EXPLANATORY STATEMENT PURSUANT TO SECTION 102 (1) OF THE COMPANIES ACT, 2013**Item No. 4:**

Mr. Sudhanshu Saluja (DIN: 03267887) was appointed as an Additional Director of the Company with effect from 27th May, 2021, in accordance with the provisions of Section 161 of the Companies Act, 2013, read with the Articles of Association of the Company. Pursuant to Section 161 of the Companies Act, 2013, the above director holds office only up to the date of the ensuing Annual General Meeting of the Company.

Mr. Sudhanshu Saluja is not disqualified from being appointed as Director in terms of Section 164 of Companies Act, 2013 and has given his consent to act as Director. Accordingly, the Board recommends the resolution in relation to appointment of Mr. Sudhanshu Saluja as Director, for the approval by the shareholders of the Company.

None of the Directors/ Key Managerial Personnel of the Company/ their relatives is in any way concerned or interested, financially or otherwise, in the resolution set out at Item No. 4 of the notice. The Directors recommend the resolution for approval by the members.

Item No. 5:

Regulation 31A of the SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015 has provided a regulatory mechanism for re-classification of “Promoter and Promoter group category” subject to the fulfilment of conditions as provided therein.

In the year 2020-21, out of the total 93 individuals/entities shown in the promoter and promoter group of the Company, 52 individuals/entities who were merely the acquaintances of the Promoters and were mistakenly being shown as persons belonging to the Promoters/ Promoter Group in the Company, submitted their requests to the Company for reclassification from “Promoter and Promoter Group category” to “Public category”. These persons were not in any way involved in the decision making in the Company nor were they in direct or indirect control over the affairs of the Company. These persons were not even holding any KMP or directorial position in the Company. The following are the details regarding their respective shareholding in the Company:

50	Rama Prasad Modala	500	0.01
51	Kailash Chand Jain	10	0
52	Anju Saluja	13,700	0.26

It may please be noted that even presently, these persons hold the same number of shares.

Further, it is pertinent to note here that, at the time of receipt of requests from promoters, there were no legal provisions with regard to reclassification of promoters to public category, thus the Company received the requests and reclassified the aforementioned applicants in public category and the effect of the same was taken in the Shareholding Patterns.

It may please be noted that there has been no transfer of shares by any of these persons. It was merely filing of corrected Shareholding Patterns with the Stock Exchanges, with the categories of these 52 persons being reflected correctly, i.e. as Public Shareholders.

And they have also confirmed that at all times from the date of such reclassification, they shall continue to comply sub-clauses (i), (ii) and (iii) of aforesaid Clause (b) of Sub-regulations (3) of Regulation 31A and shall also comply with conditions mentioned at sub-clause (iv) and (v) of clause (b) of sub-regulation (3) of Regulation 31A of SEBI (LODR) (Sixth Amendment) Regulations, 2018 for period of not less than three years from the date of reclassification, failing

which they shall automatically be reclassified as promoter/persons belonging to Promoter Group as applicable.

Also, it may be noted that, the outgoing promoters do not possess any special rights with respect to the Company either through any formal or informal arrangements including through any shareholders agreements.

Accordingly, the Board recommends the Ordinary Resolution as set out at item no.[4] of this notice for approval of the members of the Company.

ANNEXURE-‘II’ TO DIRECTOR’S REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

As per Regulation 34(2) (e) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Management Discussion and Analysis Report is as follows:

A. INDUSTRY STRUCTURE & DEVELOPMENTS

➤ **GLOBAL PAPER INDUSTRY:**

The Global Paper & Paper board Packaging Market is poised to grow at a CAGR of around 4.3% over the next decade to reach approximately \$ 263.3 billion by 2025.

Global paper and board production managed to advance 1.0% in 2014 to reach the record level of 406.5 million tones, despite the continued decline in North America and Europe. Positive growth in issue and packaging grades continued to offset the retreat in global graphic paper production. China has maintained the top spot for both demand and production of total paper and board since 2009 with the US remaining in second place. China accounted for 25% of world demand and 26% of global production of total paper and board in 2014.

The paper industry is highly fragmented. Asia Pacific dominates this industry and was the major contributor due to improvement in changing lifestyle of consumers, urbanization and rise in disposable income.

The world paper industry is currently facing far-reaching structural changes due to the digitalization of society and businesses, the globalization of industries and the consequent re-distribution of wealth across the globe. A new, more competitive business environment is taking shape, ending the dominance of traditional western markets and giving rise to new, dynamic playing fields for the world’s paper, issue and packaging board industry.

