MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1) OVERVIEW OF THE ECONOMY

Global Economy

Global growth is expected to remain at 3.0 per cent in 2019 and 2020, however, the steady pace of expansion in the global economy masks an increase in downside risks that could potentially exacerbate development challenges in many parts of the world, according to the World Economic Situation and Prospects 2019. The global economy is facing a confluence of risks, which could severely disrupt economic activity and inflict significant damage on longer-term development prospects. These risks include an escalation of trade disputes, an abrupt tightening of global financial conditions, and intensifying climate risks. (**Source:** Department of Economic & Social Affairs)

In many developed countries, growth rates have risen close to their potential, while unemployment rates have dropped to historical lows. Among the developing economies, the East and South Asia regions remain on a relatively strong growth trajectory, amid robust domestic demand conditions. Beneath the strong global headline figures, however, economic progress has been highly uneven across regions. Despite an improvement in growth prospects at the global level, several large developing countries saw a decline in per capita income in 2018.

Indian economy

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers of the world over the next 10-15 years, backed by its strong democracy and partnerships. India's GDP is estimated to have increased 7.2 per cent in 2017-18 and 7 per cent in 2018-19. India has retained its position as the third largest startup base in the world with over 4,750 technology start-ups.

India's labour force is expected to touch 160-170 million by 2020, based on rate of population growth, increased labour force participation, and higher education enrolment, among other factors, according to a study by ASSOCHAM and Thought Arbitrage Research Institute. India's foreign exchange reserves were US\$ 405.64 billion in the week up to March 15, 2019, according to data from the RBI.

The long-term growth perspective of the Indian economy is positive due to its young population, English proficiency, corresponding low dependency ratio, healthy savings and investment rates, and increasing integration into the global economy. India topped the World Bank's growth outlook for the first time in fiscal year 2015-16, during which the economy grew 7.6%. Despite previous reforms, economic growth is still significantly slowed by bureaucracy, poor infrastructure, and inflexible labor laws (especially the inability to lay off workers in a business slowdown). India is the second-largest start-up hub in the world with over 3,100 technology start-ups in 2018-19. (**Source:** IBEF)

2) ANALYSIS AND REVIEW

Business Outlook

Indian textiles industry is a well-established with showing strong features and a bright future. In fact, the country is the second biggest textiles manufacturer worldwide, right after China. Similar force is demonstrated in the cotton production and consumption trend where India ranks just after China and USA. The textiles manufacturing business is a pioneer activity in the Indian manufacturing sector and it has a primordial importance in the economic life of the country, which is still predominantly based on the agro-alimentary sector. Employing around 35 million people, textiles industry stands as a major foreign currency revenue generator and further proves it in its 14% share of industrial production and the 16% of export revenues it generated.

In that view, many manufacturing companies in India are rushing towards expansion and modernization options. Manufacturers are having recourse to fund raising programmes pushing EPS to higher growth, dissolving equity on its way. Business collaborations with foreign players, creation of buying offices and Government's effort to enhance quality production and export are many visible signs of Indians coming into force on the global market.

India Ratings has maintained a stable outlook for the textile sector for 2019-20 following strong domestic demand, waning impact of the disruptions due to GST and demonetization and rising exports aided by a weak rupee. Textile companies are likely to improve cash-flow from operations in FY20, as their working capital would stabilise as challenges related to demonetization and the GST subsidy. The sector is likely to continue deleveraging gradually in FY20 in view of strong annual growth generation and some moderation in the debt level. Liquidity of the majority of players in the sector is likely to remain adequate, along with an improvement in operational cash generation, backed by steady raw material costs and strong demand from end-user segments.

The domestic and global stock-to-use ratios will remain under pressure during cotton year 2018-19. Global cotton production is likely to decline in cotton year 2018-19 owing to a low acreage and adverse weather conditions in key cotton-growing nations. Meanwhile, India's textile exporters are likely to continue to benefit from improved cost competitiveness due to a weak rupee, which would drive volume growth.

