#### MANAGEMENT DISCUSSION AND ANALYSIS REPORT

#### INDUSTRY STRUCTURE AND DEVELOPMENT

Due to the age of the Information Technology Industry and its links with the social structure, the organizational structure that has emerged is a very complex one containing within it elements of continuity with traditional structures of small scale industries, as well as those that represent a break with them evolving as a much more organized and large scale industry like your Company.

Small scale reservation has been in existence for the Components and Technology products industry when reservation was extended from small Technology sector to a large number of industries where small scale is important. Post nineties there has been a gradual de-reservation and the entire Technology sector is now 'de-licensed1 and 'de-reserved', paving the way for expansion on modern lines with state-of-theart machinery and equipment. De-reservation thus constituted a major aspect of the changed conceptualization of small scale thereby increasing the export potential of the industry as a whole.

The changing lifestyles coupled with the increasing affluence of consumers is likely to lead to enhanced demand in the domestic market and export demand is expected to grow in days to come due to improved quality and cost competitiveness. Softrak Venture Investment Limited being an established player having object to carry on the business of industrial utilization of Technology products

Professional women are increasingly spending more on technology products and this creates a new opportunity in the market to expand. Softrak Venture Investment Limited enjoys a very strong brand positioning with consumers in the Indian market and is quick to evolve its products to meet the changing needs of today's customers. Today, the Company is all set to emerge as a vibrant lifestyle brand offering fashionable products to consumers at an affordable price.

Organized retailers in India are .also facing a threat from 'non-specialist' retailers like apparel retailers diversifying into natural product and discount hypermarkets and retailers introducing and promoting their own brands at competitive prices. These non-specialist retailers are likely to grow their market shares by increasing the range

of products offered, and shopping merchandizing space allocated to their own product. Your Company is prepared to meet these challenges by increasing the coverage open big stores, in best locations, shopping malls and developing aggressive product & pricing strategies to meet the expectation of the customers.

The challenge of real estate management for any retailer in India today is very large as the continuous evolution of modern retail spaces, combined with steep increase in rentals, presents real challenges. Your Company has been managing this challenge with negotiating low rentals for all new stores and reducing rentals in existing stores.