The last five to six years have been extremely challenging for the world’s paper industry, particularly to those operating mainly in the western markets. Paper consumption in developed markets has been declining, while in emerging market areas demand growth is matched by the growth of the macro environment. End-use prospects differ widely, as some uses of paper are dying or slowing while some uses or product areas are stable, or have performed extremely well. For over a decade now, digital media have been replacing graphic papers, either directly or indirectly, through changing consumer habits and people’s ways of spending spare time. The popularity of online media coupled with new business practices, including paperless banking and invoicing, create uncertainty for the graphic paper industry’s future. At the same time, sustainable packaging is becoming an increasingly important factor in e-commerce and other market places, thus creating new opportunities for fiber- based recyclable and biodegradable packaging materials. Infact, practically 100% of the growth of global paper demand in the last 15 years has been driven by Asia (excl. Japan), which now accounts for a good 40% of the global paper and paperboard demand. Increasing population, urbanization and the development of a new middle class all contribute to the steadily rising demand for paper and paper board products in emerging markets, where obsolete and uncompetitive mills are being replaced and investments focus on efficient, state-of-the-art assets.

➤ **INDIAN PAPER INDUSTRY:**

The Indian paper industry with approximately 14 mn tones of capacity accounts for about 3% of global paper

production. According to Indian Paper Mills Association, the domestic consumption of paper in India during 2014-15 was 13.9 mn tonnes with growth of 6%. The per capita consumption of paper in India stands at about 13 kg which is relatively lower compared to other developed and developing countries and 57 kg global average in per capita paper consumption and the Asian average of 40kgs. India holds 15th rank among paper producing countries in the world.

A. OPPORTUNITIES AND THREATS

With the growth in GDP, the low per capita consumption of Paper & Paper board in the country is bound to increase the consumption of paper. The paper industry in India has become more promising as the domestic demand is on the rise. Increasing population and literacy rate, improvement in manufacturing sector and lifestyle of individuals are expected to account for the growth in the paper industry of India.

From the demand point of view, as against present per capita consumption of 13kg, everyone kg incremental per capita consumption results in additional demand of more than one million ton a year. This indicates there is a lot of scope for growth of paper demand in India.

B. SEGMENT-WISE PERFORMANCE

The Company operates in only one business segments–Paper/ Paper board (including Duplex Board) at New Delhi, there is no other segment apart from this.

C. OUTLOOK

The Paper Industry is cyclical in nature and its performance depends on the global pulp and paper demand supply situation. The domestic paper sector is likely to see marginal improvement in demand from education and corporate sectors, aided by expected higher GDP growth of the country.

Import pressures are likely to be continued and could result in pricing pressures on paper products particularly copier and map litho segments. However, the company has well diversified product base which partially insulates it from the import and other cyclical impact. The company has developed and introduced some new products and varieties like Wesco Bond, Wesco Supershine, Wesco Dura print, B2B64 gsm copier etc. to capture new markets with better product mix. Further, continued thrust on manufacturing different variants of cup stock paper having double digit growth prospects augurs well for maintaining the market share in this competitive segment.

With optimum capacity utilization, good demand outlook, moving into environmental friendly and value added products; the company is expected to sustain its growth prospects.

D. RISKS AND CONCERNS

The Company used to derive its revenue from Paper/ Paper board and Duplex Board business but in 2020-21 there were no profits and Company was having Losses.

The availability of conventional raw-material is a matter of concern and thereby causes pressure on raw material procurement prices.

Threat from excessive inflow of imported paper at cheaper price will continued to be there in near future and the company needs to take timely remedial action to overcome such impacts.

Regarding Charter on Corporate Responsibility for Environmental Protection (CREP) guidelines which was launched in 2003, the Company has already taken the required actions to implement the same and all the parameters are well within the guidelines.

The Company has state-of-art Effluent Treatment Plant and has gone for 100% Elemental Chlorine Free bleaching. It is also meeting all the norms as prescribed under Environment Protection Act, 1986 and other environmental laws as well as CREP requirement consistently.

The Company is taking various actions to reduce water consumption in the Mills. Further all the actions are being taken to reduce the specific energy consumption to meet the norms prescribed under PAT-Cycle -II.

COVID-19 PANDEMIC

Members are aware of the novel Corona virus (COVID-19) outbreak which was declared a pandemic by the World Health Organization. The outbreak of the COVID-19 pandemic has led to an unprecedented health crisis and has disrupted economic activities and trade globally.

