MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Directors are pleased to present the Management Discussion and Analysis Report for the year ended on 31st March, 2019.

GLOBAL ECONOMY

In 2018, the global economy began its journey on a firm footing with estimated global economic growth of 3.6%. During second half of 2018, this rate of development gradually declined, owing to some slow down across developed markets.

Emerging and developing markets of Asia maintained their steady progress at 6.4% during 2018. However its important note that India's economy expanded at 7.1% in 2018 against 6.7% in 2017, whereas China's growth deteriorated from 6.9% in 2017 to 6.6% in 2018. Sub-Saharan Africa's economy also sustained a steady rise of 3% during the year.

INDIAN ECONOMY

India continues to be one of the fastest growing major economies in the world and is expected to be among the world's top three economic powers in the next 10-15 years. The Indian economy is expected to improve and close the year 2019 with a GDP growth of 7.3%.

India witnessed a 23-notch jump to reach the 77th position in the World Bank's Ease of Doing Business rankings. The commencement of the US-China trade war opened a new opportunity for India. The growth of India's manufacturing sector to 8.3% from 5.7% in 2017-18 reflected a rebound from transitory shocks (the currency exchange initiative and implementation of the GST), with strengthening investments and robust private consumption. India is expected to grow at 7.3% in FY2019-20, benefiting from ongoing structural reforms.

(Source: CSO, Fitch, Economic Times, Business Standard, IBEF, Business Today, India Today, IMF)

INDUSTRY STRUCTURE AND DEVELOPMENTS

The economy has proved a consistent growth even after being affected by various factors. Overall the F.Y. 2018-19 has succeeded to nullify the effect over GDP up to certain extend.

ORGANISATION'S SEGMENTAL REVIEW AND ANALYSIS

During the financial year under review the company continues to derive its main revenue from ginning and related agro by product, wholesale of textiles, fabrics, yarn etc. The company is planning to adopt new set of Memorandum & Articles of Association of the Company in order to timely and better compliance and view the rights, powers and benefits of the stakeholders of the Company in accordance with the provisions of the Companies Act, 2013. Your company's performance continues to be sustained at satisfactory levels. It is expected that the economy will grow in the coming years and enable to regain steady or better performance.

OUTLOOK

India's growing population is a key driver of consumption growth of textiles in the country. It has been complemented by a growing young earning population which is exposed to changing tastes and fashion. Complementing this factor is rising female workforce with higher purchasing power. Rising incomes in rural as well as urban economy has also given way to increase in demand for garments and home textiles. Gujarat's contribution towards the cotton textile and yarn has been at peak in the entire country. The maximum cultivation of cotton is being carried out in Gujarat. Despite of overall slump in India's textile sector, Gujarat maintains 18% growth rate. Currently in Gujarat, there are 144 composite mills including those for spinning, 897 cotton ginning and processing units. There is an export of 60 to 80 lakhs cotton bales every year. The Company has succeeded in having an inflow of Foreign Currency of ₹ 30,60,52,272.00 Evaluation shows that cotton and yarn manufacturing sector turns to a favorable sector for Gujarat.

OPPORTUNITIES AND THREATS

Cotton is an irreplaceable fiber owing to which the domestic consumption of cotton has always been consistent. Government efforts and policies have acted to conducive towards the business of cotton value chain from yarn to garments. India has a good production and cultivation of cotton. Chinese export has been slowing gradually owing to

Jayatma Industries Limited

rising labour costs. Also, recently strong yuan against dollar has made exports from China less lucrative. In its effort to curtail unsustainable investments, China is in the process shifting its production capabilities from commodity base to specialty base. All these factors impact the growth of textile industry in China, which opens up space for other players in the market. India can take advantage by boosting its exports by about 15-20% to US and European Union. India is competitively positioned in terms of low labour and power cost against most of the competing countries. However, lack of duty free access to major markets is the major disadvantage India has vis-à-vis many competing countries. Complex labour laws, difficulty in starting up a business, highly fragmented structure of the industry, few trade agreements and poor infrastructure are the main hindrances in this matter. Lack of investment in research and development, lowering margins due to fierce competition and e-commerce, and volatile raw material prices may pose a threat to progress of textile industry. Cotton Textile and yarn industry being a primary crop based industry largely depends upon the weather conditions which are very fluctuating in India.

