B. Management Discussion And Analysis Report

(1) This section shall include discussion on the following matters within the limits set by the listed entity's competitive position:

1. Industry structure and developments:

The Textile industry is of significant importance to the Indian economy. Manmade Fibers contribute to major share of global fiber basket along with share of cotton declining steadily. The shift is even more prevalent with the intensifying issues of cotton shortage and price volatility coupled with decrease in crude oil prices being main feed stock for petroleum products like polyesters etc. As in the past both demand and supply is expected to grow steadily.

2. Opportunities and Threats:

Polyester has overtaken cotton as the dominant fiber, but the cost and availability still plays major role in inter fiber substitution. Declining crude oil prices will significantly help polyester industry to grow at faster rate in near future.

Textiles, which is the country's second largest employment generating sector after agriculture has been hit hard since the global economic slowdown It is also facing problems of risk in raw material prices and high cost of credit.

3. Segment-wise or product-wise performance:

Company operates in single segment hence segment wise reporting is not applicable, Product wise performance is expected to improve.

4. Outlook :

Polyester filament fabric owing to its low-cost, versatility of characteristics, durability and wrinkle - resistance as well as very low per-capita consumption holds outstanding potential in India. However increase in the installed capacity may lead to price instability and pressure on profit margins. While the medium to long term projections for the industry is widely expected to be growth oriented, your company's operations have suffered adversely during the year under review due to problems narrated in the Directors' Report. Your directors are making efforts to reduce the cost raw materials by using recycled materials in place of virgin materials to improve capacity utilization.

5. Risks and concerns:

The company like any other business concern is subject business risks arising from interest rate fluctuations, raw material price fluctuations and global economic condition. Decline in crude oil prices resulting in reduction in key raw materials like PTA and MEG put pressure on margins of recycled materials and also results in slow down of demand. However this phase is considered temporary and in long run it will lead to increase in demand.

6. Internal control systems and their adequacy:

The company has adequate internal control systems and is in process of further strengthening the existing internal control systems. The financial statements are reviewed periodically by the management. The company has set up an internal Audit trail whereby deviations, if any, can be brought to the notice of the management quickly and remedial actions are initiated immediately.

Annexure - B to the Auditors' Report
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of AMIT INTERNATIONAL LIMITED ("the Company") as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may

occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

b. **Use of Estimates:**

The Preparation of financial statements in conformity with generally accepted accounting principles requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognized in the period in which the results are known or materialized.

- i. **Cash Flow Statement:** Cash Flow Statements reported using the indirect method. The cash flow from operating, investing and financial activities are segregated based on the available information.
- j. **Foreign Currency Transactions:** All transactions in foreign currency are recorded at the rates of exchange prevailing on the dates when the relevant transactions take place. Resultant gain or loss, except the extent it relates to long term monetary items, is charged to the Profit and Loss Account for the year. Such gain or loss relating to long term monetary items for financing acquisition of depreciable capital assets is adjusted to the acquisition cost of such asset and depreciated over its remaining useful life.
- k. **Borrowing Cost:** Borrowing costs that are attributable to the acquisition or construction of the qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for the intended use. All other borrowing costs are charged to revenue.

If there is any indication of impairment based on internal or external factors, i.e. when the carrying amount of the asset exceeds the recoverable amount, an impairment loss is charged to the Profit and Loss Account in the year in which an asset is identified as impaired. An impairment loss recognized in prior accounting periods is reversed or reduced if there has been a favorable change in the estimate or the recoverable amount. Recoverable amount is the higher of an asset's net selling price and value in use. However, there are no such transactions during the year.
- n. **Provisions, Contingent Liabilities and Contingent Assets:** The Company estimates the loss that might be incurred on outcome of contingencies on basis of information available up to the date on which the financial statements are prepared. A provision is recognized when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. In cases where the available information indicates that the loss on the contingency is reasonable possible but the amount of loss cannot be reasonably estimated, a disclosure to this effect is made in the financial statements. In case of remote possibility neither provision nor disclosure is made in the financial statement. The company does not account for or disclose contingent asset, if any.
