## DIVIDEND

To conserve resources and to maintain liquidity, the Board has not recommended declaration of any dividend for the year under review.

#### YEAR IN PROSPECT

The world economy showed signs of recovery, during the year under review as compared to the previous year. The recovery signs were weak but clear in the United States and some parts of Europe. But during the latter part of the year, the state of Government finances in Greece and some other European nations were a cause of concern and put a big question mark on the future of Euro itself and thus threatened to be a destabilizing factor. After a very successful Olympics, the perils of over-heating of the economy were evident in China. Financial restructuring in Dubai may affect investments in the booming middle-east, which may impact the inflow of NRI remittances from this region.

As far as India is concerned, continuing double-digit inflation and an abnormal increase in food prices has been at the centre of a tight monetary policy being pursued by the regulator. But a good domestic demand scenario has kept the wheels of economy moving. The faith of international community in the India growth story was reflected in multifold increase in FII inflows. With China beating Japan as the second largest economy of the World and China and India continuing to be the two fastest growing economies in the word, the next decade definitely looks like an Asian decade.

Buoyed by a surge in demand from European countries viz. England, Denmark, Germany, Russia etc. your company expects to do better this year as compared to the year under prospect.

## DIRECTORS' RESPONSIBILITIES STATEMENT

Pursuant to the requirement under Section 217 (2AA) of the Companies Act, 1956 with respect to Directors' Responsibility Statement, it is hereby confirmed:

## **MANAGEMENT DISCUSSION & ANALYSIS**

#### **Industry Structure and Development**

The Indian Decorative Laminate industry is dominated by unorganized sector with a few players in the organized sector. The organized sector has been able to capture a majority share in the export market driven by sustained quality consciousness. Current market trends show a slow but steady recovery in European and American economies which are the main overseas markets for the Company's products.

#### **Opportunities and Threats**

Sustained demand in the Indian economy shall help the domestic sector come out of recession, but if the overseas markets do not recover in the near future it shall be a big challenge for the industry.

#### Segment-wise and Product-wise Performance

The Company is engaged primarily in manufacturing of Laminate Sheets and

there are no separate reportable segments as per the Accounting Standard 17.

#### Outlook

Exports shall remain the core growth area and a lot depends on overseas economic recovery. In the domestic sector, the outlook seems to be stable in long term, with the economy expected to perform better in the years to come. Though inflation is a worry which may dampen real spends in the economy, but an emphasis on infrastructure and housing shall push the demand for company's products.

#### **Risk and Concerns**

At the core of the company's risk-mitigating initiatives, there is a comprehensive and integrated risk management approach, which comprises stringent norms and regulations along with a prudent control mechanism. The risk management approach conforms to the company's strategic direction, which is in line with a desire to enhance value for all the stakeholders with a balanced risk appetite.

#### Internal Control Systems and their Adequacy

The company has a proper, independent and adequate system of internal controls to ensure that all the assets are protected against loss from unauthorized use of disposition and those transactions are properly authorized, recorded and reported correctly. The internal controls systems are designed in such a way to ensure that financial and other records are reliable for reporting financial statements and other data and for maintaining accountability of assets. Discussion on Financial Performance with respect to Operational Performance. The global economic meltdown has affected your Company also, with recession in Europe inducing a decline in exports, which contribute to a major share in revenue. But stringent cost controls have helped in maintaining profitability of operations. The management feels that the worst is over with better inquiries from the overseas markets during the current financial year.

#### Material Developments in Human Resources/Industrial Relations front, including number of people employed

The company maintained cordial industrial relations during the year.