3) Indian Textile Industry

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. India's overall textile exports during FY18 stood at US\$ 39.2 billion. The size of India's textile market as of November 2017 was around US\$ 150 billion, which is expected to touch US\$ 223 billion market by 2021, growing at a CAGR of 12.2% between 2009-21. The new textile policy aims to achieve US\$ 300 billion worth of textile exports by 2024-25 and create an additional 35 million jobs.

The Indian textiles industry is extremely varied, with the hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital intensive sophisticated mills sector at the other end of the spectrum. The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world.

The Indian textiles industry, currently estimated at around US\$ 150 billion, is expected to reach US\$ 250 billion by 2019. India's textiles industry contributed 7% of the industry output (in value terms) of India in FY18. As per data from National Bureau of Statistics, due to steep

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

wage inflation, the average monthly wage cost in China stood at US\$ 230 per month in 2013 as against US\$ 80 per month in India. Also, India is rich in traditional workers adept at value-adding tasks, which could give Indian companies significant margin advantage. (Source: IBEF)

4) Opportunities and Threats

The fundamental strength of Indian textile industry is its strong production base with wide range of fibers/yarns. These are natural fibers such as cotton, jute, silk and wool and synthetic/man-made fibers like polyester, viscose, nylon and acrylic. In producer-driven value chains, large, usually transnational, manufacturers play the central roles in coordinating production networks. Textile industry is capital and technology-intensive comparable with automobiles, aircraft, computers, semiconductors and heavy machinery industry. Buyer-driven value chains are those in which large retailers, marketers and branded manufacturers play the pivotal roles in setting up decentralized production networks in a variety of exporting countries, typically located in developing countries.

The growth of Indian E-Commerce companies provides opportunities for the Indian textile industry in the domestic as well as international market. Amazon, Flipkart, Jabong and Myntra are the major players IN Indian E-Commerce Industry. India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 13 per cent of total exports. The textile industry is also labor intensive and is one of the largest employers. (Source: Trends in Textile Engineering & Fashion Technology)

5) Risk and Concerns

The textile industry consists of a number of units engaged in spinning, weaving, dyeing, printing, finishing and a number of other processes that are required to convert fibre into a finished fabric or garment. There are several safety and health issues associated with the textile industry. This article aims at studying each of these issues in relation to the US and Indian textile industries in detail, along with the possible solutions for these problems.

The major safety and health issues in the textile industry can be stated as under:

- 1) Exposure to cotton dust
- 2) Exposure to chemicals
- 3) Exposure to noise
- 4) Ergonomic issues

The workers engaged in the processing and spinning of cotton are exposed to significant amounts of cotton dust. They are also exposed to particles of pesticides and soil. Exposure to cotton dust and other particles leads to respiratory disorders among the textile workers. The fatal disease of byssinosis, commonly known as brown lung, is caused among people working in the textile industry on account of excessive exposure to cotton dust. The symptoms of this disease include tightening of the chest, coughing, wheezing and shortness of breath.

The Audit Committee has additional oversight in the area of financial risks and controls. The major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis.

6) Internal Control Systems and their Adequacy

Company has an effective internal control and risk mitigation system, which is constantly assessed and strengthened with new/revised standard operating procedures. The Company's internal control system is commensurate with its size, scale and complexities of its operations. The internal audit is entrusted to a reputed firm of Chartered Accountants. The main thrust of internal audit is to test and review controls, appraisal of risks and business processes, besides benchmarking controls with best practices in the industry. The internal control is designed to ensure that the financial and other records are reliable for preparing financial statements and other data, and for maintaining accountability of persons. Apart from the above the company has engaged M/s Pulkit Rastogi & Co.- Amroha, Chartered Accountant, to conduct Internal Audit during the year 2018-19.

7) Financial and operational performance

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013 and Generally Accepted Accounting Principles in India. Please refer Directors' Report in this respect.

The Company is engaged in the blankets business only. Therefore there is only one reportable segment in accordance with the Accounting Standards on Segment Reporting (Ind AS 108).

There are no material changes or commitments affecting the financial position of the Company which have occurred between the end of the financial year and the date of this Report.

