VIKAS GRANARIES LIMITED

Schedules forming part of the financial statements as at March 31, 2011

Schedule: 21

Significant accounting policies

1) Basis of preparation of financial statements

The financial statements of Vikas Granaries Limited ("the Company") have been prepared to comply with the Accounting Standards referred to in the Companies (Accounting standards) Rule 2006 issued by the Central Government in exercise of the power conferred under sub-section (I) (a) of section 642 and the relevant provisions of the Companies Act, 1956 (the 'Act'). The financial statements have been prepared under the historical cost convention on accrual basis.

2) Use of estimates

In preparing the Company's financial statements in conformity with the accounting principles generally accepted in India, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period; actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods

3) Fixed Assets

- i. Fixed Assets are stated at cost less accumulated depreciation and impairment losses if any.
- ii. Cost comprises the purchase price and any attributable costs of bringing the asset to its working condition for its intended use.
- iii. When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit (including capital profit) or loss, if any, is reflected in the Profit and Loss account.
- iv. Self fabricated fixed assets include material cost and appropriate share of attributable expenses.

4) Depreciation:

Depreciation on all assets of the company has been provided on straight line basis at the rates specified in Schedule XIV to the Act.

5) Employee benefits:

i. *Provident fund*

The Company makes contribution to statutory provident fund in accordance with Employees' Provident Fund and Miscellaneous Provisions Act, 1952. The plan is a defined contribution plan and contribution paid or payable is recognized as an expense in the period in which services are rendered by the employee.

ii. *Other short term benefits*

Expenses in respect of other short term benefits including performance bonus is recognized on the basis of amount paid or payable for the period during which services are rendered by the employee.

6) Taxation

Tax expense comprises current taxes, deferred taxes and fringe benefit taxes.

Provision for current taxation is ascertained on the basis of the assessable profits computed in accordance with the provisions of the Income-tax Act, 1961.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets relating to timing

differences are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

7) Contingent liabilities and provisions

Depending upon the facts of each case and after due evaluation of legal aspects, claims against the Company not acknowledged as debts are treated as contingent liabilities. The Company makes a provision when there is a present obligation as a result of a past event where the outflow of economic resources is probable and a reliable estimate of the amount of obligation can be made. Possible future or present obligations that may but will probably not require outflow of resources or where the same cannot be reliably estimated, has been made as a contingent liability in the financial statements.

8) Earnings per share

Basic earning per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue and share split.

9) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Sale of goods

Revenue from sale of goods is recognized when the significant risks and rewards of ownership of the goods are transferred to the customer. In case of export sales, revenue is recognized after shipment.

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the applicable rate of interest.

10) Inventories

Inventories are valued as follows:

Raw materials, stores and spares and packaging materials	Lower of cost and net realizable value. Cost is determined on a weighted average basis. Lower of cost and net realizable value. Cost is determined on a weighted average basis
Work in progress and finished goods	Lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale.

11) Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the profit and loss account. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

12) Miscellaneous expenditure
