Item-09: Sub-Division of Shares & Item-10: Alteration of Memorandum of Association

Currently the Nominal value of the Equity shares of the Company is Rs 10/- per Equity share. The Equity shares of the Company are listed on Bombay Stock Exchange (BSE). It has been decided to Sub-Divide the Face value of the Equity share of the Company to Re 1/- with an intention to increase the Number of shares available in the hands of Shareholders as for each share, shareholder will get 10 shares. This will have the positive impact on the share in the form of unlocking the potential future value of the Equity shares of the Company.

Consequent to the Sub-Division of Equity shares from Face value of Rs 10/- to Re 1/- a shareholder holding 1 Equity share of Rs 10/- each will be allotted 10 Equity shares of Re 1/- each. The date on which this Sub-Division would become effective, will be decided by the Board of Directors after obtaining the Shareholders approval, which will be notified through the Stock Exchanges.

Shareholders attention is also invited to the fact that in view of the foregoing, the existing Capital clause V in the Memorandum of Association of the Company relating to Authorised Share Capital need to be relevantly amended. Section 94(1)(d) of the Act provides for Sub-Division of shares into shares of smaller amount, and section 16 read with section 13 of the Act, provides for amendment of Capital clause of the Memorandum of Association.

The Board recommends the resolution to be passed as ordinary resolution.

None of the Directors of your Company are deemed to be interested in the said Resolution except to the extent of their shareholding in the Company

Item-11: Authorization to Raise Funds

11. MANAGEMENT DISCUSSION AND ANALYSIS

The detail of Management Discussion and Analysis Report is enclosed to this report.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Structure and Development/CEO Message

Global Economy Scenario

Last 1000 years' Landlords controlled the economy. Last 100 years Industrialization lead to industrialists controlling the economy. Last decade onwards the rise of Global Internet lead to Digital Billionaires controlling the Digital Economy across the globe. Billions of dollars created & evaporated with electronic Red & Green signals, Debit and Credit signals across the world. The real currencies replaced by digital currencies.

Financial Markets

Fundamental analysis ruled the basics of Financial Markets where MBA's from Business Schools controlled the financial markets. Mid 50's technical analysis came to foreground but never entered in to the main stream till now it is treated as Historical analysis and never accepted as main stream course in any of the top business schools in the world.

Prediction is for slaves, reaction is for Kings. (RANDOM) nothing can be predicted.

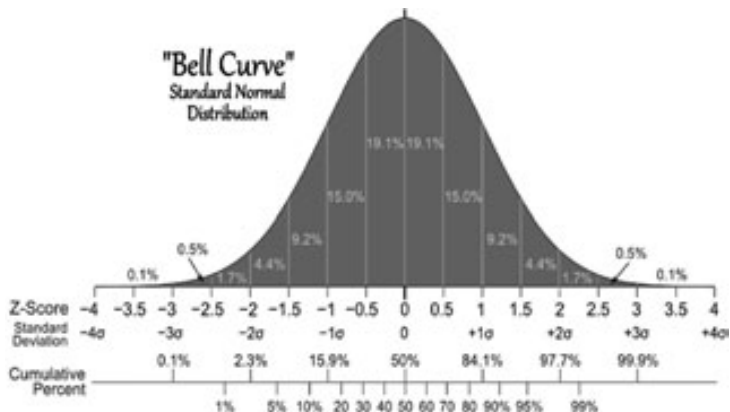

STAMPEDE CAPITAL LIMITED

The Rise of Math (Financial Alchemy)

Quantitative Analysis

If nothing can be predicted. Is everything random?

Robert Brown is father of the Random Theory. His theory remained unsolved until Albert Einstein in 1905 proven that every movement was result of millions of microscopic particles.

Louis Bachelier applied the Random theory to the Stock Markets and found that every day is coin flip. It can be up or down. That led to random walk.

The Three Models that changed the Modern Quantitative Finance.

- MPT (Markowitz's Modern Portfolio Theory)
- CAPM (Capital Asset Pricing Model)
- BSM (Black-Scholes-Merton Model)

The Black Scholes Model:

BSM model changed the World of Derivatives where the assets risk can be managed by continuous trading which led to drastic rise of computation power and paved the way for democratized capital rising for global corporate.

The core formula for today's Finance is:

$$Ds = osdt + ósdz$$

(Change of basis) = (Risk free rate or fixed) + (Random changes in basis)

STAMPEDE Core Revenue Models

- 1) Underwriting FX/Equity/Debt Market
- 2) Electronic Market Making
- 3) Financial Cloud Services
- 4) Asset Management
- 5) Securitization

Stampede developed its core PDE's on top of BSM model for addressing FAT Tails using Jump Diffusion Process.