The outbreak of Corona virus (COVID -19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity.

As the outbreak spread in India, the Company initiated measures to closely monitor the situation to safeguard the health, welfare and safety of all its employees across locations. The Company started advising its employees to work from home wherever feasible. Policies and directives related to working from home and IT infrastructure support were implemented almost on a real-time basis to enable our employees to shift seamlessly to this new method of working.

E. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has adequate internal control system for business processes, with regard to efficiency of operations, financial reporting and controls, compliance with applicable laws and regulations etc., clearly defined roles and responsibilities for all managerial positions have also been institutionalized. All operating parameters are monitored and controlled. Regular internal audits and checks ensure that responsibilities are executed effectively. The Audit Committee of the Board of Directors periodically reviews the adequacy and effectiveness of internal control systems and suggests improvement for strengthening these.

F. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

This has been dealt with in the Directors' Report.

CAUTIONARY STATEMENT

Statements in this report on Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of applicable securities laws or regulations. These statements are based on certain assumptions and expectations of future events. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include global and domestic demand supply conditions, finished goods prices, raw material cost and availability, changes in Government regulations, tax regimes, economic developments within India and other factors such as litigation and industrial relations. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

Independent Auditor's Report on the Quarterly and Year to Date Audited Standalone Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To
Board of Directors of
B.J. Duplex Boards Limited

Report on the Standalone Financial Results

Opinion

We have audited the accompanying statement of quarterly and year to date standalone financial result of B.J. Duplex Board Limited ("the Company") for the quarter ended March 31, 2021 and for the year ended March 31, 2021 ("Statement"), attached herewith, being submitted by the company pursuant to the requirement of Regulation 33 of the SEBI (Listed Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations").

In our opinion and to the best of our information and according to the explanation given to us, the statement:

- I. is presented in accordance with the requirement of the Listing Regulations in this regard;
And
- II. gives a true and fair view in conformity with the applicable accounting standards and other Accounting Principles Generally Accepted in India, of the net loss and other comprehensive loss and other financial information of the Company for the quarter ended 31st March, 2021 and of the net loss and other comprehensive loss and other financial information of the Company for the year ended March 31, 2021.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act 2013, as amended ("The Act"). Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Results" section of our report. We are independent of the company in accordance with the code of Ethics issued by The Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statement under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note (4) of the attached financial Statements which indicates that the Company incurred a net loss of Rs.2.92 lakhs during the year ended 31st March 2021 and, as of that date matters in Note (4), indicate that company's current liabilities exceed current assets, that indicated that a material uncertainty exist that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Management's Responsibilities for the standalone Financial Results

The Statement has been prepared on the basis of standalone annual financial statements. The Board of Directors of the Company are responsible for the preparation and presentation of the Statement that gives a true and fair view of the net profit and other comprehensive income / loss of the company and other financial information in accordance with the applicable accounting standards prescribed under section 133 of the Act read with relevant rules issued thereunder another accounting principles generally accepted in India and in compliance with Regulation 33 of the listing Regulations . The responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the asset of the company and for preventing and detecting frauds and other irregularities: selection and applications of appropriate accounting policies ; making judgements and estimates that are reasonable and prudent ; and the design , implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records , relevant to the preparation and presentation of the Statement that gives true and fair view and are free from material misstatement , whether due to fraud or error.

In preparing the Statement, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the Statement as a whole is free from material misstatement whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable Assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of Statements

As a part of the audit in accordance with the SAs, we exercise professional judgement and maintain the professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Statement whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis of our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company as adequate internal

financial controls with reference to financial statements in place and the operating effectiveness of such controls.

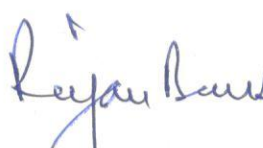

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimate and related disclosure made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosure are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Statement, including the disclosures and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with the governance regarding, among other matters, the planned scope and the timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirement regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The Statement includes the results for the quarter ended March 31, 2021 being the balancing figure between the audited figures in respect of the full financial year ended March 31, 2021 and the published unaudited year-to-date figures up to third quarter (read with the note 6 of the Statement) of the current financial year, which were subjected to limited review by us, as required under the Listing Regulations.

2 SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting polices adopted in the preparation of the standalone financial statement. These polices have been consistently applied to all the years presented unless otherwise stated.

2.01 Statement of compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (IND AS) notified under Companies (Indian Accounting Standards) Rules, 2015. For all periods including the year ended 31 March 2017, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). The financial statements were authorised for issue by the Company's Board of Directors on June 28th, 2020.