8) Human Resources and Industrial Relations

The role of human resource management in organization is at counter stage. Managers are aware that HRM is a function that must play a vital role in the success of organization. It is an active participant in charting the strategic course an organization must take place to remain competitive, productive and efficient. Its focal point is people, people are the life blood of the organization. The uniqueness of HRM lies in its emphases on the people in work setting and its concerns for the well living and comfort of the human resources in an organization. The HRM function is much more integrated and strategically involved. HRM and every other functions must work together to achieve the level of organization. Effectiveness required competing locally and internationally.

Industrial relation is the one of the major component which determine the potentiality and stability of the employees as well as helps to enrich the productivity of the business establishments. Textile industries were contributing more to the Indian economy in terms of export earnings as well as generating employment opportunities. Most of the modern days business establishments have failed to maintain the good industrial relations as well as face the labour scarcity due to high employee turnover. The relationship between the employees and employers determine the productivity of the enterprises. If the industrial relation is good the enterprise will attain the success in all the side especially in terms of producing the materials without much defects.

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

assurance, but is not a guarantee that an audit conducted in accordance with Standards of Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for explaining our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our Independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosures about the matter or when, in extremely circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by Section 197(16) of the Act, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under Section 197 read with Schedule V to the Act.

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the IndAS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2019 and taken on record by the Board of Directors, none of the directors is disqualified as on 31 st March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.
 - ii. The Company has made provision, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. The disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 Nonember 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

ANNEXURE A TO THE AUDITORS' REPORT OF EVEN DATE TO THE MEMBERS OF PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED, ON THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019

ANNEXURE A

Based on the audit procedures performed for the purpose of reporting a true and fair view on the standalone financial statements of the company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment by which property, plant and equipment are verified once in a year. In accordance with the programme, property, plant and equipment were verified during the year and no material discrepancies were noticed on such verification. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the company and the nature of its assets.
- (c) The title deeds of all immovable properties (which are included under the Note 2A – Property, plant and equipment) are held in the name of the company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such verification.
- (iii) The company has not granted any secured or unsecured loans to companies, firms or other parties covered in the register maintained under Section 189 of the Companies Act, 2013.
- (iv) In our opinion, the company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 in respect of loans, investments, guarantee and security.
- (v) In our opinion, the company has not accepted deposits from public within the meaning of sections 73 to 76 the Companies Act 2013 and the Companies (Acceptance of Deposits) Rules, 2014.
- (vi) Maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act for the products which company produces.
- (vii) (a) The Company is regular in depositing the undisputed statutory dues Including provident fund, employees' state insurance, income tax, sales tax, goods and service tax, service tax, duty of customs, duty of excise, value added tax, cess and any other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year end for a period of more than six months from the date they became payable.
- (b) There are no dues in respect of income tax, sales tax, service tax or duty of customs or duty of excise which have not been deposited on account of any dispute except of value added tax amounting to Rs 20.58 lakh for the financial year 2016-17 out of which Rs 8 lakh have been paid, the appeal against which is pending before Additional Commissioner, Grade II(VAT) Appeals.
- (viii) The company has not defaulted in repayment of loans or borrowing to a financial institution or a bank. The Company did not have any outstanding loans or borrowings from government or dues to debenture holders during the year.
- (ix) The company did not raise moneys by way of initial public offer or further public offer. In our opinion, the moneys raised by the company by way of term loans were applied for the purposes for which those are raised.
- (x) No fraud by the company or any fraud on the company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) The managerial remuneration has been paid or provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act.
- (xii) In our opinion, the company is not a nidhi company. Accordingly paragraph 3(xii) of the Order is not applicable.
- (xiii) In our opinion, all transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the Financial Statements etc., as required by the applicable Ind AS.
- (xiv) The company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, provisions of clause 3(xiv) of the Order are not applicable.
- (xv) In our opinion, the company has not entered into any non- cash transaction with directors or persons connected with him. Accordingly paragraph 3(xv) of the Order is not applicable.
- (xvi) The company is not required to be registered under section 45- IA of the Reserve Bank of India Act, 1934.

