GOVERNMENT INITIATIVES

The Telecom Regulatory Authority of India (TRAI) is set to approach the Ministry of Information and Broadcasting, Government of India, with a request to Fastrack the recommendations on broadcasting, in an attempt to boost reforms in the broadcasting sector. The Government of India has agreed to set up National Centre of Excellence for Animation, Gaming, Visual Effects and Comics industry in Mumbai. The Indian and Canadian Government have signed an audio-visual co-production deal to enable producers from both the countries exchange and explore their culture and creativity, respectively.

As part of the expansion to include all digital platforms and digital (OTT) players under a single roof, in May 2021, the Indian Broadcasting Foundation (IBF) announced the move to be renamed as the Indian Broadcasting and Digital Foundation (IBDF).

As per the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021, IBDF would also form a self-regulatory body (SRB) soon.

Digital audio–visual content including films and web shows on over-the-top (OTT) streaming platforms, as well as news and current affairs on online platforms, have been brought under the Ministry of Information and Broadcasting in November 2020.

ROAD AHEAD

Indian M&E industry is on an impressive growth path. The industry is expected to grow at a much faster rate than the global average rate.

Growth is expected in retail advertisement on the back of several players entering the food and beverages segment, E-commerce gaining more popularity in the country, and domestic companies testing out the waters. Rural region is also a potentially profitable target.

INDIA ENTERTAINMENT & MEDIA (E&M) INDUSTRY OUTLOOK 2017-2025

India is among the top five markets for the media, content, and technology. The Telecom Regulatory Authority of India (TRAI) is set to advance towards the Ministry of Information and Broadcasting, Government of India, with a petition to spur the recommendations on broadcasting to uplifts reforms in the broadcasting sector. According to Department of Industrial Policy and Promotion (DIPP), the Foreign Direct Investment (FDI) inflows in the Information and Broadcasting (I&B) sector (including Print Media) in the period April 2000 – September accounted for USD 6.86 billion. Indian Media & Entertainment sector has grown at the rate of 13% in the last year and accounted for USD 23.04 billion in 2017 and tends to reach USD 30.72 billion by 2020. With rapid advancements in technology, for instance, broadband access and internet protocol convergence will play a very crucial role in the burgeoning of the Indian entertainment and media industry. However, piracy, lack of uniform media policy for foreign investment, content regulation, price regulation, cross-media ownership rules and lack of empowered regulators are hampering the progress of India entertainment and media industry. Neonatal players in expanding media marketplaces tend to have a notable advantage over mature entrants due to network effects, whereby the value of the marketplace increases as the number of participants increase.

MEDIA AND ENTERTAINMENT INDUSTRY POST COVID-19

The COVID-19 pandemic is changing the way we consume media and entertainment (M&E). With people confined to their homes, our social lives have moved online and entertainment consumption has risen notably within the at-home segments of television, online gaming and over-the-top (OTT). On the other hand, movie theatres, theme parks, museums, and other external consumption models are suffering, as physical distancing norms and lockdowns are enforced.

The pandemic has triggered layoffs in certain M&E segments such as print and television media as advertisers scale back spending. As monetisation, particularly ad-spend, comes under pressure, cash management and profit protection with greater technology integration are likely to gain strategic significance for M&E companies. While the long-term implications are yet to emerge, the following M&E themes will likely come into focus as the post-coronavirus reality becomes clearer:

BEHAVIOURAL CHANGES AND HABIT FORMATION POST COVID-19

Consumer behaviour is rapidly evolving as the world adjusts to a new normal, where social distancing, work from home and virtual meetings are the norm. Demand for at-home digital media is expected to grow significantly, as habit-formation and ease of access emerge as drivers. OTT platforms and digital media have already been attracting new consumers and expanding to new locations and demographics. The virus outbreak will magnify the already apparent shift from laptop/digital devices viewing to large screen TVs—providing a significant fillip to broadband internet/ fiber-to-the-home (FTTH) companies.

Even once the crisis passes, the psychological overhang from the virus might mean it would take some time for consumers to embrace external consumptions models again, especially in areas that have been the worst affected by this crisis. Here, the recovery in consumption of outdoor M&E could lag other areas of India that could have been relatively less impacted. This could pave the way for innovation and outreach solutions wherein consumers turn to virtual live events and new delivery models to connect. Technological advancements could play a pivotal role in bringing outdoor entertainment and outreach directly to the consumer in such erstwhile virus hotspots.