2.02 Basis of preparation of financial statements

The financial statements have been prepared on historical cost basis, except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in accounting policies subsequently.

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015.

The preparation of the financial statements in conformity with recognition and measurement principles of Ind AS requires the Management to make estimates and assumptions that affect the reported balance of assets and liabilities, disclosure relating to contingent liabilities as at the date of the financial statements and the reported amount of income and expense for the period. Estimates and underlying assumptions are reviewed on ongoing basis. Revision of accounting estimates are recognised in the period in which the estimates are revised and future period affected.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

2.03 Current versus non-current classification

The Company presents assets and liabilities in the financial statement with current / non-current classification.

An asset is treated as current when it is:

- (a) expected to be realized or intended to be sold or consumed in normal operating cycle
- (b) held primarily for purpose of trading
- (c) expected to be realized within twelve months after the reporting period, or
- (d) cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- (a) It is expected to be settled in normal operating cycle
- (b) It is held primarily for purpose of trading
- (c) It is due to be settled within twelve months after the reporting period, or
- (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period .

All other liabilities are classified as non current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.04 New and amended standards adopted by the Company

The Company has applied the following amendments to Ind AS for the first time for their annual reporting period commencing 1 April 2020:

- Definition of Material – amendments to Ind AS 1 and Ind AS 8
- Definition of a Business – amendments to Ind AS 103
- Definition of a Business – amendments to Ind AS 116

The amendments did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

2.05 Financial Instruments

A financial instrument is any contract that gives rise to a financial assets of one entity and a financial liability or equity instrument of another entity.

i) Financial Assets

The Company classifies its financial assets in the following measurement categories:

- (a) Those to be measured subsequently at fair value (either through other comprehensive income, or through profit & loss).
- (b) Those measured at amortised cost.

Initial recognition and measurement

Financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are directly attributable to the acquisition of financial assets. Purchase or sale of financial asset that require delivery of assets within a time frame established by regulation or conversion in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase and sell the assets.

Subsequent measurement

For purposes of subsequent measurement financial assets are classified in following categories:

- (a) Debt instruments at amortized cost
- (b) Debt instruments at fair value through other comprehensive income (FVTOCI)
- (c) Debt instruments at fair value through profit and loss (FVTPL)
- (d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)
- (e) Equity instruments measured at fair value through profit and loss (FVTPL)

Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss (i.e. fair value through profit or loss), or recognized in other comprehensive income (i.e. fair value through other comprehensive income). For investment in debt instruments, this will depend on the business model in which the investment is held. For investment in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for equity instruments at FVTOCI.

Debt instruments at amortized cost

A Debt instrument is measured at amortized cost if both the following conditions are met:

- (i) **Business Model Test:** The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (ii) **Cashflow Characteristics Test:** Contractual terms of asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is included in finance income in statement of profit or loss. The losses arising from impairment are recognized in the statement of profit or loss. This category generally applies to trade, other receivables, loans and other financial assets.

Debt instruments at fair value through OCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (i) **Business Model Test:** The objective of the business model is achieved by both collecting contractual cash flows and selling financial assets, and
- (ii) **Cashflow Characteristics Test:** The asset's contractual cash flows represent SPPI.

Debt instrument included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognises interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to statement of profit & loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method..

Debt instruments at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Equity investments of other entities

All equity investments in scope of IND AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income all subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

In case of equity instruments classified as FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and loss.

Derecognition

A financial asset (or ,where applicable, a part of a financial asset or part of group of similar financial assets) is primarily derecognised when:

- (a) The right to receive cash flows from the assets have expired, or
- (b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either:
 - (i) the Company has transferred substantially all the risks and rewards of the asset, or
 - (ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Company has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. Where it has nither transferred not retained substantially all of the risks and rewards of the assets, nor transferred control of the assets, the Company continues to recognise the transferred assets to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of financial assets

The Company assess at each balance sheet date whether there is any indication that an asset may be impaired. If any such indiation exist, the Company estimates recoverable amount of the asset. If such recoverable amount of the aset or he recoverable amount of the acsh generating unit to which the aseets belong is less than its carrying amount, the carrying amount is reduced to its recoverable amount. Th ereduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is any indication that if a previously assessed impairment loss no longer exist, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

No impairment loss has been provided on non finanacial assets considering that no indications internal/ external exists those suggests that recoverable amount of asset is less than its carrying value.

ii) Financial liabilities:

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs.