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The financial performance of the Company for the year 2018-19 is described in the Directors' Report under the head Financial Result.

RISKS AND CONCERNS

Rising incomes in rural as well as urban economy has also given way to increase in demand for fitness apparel, short fashion cycles, requirement of low cost and high performance material for automotive and industrial use have increased the demand for synthetic and man-made fibre (MMF) products which has majorly impacted the sale of cotton textile and cotton yarn. Stress in the Banking industry and the over cautious approach of banks has impacted the liquidity of market.

INTERNAL CONTROL SYSTEM AND ADEQUACY

The Company's internal control systems and procedures commensurate with the size and nature of its operations. These systems are designed to ensure that all the assets of the Company are safeguarded and protected against any loss and that all the transactions are properly authorized, recorded and reported. In addition to internal checks, Audit is conducted by independent Chartered Accountants, on a quarterly basis to examine, in addition to the financial controls, the adequacy and compliance with policies, plans and statutory requirements. The Audit Committee is headed by an Independent Director and this ensures independence of functions and transparency of the process of supervision. The Committee meets on a regular basis to review the process. The management duly considers and takes appropriate action on the recommendations made by the auditors and the independent Audit Committee of the Board of Directors.

HUMAN RESOURCES

Management recognizes that employees represent our greatest capital assets and it is only through motivated, creative and committed employees that we can achieve our aims. The Company provides to its employees favorable work environment that motivates performance and innovation while adhering to high degree of quality and integrity. The Company continuously nurtures this environment to keep its employees highly motivated and result oriented. Industrial relations during the year continued to be cordial and the Company is committed to maintain good industrial relations through effective communication. Customized training programs are conducted on a continuing basis.

CAUTIONARY STATEMENT

Statements in this Management Discussions and Analysis Report describing the Company objectives, projections, estimates, expectations or predictions may be 'forwarded looking statements' within the meaning of applicable security laws or regulations. These statements are based on reasonable assumptions and expectations of future events. Actual results could however, differ materially from those expressed or implied. Factors that could make a difference to the Company's operations include market price both domestic and overseas availability and cost of raw materials, change in Government regulations and tax structure, economic conditions affecting demand/supplies and other factors over which the Company does not have any control. The Company takes no responsibility for any consequences of decisions made based on such statements and holds no obligation to update these in future.

INDEPENDENT AUDITORS' REPORT

TO,
THE MEMBERS OF JAYATMA INDUSTRIES LIMITED
(FORMERLY KNOWN: SANTARAM SPINNERS LTD)

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Jayatma Industries Limited (Formerly Known as Santaram Spinners Limited) ("the Company"), which comprise the Balance Sheet as at 31st March 2019, the statement of Profit and Loss (including other comprehensive income), Cash Flow Statement for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at **31/03/2019**, and its **Profit** and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

The Key Audit Matter	How our audit addressed the key audit matter
A. Valuation of Inventories. Refer to note 7 to the financial statements. As described in the accounting policies in note 2.6 to the financial statements, inventories are carried at the lower of cost and net realizable value. As a result, the management applies judgment in determining the appropriate provisions for obsolete stock based upon a detailed analysis of old inventory, net realizable value below cost based upon future plans for sale of inventory.	We obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions by:- <ol style="list-style-type: none"> 1. Completing a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk. 2. Verifying the effectiveness of key inventory controls operating over inventories; including sample based physical verification. 3. Verifying for a sample of individual products that costs have been correctly recorded. 4. Comparing the net realizable value to the cost price of inventories to check for completeness of the associated provision.