SWOT ANALYSIS OF MEDIA AND ENTERTAINMENT INDUSTRY/INDIAN FILM INDUSTRY

Strengths:

Media and Entertainment is one of the most booming sectors in India due to its vast customer reach. The India media and entertainment industry is expected to reach nearly Rs 3.07 lakh crores (US\$ 43.93 billion) by 2024 and is set to expand at a GAGR of 13.5 per cent during 2019-24. High penetration and a rapid growing young population coupled with increased usage of 3G, 4G and portable devices would augment demand. Television and film industry segment are expected to lead industry growth and offer immense growth opportunities in digital technologies as well. The Government of India has increased the FDI limit from 74 per cent to 100 per cent. The growing middle class with higher disposable income has become the strength of the Media and Entertainment industry. Change in the lifestyle and spending patterns of the Indian masses on entertainment. Indian film industry produces more than 1000 films per year and has more than fourteen million viewers who visit theatres daily to watch Bollywood movies all over the world. The volume of Indian film industry movies released worldwide has become twice the number of Hollywood movies. The low cost of production and high revenues ensure a good return on investment for Indian Media and Entertainment industry.

Weaknesses–

The Media and Entertainment sector in India is highly fragmented. Even though the growth of the traditional media is increasing, changes in preferences, due to urbanization, may be a factor that would hamper the growth in a long run. These include consuming ‘television on the go.’ Radio listeners will continue to have more choices to consume content – music, news, entertainment etc. by tuning into web radios, podcasts, audio-on-demand, etc. It is also important to note that high-end smartphones have done away with FM tuners altogether. OTT faces challenges around fragmentation. The majority of Indian audiences are still stuck to the free or ad-supported model as of now. OTT heavily relies on broadband connectivity which is yet at a development stage in the country. The Media and Entertainment sector need more investment in new technologies.

Opportunities–

The Indian Media and Entertainment industry is on an impressive growth path. The industry is expected to grow at a much faster rate than the global average rate. Opening up of new markets because of government agreement – the adoption of new technology standard and government free trade agreement has provided Entertainment Industry an opportunity to enter a new emerging market. The new opportunities will create a level playing field for all the players in the industry. Over the past few years the company has invested vast sum of money into the online platform. In the next few years the company can leverage this opportunity by knowing its customer better and serving their needs using big data analytics. The new technology provides an opportunity to practice differentiated pricing strategy in the new market. It will enable the firm to maintain its loyal customers with great service and lure new customers through other value oriented propositions.

Threats–

Changing consumer buying behavior from online channel could be a threat to the existing physical infrastructure driven supply chain model. The main threat for the Media And Entertainment industry now-a-days is PIRACY. Online piracy has also come into action and every illegal download cost to the film industry is huge. New technologies developed by the competitor or market disruptor could be a serious threat to the industry in medium to long term future. Stable profitability has increased the number of players in the industry over last two years which has put downward pressure on not only profitability but also on overall sales.

1. Fixed pay

The remuneration and reward structure for employees comprises two broad components - annual remuneration and long-term rewards. The Committee would determine the remuneration of the Directors and formulate guidelines for remuneration payable to the employees.

These guidelines are as under:

a) Annual remuneration

Annual remuneration refers to the annual compensation payable to the employees of the Company. This comprises two parts - a fixed component, and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the business unit. Employee is required to determine his/her key result areas for that particular defined role. The performance-linked variable pay will be directly linked to the performance on individual components of the performance and the overall performance of the business. The objective is to set the total remuneration at levels to attract, motivate, and retain high-caliber, and high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group globally, established through independent compensation surveys, from time to time.

b) Long-term rewards

Long-term rewards may be granted to eligible key employees based on their contribution to the performance of the Company, relative position in the organization, and length of service under the supervision and approval of the Committee.

The grant, vesting and other scheme details would be formulated from time to time.

These long-term reward schemes are implemented to attract and retain key talent in the industry.

2. Minimum remuneration to Managing Director/ Chief Executive officer

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Managing Director in accordance with the provisions of Schedule V of the Companies Act, 2013 and if it is not able to comply with such provisions, with the previous approval of the Central Government.

The remuneration payable to each Non-Executive Director is based on the remuneration structure as determined by the Board, and is revised from time to time, depending on individual contribution, the Company's performance, and the provisions of the Companies Act, 2013 and the rules made there under.

No provision has been made for interest / penalties payable on the defaulted amounts.

4. Company has not provided expected credit loss on outstanding Trade Receivable as required under Ind AS -109.

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Auditor’s Response.