All financial liabilities are recognised intially at fair value and in case of loans, borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Trade Payables

These amounts represents liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 120 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using EIR method.

Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in statement of profit or loss when the liabilities are derecognised as well as through the EIR amortization process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or medication is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Reclassification of financial assets:

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for :

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in statement of profit and loss.
FVTPL	Amortised cost	Fair value at reclassification date become its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to statement of profit and loss at the reclassification date.

Offsetting of financial instruments:

Financials assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.06 Taxes

Tax expense for the year comprises of direct tax and indirect tax.

Direct Taxes

a) Current Tax

- (i) Current income tax, assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in India as per Income Computation and Disclosure Standards (ICDS) where the Company operates and generates taxable income.
- (ii) Current income tax relating to item recognized outside the statement of profit and loss is recognized outside profit or loss (either in other comprehensive income or equity). Current tax items are recognized in correlation to the underlying transactions either in statement of profit and loss or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(b) Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- (a) When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- (b) In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or direct in equity.

Deferred Tax includes Minimum Alternate Tax (MAT) recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Indirect Taxes

Goods and Service Tax has been accounted for in respect of the goods cleared. The Company is providing Goods and Service tax liability in respect of finished goods. GST has been also accounted for in respect of services rendered.(w.e.f. 1st July, 2017 GST has been implemented. All the taxes like Excise Duty, Value Added Tax, etc. are subsummed in Goods and Service Tax.)

2.07 Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Amounts disclosed are inclusive of Goods and service tax and net of returns, trade discounts, rebates and amount collected on behalf of third parties. (w.e.f. 1st July, 2017 GST has been implemented. All the taxes like Excise Duty, Value Added Tax, etc. are subsummed in Goods and Service Tax.)

The Company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks. The specific recognition criteria described below must also be met before revenue is recognized:

a) Sale of services

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements.

i) Variable Consideration:

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of electronics equipment provide customers with a right of return and volume rebates. The rights of return and volume rebates give rise to variable consideration.

ii) Contract Assets:

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

b) Interest

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rates.

2.08 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Company after adjusting impact of dilution shares by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

2.09 Borrowing Costs

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized as expense in the period in which they occur.

Borrowing cost includes interest and other costs incurred in connection with the borrowing of funds and charged to Statement of Profit & Loss on the basis of effective interest rate (EIR) method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing cost.

2.10 Impairment of non- financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publically traded companies or other available fair value indicators.

Impairment losses including impairment on inventories, are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end

of each reporting period.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

2.11 Segment accounting

The Company's main business is sale/ purchase of papers and boards. All other activities of the Company revolve around this main business. There are no separate segments within the Company as defined by the Ind AS 108 (Operating Segment) issued by Institute of Chartered Accountant of India.

2.12 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the building (i.e. 30 and 60 years)

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 'Impairment of non-financial assets'.

(b) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(c) Short-term leases and leases of low-value assets

Leases for which the Company is a lessor is classified as finance or operating lease. Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Company as a lessee:

Finance Leases

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Finance leases are capitalized at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of

interest on the remaining balance of the liability. Finance charges are recognized in finance costs in the statement of profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with Company's general policy on the borrowing cost.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating leases

Operating lease payments are recognized as an expense in the Statement of Profit or Loss account on straight line basis over the lease term, unless the payments are structured to increase in line with the expected general inflation to compensate for the lessor in expected inflationary cost increase.

2.13 Government Grants

Government Grants are recognized at their fair value when there is reasonable assurance that the grant will be received and all the attached conditions will be complied with.

There are no grants or subsidies received from the government during the previous year.

2.14 Fair Value Measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non- financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted(unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.15 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements.

a) Revenue from contracts with customers

The Company applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Determining method to estimate variable consideration and assessing the constraint

In estimating the variable consideration, the Company is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled. The Company determined that the expected value method is the appropriate method to use in estimating the variable consideration for revenue from operations. Before including any amount of variable consideration in the transaction price, the Company considers whether the amount of variable consideration is constrained. The Company determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

b) Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

c) Impairment of Financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

d) Impairment of non-Financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less cost of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

e) COVID-19 Impact on Estimates, Judgments, Revenue & Financial instruments

- (i) Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19):- The Company has assessed the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of Receivables, Inventories and other assets / liabilities. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial results has used internal and external sources of Information. As on current date, the Company has concluded that the Impact of COVID - 19 is not material based on these estimates. Due to the nature of the pandemic, the Company will continue to monitor developments to identify significant uncertainties In future periods, if any. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.
- (ii) **Loss allowance for receivables and unbilled revenues:-**

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the company deals with and the countries where it operates. In calculating expected credit loss, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID -19.