Jayatma Industries Limited

The Key Audit Matter	How our audit addressed the key audit matter
B. Valuation and existence of Current Investments Valuation and existence of Current Investments designated at fair value through profit or loss are valued at 21.05 lakh and classified as level 1 financial instruments in the fair value hierarchy. Further disclosures on the Investments are included in note 8 to the financial statements. This was an area of focus for our audit and the area where significant audit effort was directed. As at March 31, 2019, the Investments are in mutual funds and are majorly actively traded with readily available, quoted market prices/net assets value.	Our audit procedures included updating our understanding of the business processes employed by the Company for accounting for, and valuing, their investment portfolio. We obtained accounts confirmation from the mutual funds and verified that the company was the recorded owner of all investments. Our audit procedures over the valuation of the Investments included agreeing the fair valuation of all Investments held at March 31, 2019 to the Net Assets Value provided by the respective Mutual funds. Our Observation: Based on the audit procedures performed, we are satisfied with valuation and existence of current investment.

Other Information (or another title if appropriate, such as “Information Other than the Standalone Financial Statements and Auditors’ Report Thereon”)

The Company’s management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company’s annual report, but does not include the financial statements and our auditors’ report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for Financial Statements

The Company’s Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position and financial performance of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements

as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. This report doesn't include a statement on the matters specified in paragraph 3 and 4 of the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India, in terms of sub section 11 of section 143 of the companies Act, 2013 since in Our opinion and according to the information and explanation given to us, the details of the said Order are given in **Annexure A** to this Report.

ANNEXURE - 'B' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to clause (f) of Paragraph 9 to the Independent Auditor's Report of even date to the members of Jayatma Industries Limited (formerly known as Santaram Spinners Limited) on the Ind AS financial statements for the year ended 31st March,2019)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Jayatma Industries Limited** ("the Company") as at 31st March, 2019 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act,2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013 ,to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment ,including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2019**1. CORPORATE AND GENERAL INFORMATION**

JAYATMA INDUSTRIES LIMITED (formerly known as SANTARAM SPINNERS LIMITED) (“the company”), is a public limited Company incorporated as private limited company in 1983 and subsequently converted to public limited company in 1994. The company’s shares are listed on Bombay Stock Exchange. The registered office of the Company is located at 259, 3rd Floor, New Cloth Market, Outside Raipur Gate, Ahmedabad- 380002. The company is engaged in manufacturing and trading of cotton – Kapas, ginning cotton bales, raw oil and its agro by- products and yarn.

2. BASIS OF ACCOUNTING AND SIGNIFICANT ACCOUNTING POLICIES**(A) BASIS OF ACCOUNTING****2.1 Statement of Compliance**

These financial statements have been prepared in accordance with the Indian Accounting Standards (“Ind AS”) as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (“the Act”), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India.

2.2 Basis of Measurement

The financial statements have been prepared on historical cost convention, except for following:

- Financial assets and liabilities (including derivative instruments) that are measured at fair value/ amortised cost;
- Non-current assets held for sale, if any, are measured at the lower of the carrying amount and fair value less cost to sell;

2.3 Functional and Presentation Currency

The financial statements have been presented in Indian Rupees (‘), which is also the Company’s functional currency. All financial information presented in (‘) has been rounded off to the nearest Rupee as per the requirements of Schedule III, unless otherwise stated.

2.4 Use of Estimates and Judgments

The preparation of financial statements require judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities including contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between actual results and estimates are recognized in the period prospectively in which the results are known/materialised.

2.5 Current Vs. Non-Current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period ; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non-current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months as per the reporting period ; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities respectively.

(B) SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the financial statements are given below. These accounting policies have been applied consistently to all the periods presented in the financial statements.

2.6 Inventories

Inventories are valued at the lower of cost and net realizable value.

- Raw materials, stores and spares and loose tools are valued at lower of cost and net realizable value. Cost includes cost of purchase, non-refundable taxes and other costs incurred in bringing the inventories to their present location and condition. Cost is computed on weighted average basis.
- Finished Goods: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing cost. Cost is determined on weighted average cost basis.
- Traded Goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated cost necessary to make the sale.

