MANAGEMENT DISCUSSION AND ANALYSIS:

Industrial Structure and Development

Economic activities in India in 2012-13 remained weak due to both domestic and global factors. The slowdown in the global growth along with continued recession in the Euro Zone hurt sentiment. However, steady monetary easing, aided by fiscal austerity measures in developed economies helped to revive global growth towards the end of the year. India's GDP (Gross Domestic Product) growth decelerated continuously and steeply, moving from 9.2 per cent in the fourth quarter of 2010-11 to 4.5 per cent in third quarter of 2012-13, its slowest pace in four years.

The GDP growth in the first nine months of 2012-13 was 5 per cent as compared 6.6 per cent in the corresponding period in previous year. The slowdown in growth was broad based across sector. The manufacturing sector production fell from 3.6 per cent to 1.2 per cent. The growth slowdown was primarily due to the weakness in industrial activity aggravated by domestic supply bottlenecks. Slowdown in the services sector reflecting weak external demand, high interest rates and low level of capital investments due to drop in overall demand RBI experts a modest improvement in growth at 5.7 per cent in 2013-14 with a pick-up likely only in the second half of the year.

Outlook, Risk and Concern

The Company is exposed to specific risks that are particular to its business and the environment within which it operates including Credit risk (Corporate & Retail lending), Market risk (Liquidity and Interest rate risk) and Operational risk. The Company's risk policies outline the products offered, customer and client categories, credit approval processes with limits and risk monitoring and reporting.

A comprehensive and integrated risk management framework forms the basis of all the de-risking efforts of the Company. Reporting and control mechanisms ensure timely information availability and facilitate proactive risk management. We recognise that risk is inherent in our business and the markets in which we operate. As such the Company is committed to the creation and maintenance of strong risk management as well as rigorous control standards throughout the organisation. The Company's risk management policies encompass structured reporting and strict controls to ensure smooth running of the business and security of client's data.

Opportunities and Threats

The global economic environment has improved since the lows of the economic crisis of 2008-09. While there does remain a concern on sovereign risks in several Euro zone economies, the recent upside in the US economic activity and an improvement in labour markets are encouraging. While 2012-13 saw Indian economic growth slipping sharply vis-à-vis 2011-12. India continues to present a significant opportunity over the next few years.

Although, with the Indian growth declining in the past year or two, corporates are not feeling confident of their expansion plans with the result that investment activity is at one of its lowest. Lack of determined action from Government to jump-start investment cycle and carry on the reforms may continue to affect the financial services sector.

However, we believe the policy liberalization and forward-looking regulatory changes will help markets grow in size, thus making available newer opportunities for all participants in financial services.

Adequacy of Internal Control System

The Company maintains a system of well established policies and procedures for internal control of operations and activities, and these are continually reviewed for effectiveness. The internal control system is supported by qualified personnel and a continuous program of internal audit. The prime objective of such audits is to test the adequacy and effectiveness of all internal control systems laid down by the management and to suggest improvements. We believe that the Company's overall system of internal control is adequate given the size and nature of operations and effective implementation of internal control self assessment procedures. The Company encourages and recognizes improvements in work practices. The internal control system of the Company is also reviewed by the Audit Committee periodically.
