**MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT**

Pursuant to Clause 34 of the SEBI (Listing Obligations And Disclosure Requirements) Regulations, 2015 with Stock Exchanges, a report on Management Analysis Report, as an annexure to the Directors' Report is give below: Industry structure and risk

**A. Company Outlook**

The Company during the current Financial Year 2019-20 had less business in the full year.

There is a clear shift in focus towards managed services model and new contracting models (output / outcome based) that align costs with activity levels. Customers are also trying to derive enhanced value from existing software investments – through application modernization, consolidation and upgrade of packaged solutions. There has been significant interest in some of the emerging technology areas like Mobility and Cloud Computing – in terms of adoption.

**B. Internal Control Systems and their adequacy**

The company has adequate internal control systems commensurate with the size of its operations and for the purpose of exercising adequate controls on the day-to-day operations. Systems are regularly reviewed to ensure effectiveness.

**C. Material Developments in Human Resources / Industrial Relations**

Human resource development is a primary area of focus for the Company. The company recruited senior level and other functional specialists during the year. The Human relations in the organization have been cordial.

**D. Discussion on Financial Performance with respect to operational performance**

The Company has turnover of Rs. 10,00,000/- during the current year as compared to Rs. 7,50,000/- in last year.

**E. Opportunities and Threats**

In every challenge lies an opportunity. As explained earlier, we see a distinct preference from customers to align their costs with activity levels, using innovative contracting models like output / outcome based pricing or even risk reward models that involve sharing of IP. Company's proven track record in having worked on such models through various engagements puts us in good stead to capitalize on this opportunity.

Our deep alliances with technology leaders like Microsoft, Oracle and IBM and involvement in several early adoption partnerships with them provides us with an early mover advantage on newer technology platforms and new releases of packaged applications. As customers embark on initiatives that derive enhanced value from existing software investments – through application modernization, consolidation and upgrade of packaged solutions, Company would be able to take advantage of these trends.

### **Meaning of Internal Financial Controls Over Financial Reporting.**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Actuarial gains and losses are recognised immediately in the Profit and Loss Account.

**I. Taxation**

Income tax expenses comprise current tax (i.e. the amount of tax for the period determined in accordance with the income tax laws) and deferred tax charge or credit (reflecting the tax effects of timing differences between the accounting income and the taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using tax rates that have been enacted, or substantively enacted, by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in the future, however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed

as at each Balance Sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realised.

**J. Provisions and contingent liabilities**

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

**K. Earnings per share**

Basic earnings per share are calculated by dividing the net profit/ (loss) attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year.

**L. Cash and cash equivalents**

Cash and cash equivalents include cash in hand, demand deposit with banks, other short term highly liquid investments with original maturities of three months or less.

**21. Auditor's remuneration:**