Core fundamental Stampede models were built on

- 1) Money has time value (Cost of Carry)
- 2) Continuous Compounding (e^{rt})
- 3) No Arbitrage
- 4) Everything follows Normal Distribution
- 5) Assets has to generate income or else cost of carry will eat the asset value

Underwriting

Risk of FX movements due to Global Yield Curve movements created and destroyed Global Economies. India's Import / Export FX volume is One Trillion dollars. 50% of the Indian Banks revenue comes from Treasury Operations. Small SMEs and Midsize companies are not able to hedge the risks using nonlinear (Calls + Puts) other than forwards. The BID/ASK spreads vary between 200 to 250 Bps. Equity markets in emerging countries also suffering capital risk due to lack of proper hedging methods.

Stampede's core PDE's and VGT model address the key vulnerabilities In BSM module and developed its own stochastic VGT surface to underwrite FX/Equity markets.

We are planning to offer platform for **Underwriters** Russian, Brazil, Vietnam, South Africa and other emerging markets.

Electronic Market Making

Stampede EMM model is developed using Bayesian and Conditional probabilities. The range of processing power to trillions of flops / second led to calculate and price the Skew distribution of volatility surface. Bid and Ask across multiple assets / multiple markets in real-time. Our EMM brings Liquidity / Price discovery to the markets.

The misbelief or Myth lot of people believes that machines are too fast and are meant for arbitrage. We believe there is no free lunch (No ARB). As asset size increases the returns of assets (VOL) has to be traded every second or else cost of capital eats the assets.

In Wall Street, major banks trade at a speed of less than 6 milliseconds to manage the huge asset books. Trading assets continuously leads to capturing the return in continuous compounding way (e^{rt}).

EMM brings the price equilibrium and provide liquidity. In USA, major EMM companies like (Getco/ Knight / Liquid Net etc..) make money by providing Bid / Ask spreads.

Assumptions Bid / Ask of 1 Cent with billion roundtrips makes 10 million USD every day.

Stampede is one of the few companies in India using 1 Trillion flops processing power, our platform handled more than USD 48 Billion FX transactions in Indian FX markets. We achieved execution speed of around 200 milliseconds in peak time of markets.

STAMPEDE CAPITAL LIMITED

We are connected to NSE, MCX-SX and USE. This year we will integrate our platform with SGX, DGCX, BSE, CURRNEX. Our Options Market Making platform is ready and we will be launching official market making for Index options on NSE. We are confident that we will handle 10% of the market volume by next year.

Financial Cloud Services

Large hedge funds to small funds today are looking for virtual cloud platform to manage risk, back testing as well as Live Market simulations, Real-time execution.

Current Stampede platform (VWAP / Slicing / Iceberging / Implementation Shortfall) is used by Institutions, FII's and Hedge Funds. We are working to integrate our platforms with Global institutions through virtual cloud.

We are exposed to numerous risks in the ordinary course of our business and activities; therefore, effective risk management is critical to our financial soundness and profitability. We have a comprehensive risk management structure and processes to monitor and evaluate the principal risks we assume in conducting our business.

STAMPEDE CAPITAL LIMITED

Our risk management policies, procedures and methodologies are subject to ongoing review and modification. The principal risks we face are as follows:

Market Risk

Our market making and trading activities expose our capital to significant risks. These risks include, but are not limited to, absolute and relative price movements, price volatility, interest rates, credit spreads, and changes in liquidity, over which we have virtually no control.

Securities price risks result from exposure to changes in prices and volatilities of individual equities, equity baskets and equity indices.

Interest rate risks result primarily from exposure and changes in the yield curve, the volatility of interest rates and credit spreads.

For working capital purposes, we invest in money market funds and government securities or maintain interest-bearing balances at banks and in our trading accounts with clearing brokers, which are classified as Cash and cash equivalents and Receivable from brokers, dealers and clearing organizations, respectively, on the Consolidated Statements of Financial Condition.

Operational Risk

Operational risk can arise from many factors ranging from routine processing errors to potentially costly incidents arising, for example, from major systems failures or human errors.

Primary responsibility for the management of operational risk lies with our operating segments and supporting functions. Our operating segments maintain controls designed to manage and mitigate operational risk for existing activities. As new products and business activities are developed, we endeavor to identify operational risks and design controls to seek to mitigate the identified risks.

Capital Risk

Government regulators SEBI have supervisory responsibility over our regulated activities and require us to maintain specified minimum levels of regulatory capital in our broking operations. If not properly monitored, our regulatory capital levels could fall below the required minimum amounts set by our regulators, which could expose us to various sanctions ranging from fines and censure to imposing partial or complete restrictions on our ability to conduct business.