2.7 Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and in hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

2.8 Income Tax

Income tax comprises current and deferred tax. It is recognized in the statement of profit and loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

a) Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted, by the end of the reporting period.

b) Deferred Tax

Deferred tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

- Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes (i.e. tax base). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.
- Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.
- The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Company reduces the carrying amount of a deferred tax asset to the extent that it is no

longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire deferred tax asset to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

- Deferred tax relating to items recognised outside the statement of profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly inequity.
- Deferred tax assets and liabilities are offset when there is a legally enforceable right to setoff current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

2.9 Property, Plant and Equipment

a) Recognition and Measurement

- Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost, less any accumulated depreciation/ amortisation and accumulated impairment losses (if any).
- Cost of an item of property, plant and equipment acquired comprises its purchase price, including non-refundable import duties and taxes, as per deducting any trade discounts and rebates, borrowing cost, if capitalization criteria is met and any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located. However cost excludes excise duty, value added tax and service tax and GST, to the extent credit of the duty or tax is availed of.
- Profit or loss arising on the disposal of property, plant and equipment are recognized in the statement of profit and loss. Gain or losses on disposals are determined by comparing proceeds with the carrying amount. These are included in the Statement of Profit and Loss within Other Gain/Losses.

b) Subsequent Expenditure

- Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for any component accounted for as a separate asset is derecognised when replaced.
- Major inspection /repairs /overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any unamortised part of the previously recognised expenses of similar nature is derecognised.

c) Depreciation and Amortisation-Tangible Assets

- Depreciation on property, plant and equipment is provided on straight line method at the rates determined based on the useful lives of respective assets as prescribed in the Schedule II of the Act.
- Each part of items of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.
- Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).
- Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted, if appropriate.
- The residual value for all the assets are retained at 5% of the cost
- Useful life of the Tangible assets as per Part C of Schedule II of the Act read with notification dated 29.08.2014 of Ministry of corporate affairs is as follows :

Category of assets	Useful life of Asset as per Schedule II
Building	30 Years
Plant & Machinery	15 Years
Electric installation	10 Years
Computer	6 Years
Vehicles	6 Years
Office Equipment	5 Years
Furniture & Fixtures	10 Years

d) Reclassification to Investment Property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property only when it has substantial value on the date of reclassification and if so it is reclassified at its carrying amount.

2.10 Amortization of Intangible Assets

Intangible assets acquired are accounted at their acquisition cost and are amortised over its useful life.

2.11 Impairment of Non Financial Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which these are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.12 Leases

a) Determining whether an arrangement contains a lease

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, (or contains), a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

For arrangements entered prior to the date of transition, the Company has determined whether the arrangement contains a lease on the basis of facts and circumstances existing on the date of transition.

b) Company as lessor

a. Finance Lease

Leases which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item are classified and accounted for as finance lease. Lease rental receipts are apportioned between the finance income and capital repayment based on the implicit rate of return. Contingent rents are recognised as revenue in the period in which they are earned.

b. Operating Lease

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease except where scheduled increase in rent compensates the Company with expected inflationary costs.

c) Company as Lessee

Finance Lease

Finance leases, which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the lower of the fair value and

present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease Payments under such leases are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly to the statement of profit and loss. Lease management fees, legal charges and other initial direct costs are capitalised.

If there is no reasonable certainty that the Company will obtain the ownership by the end of lease term, capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Operating Lease

Assets acquired on leases where a significant portion of risk and reward is retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on a straight-line basis over the lease term, except where scheduled increase in rent compensates the lessor with expected inflationary costs.

2.13 Revenue Recognition

- Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government.
- The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specific of each arrangement.

a) Sale of Goods

Revenue from the sale of goods is recognized when significant risks and rewards of ownership are transferred to customers and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. Revenue from the sale of goods is measured at the fair value of the consideration received or receivables, net of returns and allowances, trade discounts and volume rebates.

b) Sale of Services

Revenue from services is recognized in the accounting period in which the services are rendered and when invoices are raised.

c) Interest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income (FVTOCI), interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

d) Dividend Income

Dividend income from investments is recognised when the Company's right to receive payment has been established.

e) Other Operating Revenue

Export incentives and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions attached to them and the incentive will be received. Other Operating Revenue includes trade discounts, cash discounts, sample allowance and other charges related to Business operation.