ANNEXURE B TO THE AUDITORS' REPORT OF EVEN DATE TO THE MEMBERS OF PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED, ON THE STANDALONE FINANCIAL STATEMENT FOR THE YEAR ENDED 31 MARCH 2019

ANNEXURE B

Auditors Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Prakash Woollen & Synthetic Mills Limited (formerly known as Prakash Woollen Mills Limited), ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that
 - (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
 - (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following:

- 1) certain financial assets and liabilities that are measured at fair value;
- 2) assets held for sale - measured at lower of carrying amount or fair value less cost to sell;
- 3) defined benefit plans - plan assets measured at fair value;

(iii) Current / non-current classification

The company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- ▶ Expected to be realised or intended to be sold or consumed in normal operating cycle
- ▶ Held primarily for the purpose of trading
- ▶ Expected to be realised within twelve months after the reporting period, or
- ▶ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current. A liability is current when:

- ▶ It is expected to be settled in normal operating cycle
- ▶ It is held primarily for the purpose of trading
- ▶ It is due to be settled within twelve months after the reporting period, or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

(iv) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

(b) Use Of Estimates And Judgments

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

(c) Property, Plant And Equipment

The Company has applied for the one time transition exemption of considering the carrying cost on the transition date i.e. April 1, 2016 as the deemed cost under IND AS. Hence regarded thereafter as historical cost.

Land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

PRAKASH WOOLLEN & SYNTHETIC MILLS LIMITED

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Depreciation Methods, Estimated Useful Lives And Residual Value

Depreciation on Buildings, Plant and Equipment, Furniture & fixtures, Vehicles and office equipments, is provided on a Straight Line Method over the estimated useful lives of assets.

The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II to the Act, and management believe that useful life of assets are same as those prescribed in Schedule II to the Act, except for (i) Solar power plant which based on an independent technical evaluation, life has been estimated as 25 years (on a single shift basis), (ii) parts of some items of property, plant and equipment that require replacement at regular intervals, which are different from that prescribed in Schedule II to the Act.

Useful life considered for calculation of depreciation for various assets class are as follows-

<u>Asset Class</u>	<u>Useful Life</u>
Building	30 years
Plant and Machinery (on single shift basis)	15 years
Furniture and Fixtures	10 years
Office Equipment	5 years
Vehicles	8 years
Solar Power Plant	25 years

The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. In case of pre-owned assets, the useful life is estimated on a case to case basis. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

(d) Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(e) Inventories

Inventories of Raw Materials, Work-in-Progress, Stores and spares, Finished Goods and Stock-in-trade are stated 'at cost or net realisable value, whichever is lower'. Goods-in-Transit are stated 'at cost'. Cost comprise all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. The excise duty in respect of closing inventory of finished goods is included as part of finished goods, wherever applicable. Cost formulae used are 'First-in-First-out', 'Weighted Average cost' or 'Specific identification', as applicable. Due allowance is estimated and made for defective and obsolete items, wherever necessary.

(f) Investments And Other Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- (1) those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- (2) those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

Debt Instruments : Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following categories:

- (1) **Amortised Cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method.
- (2) **Fair Value Through Profit And Loss:** Assets that do not meet the criteria for amortised cost are measured at fair value through Profit and Loss. Interest income from these financial assets is included in other income.

Equity Instruments : The Company measures its equity investment other than in subsidiaries, joint ventures and associates at fair value through profit and loss. However where the Company's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income (Currently no such choice made), there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to the Statement of Profit and Loss.

(iii) Impairment Of Financial Assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

(g) Impairment Of Non-Financial Assets

The other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(h) Non-Current Assets Held For Sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal Company classified as held for sale continue to be recognised.

(i) Borrowings

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method.

(j) Borrowing Costs

Interest and other borrowing costs attributable to qualifying assets are capitalised. Other interest and borrowing costs are charged to Statement of Profit and Loss.

(k) Provisions And Contingent Liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

(l) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Based on the Educational Material on Ind AS 18 issued by the ICAI, the company has assumed that recovery of excise duty flows to the company on its own account. This is for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the company on its own account, revenue includes excise duty.

However, Value added tax/ Goods and Service tax (GST) is not received by the company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of Goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Rendering of Services

Revenue from services is recognised in the accounting period in which the services are rendered.