To mitigate this risk, we continuously evaluate the levels of regulatory capital and adjust the amounts of regulatory capital as necessary to ensure compliance with regulatory capital requirements.

Legal Risk

Legal risk includes the risk of non-compliance with applicable legal and regulatory requirements and standards. Legal risk also includes contractual and commercial risk such as the risk that counterparty's performance obligations will be unenforceable. We have established procedures based on legal and regulatory requirements that are designed to foster compliance with applicable statutory and regulatory requirements. We have also established procedures that are designed to require that our policies relating to conduct, ethics and business practices are followed.

Internal Control Systems and their Adequacy

The Company has adequate internal control systems supplemented by internal audits by professional firms commensurate with its size and nature of business to ensure to safeguard and protect the interests and assets of the Company.

CEO/CFO Certificate

I, Venkat Srinivas Meenavalli, Chairman & Managing Director of Stampede Capital Limited certify that:

1. We have reviewed the financial statements for the year and that to the best of our knowledge and belief:
 - (a) these statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
 - (b) these statements present a true and fair view of the state of affairs of the Company and of the results of the operations and cash flows. The financial statements have been prepared in conformity, in all material respects, with the existing generally accepted accounting principles including accounting standards, applicable laws and regulations.
2. There are, to the best our knowledge and belief, no transactions entered into by the Company during the year which are fraudulent, illegal or violative of Company's code of conduct.
3. We accept overall responsibility for establishing and monitoring the Company's internal control system for financial reporting and evaluating its effectiveness. Internal Audit function monitors the internal control system for financial reporting, which encompasses the examination and evaluation of the adequacy and effectiveness. Internal Audit works with all levels of management and statutory Auditors, and reports significant issues to the Audit Committee of the Board. The Auditors and Audit Committee are apprised of any corrective action taken with regard to significant deficiencies and material weakness.
4. We indicate to the Auditors and to the Audit Committee:
 - (a) Significant changes in internal controls over financial reporting during the year;
 - (b) Significant changes in the accounting policies during the year;
 - (c) No instances of significant fraud of which we have become aware of and which involve the management or other employees who have significant role in the Company's internal control system over financial reporting.

However, during the year there were no such changes and instances.

Independent Auditors' Report to the Board of Directors of Stampede Capital Limited on the Consolidated Financial Statements of Stampede Capital Limited and its Subsidiaries

Report on the Financial Statements

We have audited the attached Consolidated Balance Sheet of **STAMPEDE CAPITAL LIMITED** ('the Company') (formerly Brilliant Securities Limited) and its subsidiaries, which comprise the Consolidated Balance Sheet as at March 31, 2013, Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year ended on that date and a summary of Significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ('the Act'). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

STAMPEDE CAPITAL LIMITED

Notes to Consolidated financial statements for the year ended 31 March 2013

(All amounts in Indian rupees, except share data and where otherwise stated)

Note 1: Significant Accounting Policies

Company Overview

Stampede Capital Limited (Parent), together with its subsidiaries (collectively, the Company or the group) Stampede Cloud Services Private Limited and Stampede Infra and Properties Private Limited (Formerly Stampede Properties Private Limited) is providing Equity and Currency Broking services, Financial Cloud Services and Infrastructure services globally.

a) Basis of preparation of Financial Statements

The financial statements have been prepared under historical cost convention on an accrual basis of accounting in accordance with generally accepted accounting principles in India, the Accounting Standards notified under section 211(3C) of the Companies Act, 1956 and in compliance with the listing agreement with Stock Exchanges in India.

b) Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities on the date of financial statements and reported amounts of revenues and expenses for the year. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

c) Current-non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- i. it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is expected to be realised within 12 months after the reporting date; or
- iv. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- i. it is expected to be settled in the company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is due to be settled within 12 months after the reporting date; or
- iv. the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

d) Fixed Assets and Depreciation

- i. Fixed assets are stated at their original cost less depreciation. Cost includes inward freight, duties, taxes, expenses incidental to acquisition and installation, excise duty and VAT wherever applicable.
- ii. Depreciation:
Depreciation on tangible assets is provided under Straight Line Method at the rates and in the manner specified in Schedule XIV of the Companies Act, 1956. Intangible assets are being amortised over a period of five years from the date of acquisition.

e) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments. Long Term Investments are carried at cost less diminution in value other than temporary determined separately for each individual investment. Current investments are carried at the lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investment.

f) Taxes on Income

- i. Tax expense comprises current year income tax and deferred income tax charges or credit for the year.
- ii. Current year income tax charge will be calculated based on assessable profits of the company determined in accordance with the provisions of Income Tax Act, 1961. It will

STAMPEDE CAPITAL LIMITED

also includes, income tax charge provided if any, for such disallowances made on completion of assessment proceedings pending appeals, as considered appropriate depending on the merits of each case.

