OVERALL REVIEW OF COMPANY

OPPORTUNITIES, THREAT, RISKS AND CONCERNS

The Indian pharmaceutical industry is growing consistently and is expected to do so also in future. Quality of products will improve, as is evident from the recent publication of the new Indian Pharmacopeias and the activities of the Drugs Controller of India against “irrational combinations” and “counterfeits”. We wish that these initiatives, which will lead to a safer healthcare environment for patients, will be followed up in a transparent and rational way.

For the pharmaceutical industry in India the National Pharmaceuticals Policy still represents a major threat. We regard price monitoring as a better option, balancing affordability and investments into continuous improvements of product quality. Another major concern relates to the recent developments in the post product-patent regime. Unfortunately, for India the patent regime needs to be challenged looking at the limited amounts of patents granted and patents being opposed.

FUTURE OUTLOOK:

As a Pharmaceutical Industry in India the Company wishes to diversify Business Corporation to achieve leadership by exceeding customer expectation in domestic as well as overseas markets. Further to attain financial strength through ever growing profitability to attain excellence while achieving "Supreme customer satisfaction" to attain the global recognition for the corporation and to focus on customer's need and fulfill their expectations. Further the Company will provide services and products of the most superior quality and seek consistent improvement innovation and excellence in our performance. To create working environments this helps committed people to achieve their fullest potential. Provide them ample opportunity to grow.

SEGMENT WISE PERFORMANCE

The Company is operating only in one sector i.e. trading of pharmaceutical drugs and therefore the segment reporting and performance standard is not applicable to the Company.