2.14 Employee Benefits**a) Short Term Employee Benefits**

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months as at the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period.

b) Other Long Term Employee Benefits

The known liabilities for earned leaves that are not expected to be settled wholly within twelve months are measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method.

c) Post Employment Benefits

- **Defined Benefit Plans**

The known liability, if any, recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method. In other cases, such expenditure are charged to Statement of Profit and Loss Account considering it as Short Term Benefits.

- **Defined Contribution Plan**

Defined contributions, if any, to Statutory Schemes are charged to the statement of profit and loss of the year.

d) Termination Benefit

Expenditure incurred on Voluntary Retirement Scheme is charged to the statement of profit and loss immediately.

2.15 Foreign Currency Transactions

- Foreign currency transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions.
- Foreign Currency Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.
- Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are recognised in profit or loss in the year in which they arise.
- Non-monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

2.16 Borrowing Cost

- Borrowing Costs consist of interest and other costs that an entity incurs in connection with the borrowings of funds.
- Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalised as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use. The Company considers a period of twelve months or more as a substantial period of time.
- All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

2.17 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial Assets

- **Recognition and Initial Measurement:**

All financial assets are initially recognised when the Company becomes a party to the contractual provisions of the instruments. A financial asset is initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

- **Classification and Subsequent Measurement:**

For purposes of subsequent measurement, financial assets are classified in four categories:

- Measured at amortised cost;
- Measured at fair value through other comprehensive income (FVTOCI);
- Measured at fair value through profit or loss (FVTPL); and
- Equity Instruments measured at fair value through other comprehensive income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

- **Measured at amortised cost**

A financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

As per initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

- **Measured at FVTOCI**

A financial asset is measured at the FVTOCI if both the following conditions are met:

- The objective of the business model is achieved by both collecting contractual cash flows and selling the financial assets; and
- The asset's contractual cash flows represent SPPI.

Financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognised in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognised in the statement of profit and loss in interest income. Where the asset is disposed of, the cumulative gain or loss previously accumulated in other comprehensive income reserve is transferred in the statement of profit and loss.

- **Measured at FVTPL**

FVTPL is a residual category for financial assets. Any financial assets, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as FVTPL. In addition, the Company may elect to designate a financial asset, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. Financial asset included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss. Interest / dividend income on financial instruments measured at FVTPL are presented separately under other income.

- **Equity Instruments measured at FVTOCI**

All equity investments in scope of Ind AS – 109 are measured at fair value. Equity instruments which are, held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value

in other comprehensive income. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. In case the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no reclassification of the amounts from OCI to the statement of profit and loss, even on sale of investment.

- **Derecognition**

The Company derecognises a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

- **Impairment of Financial Assets**

In accordance with Ind As 109, the company uses Expected Credit Loss (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses measured through a loss allowance at an amount equal to:

- 1.) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date);or
- 2.) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For all financial assets, the company uses 12 month ECL, if any, to provide for impairment loss where there is no significant increase in credit risk. If there significant increase in credit risk full lifetime ECL is used.

b) Financial Liabilities

- **Recognition and Initial Measurement**

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

- **Subsequent Measurement**

Financial liabilities are measured subsequently at amortised cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

- **Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

- **Offsetting Financial Instruments**

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

2.18 Provisions, Contingent Liabilities and Contingent Assets

a) Provisions

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions, if any, are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Onerous Contracts:

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist when a contract under which the unavoidable costs of meeting the obligations exceed the economic benefits expected to be received from it.

b) Contingent Liabilities

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognised because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in other notes to financial statements.

c) Contingent Assets

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent assets are not recognised though are disclosed, where an inflow of economic benefits is probable.