- iii. Deferred income tax charge or credit pertaining to future tax consequences attributable to timing difference between the financial statement determination of income and their recognition for tax purposes will be recognised. The effect of a change in tax rates on deferred tax assets and liabilities is recognised in income using the tax rates and tax laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.
- iv. Minimum Alternate Tax (MAT) Credit entitlement:

MAT Credit entitlement represents amounts paid in a year under Section 115 JA of the Income Tax Act, 1961 (IT Act), in excess of the tax payable, computed on the basis of normal provisions of the IT Act.

Such excess amount can be carried forward for set off against future tax payments for five succeeding years in accordance with the relevant provisions of the IT Act. Since such credit represents a resource controlled by the Company as a result of past events and there is evidence as at the reporting date the Company will pay normal income tax during the specified period, when such credit would be adjusted, the same has been disclosed as "MAT Credit entitlement, under "Short Term Loans and Advances" in balance sheet with a corresponding credit to the profit and loss account, as a separate line item.

Such assets are reviewed as at each balance sheet date and written down to reflect the amount that will not be available as a credit to be set off in future, based on the applicable taxation law then in force.

g) Earnings Per Share

- i. The basic earnings per share is calculated considering the weighted average number of equity shares outstanding during the year.
- ii. The diluted earnings per share is calculated considering the effects of potential equity shares on net profits after tax for the year and weighted average number of equity shares outstanding during the year.

h) Revenue Recognition

- i. Revenue from broking activities is accounted on the trade date of transaction.
- ii. Gains / loss, on investments in options and futures, both equity stock and index, being the difference between the contracted rate and the rate on the settlement or sale date, whichever is earlier is recognized in the Profit and Loss Account on settlement / sale.
- iii. Revenue from services consist primarily of revenue earned from services performed on a 'time and material' basis. The related revenue is recognised as and when the services are rendered and when there is no significant uncertainty in realizing the same.
- iv. Revenue from construction activities recognized on the basis of percentage completion method according to the Accounting Standard 7 issued by the Institute of Chartered Accounts of India notified under section 211(3C) of the Companies Act, 1956.
- v. Interest Income is recognized on accrual basis. Dividend income is recognized when the right to receive payment is established

i) Leases

Leases of assets under which all risks and rewards of ownership are affectively retained by lesser are classified as operating leases. Lease payments under operating leases are recognised as an expense on a straight line basis over the period of lease.

j) Provisions, Contingent Liabilities and Contingent Assets

Provisions, involving substantial degree of estimation in measurement, are recognised when there is present obligation as a result of past events and if it is probable that there will be an outflow of resources. Contingent liabilities, which are possible or present obligations that may be probably will not require outflow of resources, are not recognised but are disclosed in the notes to the financial statements. Contingent Assets are neither recognised nor disclosed in financial statements.

k) Cash and Cash equivalents

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible into cash with original maturities of three months or less. Cash and cash equivalents consist principally of cash on deposits with banks.

STAMPEDE CAPITAL LIMITED

l) Cash flow statement

Cash flows are reported using the indirect method, whereby profit or loss before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

m) Impairment of Assets

The Company assesses at each balance sheet date whether there is any indication that any assets forming part of its cash generating units may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the reassessed recoverable amount subject to a maximum of depreciated historical cost.

n) Retirement benefits

Gratuity and long term compensated absence, which are defined benefits plan, are determined by independent actuary at the balance sheet date are charged to the statement of profit and loss. All actuarial gains and losses arising during the year are recognized in the statement of profit and loss.

Contributions payable to the recognized provident fund which is defined contribution schemes, is charged to the statement of profit and loss.

Note 22 Employee Stock Option Plan

The Company has instituted the following employee stock option plan for all eligible employees, in pursuance to the respective special resolution approved by the shareholders. All the plan options shall be administered by the compensation committee, which shall determine the employees eligible for receiving options, the number of options to be granted, the exercise price, the vesting period and the exercise period. The vesting period is determined for the options issued on the date of the grant.

Plan	Shareholder's special resolution date	No. of Options Granted	Vesting Period	Vesting Pattern
2011 ESOP Plan	29th September, 2011	1,492,400	4 Years	25% at the end of first year 25% at the end of second year 25% at the end of third year 25% at the end of fourth year

The exercise price of the options granted under the ESOP Plan is defined as the closing market price of the underlying equity share, preceding the date of grant of options on the stock exchange having the highest trading volume of such shares.

In the case of termination of the employment, all non-vested options would stand cancelled. Options that have vested but have not been exercised can be exercised within the time prescribed under each option agreement approved by the compensation committee, which shall not be beyond the initial exercise period, failing which they would stand cancelled.
