1 Significant Accounting Policies

A Basis of accounting and preparation of financial statements

The financial statements have been prepared to comply in all material respects with the Accounting Standards notified by the Companies Accounting Standards Rules, 2006 and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on an accrual basis except in case of assets for which provision for impairment is made and revaluation is carried out.

B Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

C Fixed assets

Fixed assets are stated at cost of acquisition inclusive of duties, taxes, incidental expenses, erection / commissioning expenses and borrowing costs etc. up to the date the assets are ready for their intended use.

Machinery spares which can be used only in connection with an item of fixed assets and whose use as per technical assessment is expected to be irregular, are capitalised and depreciated over the residual life of the respective assets.

Fixed Assets retired from active use are valued at net realisable value.

D Depreciation

Depreciation on Fixed Assets is provided on written down value method at the rates prescribed in Schedule XIV of the Companies Act, 1956 or at rates determined based on the useful life of the assets, whichever is higher.

In case of impairment, if any, depreciation is provided on the revised carrying amount of the assets over their remaining useful life.

Assets created but not owned by the Company are amortised over a period of five periods.

E Impairment of assets

The carrying amount of assets is reviewed at each balance sheet date to determine if there is any indication of impairment thereof based on external / internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount, which represents the greater of the net selling price of assets and their 'value in use'. The estimated future cash flows are discounted to their present value at appropriate rate arrived at after considering the prevailing interest rates and weighted average cost of capital.

F Investments

Investments are valued at cost of acquisition, less provision for diminution as necessary.

Investments other than current investments, made by the Company are intended to be held for long-term, hence diminutions in value of quoted Investments are generally not considered to be of a permanent nature. Current investments indended to be held for a period less than 1 year from the date on which the investment is made are stated at cost adjusted for amortisation and diminution as necessary.

The management has laid out guidelines for the purpose of assessing likely impairments in investments and for making provisions based on given criteria. Appropriate provisions are accordingly made, which in the opinion of the management are considered adequate and also considering the prudential norms specified by the Reserve Bank of India, applicable to the Company in this behalf.

G Revenue recognition

Revenue (income) is recognised when no significant uncertainty as to determination/ realisation exists.

Sale of services

Revenue is recognised on accrual basis

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividends

Dividend is recognised when the shareholders' right to receive payment is established by the balance sheet date. Dividend from subsidiaries is recognised even if same are declared after the balance sheet date but pertains to period on or before the date of Balance Sheet.

H Earnings per share

Earning per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders, by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earning per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period are adjusted for the effects of all diluted potential equity shares.

I Taxation

Tax expense comprises of current and deferred tax.

Current income-tax are measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961.

Deferred tax is recognized on a prudent basis for timing differences, being difference between taxable and accounting income/expenditure that originate in one period and are capable of reversal in one or more subsequent period(s). Deferred tax asset is recognised on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such asset can be realised against future taxable income. Unrecognised deferred tax asset of earlier periods are re-assessed and recognised to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realised.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the period in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

J Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

K Contingent liabilities

Liabilities which are material and whose future outcome cannot be ascertained with reasonable certainty, are treated as contingent and disclosed by way of notes to the accounts.

Bank Guarantee in favour of CGHS for Rs.200,000 (Rupees: Two lacs only) (Previous year Rs.Nil) and in favour of Directrate of Commercial Taxes for Rs. Nil (Previous year Rs.75,000)(Rupees: Seventy five thousand only)

L Provisions

A provision is recognised when the company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance date and adjusted to reflect the current best estimates.

M Gratuity and post-employment benefits plans

Since the Company is covered under sub-paragraph (c) of the first paragraph of the Accounting Standard (AS) 15 (revised 2005) issued by Institute of Chartered Accountants of India ,therefore the following paragraphs of the said standard will not be applicable:
