Company Approach to the Business

The hospitality industry largely depend on the shape and structure of domestic and international economies. Continuing form the trend of last year the European market along with major Asian giants such as Japan and China are under continuous pressure resulting in slow down on spending. As a result, both international and domestic business segments for the luxury hotels remained muted. In the backdrop of these challenging circumstances, the Hotels business registered a drop in Net profit.

However, with the formation of Industry Friendly and single party majority government at the centre, the economy is all set to start rolling back to normalcy, which should be the good news for Hospitality Industry.

Quality Management

Noor-Us-Sabah Palace, A WelcomHeritage Legend Hotel is the flagship property of WelcomHeritage Group of Hotels, and strict quality parameters have been laid and practiced to adhere to the Brand values, which results in quality service to customers and higher satisfaction level.

Upgradation of Food and Beverage (F&B) Outlets, which has been started should be completed by the end of this financial year. Alongside the work of Upgradation of Standard rooms has been approved, which is continuing and should be completed soon. The various initiatives listed include, standardization of recipes, and focus on best quality food at a reasonable pricing. Banqueting has been a major foray for Noor-Us-Sabah palace and has been a preferred destination for all high end weddings and conference happening in the town.

Procedures (SOP's) are being followed at all operational levels for implementation & for strict adherence which would be constantly reviewed to adapt to the changing service trends of hotel industry.

Due to week demand and excess supply of rooms, during the period under report, the gross turnover of the company witnessed a slight decline of around 2.43 per cent to Rs resulting into a fall in the pre-tax profit by around 4.74 per cent compared to the preceding operating period. As a incident to this, while the cash and bank balance of the Company improved slightly to Rs. 240.61 lacs from Rs. 212.24 lacs, the debtors rose by around 1 per cent over the previous year to Rs. 94.63 lacs from Rs. 86.92 lacs

Due to the above factors, while the company found it expedient to abandon for the time being its plan of making investment of Rs. 105 lacs on bakery stores, the plan of investment of Rs. 200.00 for addition of room inventory is placed in abeyance. It is expected that with the anticipated boost in the general business scenario, the company would be able to execute its room extension plan during the coming years.

Internal Control Systems :

All necessary controls, financial checks and otherwise as per statutory requirements as also towards making the company a highly profitable venture are in place. Internal controls as regards operations aimed at ensuring that the expenditure is in line with industry norms one in place.. Proper accounting procedures are being strictly adhered to. Total transparency in all transactions is maintained and all statutory licensing and dues to the State and central Government have been updated & are made on time. Reduction in cost will be a major focus area for next FY which will further aid in increasing profit margins and end up in a Healthy Operating Ratio.

To strengthen the internal control system, the company has recently deployed a full-time Chartered Accountant as its Internal Auditor. This deployment would go a long way in effecting cost economy in the operation of the Company

Opportunities

With the formation of New Industry Friendly and single party majority Government at the center, economic projections tend to indicate towards a Boom for the Hospitality Industry during the coming years. The Corporate and Conference segment along with foreign tourist segment is expected to show a decent growth.

The IT Park Bhopal, once commissioned is expected to give a boost to the Hotel business as a whole. The Bhopal Airport is now an International Airport, resulting in increase in number of domestic flights. However, positive impact on the business of the company would be tangible as soon as international flights are routed through the Airport.

The Industrial Summit recently organized by the State Government in the City of Indore is likely to increase the business potential of the hotels situated in the State. Besides, the stress laid by the Central Govt on 'Make in India' would certainly help developing Bhopal as a Production Hub for IT Industry, as it will follow increased business tour to the city over the period of time.

Threats :

Emergence of further competition with the opening of 100 room inventory, coupled with recession in the economy has brought up some more pressure on the Hotel occupancy. Due to this, business scenario, the new entrants are likely to make a dent in the market share of the Company in general and the Food business of the Company in particular.

Besides, hiring and retaining of skilled and experienced hands which has been always a challenge is likely to multiply in coming years. The phenomenal increase in the fuel prices tend to encourage the corporate clients focusing on reducing travel and boarding /lodging expenses to the further detriment to the revenue generating capacity of the company. Besides, in an

effort to cut cost, some of the corporate clients have even taken a step further and bought/hired/running guesthouses for their travelling executives & their offices in the city generally have a conference room attached to take care of routine and other weekly /monthly conferencing.

Risk and Concerns :

With opening of potential competition in the City of Bhopal with strong Banquet players, the Food sales shall definitely be under pressure, since the rates and margin both shall face stiff resistance. The company is however hopeful, that the changing domestic scenario shall bring in more business to the city as a whole. There is definitely a concern about the state Government not doing enough on infrastructure development so as to ease inflow of tourists and corporate.

Human Resources Development :

Looking into the current situation where the margins are under strict pressure, The Hotel Management on its part has initiated a major rationalization in spending, a part of which is manpower management. An external audit has been conducted by the ITC HR team to look into the manpower requirement in each area of work. The report is being implemented and the staff no more required are being scrutinized and the staffing shall be brought to a standardized level. Alongside, continuous up-gradation of skills and service delivery systems /inputs go a long way to make a decisive difference in the hotel industry, as a matter of policy, continues to invest in up-gradation of the quality of its human resources and lays emphasis on efforts to tune up skills of and service delivery by its existing manpower and keep them sponsoring for external training and skill development programmes at selected ITC hotels.

Industrial relations scenario in the company throughout the year remained cordial. The employees remained committed to higher qualitative productivity. The management too on its part played its role in maintaining and promoting harmonious relations

Reason for Low Profitability and Measures to Increase Profits

Major reason for low profitability is the overall pressure on Hospitality Industry due to low turnout of foreign tourists and restriction on part of corporate over spending.

Being the election year also reduced the government spending on conferences and seminars. With the economy slowing down considerably has had a major effect on the profitability of the Hotel.

However, with the formation of populist government, the economy is expected to show a major uptrend in the coming years. Also, VISA on arrival policy is set to majorly boost the tourism resulting in increase in inflow of foreigners.

On the operations side, Hotel has initiated several steps to cut down on expenditure and increase the profitability, few of which are listed below;

1. Rationalizing staffing across all departments, cutting on staff were required and multitasking.
2. Streamlining Purchase agreements with the vendors
3. Strict control on the food cost
4. Higher market penetration, with emphasis on key source markets.