Interest Income

Interest income from debt instruments is recognised using the effective interest rate method.

Dividends

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established.

(m) Employee Benefits

(i) Short-Term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other Long-Term Employee Benefit Obligations

The liabilities for earned leave that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the Government Securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

(iii) Post-Employment Obligations

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

The company operates defined benefits plan for gratuity for its employees. Under the plan, every employee who has completed at least five years of service gets a gratuity on departure @ 15 days last drawn salary for each completed year of service. The scheme is funded with an insurance company in the form of qualifying insurance policy.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- ◆ The date of the plan amendment or curtailment, and
- ◆ The date that the company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- ◆ Service costs comprising current service costs, past-service costs, gains and losses on curtailments and nonroutine settlements; and
- ◆ Net interest expense or income

(n) Foreign currency translation

(i) Functional and presentation currency

The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

(ii) Transactions and balances

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss. Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

(o) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income

tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are excepted to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(p) Earnings Per Share

Basic Earnings Per Share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted Earnings Per Share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(q) Government Grants

Grants from the government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Profit and Loss on a straight - line basis over the expected lives of related assets and presented within other income.

(r) Critical Estimates And Judgements

The preparation of financial statements requires the use of accounting estimates which by definition will seldom equal the actual results.

Management also need to exercise judgement in applying the company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgement are:

Estimation of Defined benefit obligation - refer note 32

Estimation of current tax expenses and Payable - refer note 29

F Assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

The significant actuarial assumptions were as follows:

Gratuity:

Financial Assumptions

Discount rate	7.65%	7.71%
Salary Escalation Rate #	7.00%	7.00%

Demographic Assumptions

Published rates under the Indian Assured Lives Mortality (2006-08) Ult table.

G. Sensitivity

The sensitivity of the defined benefit obligation to changes in the weighted key assumptions are:

Gratuity:	Year ended 31st March, 2019			Year ended 31st March, 2018		
	Change in assumption	Increase in present value of plan	Decrease in present value of plan	Change in assumption	Increase in present value of plan	Decrease in present value of plan
Discount rate	50 bps	(7.68)	8.45	50 bps	(6.63)	7.28
Salary Escalation Rate	50 bps	7.23	(6.62)	100 bps	12.78	(10.80)
Attrition Rate				100 bps	(0.58)	0.65

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the method (Projected Unit Credit Method) used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

33 Fair Value Measurement

Financial Instrument by category and hierarchy

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts. The fair values for loans and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

36 Financial Risk Management

Financial risk management objectives and policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Managing Board.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument.

The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommend risk management objectives and policies, which are approved by Senior Management and the Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures like foreign exchange forward contracts, borrowing strategies and ensuring compliance with market risk limits and policies.

Market Risk- Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

According to the Company interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

Market Risk- Foreign Currency Risk

The Company operates internationally and portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its purchases from overseas suppliers in various foreign currencies. Foreign currency exchange rate exposure is partly balanced by purchasing of goods, commodities and services in the respective currencies.

(a) (iii) Market Risk- Price risk

(a) Exposure

The exposure to equity securities price risk arises from investments held and classified in the balance sheet either at fair value through OCI or at fair value through profit and loss. The Company does not have any exposure to equity/securities.

(b) Sensitivity

The Company does not have any exposure to equity/securities. So no sensitivity analysis is done.

(c) Foreign Currency Risk Sensitivity

A change of 5% in Foreign currency would have following Impact on profit before tax

₹ in lakhs

Particulars	2018-19		2017-18

USD	2.89	(2.89)	4.21	(4.21)
Increase / (decrease) in profit or loss	2.89	(2.89)	4.21	(4.21)

Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counterparty,
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counterparty,
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss.

The Company measures the expected credit loss of trade receivables and loan from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no provision considered.

Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected cash flows.

(i) Financing Arrangements

The Company closely monitors liquidity position and arranges for the funds in anticipation in case of need.

37 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio between 20% and 40%. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, excluding discontinued operations.

Particulars	As at 31.03.2019	As at 1.04.2018
Borrowings other than convertible preference shares (Note 13)	1214.17	1631.44