2.19 Investment properties

- Investment property, if any, is property (comprising land or building or both) held to earn rental income or for capital appreciation or both, but not for sale in ordinary course of business, used in the production or supply of goods or services or for administrative purposes.
- Upon initial recognition, an investment property is measured at cost. Subsequently they are stated in the balance sheet at cost, less accumulated depreciation/amortisation and accumulated impairment losses, if any.
- Any gain or loss on disposal of investment property is determined as the difference between net disposal proceeds and the carrying amount of the property and is recognised in the statement of profit and loss.
- The depreciable investment property i.e., buildings, are depreciated on a straight line method at a rate determined based on the useful life as provided under Schedule II of the Act.
- Leasehold land if any, is amortised on a straight line basis over the period of lease.
- Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from the use and no future economic benefit is expected from their disposal. The net difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

2.20 Non-current assets (or disposal groups) held for sale and discontinued operations

- Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of the carrying amount and the fair value less cost to sell.
- An impairment loss, if any, is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases

in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

- Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Non-current assets (or disposal group), if any, classified as held for sale are presented separately in the balance sheet. Any profit or loss, if any, arising from the sale or Remeasurement of discontinued operations is presented as part of a single line item in statement of profit and loss.

2.21 Earnings Per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding during the period are adjusted for the effects of all dilutive potential ordinary shares.

2.22 Cash dividend distribution to equity holders

The Company recognizes a liability to make cash distributions to equity holders of the Company when the distribution is authorized and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

2.23 Measurement of Fair Values

A number of the accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- **Level 1** — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- **Level 2** — Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- **Level 3** — Inputs which are unobservable inputs for the asset or liability.

External valuers are involved for valuation of significant assets and liabilities. Involvement of external valuers is decided by the management of the Company considering the requirements of Ind AS and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

2.24 New Standards / Amendments to Existing Standard issued but not yet effective upto the date of issuance of the Company's financial statements are disclosed below.

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Rules, has notified the following new and amendments to Ind AS which the company has not applied as they are effective from 01st April, 2019. The Company will adopt new standard and amendment to existing standards with effect from 1st April, 2019.

Ind AS 116: Leases – Ind AS 116 will supersede the existing Ind AS 17. The new standard provides a comprehensive model to identify lease-arrangements and the treatment thereof in the financial statements of both the lessee and lessor. The new standard requires entities to make more judgments and estimates (e.g., determining when a customer has the right to direct the use of an identified asset, estimating the incremental rate of borrowing) and make more disclosures (e.g., discount rate, weighted average lease term, other qualitative and quantitative information).

Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Ind AS 17 required classifying leases as finance lease and operating lease, the same is not required under Ind AS 116. Under Ind AS 116, a lessee measures right-of-use assets similar to other non-financial assets (such as property, plant and equipment) and lease liabilities similarly to other financial liabilities.

On initial application the Company will recognise new assets and liabilities for its operating leases of premises and other assets. The nature of expenses related to those leases will change from lease rent in previous periods to a) amortization change for the right-to-use asset, and b) interest accrued on lease liability.

Requirements with regard to lessor accounting are substantially similar to accounting requirements contained in Ind AS 17. Accordingly, a lessor will continue to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The Company is proposing to use the 'Modified Retrospective Approach' for transitioning to Ind AS 116 without adjusting the Comparatives.

The Company is currently evaluating the impact this standard will have on its financial statement.

a) **Ind AS 12 – Income taxes (amendments relating to income tax consequences of dividend and uncertainty over income tax treatments)**

The amendment relating to income tax consequences of dividend clarify that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The Company does not expect any impact from this pronouncement. It is relevant to note that the amendment does not amend situations where the entity pays a tax on dividend which is effectively a portion of dividends paid to taxation authorities on behalf of shareholders. Such amount paid or payable to taxation authorities continues to be charged to equity as part of dividend, in accordance with Ind AS 12.

The amendment to Appendix C of Ind AS 12 specifies that the amendment is to be applied to the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. It outlines the following: (1) the entity has to use judgement, to determine whether each tax treatment should be considered separately or whether some can be considered together. The decision should be based on the approach which provides better predictions of the resolution of the uncertainty (2) the entity is to assume that the taxation authority will have full knowledge of all relevant information while examining any amount (3) entity has to consider the probability of the relevant taxation authority accepting the tax treatment and the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates would depend upon the probability. The Company does not expect any significant impact of the amendment on its financial statements.

Amendment to Ind AS 19 – plan amendment, curtailment or settlement- Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', On 30th March, 2019, in connection with accounting for plan amendments, curtailments and settlements. The Company does not have any impact on account of this amendment.

