CENTENIAL SURGICAL SUTURE LTD.

Annual Report 2010 - 2011

Chairman and Managing Director's Report

To the Shareholders,

Your Directors have pleasure in presenting their Sixteenth Annual Report together with the Audited Accounts of the Company for the year ended March 31, 2011. This is the sixteenth year in the journey of Centenial Surgical Suture Ltd.

Our world grows more complex everyday and we encounter increased challenges. The CENTENIAL management and its staff have risen to challenges for more than 16 years, with commitment, hard work and are confident we will continue to do so in the years' ahead. Through all these years, our Company has faced many tough times and enjoyed equal moments of glory. Everything is worth it, if one is able to create lasting values and a strong core. In the past too, there have been sharp swings in business cycles and there will be more of these in the future, though hopefully not of the magnitude and ferociousness we are seeing today. And each time in the past we have come out of the eye of the storm, we have emerged fitter, stronger and the passion for Innovation is vibrant and urgent. We have been able to create a foundation, which is enabling us to overcome challenging times such as now and helping us to adapt to the current situation while retaining our strength to fulfill the long-term vision.

Our values always guide us, and our history and heritage as a company, in one word, stands for trust, service and high Quality. Our demanding standards of governance have set us apart, even more, now, and in the future. Clearly investors and employees will appreciate and learn to value and differentiate between organisations like ours that are ethical, honest, well-governed and transparent, and others, for whom governance is a platitude. This is a huge strength, built over time into our genetic coding. It will always stand us in good stead. We are focusing on building strong administrative and support functions and have concurrently invested in systems for financial accounting, accurate billing, objective legal system, strong human resources and excellent Quality. Your company will exploit its strengths in cardio and vascular sutures business and exploring growth opportunities. Clearly the way to succeed in this market is through improved processes and enhanced production of the right Quality. Despite the negativity of growth we are confident that your company will give an encouraging performance during this financial year, with higher sales growth and improved profitability as compared to the previous year. This would have a long lasting positive impact on both yield levels and productivity.

We have a brand name which stands for Quality, reliability, commitment and integrity. The CENTENIAL name is pronounced with great deal of respect, in domestic as well as international markets. It has been created through sheer sincere dedication. This makes us believe that it will be long lasting and something we can build further on.

In July 2011, our Company completed its 16th year of operations. Market conditions have been challenging. Credit allocation is a factor to contend with. Your Company has been working through this demanding situation to ensure that viable products move forward. In some cases, we have been successful. Your Company continues to be impacted adversely by prices. This has resulted in higher accumulation of receivables and with the sale of products at a discounted prices resulting lower sales and profitability.

To further your company's growth, the Cardio Vascular products is being given additional impetus. New production lines have been established to increase the production substantially in the coming years. The management of your company is planning to increase the market share of Cardio Vascular products business. Confidence in our products will further accelerate the success rate in the coming years. Considering the challenging business environment your Company's performance can be termed as satisfactory.

Our customers have never wavered in their unanimous opinion of our capability and our commitment to serve them. A strong and satisfied client base is more than borne out by the fact that we still continue to draw 80% of our business from repeat customers.

Even after sixteen years, the passion for innovation is vibrant and urgent. It also gives us happiness that SURGEON'S have reposed faith in our ability to make a difference. We have a brand name, which stands for reliability, commitment and SAFETY. The **Centenial** name is pronounced with great deal of respect, in the domestic market. It has been created through sheer dedication. This makes us believe that it will be long lasting and something we can build further on. More than 95% of the current workforce has grown with us, with some clocking more than ten years. They realize the value of success and the hard work required to sustain this success. They have been an important part of the journey of creating value leadership. We think our spirit and our resolve are something, which cannot be replicated. This indeed is a defining value.

Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date for appropriateness of their carrying value at each balance sheet date.