We obtained from the Company’s management, details of the status as of 31 March 2021 concerning tax assessments and demands for current as well as past years. We assessed the management’s underlying assumptions in estimating the tax provision and the possible outcome of the disputes to evaluate whether any change was required to management’s position on these uncertainties.

Information Other than the Standalone Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Business Responsibility Report, Corporate Governance and Shareholder’s Information, but does not include the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2015.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Interworld Digital Limited Annexure – B

(Referred to in paragraph 1(f) under "Report on Other Legal and Regulatory Requirements" section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of INTERWORLD DIGITAL LIMITED ("the Company") as of March 31, 2021 in conjunction with our audit of the IND AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company ; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company ; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Non-Monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transactions.

v) Revenue recognition:

Revenue is recognized to the extent that it is possible that the economic benefits will flow to the company and the revenue can be reliably measured.

vi) Leases

As a Lessee:

Leases of property, plant and equipment where the company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement. Arrangements containing a lease have been evaluated as on the date of transition i.e. April 1, 2016 in accordance with Ind-AS 101 First-time Adoption of Indian Accounting Standards.

As a Lessor:

Leases in which the company does not transfer substantially all the risk and benefits of ownership of the assets are classified as operating leases. Assets subject to operating lease are included in Property, Plant & Equipment. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation are recognized immediately in the statement of profit & loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

vii) Provisions and contingencies

(a) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation is available for measuring the amount of provision. Provisions are reviewed at each reporting period and are adjusted to reflect the current best estimate.

(b) Contingencies

A disclosure for contingent liability is made when there is possible obligation arising from past event the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

A disclosure for contingent assets is also made when there is possibility of an inflow of economic benefits to the entity which arise from unplanned or other unexpected events.

Contingent liabilities and contingent assets are reviewed at each balance sheet date.

viii) Earnings per share:

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

ix) Income Taxes:

Income tax expenses is recognized in net profit in statement of Profit and loss extent to the extent that it relates to items recognized directly in other comprehensive income/equity, in which case it is recognized in other comprehensive income/equity.

Current Tax is the amount of tax payable on the estimated taxable income for the current year as per the provisions of Income Tax Act, 1961. Current tax asset and liabilities are offset when company has a legally enforceable right to set off the recognized amount and also intends to settle on net basis.

Deferred income tax assets and liabilities are recognized for deductible and taxable temporary difference arises between the tax bases of assets and liabilities and their carrying amount in the financial statement

Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that sufficient taxable profit will be available against which those deductible temporary differences can be utilized. Deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax is measured at the tax rates and tax law that that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the year in which those temporary difference is expected to be recovered or settled.

x) Financial instruments:

Financial Instrument sated as financial assets or financial liabilities are generally not offset, and they are only offset when a legal right to set off exist at that and settlement on a net basis is intended.

For all other equity instrument, the company make irrevocable election to present in other comprehensive income subsequent change in fair value. The company makes such election on an instrument- to- instrument basis.

(c) Financial asset carried at Fair Value through Profit and loss

A financial asset which is not classified in any of the above category is subsequently measured at fair value through profit and loss.

Financial liabilities and equity instruments:

Debts and equity instrument issued by a company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement and the definition of a financial liability and an equity instruments.

a) Equity Instruments

An equity instrument is any contract that an evidence and residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the company are recognized at the proceeds received, net of direct issue costs.

b) Financial Liabilities

All Financial liabilities are subsequently measured at amortised cost using the Effective interest method.

De-recognition of financial Instrument: -

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

(xi) Impairment

A) Financial Asset

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

B). Non-Financial Asset

(a) Property, plant and equipment and Intangible asset

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amount is estimated as higher of its net selling price and value in use. An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognized in the statement of profit and loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortization, had no impairment loss been recognized.

Post Impairment, depreciation/amortisation is provided on the revised carrying value of the impaired assets over its remaining useful life.

(b) Critical accounting estimates, assumptions and judgements

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgements, which have significant effect on the amounts recognized in the financial statement. Uncertainty about these assumptions and estimates could result in outcome that require a material adjustment to assets or liabilities affected in future periods.

j) Property, plant and equipment

Property, Plant and equipment represent at proportion of the asset base of the company. The useful lives and residual value of the company's asset are determined by the management at the time the asset is acquired and reviewed at each reporting date.

ii) Income taxes

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions

iii) Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

iv) Allowance for uncollected accounts receivable and advances

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables and advances are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

v) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the assets's recoverable amount. An assets's recoverable amount is the higher of an assets's or CGU's fair value less costs of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

vi) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

vii) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.