Ind AS 23 – Borrowing Costs-The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings. The Company does not expect any significant impact from this amendment.

Ind AS 103 – Business Combinations and Ind AS 111 – Joint Arrangements

The amendments to Ind AS 103 relating to re-measurement clarify that when an entity obtains control of a business that is a joint operation, it re-measures previously held interests in that business. The amendments to Ind AS 111 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not re-measure previously held interests in that business. This amendment is currently not applicable to the Company.

Ind AS 109 – Prepayment Features with Negative Compensation

The amendments relate to the existing requirements in Ind AS 109 regarding termination rights in order to allow measurement at amortised cost (or, depending on the business model, at fair value through other comprehensive income) even in the case of negative compensation payments. The Company does not expect this amendment to have any impact on its financial statements.

2.25 Rounding of Amounts

All amounts disclosed in financial statements and notes have been rounded off to nearest rupees as per the requirements of Schedule III, unless otherwise stated.

2.26 Significant Judgments and Key sources of Estimation in applying Accounting Policies

Information about significant judgments and key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

a) Recognition of Deferred Tax Assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilised. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

b) Useful lives of depreciable/ amortizable assets (property, plant and equipment)

Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets.

c) Provisions and Contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.

d) Impairment of Financial Assets

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.

e) Fair value measurement of financial Instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The input to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility.

13. Financial Risk Management

The Company has a risk management policy which covers risk associated with the financial assets and liabilities. The risk management policy is approved by the Directors. The different types of risk impacting the fair value of financial instruments are as below:

a. Financial instrument and cash deposit

Credit risk is limited as the Company generally invest in deposits with banks and in mutual funds having high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investments in mutual fund units. Counterparty credit limits are reviewed by the Company periodically and the limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

b. Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its financial obligations as they become due. The Company monitors its risk by determining its liquidity requirement in the short, medium and long term. This is done by drawing up cash forecast for short term and long term needs. The Company manages its liquidity risk in a manner so as to meet its normal financial obligations without any significant delay or stress. Such risk is managed through ensuring operational cash flow while at the same time maintaining adequate cash and cash equivalent position. The management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity monitoring future cash flow and liquidity on a regular basis. Surplus funds not immediately required are invested in certain mutual funds which provide flexibility to liquidate. Besides, it generally has certain undrawn credit facilities which can be used as and when required; such credit facilities are reviewed at regular basis.

c. Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument fails to perform or pay the amounts due, causing financial loss to the company. Credit risk arises from company's activities in investments, dealing in derivatives and outstanding receivables from customers.

The Company has a prudent and conservative process for managing its credit risk arising in the course of its business activities. Sales made to customers on credit are generally made considering their past track record with the Company.

d. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of following risk: interest rate risk, foreign currency risk, other price risk. Financial instruments affected by market risk include borrowings, trade receivable and trade payable.

e. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates.

The Company is exposed to risk due to interest rate fluctuation on its non-current and current borrowings with floating interest rate. Interest rate risk is determined by current market interest rates, projected debt servicing capability and view on future interest rate. Such interest rate risk is actively evaluated and is managed through portfolio diversification and exercise of prepayment/refinancing options where considered necessary.

f. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company does not have significant foreign currency exposure.

g. Other price risk

The Company's exposure to securities price risk arises from investments held by the Company and classified in the balance Sheet either at fair value through OCI or at fair value through profit and loss. Having regard to the nature of securities, intrinsic worth, intent and long term nature of securities held by the Company, fluctuation in their prices are considered acceptable and do not warrant any management.

Dear Shareholder(s),

This is to inform you that the Company is in process of updation of records of the shareholders in order to reduce the physical documentation as far as possible.

With new BSE listing agreement, it is mandatory for all the investors including transferors to complete their KYC information. Hence, we have to update your Permanent Account Number (PAN), Telephone / Mobile No., E-mail ID and Bank Account details in our records. We would also like to update your current signature records in our system.

To achieve this we solicit your co-operation in providing the following details to us:

1. If you are holding the shares in dematerialized form you may update all your records with your Depository Participant (DP).
2. If you are holding shares in physical form, you may provide the following:
