Industry Structure and Development

The Indian economy retained its tag of the fastest growing major economy in the world in 2018-19. However, overall growth for 2018-19 slumped to a five-year low of 6.8% compared with 7% projected in the second advance estimates released in February. A few factors that have helped India in maintaining its status quo as the fastest growing nation are:

Policy reforms: Reforms such as increased FDI limits, Goods and Services Tax (GST), etc led to creation of jobs and bringing more businesses into the organized sector. It also improved the ease of doing business, thus benefitting the economy in a major way.

Improvement in infrastructure: Recognised as a key driver for the economy of any nation, the infrastructure sector has enjoyed a lot of focus from the government. Measures such as construction of smart cities, industrial corridors, new railway lines, improving sea connectivity to stimulate trade and building roads to improve rural connectivity have all contributed to the nation's economic growth.

Development campaigns: The government has been campaigning actively for showcasing the nation as a sensible investment destination and improve trade cooperation. Government campaigns such as 'Make in India' and 'Start-up India' have been helping India to position itself as a manufacturing hub and promoting entrepreneurship.

Indian Financial Services Industry

India has a diversified financial sector undergoing rapid expansion with many new entities entering

the market along with the existing financial services firms. The sector comprises commercial banks, insurance companies, NBFCs, Housing Finance Companies, Co-operatives, Pension Funds, Mutual Funds and other smaller financial entities. Another vital element of the nation's financial sector is the rapidly growing insurance industry. The Reserve Bank of India (RBI) recently allowed new entities such as payment banks and small finance banks to commence operations, focusing on specific segments of transactional banking and small-ticket lending, respectively.

In recent times, we have seen tremendous expansion in digital channels owing to evolving needs of customers, greater accessibility of internet services and a marked change in regulatory environment. This has led to proliferation of Fintech Companies.

Some recent developments that have happened in this sector are:

- Launch of India Post Payments Bank (IPPB) for better rural penetration of banks.
- Under the Union Budget 2018-19, there has been an allocation of Rs. 3 trillion (USD 46.3 billion) towards the Mudra (Micro-Units Development & Refinance Agency Ltd.) Scheme.
- The Securities and Exchange Board of India (SEBI) has limited the Total Expense Ratio (TER) charged by mutual fund houses having equity assets up to Rs. 500 billion (USD 7.1 billion) to 1.05%.
- NBFCs are gaining eminence in retail finance by financing more than 80% of the equipment leasing and hire purchase activities in India.
- The government's focus on the infrastructure sector is providing an impetus to NBFCs engaged in the infrastructure financing space.

Performance of NBFC Industry

The NBFC sector is expected to remain at the forefront and drive new credit disbursements for India's underserved retail and MSME space. In the last five years the lending book of NBFCs has grown nearly by 18% due to a deep understanding of target consumer segments, technological advancements, lean cost structures and differential business model to reach credit-starved customer segments.

The year 2018 was a year of crisis for some of the NBFCs. To occupy the space vacated by Public Sector Banks (PSBs), certain NBFCs went into a frenzy of credit expansions without considering the asset-liability scenario. This resulted in huge defaults on the part of such companies and intensified fears that the funding cost for NBFCs will zoom and result in a sharp deterioration of their margins.

However, the government took several quick measures not letting this crisis turn into a contagion and spilling over to other sectors. These measures included altering operating mechanism and making relevant changes in the risk management framework. Though the outlook for NBFCs for 2019 seems weak, a gradual improvement in the liquidity situation indicates that there could be a stabilisation in the coming days.

Opportunities

Reports from the World bank indicate that Non-Banking financial Institution act as critical pillars contributing to macroeconomic stability and sustained economic growth and prosperity, due to their ability to finance firms and individuals at a reasonable cost, reduce volatility by providing multiple

sources to finance and park funds and enable creation of a competitive environment characterized by a diverse array of products. This has been proven time and again in developed markets.

Non – Banking Finance Companies (NBFC) continue to play a critical role in making financial services accessible to a wider set of India's population and are emerging as strong intermediaries in the retail finance space. Going forward, one should expect NBFC to further strengthen their presence in retail finance and grow at a reasonably healthy pace.

Future Outlook

India is a rapidly transforming society. The country's demographic advantage and enhanced investments in infrastructure, manufacturing, education and socio-economic wellbeing are expected to create new opportunities for growth. India's sub-urban and rural population are creating room for further growth as their quality of life is improving at a rapid pace. The Government's reforms will further strengthen investor confidence in the country's potential and unleash a free flow of entrepreneurial energy. At the same time, India's consumer spending is rising consistently. It is expected to double in another decade or so. It is also expected that India will become the world's third largest consumer market in next 7 to 10 years, leading to major growth in all contributing sectors.

G. K. Consultants Limited as a NBFC has invested in the various corporates/companies and will continue to take relevant strategies to grow. G. K. Consultants Limited as a NBFC intends to continue its investment in the various corporate and its business in the Service Sector. Your company is planning to explore the benefits of Stock Markets to the maximum possible extent in the year 2018-19.

In the software segment the major risk which the company is exposed is that it is very fast evolving and developing sector, with which one needs to keep pace with otherwise survival would be difficult due to the existing stiff competition.

Stock Markets have always been very volatile and are influenced by a number of factors such as change in government, civil disturbances, government policies, foreign treaties and relations, etc.

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and informing our opinion thereon, and we do not provide a separate opinion on these matters.

**Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of G.K. CONSULTANTS LIMITED****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of G.K. CONSULTANTS LIMITED (“the Company”) as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the “internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of internal Financial control over Financial Reporting issue by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedure that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