(iii) Revenue from Operations:

The Company has evaluated the impact of COVID – 19 resulting from (i) the possibility of constraints to render services which may require revision of estimations of costs to complete the contract because of additional efforts;(ii) onerous obligations;(iii) penalties relating to breaches of service level agreements, and (iv) termination or deferment of contracts by customers. The Company has concluded that the impact of COVID – 19 is not material based on these estimates. Due to the nature of the pandemic, the Company will continue to monitor developments to identify significant uncertainties relating to revenue in future periods.

2.16 Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

For the purpose of statement of cash flow, cash & cash equivalents consists of cash and short term deposits as defined above, net of outstanding bank overdrafts as they are considered as integral part of Company's cash management.

2.17 Standards issued but not effective

There are no standards that are issued but not yet effective on March 31, 2021.

1) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- 2) The fair values of the Company's interest-bearing borrowings and loans, if any, are determined by using Discounted cash flow method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31st March, 2021 was assessed to be insignificant.
- 3) Long-term receivables/ payables are evaluated by the Company based on parameters such as interest rates, risk factors, individual creditworthiness of the counterparty and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.
- 4) The significant unobservable inputs used in the fair value measurement categorized within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2021, are as shown below:

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques that use inputs that have a significant effect on the recorded fair value that are not based on observable market data

Quantitative disclosures of fair value measurement hierarchy for assets as on March 31, 2021:

Note:

The management assessed that cash and cash equivalents, trade payables, and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

8 Financial risk management objectives and policies

The Company's principal financial liabilities, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that are derived directly from its operations.

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company is exposed to market risk, and liquidity risk.

The Company's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and Company risk objective.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized as below:

(a) Market Risk

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest risk, currency risk and other price risk. However, the Company does not have currency and other price risk as at 31 March, 2021 (31 March, 2020: Nil)

(b) Credit Risk

Credit Risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities and from its financing activities, including deposits with banks and other financial instruments.

(i) Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's management in accordance with the Company's policy. Investments of surplus funds are made in bank deposits and other risk free securities. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2020 is the carrying amounts . The Company's maximum exposure relating to financial is noted in liquidity table below. Trade Receivables and other financial assets are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in the repayment plan with the Company.

	As At 31-Mar-21 (Rs.'000)	As At 31-Mar-20 (Rs.'000)
Financial assets for which allowance is measured using 12 months Expected Credit Loss Method (ECL)

Financial assets for which allowance is measured using Life time Expected Credit Loss Method (ECL)		
Trade receivables (gross)	-	-
	<u>-</u>	<u>-</u>

(c) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through financing from directors, Companies within the group or others. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

Maturity profile of financial liabilities

The table below provides the details regarding the remaining contractual maturities of financial liabilities at the reporting date based on contractual undiscounted payments.

	(Amount in Rs.'000)		
As at March 31, 2021	Less than 1 year	1 to 5 years	Total
Trade payables	178.18	-	178.18
Borrowings	5,647.58	-	5,647.58
Other non current financial liabilities	-	-	-
Other current financial liabilities	474.88	-	474.88
As at March 31, 2020	Less than 1 year	1 to 5 years	Total

Trade payables	178.18	-	178.18
Other non current financial liabilities	-	-	-
Other current financial liabilities	266.30	-	266.30

In Company this risk risk is quite high due to inadequate sources of funding and lack of increase in operating activities

9 Capital Management

For the purposes of Company's capital management, Capital includes equity attributable to the equity holders of the Company and all other equity reserves. The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure and maximize shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares. The Company is not subject to any externally imposed capital requirements.

The paid up capital of Company was reduced to 51,81,200 equity share of Rs. 1/- each from the existing 51,81,200 equity share of Rs. 10/- each pursuant to admission to of corporate action by Central Depository Services Limited and National Securities Depository Limited and subsequent cancellation of share certificate by the Registrar during the quarter ended 31st December, 2018. The Reduction of capital was effected through the order of Hon'ble High Court, pronounced on 29th August, 2016. The balance of Rs 4,66,30,800/- arising from reduction of share capital has been adjusted through Debit Balance of Retained Earning in the financial year 2018-19.

The Company monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. However, since net loss exceeds loans and borrowings, Gearing ratio is not calculated.
